

KING UNIVERSITY SCHOOL OF NURSING

Traditional BSN Plan of Study

The BSN degree program is an intense upper-division program. This requires that students complete the Nursing Program Core Requirements and Nursing Prerequisites before beginning nursing major courses. Students who have completed all core requirements, prerequisites and have earned a minimum of 3.0 cumulative GPA will generally be considered eligible to begin the nursing program. In certain cases, a student may be permitted to begin nursing major courses if lacking up to a maximum of 8 outstanding credits from the Nursing Program Core Requirements. The outstanding credits must be completed prior to the start of the third clinical semester (senior year).

SEMESTER	COURSE #	HOURS	COURSE TITLE

	TOTAL	126	

Students who have previously earned a degree at another college or university will generally be considered as having met most of the of King Core Curriculum requirements. However, all traditional King students must complete the Common Core Experience Courses outlined in the Academic Catalogue.

Transfer students, refer to the Academic Catalogue policy, *Applying as a Transfer Student Traditional* for additional information.

All students, refer to the Academic Catalogue policy, *Core Curriculum* for specific Core requirements and Core Course options.
