The King Core Curriculum is the academic foundation for the King experience. It gives students the skills, ideas, and knowledge they need to pursue their major and minor programs with confidence and good judgment. The Core, expressing King’s values through exploration of the Arts and Sciences and a cross-cultural experience, helps students understand their responsibilities to learn and to serve their fellow human beings throughout their lives.

The Core’s global emphasis and the fact that senior faculty teach most courses translate to advantages for King students on the job market and in graduate school admissions processes. The required 42 hours of general education represent one-third of the hours necessary for graduation and frame all academic work with a balanced Christian perspective.

Core Competencies

The Core Curriculum is structured around five competencies. Students must master these skills and ways of thinking before graduation from King and demonstrate their competence through specific measures detailed in the Core Curriculum assessment plan.

1. **Citizenship**: Students must demonstrate that they understand how individuals relate to institutions: governmental, ecclesiastical, commercial, educational, and charitable.
   1.1 Students will articulate what it means to be a U.S. citizen in today’s world.
   1.2 Students will articulate what it means to be a global citizen in today’s world.
   1.3 Students will consider the ethical implications of decisions that impact their lives as well as the lives of others.
   1.4 Students will recognize the importance of service and identify an area where they can apply their individual skills and interests to assist others.

2. **Intellectual and Practical Skills**: Students must master fundamentals for success in the classroom and beyond.
   2.1 Students will be able to communicate effectively in writing.
   2.2 Students will be able to communicate effectively in speaking and demonstrate effective listening.
   2.3 Students will be able to communicate effectively with numbers.
   2.4 Students will demonstrate the ability to collaborate with peers to accomplish tasks.
2.5 Students will demonstrate information literacy.
2.6 Students will employ skills of analysis when presented with a problem.
2.7 Students will demonstrate competency in the use and application of technology.
2.8 Students will gain awareness of health and wellness issues based on current scientific understanding.

3. **Human Culture**: Students must develop an understanding of culture through the study of religion, language, values, and social/ economic/ political systems. Such understanding can lead to transformative actions.
   3.1 Students will understand the Christian tradition.
   3.2 Students will assess cultural practices in the contexts of place, time, and worldview.
   3.3 Students will demonstrate proficiency in a second language.
   3.4 Students will examine ways in which identity, including their own, is shaped by culture.
   3.5 Students will describe the basic teachings and practices of other world religions.

   4.1 Students will analyze and interpret aesthetic texts as expressions defined by their genres and historical contexts.
   4.2 Students will apply appropriate critical and evaluative techniques to aesthetic texts.

5. **Natural and Physical World**: Students must demonstrate an understanding of the procedures, success, and limitations of modern science.
   5.1 Students will apply the scientific method to address problems.
   5.2 Students will differentiate data-based conclusions from opinion and from other ways of knowing.
   5.3 Students will articulate and evaluate the impact of current and emerging science and technologies on social and ethical issues.

The Core Curriculum is composed of two parts: a **Common Experience** and a **General Education Experience**. The Common Experience is intended to be a bridge from the Core Curriculum to students’ academic coursework, majors, and, eventually, to their lives of vocation and service. The General Education Experience of the Core Curriculum includes nine categories, each of which must address at least two of the competencies listed above.

Core Curriculum Course Options
The following list of courses is not in sequential order; some programs of study suggest particular courses from the menu listed for a particular category. Students should consult their academic advisors as they schedule their classes.

Common Experience
All students must take the following three courses and meet the Cross-Cultural Experience requirement while enrolled at King. Courses from other institutions will not satisfy these Common Experience requirements.

KING 1000/2000
   First/Transfer Year Seminar ................................................ 1 s.h.

These two courses (student takes one or the other) assist students in their introduction to the academic, spiritual, and social community of King. The courses equip them with skills and strategies for success in the areas of intellectual development, social growth, and vocation.
ENG C 3010  
English Composition: Research & Writing......................2 s.h.

This course reinforces the conventions of ethical and excellent citizenship in the academic community: appropriate research methodologies, presentation formats both written and oral, and documentation. Students will study and practice writing and research within their major disciplines. The course is a bridge to the student’s major and career preparation. Students will join their disciplinary discourse communities through reading, research, conversation, and writing. Students who select the online format of this course should have a cumulative GPA of 2.0, not be on academic sanction, and should not have previously failed ENGC 3010.

KING 3000  
Cross-Cultural Experience .................................0 s.h.

The cross-cultural experience allows students to confront their own presuppositions about what culture is and what culture means. The experience also helps students broaden their awareness and appreciation of diverse cultures. It seeks to prepare them to operate more thoughtfully in a world that is increasingly interconnected. As students encounter other cultures, they may realize ways to interact creatively to meet needs they see and will also realize that new situations transform them.

Students can choose from an array of options to meet this requirement. Possibilities include, but are not limited to: King sponsored mission trips, study abroad, community service to disadvantaged children and adults, or mentoring a King international student. A list of scheduled opportunities will be available to students each semester.

KING 4000  
Christian Faith & Social Responsibility.........................1 s.h.

This course serves as the capstone of a student’s time at King and should be taken during the senior year. It seeks to tie together the experiences of students throughout the disciplines and provide them with a common forum to explore issues related to a variety of topics. It challenges them to think critically about ways to integrate faith, learning, and action as they leave campus and enter either graduate school or the working world.
