

2023 ACADEMIC 2024 CATALOG

TITLE PAGE

King University offers programs that lead to the following degrees: Associate of Arts, Bachelor of Arts, Bachelor of Business Administration, Bachelor of Science, Bachelor of Science in Nursing, Bachelor of Social Work, Master of Business Administration, Master of Education, Master of Healthcare Administration, Master of Science in Nursing, Master of Social Work, and Doctor of Nursing Practice.

King University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate, baccalaureate, masters, and doctorate degrees. Degree-granting institutions also may offer credentials such as certificates and diplomas at approved degree levels. Questions about the accreditation of King University may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website (www.sacscoc.org).

King University is certified to operate in Virginia by the State Council of Higher Education for Virginia. King's primary location in Virginia is Southwest Virginia Community College, 724 Community College Road, Cedar Bluff, Virginia 24609. Each course or degree or certificate program offered by King University in Virginia is approved by King or its Board of Trustees (when applicable).

The teacher education programs are approved by the Tennessee State Board of Education. The School of Nursing programs are fully approved by the Tennessee Board of Nursing, and are members of the American Association of Colleges of Nursing. The Baccalaureate degree program in Nursing, Master's degree program in Nursing, and the Doctor of Nursing Practice program at King University are accredited by the Commission on Collegiate Nursing Education, (http://www.ccneaccreditation). The Bachelor of Social Work program is accredited through the Council on Social Work Education (CSWE). The Master of Social Work program is in candidacy with the Council on Social Work Education (CSWE). The athletic program is a member of the National Collegiate Athletic Association (NCAA) Division II and Conference Carolinas.

King is a member of the Tennessee College Association, the Tennessee Independent Colleges and Universities Association, the Tennessee Fund for Independent Colleges, the Tennessee Association of Colleges for Teacher Education, the Tennessee Association of Independent Liberal Arts Colleges for Teacher Education, the Appalachian College Association, the Holston Associated Libraries, the Council for Independent Colleges, the National Association of Independent Colleges and Universities, the Association of Presbyterian Colleges and Universities, the Council for Christian Colleges and Universities, the Association of American Colleges and Universities, the National Association of Christian Social Workers (NACSW), and the National Association of Social Workers (NASW).

King University does not discriminate on the basis of race, color, national origin, sex, disability, or age in its programs and activities. The following person has been designated to handle inquiries regarding King's non-discrimination policies: James P. Donahue, Vice President for Administration and Finance and Title IX Coordinator, 1350 King College Road, King Building, Bristol, Tennessee 37620, phone 423-968-1187.

The institutional policies and academic regulations described in the King University Catalog represent the most current information available at the time of publication or the academic year indicated on the cover. The institution may elect, however, to make changes in the curriculum regulations or other aspects of this program. Thus, the provisions of this catalog are not to be regarded as an irrevocable contract between the institution and the student.

The Mission and Vision of King University

MISSION

We prepare students in our Christian academic community to excel as thoughtful, resourceful, and responsible citizens with a passion for serving God, the Church, and the world.

We accomplish this through excellent teaching, high expectations, worthwhile example, and fidelity to our Presbyterian heritage. Our mission is the same for all campuses, sites, and online, and for all programs, curricular and extracurricular, graduate and undergraduate.

VISION

We aim to be the preeminent small to medium-sized Christian university in the Upper South, with a reputation earned there and beyond as a school serious about its Christian commitment, focused on student success, dedicated to academic excellence, and successful in producing graduates who excel wherever they live, work, and serve.

Identity

King is a Christian university in the Presbyterian and Reformed traditions with the core belief that because God is the Creator, Sustainer, and Redeemer of all life, our knowledge of self, the world, and God are interrelated. As the reformer John Calvin affirms in the opening words of the *Institutes of the Christian Religion*, "Nearly all the wisdom we possess, that is to say, true and sound wisdom consists of two parts: the knowledge of God and of ourselves." A Christian education, thus, is one that integrates faith, learning, and life.

The purpose of the vigorous and broad education at King is to educate students so that they may excel as thoughtful, resourceful, and responsible citizens with a passion for serving God, the Church, and the world. By excelling in our chosen fields of study and later in vocations and careers, we respond to the divine calling of using God-given talents and abilities to their full potential.

King positions itself as a missional university that prepares students to engage the world and nurtures students in vital Christian faith, rather than as a university with an inward focus that attempts to protect and separate students from the larger culture and world.

Philosophy of Education

A King education is one that values excellent teaching, high expectations, worthwhile example, and fidelity to our Presbyterian heritage in keeping with the mission and identity of the institution. This education seeks to provide opportunities for students to become competent in their chosen fields of study, to grow toward maturity in their understanding of Christian faith, and to make personal commitments for responsible service and stewardship in the world. It maintains high academic standards while supporting the development of skills essential for success in a rigorous academic program.

The King General Education is the academic foundation for the King experience. It gives all students the skills, ideas, and knowledge they need to pursue their major and minor programs with confidence and good judgment. Through general education, King seeks to develop a student's intellectual and practical skills, create an understanding of human culture and the natural and physical world, foster an appreciation for human creative products, and create an awareness of thoughtful, resourceful, and responsible citizenship.

Teaching and learning expectations should recognize the variability of student talent, background, and preparation. Consequently, the King education is committed to providing personal attention, meaning that all educators—faculty and staff—seek to understand the needs of students and to be accessible and available to them while striving to provide an environment that encourages social, spiritual, and academic maturity. Furthermore, the institution is concerned for the balanced growth of the individual, recognizing that intellectual learning does not take place in isolation from other aspects of personal development and affirming the role of all members of the King community in the teaching and learning process.

The Mission and Vision of King University

King holds that knowledge of self, the world, and God are connected and, therefore, that learning and intellectual inquiry are acts of worship. King seeks to maintain an atmosphere in which learners have the privilege and responsibility of exploring the full range of questions raised in and beyond the classroom. The institution seeks to foster an ethos that stresses the importance of exploration, personal initiative, character and integrity, collegiality, humane instincts, aesthetic sensitivities, and leadership. The community of learners at the institution seeks to embrace the values of Christian community through lives of scholarship, service, and spiritual formation.

Spiritual Formation

"Let the same mind be in you that was in Christ Jesus." (Philippians 2:5)

"Let this, then, be the first step, to abandon ourselves, and devote the whole energy of our minds to the service of God." -John Calvin

The philosophy of education at King states that as a community of learners we seek "to embrace the values of Christian community through lives of scholarship, service, and spiritual formation." As a result, a King education seeks to integrate faith, learning, and life in keeping with the mission and vision of the institution.

In general, spiritual formation is the process of the human spirit taking on a definite form or character. Regardless of a secular or religious orientation, all persons ultimately are engaged in a process of spiritual formation that shapes character in the depths of their beings. Such a process can be negative or positive, destructive or beneficial. In the context of a university, however, the process of spiritual formation should be one that helps shape the human spirit toward the truly good, wise, just, and beneficent.

For a university whose core values are Christian, the process of spiritual formation should shape the character of each student toward the truly good, wise, just, and beneficent, and be reflective of the person

and work of Jesus Christ. This will be done best as the institution draws on its vast resources of curricula, extracurricular programs, service and mission projects, administrative policies, and community life in such a way that they promote the process of character formation in the direction of faithful, prudential, paradigms, and domains. Because true education is about the whole person—body, mind, and spirit—the institution facilitates not only study and scholarship, but also reflection and prayer, service and worship, virtue and ethics, honor and integrity, justice and peace, vocation and calling, and an integrated world and life view.

The goal of spiritual formation at King is to develop each student's character so that the individual may excel as a thoughtful, resourceful, and responsible citizen with a passion for serving God, the Church, and the world. The institution stresses praxis as well as intellectual achievement, for it is understood that the "mind of Christ" is about both the love of God and the love of neighbor. If we do not love our neighbor, whom we can see, in just and beneficent ways, we cannot honestly say that we love God, whom we cannot see.

Although the institution has core values that are distinctly Christian, we have historically been open to all students of quality regardless of their religious persuasions. We serve students from the various segments of the Christian family, both Protestant and Catholic, but also students from other religions or from secular perspectives. Our mission and vision is to serve all students and assist them in their spiritual formation, encouraging their spiritual growth and character development toward the truly good, wise, just, and beneficent.

Spiritual formation will be reviewed by the student's participation in and evaluation of the following activities:

- Regular academic offerings;
- Service and mission projects;
- Traditional spiritual disciplines such as worship, service, prayer, and study; and
- Cross-cultural and study-abroad programs.

The Mission and Vision of King University

Commitments

We affirm the Reformed understanding of a world created good by God, distorted by sin, redeemed in Jesus Christ, and awaiting the fullness of God's reign. We profess the authority of Holy Scripture as the Word of God, and uphold the historic witness of the ecumenical creeds of the Christian Church. We aim to maintain a Christian academic community characterized by mercy, justice, and integrity that includes corporate worship, Bible study, Christian fellowship, mission outreach, prayer, and pastoral care. We commit to hiring faculty, administrators, and staff of superior competence and mature Christian faith. We require that all trustees be women and men who have excelled in their vocations and who give evidence of their Christian faith upon selection to the board.

Context

King was founded in 1867 by Presbyterians who resolved to create a college of "such high order as will greatly elevate the standard of classical and scientific instruction in East Tennessee." King is an independently governed institution with covenant affiliations to the Presbyterian Church (USA) and the Evangelical Presbyterian Church.

Consistent with its historic motto *Ecclesiae et Litteris*, for the church and for learning, the Christian character of the institution is expressed in a program intentionally built on a foundation of the classic Presbyterian tradition, the authority of Scripture, and personal commitment to Jesus and His service. The institution is committed to a regional, national, and international constituency. King strives to enrich the collegiate experience and broaden its service by having an ethnically and geographically diverse student body. Applicants are accepted into the institution upon evidence of academic qualifications and are admitted without regard for ethnic or religious background.

King University came into being as a result of the upheavals of the Civil War in Southern Appalachia. Because of the sharp divisions between Union and secessionist ideologies, Presbyterians who had supported the Confederate cause found themselves without a church-related college in their region following the conflict.

Zeal for higher education has long been a hallmark in the Reformed churches. Because they supported that tradition, the post-war leaders of the Holston Presbytery in Northeast Tennessee decided to establish a college. Though conditions were difficult in the post-Civil War South, the Presbytery's statement was clear. On April 9, 1866, the minutes note: "The presbytery is deeply impressed not only with the importance of establishing a classical school, but one of such high order as will greatly elevate the standard of classical and scientific instruction in East Tennessee, and which with such instruction, will combine that strict discipline and the thorough religious training that will fully develop the moral as well as the intellectual man."

The Reverend James King, a prominent landowner, businessman, and Presbyterian minister, gave land for a campus near the town of Bristol. The location, a rounded hill crowned with towering trees, was personally meaningful to King, for it was the site where he had made his own Christian commitment and where he would retire with his Bible for personal meditation. King called the site his "glory grove," and, in appreciation of the gift, Holston Presbytery voted to name the new institution King College in his honor.

A campaign among local citizens provided funds for a large three-story building, with a central Victorian tower. Reverend George A. Caldwell, minister of the Bristol Presbyterian Church, campaigned to develop a permanent endowment, soliciting donations from as far away as New York City.

Reverend James Doak Tadlock, a graduate of Princeton Seminary and a member of Holston Presbytery, was chosen as the founding president of the institution, which matriculated its first male students and began classes in August 1867. A man of faith and dedication, Tadlock believed that a college education should conform to the strict classical model of the liberal arts set forth by Yale. Course offerings were limited to Latin, Greek, mathematics, and science. Tadlock maintained close personal relationships with his students and encouraged the formation of student-led literary societies in which the students honed their skills in public speaking and debate.

During the 18 years of his presidency, Tadlock produced only 63 graduates, but they were an impressive group. From this number there were 40 ministers, seven of whom were missionaries. Ten became lawyers; another ten were college professors, five becoming college presidents; three were editors of magazines and newspapers; and others went into business. More than seventy percent of Tadlock's alumni had graduate or professional training, and half were recipients of honorary degrees. Eight had national careers of such prominence that they were chosen for inclusion in *Who's Who in America*.

One graduate wrote later of his beloved president, "We were proud of him. The sacrifices we knew he was making to remain with the little college endeared him to us, and the fact that we had such a president made every man of us feel that King ranked any college in the land."

Tadlock's successors in the presidency broadened the curriculum and increased the range of course offerings but continued his emphasis upon developing young men who could provide both intellectual and moral leadership to their communities. By the early 20th century, however, King was facing both new challenges and opportunities. Bristol's growth had transformed the rural environment of the campus into an urban setting of city blocks filled with houses and commercial buildings, and the advent of regional accrediting associations mandated uniform standards of quality. King needed to become an accredited institution.

The Reverend Tilden Scherer, who assumed the presidency in 1912, made these concerns the major goals of his administration. Fortunately, he was to have the financial support of a number of business leaders in the city of Bristol, including Edward Washington King, who would be a King College benefactor for half a century.

Throughout the Southern mountains there were other Presbyterian leaders who were convinced that the time had come for the church to assume a greater responsibility for humanitarian concerns. The result was the formation in 1915 of the Synod of Appalachia, made up of Presbyterian congregations throughout Eastern Tennessee, Southwest Virginia, Western North Carolina, and neighboring portions of West Virginia and Kentucky. King was given official recognition as the synod's college and thereby gained a larger constituency.

In 1916 Reverend Isaac S. Anderson, a member of the class of 1875 and a grandson of James King, offered a wooded tract of 60 acres east of Bristol as a new campus site. The institution immediately launched a campaign to raise funds for buildings and, with the completion of Bristol Hall in 1917, moved to its new location in the fall term. Over the course of the next decade, six major buildings were erected on the new campus.

King also achieved national prominence for its prowess in athletics during this period. The football team seemed unbeatable in the early years following World War I, and the highlight of its triumphs came in 1921 when the King team defeated Lenoir Rhyne, a North Carolina rival, by 206 to 0, a record score which still stands in the annals of collegiate football as one of the highest ever. The newspaper reporter covering the event wrote that the King team ran the ball with the ferocity of a "tornado" and thus was born the name that has ever since been applied to all the sports teams of the school: the King Tornado.

King was hit hard by the Great Depression, and simple survival became the first priority. In 1931, Stonewall Jackson College, a Presbyterian institution for women in Abingdon, Virginia, closed its doors, and King took in the female students, becoming coeducational in the process. When Reverend Thomas P. Johnston assumed the presidency in 1935, he made financial stability his foremost goal.

The post-World War II years were a time of remarkable growth and achievement for King. In March, 1943, Reverend Robert Todd Lapsley Liston was named president and began a 25-year tenure that would be one of the most significant in King's history. Liston was determined that King would achieve the academic distinction that had been the goal of its founders. Strong support by the Board of Trustees enabled Liston to make academic quality his first priority. Money was poured into faculty salaries, the library, laboratory equipment, and the college's endowment, while Liston personally recruited bright high school graduates to fill the classrooms. By 1948, King had won accreditation from the Southern Association of Colleges and Schools, and by 1960, leading graduate and professional schools were admitting King's quality alumni.

Initially, Liston had concentrated his energies upon academic achievements, but he soon recognized the need for physical improvements to the institution. The 1960s witnessed a building program that transformed the appearance of the hilltop campus. A major campus plan completely redesigned the physical appearance of the school, and a grassy central lawn known as the "Oval" was developed, around which the chief academic buildings were placed. New roadways and college entrances were constructed, and during the decade Liston added five major buildings: the E. W. King Library/Administration Building, Parks Hall, Liston Hall, an astronomical observatory, and the F. B. Kline Gymnasium.

James C. White Hall was completed in 1976 and offered state-of-the-art facilities for the natural sciences. In addition, a new president's home was built near the King College Road entrance. President Powell Fraser also upgraded athletic fields and renovated classrooms. The academic curriculum was broadened to meet changing times, with special

emphasis given to pre-professional programs such as teacher preparation.

In 1979, King's ownership changed; a new Board of Trustees assumed, and King became an independent school that maintained formal covenantal relationships with various Presbyterian judicatories. The work of Christian higher education continued under Reverend Donald Rutherford Mitchell, who served as president from 1979 to 1989. Enrollment doubled during the early years of Mitchell's administration, and many international students came to study in King's English for Speakers of Other Languages program. The new dining hall/student union, Maclellan Hall, an additional residence hall for women, and remodeling of the chapel to increase its seating capacity took place during the 1980s.

The presidencies of Charles E. Cauthen, Jr., and Richard J. Stanislaw from 1989 to 1997 saw continuing campus renovations, with improvements in heating and air conditioning of buildings, and a new maintenance building. President Cauthen was instrumental in establishing a campus-wide computer network, known as KingNet, which linked computing facilities throughout the campus to central academic and administrative systems. Also, at this time the Holston Associated Libraries was formed, which provided King with an electronic cataloging system that linked its library with those of other regional colleges, expanding access to reference and research materials.

In 1997, Reverend Gregory D. Jordan began his 17-year tenure as president. Dr. Jordan and the Trustees crafted King's first comprehensive strategic plan. Specific developments under Greg Jordan included the redesign of the Core Curriculum and a year-round academic calendar. The nursing program that began in 1998 launched King into a new educational paradigm that fit well with King's mission of "transformation of culture in Christ." The programs for non-traditional working adults followed.

The Peeke School of Christian Mission, named after King Alumna Catherine Peeke, who was a Wycliffe Bible translator in South America, was opened in the fall of 2001. The Center for Graduate and Professional Studies (now known as Adult and Graduate Studies) opened at this time, and began offering adult-oriented degree programs delivered face-to-face and online—Master of Business Administration, Master of Education, Master of Science in Nursing, RN to Bachelor of Science in Nursing, and Bachelor of Business Administration. Additionally, B.S. degrees were offered in Information Technology, Psychology, Communication, Criminal Justice, Healthcare Administration, Health Informatics, and History. A B.A. degree was offered in English for AGS students.

Significant upgrades to campus computing infrastructure have made a difference in enhancing student learning and communication. Major changes have been made in the appearance of the Bristol campus within the last 15 years: the adjoining golf course, originally Bristol's Country Club, has been reclaimed for university use and now boasts tennis courts, a soccer field, a softball field, and a baseball field, in addition to a new campus gate and a beautiful entry drive. The Student Athletic Center was dedicated in December, 2002.

King changed its name from college to university in 2013 to better reflect its growth as a comprehensive Christian University. Dr. Richard A. Ray loyally served as King's interim president for two and a half years, from 2014 to 2016. Under Dr. Ray's tenure, the Bristol campus received further significant renovations, with the complete reconstruction of the Oval and a substantial renovation to the library, with the addition of social space and an expanded computer lab. In 2016, Mr. Alexander Whitaker was named King's 23rd president. Under his leadership, King has affirmed its dedication to the cultivation of future generations grounded in academic excellence, inspirational accomplishment, and transformative service to others.

King is positioned to play a significant role of service, scholarship, and leadership in the 21st century and

promises to fulfill and carry forward the vision laid by its founders over 150 years before.

Campus

King University, located in Bristol, Tennessee, is in the foothills of the Appalachian Mountains. The 130-acre hilltop campus is two miles from the center of Bristol, TN/VA, a city of 43,300 residents. Bristol, Johnson City, and Kingsport, Tennessee, form the Tri-Cities metropolitan area with an aggregate population of approximately 450,000.

Tri-Cities Regional Airport, a 35-minute drive from the campus, offers daily flights connecting Bristol with cities throughout the United States. Bristol is on US 11, US 58, US 421, and Interstate 81.

Several buildings comprise King's Bristol campus, which has maintained a Georgian architectural theme:

Bristol Hall (1917)

Houses faculty offices (the School of Health and Professional Sciences, the School of Business, Economics, and Technology, and the College of Arts and Sciences), the Academic Center for Excellence (ACE), offices for several student support services (Student Success, Kayseean, and Disability Services), and the eSports arena.

Burke Observatory (1962)

Contains a classroom and research space as well as a reflecting telescope with an electronic camera that records digitized images of celestial bodies.

The Counseling Center (1972)

Is used by campus clients and houses administrative support services offices (Business Operations and Information Technology).

E. W. King Library (1962)

Houses a collection of over 350,000 items in open stacks, an instructional computer lab, and office space for the library staff, and provides display space of pieces in the Caldwell Art collection. The building's lower level houses the President's Office, the Marketing department, as well as administrative support services offices (Academic Affairs, Registration and Records, Business Office, and Financial Aid).

F. B. Kline Hall (1964)

Serves as a practice facility for acrobatics & tumbling, cheerleading, basketball, volleyball, and wrestling. The soccer, baseball, softball, acrobatics & tumbling and wrestling teams have their locker rooms in this building. It also houses the band room, classrooms, faculty offices (the School of Education), and coaches' offices.

The Facilities Services Building (1991)

Houses the Maintenance, Grounds, and Housekeeping departments.

Hyde Hall (2000)

Houses 33 female students and has a laundry room on each floor, formal and informal lobbies, and suites that share large private bathrooms.

Liston Hall (1966)

Is a residence hall for 200 men on three floors, with lounges and laundry facilities; the lower level houses 52 women.

Maclellan Hall (1983)

Houses the Dining Hall, Student Affairs, Widener TV Lounge, King's Den, Wager Center for Student Success, the mail room, Career Services, Student Government Association, the Tornado Alley Shoppe, and a computer lab.

Margaret M. Sells Hall (1927)

Houses staff offices. the Information Technology Help Desk, the photography studio, faculty and staff offices, , and classrooms.

Memorial Chapel (1932)

Is the site of chapel services, convocations, and meetings. On the lower level are classrooms, practice rooms, and faculty offices for the Music Department.

Mitchell Hall (1985)

Is a residence hall and office building of five separate units, four that can house either men or women and one unit used by the athletic department.

Campus

Nicewonder Hall (2011)

Houses classrooms, the Exercise Science Laboratory, a conference room, the Macintosh computer lab, science and nursing simulation laboratories, and serves as the headquarters of the Appalachian College Association.

Parks Field and outdoor athletic facilities (2002)

The baseball field, softball field, soccer field (Parks Field), and six tennis courts are located on the west end of campus, and a new track and field complex was completed in 2023.

Parks Hall (1962)

Is a residence hall for 102 women with a game room, study areas, kitchen, laundry facilities, a private guest room, and the Office of Safety and Security.

Pauline Massengill DeFriece Place (1976)

Is the campus welcome center and houses the Admissions Office and the Advancement Office.

The Snider Honors Center (1949)

Is located in a former campus residence on the east end of campus. It houses the Jack E. Snider Honors Program as well as faculty offices (the College of Arts and Sciences).

Student Center Complex (2002)

Serves as the main competition arena for varsity basketball, volleyball, acrobatics & tumbling, and wrestling. It houses most of the coaches' offices, a concession stands, Hall of Fame Room, the Jeff Byrd Board Room, athletic training room, weight room, cardiovascular equipment areas, an indoor running track, lounge areas, and locker rooms for men's and women's basketball, men's and women's volleyball, and visitor's lockers for both men and women. The gym seats 1,200 for sporting events.

Tadlock Wallace (1921)

Is the location of the Peeke School of Christian Mission, the Chaplain's Office, and faculty offices (the College of Arts and Sciences). Once used as the home for King presidents, its living spaces are often used for meetings and classroom spaces.

White Hall (1976)

Houses classrooms, science and nursing laboratories, and faculty offices for the sciences, mathematics, and nursing.

The Women's Auxiliary Building (1918)

Served as the institution's dining hall through December 1982. It is occupied by the Performing and Visual Arts Department, and has been converted to a small black-box theatre; it also contains a tech theatre workshop, costume and stage storage, an antique print shop, and faculty offices.

ADDITIONAL CAMPUSES

Knoxville - 10950 Spring Bluff Way

Houses classrooms, faculty and staff offices, a library, a nursing resource center, conference rooms, meeting spaces, a kitchenette, and student lounge spaces.

INSTRUCTIONAL SITE LOCATIONS

King's main campus is located in Bristol, Tennessee; however, King offers courses throughout Northeast Tennessee, Southwest Virginia, and Knoxville, Tennessee. Our Cedar Bluff, Virginia, site serves as the main instructional location in Virginia.

Abingdon, VA, Southwest Virginia Higher Education Center, One Partnership Circle

Cedar Bluff, VA, Southwest Virginia Community College, 724 Community College Road

Knoxville, TN, Hardin Valley, 10950 Spring Bluff Way

Morristown, TN, Walters State Community College, 500 So. Davy Crocket Parkway

Sevierville, TN, Walters State Community College, 1720 Old Newport Highway

Alumni

King has more than 13,000 alumni in 38 countries around the world. King alumni live out the core mission of excelling as thoughtful, resourceful, and responsible citizens with a passion for serving God, the Church, and the world.

ALUMNI ENGAGEMENT

Through Service:

- Ambassador Promote King University to prospective students and the community
- King Family Legacy Encourage family members to attend King University
- Guest Lecturer or Speaker Volunteer in the classroom, in chapel or other events
- Board Leadership Serve on the Alumni Advisory Council, School Advisory Board, or as a Trustee
- Mentor Provide trusted guidance to one or more students

Through Participation:

- Prayer Pray for the University, its students and community
- Give Back Donate to the University
- Alumni Surveys Participate in shaping our university and alumni programs
- Events -Attend university sponsored events:
 - o Dogwood Homecoming Weekend
 - o KingFest
 - o Regional Alumni Gatherings
 - o Chapel
 - Convocation
 - o Commencement
 - Athletics
 - o Faith and Culture Speaker Series
 - o Performing and Visual Arts

STAY CONNECTED

<u>King Magazine</u> – The official university alumni magazine

<u>E-Tornado</u> – Our alumni bi-weekly electronic newsletter contains campus news, information on upcoming events, and personal and professional updates on alumni.

ADMISSIONS

All students who seek admission to King University must complete the *Application for Admission* by visiting www.king.edu/apply.

A complete application packet for admission may vary depending on the degree program selected. Please check the catalog for specific application packet requirements for each degree option available.

When an application packet has been fully completed with the receipt of all required items, it is reviewed by the Office of Admissions. Students who fail to meet the minimum requirements for regular admission will be reviewed by the Admissions Committee of the Faculty.

Accepted New Freshman and Transfer applicants should submit the enrollment deposit, as required, and complete the *Confirmation of Enrollment* form upon receipt of acceptance. This deposit enables the student to register for classes. The deposit is refundable if requested before May 1 for the Fall semester and before the start of classes for the Spring and Summer semesters.

All acceptances to King University are offered provisionally, with the understanding that the acceptance offer is contingent on the student successfully meeting all requirements of the enrollment process, including review of any disclosed criminal convictions. Omission or falsification of information on the application for admission may result in the denial of the application or revocation of admission and dismissal from the university.

King affirms Christian values; however, we do not require that students be Christian. Each undergraduate student is required to earn 12 Chapel, Convocation, and Service (CCS) credits per semester. Students are also expected to respect and to comply with the Community Life Standards.

ACADEMIC PREPARATION

General requirements for admission as a new freshman include graduation, with a standard or higher diploma, from an accredited or recognized high school or secondary institution, with a minimum of 17 academic units, distributed as follows:

- 1. Four units of English;
- 2. Two units of Algebra (Algebra I and II);
- 3. One unit of Geometry:
- 4. Two units of Foreign Language;
- 5. Two units from History and the Social Studies;
- 6. Two units of Natural Science; and
- 7. Four units of other academic electives.

A new freshman is any applicant who has attempted 12 or fewer semester hours of college-level course work after high school graduation. Possession of a standard high school diploma means that the applicant met the stated graduation requirements for specific subject matter areas, as determined by the issuing agency (school, county, or state system). Successful completion of the GED or HiSET test may be accepted in lieu of a high school diploma.

An applicant who has below a 3.0 high school GPA may be reviewed by the Admissions Committee. The Committee may then grant acceptance, grant conditional acceptance, or deny acceptance.

Conditional acceptance means that the student will be limited to a 14-16 semester-hour course load in the first semester, as well as other requirements determined by the Admissions Committee.

Conditional acceptance does not impose any academic sanction.

A student who has attempted 13 or more semester hours of college coursework after the completion of high school is considered a transfer student. Please visit catalog policy Applying as a Transfer Student in the Admissions Policies section for the admissions criteria for transfer students. A student who is applying for admission to the Associate of Arts or an undergraduate Adult and Graduate Studies program should visit catalog policy Application Packet Requirements for Undergraduate AGS Programs, also found in the Admissions Policies section of the Catalog.

For information regarding academic standards review, please visit the *Academic Standing* policy.

ADVANCED STANDING

The institution encourages well-prepared students to move ahead in their academic programs at a rate commensurate with their aptitude and previous academic experience. Accordingly, a number of programs are available which permit qualified applicants to seek advanced standing or to receive college credit following a satisfactory performance by examination.

Applicants for admission who participate in the Advanced Placement Program of the College Entrance Examination Board and achieve a grade of three (3) may receive advanced placement in appropriate subject areas without college credit. Students scoring four (4) or five (5) will be granted college credit.

Students enrolled in the institution are granted exemption from basic courses when their level of preparation enables them to progress to more advanced courses. This is particularly true in Foreign Languages, Mathematics, and English. Interested students should inquire of the appropriate academic department chairperson for further particulars.

Most freshman and transfer students will be asked to complete tests used for placement into appropriate courses.

For information regarding College Level Examination Program (CLEP) of the College Entrance Examination Board, testing, and other Prior Learning Assessment, please reference the *Prior Learning Assessment* policy within the *Academic Polices* section of the catalog.

APPLYING AS A NEW FRESHMAN

An application for admission as a new freshman is complete when the following materials have been submitted:

1. A completed application form (along with essay, if required).

- 2. Official transcripts of all high school courses and grades (must include a minimum of six completed semesters).
- 3. OPTIONAL: Scores from either the Scholastic Aptitude Test (SAT I) of the College Entrance Examination Board or the American College Testing Program (ACT).

Students educated at home should follow the same procedures as any other candidate for the freshman class. A high school transcript and documentation or a high school diploma or its equivalency (e.g., GED, HiSET, etc.) should be presented.

APPLYING AS A TRANSFER STUDENT

Admission Requirements

Transfer candidates for admission to undergraduate degree programs must submit these documents:

- 1. A completed application form
- 2. Official transcripts from all institutions of higher education previously attended
- An official high school transcript or equivalent (e.g., GED, HiSET)
- For applicants who have not completed an associate or bachelor degree.

Admission to King University does not guarantee admission to all academic programs. For further information, please see program admission requirements.

Evaluation of Prior Coursework and Previously Earned Degrees from Another Institution

All transfer coursework is evaluated using the following criteria:

- The educational quality of the coursework
- The age of the coursework
- The comparability of the nature, content, and level of the courses presented to King University courses
- The appropriateness and applicability of the coursework to the programs at King University
- The intent of the coursework, i.e. whether it is designed for transfer

Only grades of C- or higher will qualify a course as transfer credit. A maximum of 76 semester hours of

accepted credit may be applied to a student's King University academic program.

The *Transfer Credit Acceptance* policy explains how previous courses above the level of general education courses may be submitted for review. Applicants should also refer to the *Transfer Credit Acceptance* policy for information related to the recognition of a previously earned degree and waiving of the General Education requirements.

Graduation Requirements

All transfer students must complete a minimum of 48 semester hours at King University. All King University students must complete 124 semester hours to graduate. At least one-third of the coursework in a student's major discipline must be completed at King University.

Hours transferred that are neither general education credits nor courses applied to the student's major will be classified as general electives.

Traditional Candidates

Candidates for admission to Traditional programs who have earned fewer than 13 semester hours of college coursework must have earned a cumulative GPA at prior institutions of 2.0 on a 4.0 scale and meet the requirements for New Freshman as stated in Catalog policy *Applying as a Freshman* and *Academic Preparation*.

An applicant who has below a 2.0 cumulative college GPA may be reviewed by the Admissions Committee. The Committee may then grant acceptance, grant conditional acceptance, or deny acceptance.

Conditional acceptance means that the student will be limited to a 14-16 semester hour course load in the first semester, as well as other requirements determined by the Admissions Committee.

Conditional acceptance does not impose any academic sanction.

Adult and Graduate Studies (AGS) Candidates

AGS Candidates with fewer than 45 semester hours of transferrable college-level coursework may be admitted as degree-seeking under the student's

intended program of study. It is highly recommended that these students complete all General Education requirements and elective hours needed before starting their major coursework.

All AGS transfer candidates entering academic programs must complete RELG 1001 Foundations of Christian Thought and Practice (4 s.h.).

Because AGS programs are offered in an accelerated format, candidates for admission to a particular program must meet the program's minimum cumulative GPA requirements for credits earned at other regionally accredited institutions. See Application Packet Requirements for Undergraduate AGS Programs in this catalog for program specific minimum GPA requirements. Students with a GPA that is lower than a program's minimum GPA may be considered for acceptance on a conditional basis if they are able to supply a rationale for the possibility of success in a King University AGS program. Conditional acceptance means that the student will be limited to a 14-16 semester hour course load in the first semester, as well as other requirements determined by the Admissions Committee or outlined in the program specific requirements in the Application Packet Requirements for Undergraduate AGS Programs in this catalog. Conditional acceptance does not impose any academic sanction.

A plan of study for graduation with the student's desired degree program must be created at matriculation.

AGS Program Application Packet Requirements

For specific AGS program application packet requirements, please visit catalog policy Application Packet Requirements for Undergraduate AGS Programs and Application Packet Requirements for Graduate Programs.

APPLICATION PACKET REQUIREMENTS FOR UNDERGRADUATE AGS PROGRAMS

Associate of Arts Application Packet Requirements

1. Submit a completed application for admission to King University (www.king.edu/apply).

- 2. Submit official transcripts from all prior colleges and universities attended.
 - a. Applicants with less than a cumulative 2.0 undergraduate GPA on a 4.0 scale may be considered on a conditional basis. If a student has 12 or fewer earned college credits, a high school transcript with a 2.6 high school GPA or equivalent (e.g.,GED/HiSET) must be submitted..
- 3. Submit ACT/SAT scores (optional).
- 4. Submit an official high school transcript (required for any applicant who has not completed an associate or bachelor degree).

All undergraduate AGS programs require:

- 1. Submit a completed application for admission to King University (www.king.edu/apply).
- 2. Submit official transcripts from all prior colleges and universities attended.
 - a. Applicants with less than a cumulative
 2.2 undergraduate GPA on a 4.0 scale
 may be considered on a conditional
 basis.
- 3. Submit ACT/SAT scores (optional).
- Submit an official high school transcript (required for any applicant who has not completed an associate or bachelor degree).

Bachelor of Science in Nursing for Registered Nurses Application Packet Requirements

- 1. Submit a completed application for admission to King University (www.king.edu/apply).
- Submit official transcripts from all prior colleges, universities, and/or diploma programs attended.
 - a. Applicants with less than a cumulative
 2.75 undergraduate GPA on a 4.0 scale
 may be considered on a conditional
 basis.
- 3. Applicants must submit a copy of current unencumbered Registered Nurse license with privileges to practice in any state where practicum hours will be completed.
 - Applicant should not be on probation and must report any past or current disciplinary action taken by a State Regulatory Board directly to the Dean of the School of Nursing.

Bachelor of Social Work Application Packet Requirements

- 1. Submit a completed application for admission to King University (www.king.edu/apply).
- 2. Submit official transcripts from all prior colleges and universities attended.
 - a. Applicants with less than a cumulative 2.2 undergraduate GPA on a 4.0 scale may be considered on a conditional basis. Students are expected to maintain a minimum GPA of 2.2 while in the program.
- 3. Submit specific application requirements for the Social Work program.
 - a. Required demographic information.
 - b. Required self-assessment.
 - c. A 300-500 word personal statement using the provided prompts.
- 4. Applicants whose application packet requires further review or discussion will be asked to participate in an interview with the Program Committee (via video conferencing online, by telephone, or in-person).

Bachelor of Arts in Interdisciplinary Studies K-5 Licensure (Elementary Education) Application Packet Requirements*

- 1. Submit a completed application for admission to King University (www.king.edu/apply).
- 2. Submit official transcripts from all prior colleges and universities attended.
 - a. Applicants with less than a cumulative
 2.75 undergraduate GPA may be considered on a conditional basis.
- Complete the Praxis Core Academic Skills
 Assessment. Applicants with ACT composite
 scores of 22 or higher or SAT math/verbal
 scores of 1020 or higher are exempt.
- *All students will complete the formal process for admission to Teacher Education in EDUC 2030 Introduction to Education. For general program admission requirements, please see Teacher Education under Academic Programs.

APPLICATION PACKET REQUIREMENTS FOR GRADUATE PROGRAMS

Professional Master of Business Administration (MBA) Application Packet Requirements

- 1. Submit a completed application for admission to King University (www.king.edu/apply).
- 2. Submit evidence of completion of a baccalaureate degree from a regionally accredited college or university prior to enrolling. Students should have coursework, earning a C- or better, in the following:
 - a. Statistics
 - b. Marketing
 - c. Finance
 - d. Economics
 - e. Accounting
 - f. Computer applications, including spreadsheet and database applications (recommended)

Students who do not meet the above course requirements will be enrolled in the following Business Principles Seminars in the appropriate semester of the program:

- BUSA 4890 Statistics
- BUSA 4891 Economics
- BUSA 4892 Accounting
- BUSA 4893 Finance
- BUSA 4894 Marketing

The business principles seminars must be completed as a necessary part of the MBA curriculum and must be completed prior to the start of the corresponding course in the MBA program.

Evaluation in the prerequisite courses will be pass/fail. Students who fail to successfully complete a prerequisite class will not be permitted to continue their enrollment in the MBA program until the required course is successfully completed or an alternative prerequisite is substituted for the course.

- 3. Submit official transcripts from all colleges/universities attended.
 - a. A minimum cumulative grade point average of 3.0 on a 4.0 scale is required. Students who do not meet this requirement may be conditionally accepted.

- 4. Submit a 750-1000 word personal statement, indicating interest in the program, professional preparation, academic experience, job-related history and career goals.
- 5. Submit the names and email addresses of two professional or academic recommenders for an automated request.
- 6. Submit a resume, demonstrating a minimum of two years of full-time work experience.

Traditional Master of Business Administration (MBA) Application Packet Requirements

- 1. Submit a completed application for admission to King University (www.king.edu/apply).
- 2. Submit evidence of completion of a Bachelor's degree from a regionally accredited college or university prior to enrolling.
- 3. Submit official transcripts from all colleges/universities attended.
 - a. A minimum cumulative grade point average of 3.0 on a 4.0 scale is required. Students who do not meet this requirement may be conditionally accepted.
- Submit the names and email addresses of two professional or academic recommendations for an automated request.
- 5. Submit a resume.
- 6. Submit a 750 -1000 word personal statement, indicating interest in the program, professional preparation, academic experience, job-related history and career goals.
- 7. Participate in an interview with the MBA Program Coordinator.

Master of Social Work (MSW) Application Packet Requirements

- Submit a completed application for admission to King University (www.king.edu/apply).
- 2. Submit evidence of completion of a Bachelor's degree from a regionally accredited college or university prior to enrolling.
- 3. Submit official transcripts from all colleges/universities attended.
 - a. A minimum cumulative grade point average of 3.0 on a 4.0 scale is required. Students who do not meet this requirement may be considered for a

conditional acceptance on a case-by-case basis

- 4. Submit MSW program specific requirements for Admission.
 - a. Complete demographic information.
 - b. Complete self-assessment
- 5. Submit the names and email addresses of two professional or academic recommendations for an automated request.
- 6. Submit a curriculum vitae or detailed resume that includes work experience, educational background, professional experience, professional activities, honors, professional publications and/or presentations and other relevant information relating to the applicant's experiences.
- 7. Submit a statement of purpose (prompt provided upon application).
- 8. Interview with MSW Program Coordinator and/or faculty.
- Advance Standing candidates must submit copy of Final Field Evaluation from BSW program.

*Pending admission to the program, a background check must be completed by the student prior to beginning course work. See *Application Considerations* in MSW program section.

An applicant who lacks one or more of the admission criteria may be considered for admission with conditional status. Conditional status requires an applicant meet certain conditions either prior to beginning the MSW program or concurrent with enrollment in the MSW program. Applicants accepted conditionally will be notified of necessary conditions that must be addressed prior to full acceptance being granted to the program. Full acceptance is required to continue in the MSW program.

MSW students may transfer up to six (6) credits of graduate study from another CSWE accredited institution MSW program to be credited toward core or elective program requirements at King pending review of syllabus and approval by Master of Social Work faculty.

Master of Education (M.Ed.) in Curriculum and Instruction (for students seeking initial teacher licensure) Application Packet Requirements

- 1. Submit a completed application for admission to King University (www.king.edu/apply).
- 2. Submit evidence of completion of a bachelor's degree from a regionally accredited college/university prior to enrolling.
- 3. Submit official transcripts from all colleges/universities attended.
 - a. A minimum cumulative grade point average of 3.0 on a 4.0 scale is required. Students who do not meet this requirement may be conditionally accepted.
- Submit the names and email addresses of two professional or academic recommenders for an automated request.
- 5. Receive a passing score on research-based writing sample in current APA format (prompt provided).
- 6. Interview with School of Education Graduate Admissions Committee.

An applicant who lacks one or more of the admission criteria will be reviewed by the M.Ed. Admissions Committee on an individual basis, and may be considered for admission with conditional status.

M.Ed. students may transfer up to six credits of graduate study with a minimum 3.0 GPA in comparable approved coursework, pending approval of the Program Coordinator of the M.Ed. Program.

Master of Education (M.Ed.) in Curriculum and Instruction (for students who are in a job-embedded position as the teacher of record in a school) Application Packet Requirements

- 1. Submit a completed application for admission to King University (www.king.edu/apply).
- 2. Submit evidence of completion of a bachelor's degree from a regionally accredited college/university prior to enrolling.
- 3. Submit official transcripts from all colleges/universities attended.
 - a. A minimum cumulative grade point average of 3.25 on a 4.00 scale in undergraduate work is required OR a

minimum of 3.5 in the academic major for the related teaching endorsement.

- 4. Submit score on Praxis II: Content Knowledge in the teaching endorsement.
- Submit names and email address of two professional or academic recommenders for an automated reference request.
- Receive a passing score on a research-based writing sample in current APA format (prompt provided).
- 7. Interview with School of Education Graduate Admissions Committee.

An applicant lacking any one of the admission criteria will be reviewed by the Graduate Admissions Committee on an individual basis, and may be considered for admission with conditional status.

If a candidate is admitted on conditional status, all deficiencies must be rectified by the last day of the first semester for the candidate to remain enrolled in the program.

Master of Science in Nursing (MSN) Application Packet Requirements

- 1. Submit a completed application for admission to King University (www.king.edu/apply).
- 2. Submit evidence of graduation from an accredited baccalaureate nursing program with a minimum cumulative undergraduate grade point average (GPA) of 3.0 on a 4.0 scale prior to enrolling.
- 3. Submit official transcripts from all colleges/universities attended.
 - a. A minimum cumulative grade point average of 3.0 on a 4.0 scale is required. Students who do not meet this requirement may be conditionally accepted.
- 4. Submit evidence of satisfactory completion of the following undergraduate courses with a course grade of C or better:

 Statistics, Nursing Research/Evidence Based Practice, and Health Assessment (as separate courses or integrated concept).

Pathophysiology is highly recommended for the nurse practitioner concentrations.

 Applicants must submit a copy of current unencumbered Registered Nurse license with privileges to practice in any state where practicum hours will be completed. Applicant

- should not be on probation and must report any past or current disciplinary action taken by a State Regulatory Board directly to the Dean of the School of Nursing.
- 6. Submit a personal essay- prompt provided by the Office of Admissions.
- 7. Optional Interview.
- 8. Submit a current curriculum vitae demonstrating professional endeavors and accomplishments, education, career, experience, professional memberships, community service/volunteer/military experience.
- 9. Submit names and emails of two recommenders. Prefer at least one academic and one professional. (Note: Applicants for guaranteed admission to the MSN program must submit the names and emails of three recommenders. See below for details.)

Students completing a BSN degree from King University may apply for guaranteed admission to a MSN program during the final semester of the BSN program. Students applying for guaranteed admission must meet the following admission criteria in addition to those listed above:

- 1. A minimum cumulative undergraduate grade point average of 3.5/4.0 or higher.
- 2. Application must include two academic and one professional recommendation.
- 3. The student will have received no academic sanctions during the BSN program.

Guaranteed admission is contingent on time of application and seats available per semester.

All students should be computer literate with ability to send and download attachments, conduct database searches, and possess competence in word processing, spreadsheets, presentation software with voice-over or screencasting ability.

An applicant who lacks one or more of the admission criteria will be reviewed by the MSN Admissions Committee on an individual basis and may be considered for admission with conditional status.

MSN students may transfer up to **six (6) credits** of approved graduate study from another accredited

institution and program to be credited toward core or elective program requirements at King.

Courses being transferred must have been assigned a grade of B or higher and must have covered content which is required for a particular core course or specialty program concentration. To request transfer credit, the student must obtain the Authorization for Acceptance of Prior Graduate/Doctoral Work form from the Office of Registration and Records. This completed form, along with an official transcript verification of the course and course description must be submitted to the Office of Registration and Records, which will be reviewed by School of Nursing faculty. When authorization of acceptance is given, the Office of Registration and Records will be notified.

Doctor of Nursing Practice (DNP) Application Packet Requirements

- Submit a completed application for admission to King University (www.king.edu/apply).
- 2. Submit official transcripts of all academic work.
 - a. A baccalaureate and master's degree in nursing with a GPA of 3.25 or higher from a program accredited by the Accreditation Commission for Nursing Education (ACNE) or the Commission on Collegiate Nursing Education (CCNE) is required. Other master's degrees from an accredited university to include but not limited to a Master's in Business Administration, a Master's in Public Health, a Master's in Health Education, or a Master's in Health Education will also be considered.
- 3. Submit a 300-word essay describing the reason for seeking a DNP completed in current APA format.
- 4. Submit a narrative description of past and current clinical practice.
- 5. Submit a 500-750 word proposal identifying an evidence-based practice problem—this may be a practice improvement issue, a clinical management problem, or an area of clinical research that the applicant will address while in the program. The essay must identify key

- resources necessary to complete the project and completed in current APA format.
- 6. Submit a current curriculum vitae demonstrating professional endeavors and accomplishments, education, career, experience, professional memberships, community service/volunteer/military experience and professional scholarly accomplishments.
- 7. Applicants must submit a copy of their current unencumbered Registered Nurse license with privileges to practice in any state where practicum hours will be completed. Applicant should not be on probation and must report any past or current disciplinary action taken by a State Regulatory Board directly to the Dean of the School of Nursing.
- 8. Submit a copy of advanced practice nursing license and specialty certification, if applicable.
- 9. Submit verification of *Post-Baccalaureate* Clinical and *Practice Hours* document completed by the candidate's graduate nurse program.
- 10. Admission exam is not required, but GRE scores may be submitted.
- 11. Provide the names and email addresses of three recommenders. At least one should be from a former dean or academic faculty and one from a current or former supervisor.
- 12. Participate in a face-to-face or electronic interview with nursing faculty, which will include an impromptu writing sample.
- 13. It is highly recommended, but not required, to provide evidence of the successful completion of a graduate level statistics course within five (5) years prior to program matriculation.

All students should be computer literate, with the ability to send and download attachments, conduct database searches, and possess competence in word processing, spreadsheets, and presentation software with voiceover or screencasting ability.

International Students

For international application and F-1 VISA information, please see the *International Students Policy* in the Admissions Policies section of this catalog.

Application Timeline: Applications for admission will be accepted starting January 1 and will continue through *June 1* prior to the desired fall semester start date. Early application is encouraged in order to qualify for financial aid.

The DNP Admissions Committee will review all complete applications, select the candidates who meet the set criteria and rank them based on their ability to successfully complete the program. After evaluation of the candidates' files, the DNP Admissions Committee will schedule interviews and administer timed writing samples with the candidates. Once interviews and writing samples are complete, the DNP admissions committee will assign an admission status to each applicant. The admission status will be one of the following:

1. Admitted

The student meets or exceeds all required admissions criteria and, therefore, is fully admitted to the DNP program without any conditions.

2. Provisionally Admitted

The Committee may grant provisional admittance to applicants who do not yet meet all of the admission requirements (anticipated completion of a final semester of a degree program or a single course) but have been able to demonstrate they have been academically successful in the past. The DNP Admissions Committee will work with such students to develop an action plan and timeline for achieving the admitted status.

3. Conditionally Admitted

The student does not meet the minimum grade point average admission requirement; however, the DNP Admissions Committee will permit the candidate to enter the program as long as the agreed upon conditions are satisfactory met by the student. A signed learning contract is required for this level of acceptance.

4. Admission Denied

The DNP Admissions Committee believes the applicant is not likely to succeed in the DNP program; therefore, the committee will deny acceptance.

The DNP Admissions Committee typically makes its decision within two weeks after the application submission deadline. The Admissions Office will

notify applicants of the status of the DNP Admissions Committee review in writing or by email.

The DNP program is an academically rigorous program developed to prepare nursing leaders who integrate Christian faith, scholarship, service, and career into their daily lives. King University seeks students who desire lifelong learning in a Christian environment. Admission to the DNP program is competitive but does not focus on a single factor to determine the best candidates. Decisions for admission will be based on demonstrated academic achievements, work history and performance, leadership ability, community involvement, writing ability, and the ability to successfully develop, implement and evaluate a translational research project.

Upon acceptance to the DNP program, a student wishing to transfer courses from other institutions for credit may request that completed doctoral course work be considered for transfer. A maximum of six (6) semester credit hours may be transferred in. To be considered for transfer credit, a course must have been taken for doctoral credit and must carry a grade of B or better. Courses considered for transfer credit must be from an accredited college or university program. Clinical coursework and courses graded as pass/fail cannot transfer.

To request transfer credit, the student must obtain the Authorization for Acceptance of Prior Graduate/
Doctoral Work form from the Office of Registration and Records. This completed form, along with an official transcript verification of the course and course description must be submitted to the Office of Registration and Records, which will be reviewed by School of Nursing faculty. When authorization of acceptance is given, the Office of Registration and Records will be notified.

INTERNATIONAL STUDENTS

International students applying to King University are required to submit a completed International Student Application form along with a non-refundable \$50.00 application fee. This application is available from the King University Office of

Admissions and is also available at http://admissions.king.edu.

In addition to meeting all of the undergraduate admissions requirements listed in the Catalog, King University requires a Test of English as a Foreign Language (TOEFL) score of at least 563 (paper), 223 (computer), or 84 (Internet) or an International English Language Testing System (IELTS) score of 6 for admission. Please note, based on the Student and Exchange Visitor Program (SEVP) Policy Guidance S13.1 (Conditional Admission) applicable to 8 CFR 214.3(k), SEVP regulations prohibit the issuance of a FORM I-20 based on conditional admission.

International students desiring F-1 student status are required by the United States Citizen and Immigration Services (USCIS) to provide to the institution:

- 1. A completed and notarized *Sponsor's Statement* of *Financial Support* along with financial documents (no more than six-months old) proving financial ability;
- 2. Original official transcripts of all high school and college/university grades and courses;
- Official transcript evaluation and translation document from an approved foreign credit transcript evaluation service;
- 4. Official TOEFL test scores or IELTS test score;
- 5. Official English translations of all documents (e.g. bank statements, immunization forms, etc.) related to the admissions process.

When all of the documents described have been received, the application will be processed. Accepted applicants must make an enrollment deposit equivalent to the cost of tuition, fees, room, and board for one semester and liability insurance for one year. Upon receipt of the deposit, the student will be issued an I-20, Certificate of Eligibility for Nonimmigrant (F-1) Student Status.

APPLYING FOR READMISSION TO KING

A student who desires to return to King University after not being enrolled for at least one semester may apply for readmission. Applicants must apply for admission by completing the admissions application at www.king.edu/apply.

A student's account must be clear of all holds from the following offices:

- Academic Affairs / Office of Registration and Records
- Business Office
- Financial Aid Office
- Security Office
- Student Affairs Office

The student will be notified by the Admissions Office should there be any holds on their account preventing readmittance. It is the responsibility of the student to contact the appropriate office to resolve any outstanding issues once notified. All outside transcripts must be supplied to the Office of Registration and Records prior to registration. Students may not register for courses or attend classes if they have any outstanding transcripts. The transcripts must be official and show no coursework as in progress. Students may receive transfer credit for courses that correspond or are equivalent to courses taught at King.

To determine whether a student's catalog requirements will change or if course credits taken previously at King may expire, please review catalog policy *Time Limit for Completion of Degree Requirements* in the Academic Policies section of the catalog.

Undergraduate

An undergraduate student who left King in good academic standing may be considered for readmission with a cumulative grade point average of 2.0 or higher in coursework completed at all institutions.

Graduate

A graduate student who left King in good academic standing may be considered for readmission with a cumulative grade point average of 3.0 or higher in coursework completed at all institutions.

Readmission to a Specific Program

Some academic schools may require additional approvals for readmission to specific programs. For more information on re-admitting to a specific program, please contact the Office of Admissions.

Readmission Following Academic Suspension or Dismissal due to a Student Conduct Violation

A student who has been academically suspended or dismissed due to a student conduct violation may apply for readmission by observing the following procedures:

- 1. Complete the application for readmission and official transcripts for any course work completed while away from King.
- 2. Submit a statement, of approximately 300 words, that addresses why you desire to return to King and steps you plan to take to be successful in completing your plan of study.
 - Students who were dismissed for conduct reasons will be reviewed by the Office of Students Affairs/Dean of Students. Careful analysis of the student's attitude, desire to return to the University, perception of the student's probability of success, and review of the student's conduct records will be weighed in making the decision of whether to allow the student to be readmitted.
 - Students who were suspended for failing to meet academic standards will be reviewed by the Office of Academic Affairs. This review will include a review of the student's prior academic record as well as any coursework completed while away from King. Students who are readmitted will be placed on Academic Probation and must meet the terms of academic probation to continue at King. Should a student who was previously academically suspended be academically suspended a second time, they are no longer eligible to apply for readmission.
- 3. Clear any and all holds on your student account from the following offices:
 - Academic Affairs Office
 - Business Office
 - Financial Aid Office
 - Security Office
 - Student Affairs Office

Readmission Following Military Leave

Students called to active duty because of military mobilization will have their academic progress disrupted. If the student is a dependent of a service member or the spouse of a service member who is called to active duty, the student will send a copy of

military orders to the School Certifying Official for Veteran Benefits. For information regarding returning to the University following military leave, please reference the *Military Benefits* policy within the *Financial Information* section of the catalog.

PART-TIME STUDENTS

A student who desires to become a degree candidate but not enroll as a full-time student may apply for admission as a part-time regular student. Applications are processed in the same manner as those for fulltime students.

NON-DEGREE SEEKING STUDENTS

Non-degree enrollment status is designed for students who wish to take courses but do not plan to pursue a degree. Non-degree seeking students are not eligible for institutional scholarships or state or federal financial aid. Except in rare cases with strong academic rationale and with approval of the President or Provost, non-degree students may not participate in intercollegiate athletics. Non-degree seeking students may take a maximum of two undergraduate courses per semester. A maximum of two courses may be taken at the graduate level as a non-degree seeking student. See the Non-Degree Seeking section under the Financial Information section for explanation of charges.

Non-degree seeking students must apply for nondegree seeking admission by completing an application at king.edu/apply and submit the appropriate documentation. To take an undergraduate course as a non-degree seeking student, applicants must submit a high school transcript showing degree conferral or GED/HiSET scores. To take a graduate course as a non-degree seeking student, applicants must submit a transcript showing undergraduate degree conferral. Enrollment as a non-degree student does not guarantee regular admission to the University. The University reserves the right to refuse admission to any applicant if the University, in its sole discretion, determines that the applicant does not have the ability to benefit from the University's instruction or that it is in the best interest of the University or the applicant to do so.

[Note: See Dual Enrollment and Lifelong Learners for admission requirements for those programs.]

DUAL ENROLLMENT STUDENTS

A high school student who desires to take college level coursework while still enrolled in high school may apply as a Dual Enrollment student. Dual Enrollment is for high school juniors (11th grade) and seniors (12th grade) who have a minimum 3.0 cumulative GPA.

Admission Requirements

A completed Dual Enrollment Application including:

- The Application for Dual Enrollment
- Recommendation from a high school principal, guidance counselor, or parent if home schooled. A signature on the application form is required.
- Official high school transcript.
- Parent release form. This must be signed by the parent and student. Applicants over the age of 18 are not required to have a parent signature.

Applications with missing signatures, missing class numbers, etc., will not be processed until completed. The student will be contacted by the Admissions Representative if there are things missing.

Deadline for Applications - All application materials must be received and processed by the Friday before the first day of classes for the semester.

A new Application for Dual Enrollment and Dual Enrollment Grant form must be submitted each semester. The Dual Enrollment Grant must be completed online.

Payment arrangements to cover the course cost must be made prior to the start of classes. For more information, please see the Financial Policies section of this catalog.

Deadline for Registration – Registration for dual enrollment students opens on the Friday of registration week each semester. Please refer to the academic calendar for specific dates. The last day to

register is the Friday before the first day of classes for the semester.

For more detailed information about Dual Enrollment at King University, including application, course cost, grant opportunities, refund policy, and registration dates, please visit www.king.edu/dualenrollment.

TRADITIONAL STUDENT AND ADULT AND GRADUATE STUDIES COST STRUCTURE

Traditional Cost Structure

The cost of attending King University includes tuition, a comprehensive fee, the cost of books and course materials, and personal expenses which will vary.

For the 2023-2024 academic year, the cost structure for full-time students carrying a normal load, between 12 and 20 hours, excluding any special course fees, is:

Academic Year 2023-2024

	<u>Semester</u>	<u>Year</u>	
Full-Time Tuition	\$16,451	\$32,902	
Comprehensive Fee	\$949	\$1,898	
Add for Boarding Student:			
Room*	\$2,577	\$5,154	
Board	<u>\$2,554</u>	\$5,108	
Total	\$22,531	\$45,062	

^{*}Plus a one-time \$100.00 damage deposit

NOTE: Room in Hyde Hall: \$2,677/semester

All students taking 12 hours or more, regardless of academic classification, shall pay tuition and the comprehensive fees of a full-time student. Financial Aid may be applied to the tuition and fees of degree-seeking students only.

The costs of attending Summer Term are:	
Tuition (per semester hour)\$	125
Room (per month)\$	340

Adult and Graduate Studies Cost Structure

For the 2023-2024 academic year, tuition pricing is as follows:

AGS Program	Cost per s.h.
AA	\$305
BA: English	\$305
BA: IDST-Elementary Education	\$305/online
	\$290/face-to-face
BBA	\$305
BS: Accounting	\$305

DC Criminal Institut	¢205	
BS: Criminal Justice	\$305	
BS: Healthcare Administration	\$305	
BS: History	\$305	
BS: Information Technology	\$305	
BS: Psychology	\$305	
BS: Religious Studies	\$305	
BSN: Nursing (RN-BSN)	\$330	
BSW	\$305	
Post-Baccalaureate English as a	\$365	
Second Language		
Post-Baccalaureate Special	\$365	
Education		
Professional MBA	\$605	
Traditional MBA	\$6500 per	
	semester

Nurse Practitioner		
MSW	\$610	
MSN Post-Graduate Certificate		
Family Nurse Practitioner	\$605	
Nurse Educator	\$605	
Psychiatric Mental Health Nurse	\$680	
Practitioner		
DNP	\$750	

ADDITIONAL AND PART-TIME FEES

Dual Enrollment Students

Students are charged \$110 per semester hour. Books and supplies are not included in this charge and are the responsibility of the student. Summer classes are charged at the standard summer rate and the student is enrolled as a non-degree seeking student.

Payment for the full amount of the course is expected by the tuition due date. Payments are accepted in the form of cash, checks, credit card, or online payments at https://payments.king.edu. There is a 2.9% fee for all credit card payments.

A late fee of \$100 will be charged to all accounts with an outstanding balance greater than \$500 by the first day of the semester.

Information about the TN Dual Enrolment Grant can be found in the Financial Aid Policies section of this catalog.

Part-Time Traditional Degree Seeking Students

Students working towards a degree will be charged \$600 per semester hour for all hours up to but not including 12 hours. Part-time students pay a \$120 comprehensive fee.

Non-Degree Seeking Students

Non-degree enrollment status is designed for students who wish to take courses but do not plan to pursue a degree. Non-degree students do not qualify for financial aid and are considered to be part-time.

• Undergraduate Courses:

Students who are not working toward a degree will be charged the published program rate and are limited to a maximum of two undergraduate courses per semester. If a student takes courses in different programs the higher program rate will prevail for all courses, regardless of level.

Graduate Courses:

Students who are not working toward a degree will be charged the published program rate. Non-degree seeking students are limited to a maximum of two graduate courses.* If a student takes courses in different programs the higher program rate will prevail for all courses, regardless of level.

*Students completing an additional MBA concentration will be permitted to enroll as non-degree seeking students in the three graduate courses required for the concentration. Those students will be charged the MBA-Online program rate for all courses.

Lifelong Learners

King University offers a select set of collegiate courses for adults aged 60 and over. Adult learners audit noncredit classes at King's main campus in Bristol, Tennessee, free of charge.

SPECIAL FEES AND CHARGES

Special fees and charges are not eligible for payment through institutional financial aid. Those are:

• Audit Fees

Students auditing a course; that is, attending a class as a listener receiving no credit; will be charged \$70 for each semester hour scheduled. An audit fee will not be charged to a student already paying the fees of a full-time student. Audit fees are not refundable.

Background Check

Students majoring in Education, Nursing, and Social Work are required to complete a Background Check to meet the standards of the clinical agencies associated with the field of study. Students are responsible for all fees associated with the background check. There is a \$65 fee for each background check.

Nursing students in the following programs are required to complete a background check upon admission to the program: pre-licensure BSN, RN-BSN, MSN, post-MSN certificates and DNP. Students may be required to complete additional background checks per clinical agency protocol.

• Business Principles (PMBA):

Professional MBA students who do not have undergraduate coursework in Statistics, Accounting, Economics, Finance, or Marketing will be asked to enroll in two-week online Business Principles seminars to be completed concurrently with the MBA major coursework. These seminars are offered in the aforementioned subject areas and provide the student with a basic understanding of the subject matter prior to enrolling in a graduate-level course. The fee is \$150 per course.

Note: This fee is not covered by VA Benefits

• Graduation Fee

A one-time fee is required of all graduating students as follows:

Associate Candidates \$125 Bachelors Candidates \$125

Certificate Candidates \$175 Masters Candidates \$175 Doctoral Candidates \$250

Note: The fee is not refunded for students not participating in the graduation ceremony.

• Laboratory Science Breakage Fee

The cost of science laboratory breakage will be paid by the student as determined by the course instructor.

• Late Fees

A late fee of \$100 will be charged to all accounts with an outstanding balance of \$500 or higher by the first day of the semester. To avoid cancellation of the student's registration and enrollment, their account must either be paid in full by the designated due date, have payment arrangements made by secured financial aid, be enrolled in the payment plan, or have employer reimbursement documents submitted to the Business Office. *Note: This fee is not covered by VA Benefits*

• Music Fee

A fee of \$350 per semester is charged for registration for applied music courses. The course fee is non-refundable after the first 10 days of class. A fee waiver is available to Music and Music Education majors/minors for the second applied music course taken during a single semester. Students taking three or more applied music courses to fulfill major requirements will only have one course fee waived.

• Online Tech Fees

A \$100 fee is charged for each online course for Adult and Graduate Studies students.

• Overload Fee

There is an additional charge of \$300 for each semester hour taken above twenty (prorated for fractional hours). Overload fees are not refundable. Please see Limitation of Hours policy.

Note: This fee is not covered by VA Benefits

Private Residence Hall Room Fees A student may request a private room for an

additional fee: \$200 per semester for single room occupancy and \$350 per semester for double-room occupancy.

Note: This fee is not covered by VA Benefits

• Residence Hall Room Deposit

When a room deposit is paid during the Spring semester for the upcoming Fall semester, the student may cancel and request a refund by the last business day of May. When a room deposit is paid during the Fall semester for the upcoming Spring semester, a refund must be requested by January 1. Otherwise the room deposit is non-refundable.

Note: This fee is not covered by VA Benefits

• Residence Hall Damage Deposit

A damage deposit of \$100 must be paid by each resident student. Damages for which the student is held responsible will be charged annually against the student's account. There must always be a \$100 deposit on the account. Upon final residency at King University the \$100 deposit, less any charges for the year, will be returned.

Note: This fee is not covered by VA Benefits

• Teacher Education Fees

A per-semester fee of \$150 is charged for all students enrolled in a semester-long clinical experience. This applies to undergraduate, post-baccalaureate, and graduate programs in the School of Education. It does not apply to practicums, internships, and observations which total less than 150 on-site hours per semester.

• Vehicle Registration

All students must register their vehicle online via the Student Portal. There is an \$80 parking fee for the year for Traditional students. For students bringing a vehicle for the Spring semester only, there is a \$40 fee. There is no charge for Adult and Graduate Studies students.

Note: This fee is not covered by VA Benefits

• Nursing Fees

Students in the nursing programs will be charged fees to cover program and/or course

supplies and resources. Program fees are outlined below:

Pre-licensure BSN Fees

- 1. \$65 Background Check Fee Charged upon admission to the program. Students may be required to complete additional background checks per clinical agency protocol.
- 2. \$475 Clinical lab supplies, electronic testing, and course materials Charged upon registration to the program. *Nonrefundable*.
- 3. \$75 School of Nursing Documentation Feecharged upon registration to the program.
- 4. Drug Screen Fee- All students are required to complete a drug screen upon admission to the program and as required per clinical agency protocol. Drug screens must be completed through the clinical documentation management system. Initial drug screens are included in the School of Nursing documentation fee. Each additional drug screen cost is \$40.
- \$200 NCLEX Prep- Charged when registered for NURS 4200. An additional \$50 is charged if NURS 4200 is repeated.
- 6. \$756 Licensure Exam Preparation Software- Charged each semester
- 7. Liability Insurance Fee (included in first semester clinical fees)- One-time fee for liability insurance charged during a student's first semester of enrollment in nursing courses. King assumes no responsibility for students' employment or volunteer activities. If a student is employed as a nurse or other health care worker independent of his or her student role, the University has neither insurance nor responsibility. Legal liability is the responsibility of the student.

RN-BSN Fees

- \$65 Background Check Fee Charged upon admission to the program. Students may be required to complete additional background checks per clinical agency protocol.
- 2. \$12 Research Resources- Charged each semester.
- 3. \$75 School of Nursing Documentation Fee-Charged upon registration to the program.
- **4. Drug Screen Fee-** All students are required to complete a drug screen upon admission to

- the program and as required per clinical agency protocol. Drug screens must be completed through the clinical documentation management system. Initial drug screens are included in the School of Nursing documentation fee. Each additional drug screen cost is \$40.
- 5. \$40 Liability Insurance Fee One-time fee for liability insurance charged during a student's first semester of enrollment in nursing courses. King assumes no responsibility for students' employment or volunteer activities. If a student is employed as a nurse or other health care worker independent of his or her student role, the University has neither insurance nor responsibility. Legal liability is the responsibility of the student.

MSN Fees

All MSN students are charged the following fees:

- \$65 Background Check Fee Charged upon admission to the program. Students may be required to complete additional background checks per clinical agency protocol.
- 2. \$12 Research Resources- Charged each semester.
- 3. \$75 School of Nursing Documentation Fee-Charged upon registration to the program
- 4. Drug Screen Fee- All students are required to complete a drug screen upon admission to the program and as required per clinical agency protocol. Drug screens must be completed through the clinical documentation management system. Initial drug screens are included in the School of Nursing documentation fee. Each additional drug screen cost is \$40.

Additional fees are applied based on the student's concentration. Those are outlined below.

Students in the <u>Family Nurse Practitioner (FNP)</u> Concentration are charged the following fees:

- 1. \$617 Clinical Skills and Certification Prep Charged upon registration to the program.
- 2. \$275 Health Assessment Kits Charged upon registration to 5004
- **3.** \$100 Clinical Encounter Fee Charged upon registration to the program.

- 4. \$1000 Advanced Practice Nursing Administration Fee Charged upon registration to 5018, 5019, 5023, 5024
- 5. \$65 Liability Insurance Fee One-time fee for liability insurance charged during a student's first semester of enrollment in nursing courses. King assumes no responsibility for students' employment or volunteer activities. If a student is employed as a nurse or other health care worker independent of his or her student role, the University has neither insurance nor responsibility. Legal liability is the responsibility of the student.

Students in the <u>Nurse Leader and Administration (NLA)</u> Concentration are charged the following fees:

1. \$65 Liability Insurance Fee - One-time fee for liability insurance charged during a student's first semester of enrollment in nursing courses. King assumes no responsibility for students' employment or volunteer activities. If a student is employed as a nurse or other health care worker independent of his or her student role, the University has neither insurance nor responsibility. Legal liability is the responsibility of the student.

Students in the <u>Psychiatric Mental Health Nurse</u> <u>Practitioner (PMHNP)</u> Concentration are charged the following fees:

- 1. \$617 Clinical Skills and Certification Prep Charged upon registration to the program.
- 2. \$275 Health Assessment Kits- Charged upon registration to 5004
- **3.** \$100 Clinical Encounter Fee- Charged upon registration to the program.
- 4. \$2000 Advanced Practice Nursing Administrative Fee Charged upon registration to 5078, 5079
- 5. \$65 Liability Insurance Fee One-time fee for liability insurance charged during a student's first semester of enrollment in nursing courses. King assumes no responsibility for students' employment or volunteer activities. If a student is employed as a nurse or other health care worker independent of his or her student role, the University has neither

insurance nor responsibility. Legal liability is the responsibility of the student.

Students in the <u>Pediatric Nurse Practitioner (PNP)</u> Concentration are charged the following fees:

- 1. \$275 Health Assessment Kits Charged upon registration to 5004
- 2. \$100 Clinical Encounter Fee Charged upon registration to the program.
- 3. \$1000 Advanced Practice Nursing Administrative Fee Charged upon registration to 5018, 5021, 5023, 5025
- 4. \$65 Liability Insurance Fee One-time fee for liability insurance charged during a student's first semester of enrollment in nursing courses. King assumes no responsibility for students' employment or volunteer activities. If a student is employed as a nurse or other health care worker independent of his or her student role, the University has neither insurance nor responsibility. Legal liability is the responsibility of the student.

Post-Graduate MSN Fees

All Post-Graduate Nursing students are charged the following fees:

- 1. \$65 Background Check Fee Charged upon admission to the program. Students may be required to complete additional background checks per clinical agency protocol.
- 2. \$12 Research Resources Charged each semester.
- 3. \$75 School of Nursing Documentation Fee Charged upon registration to the program
- 4. Drug Screen Fee All students are required to complete a drug screen upon admission to the program and as required per clinical agency protocol. Drug screens must be completed through the clinical documentation management system. Initial drug screens are included in the School of Nursing documentation fee. Each additional drug screen cost is \$40.

Additional fees are applied based on the student's program. Those are outlined below.

Students in the <u>Post-Graduate Family Nurse Practitioner</u> program are charged the following fees:

- 1. \$617 Clinical Skills and Certification Prep Charged upon registration to the program.
- 2. \$100 Clinical Encounter Fee Charged upon registration to the program.
- 3. \$1000 Advanced Practice Nursing Administrative Fee Charged upon registration to 5018, 5019, 5023, 5024
- 4. \$65 Liability Insurance Fee One-time fee for liability insurance charged during a student's first semester of enrollment in nursing courses. King assumes no responsibility for students' employment or volunteer activities. If a student is employed as a nurse or other health care worker independent of his or her student role, the University has neither insurance nor responsibility. Legal liability is the responsibility of the student.

Students in the <u>Post-Graduate Nurse Educator</u> program are charged the following fees:

- 1. \$275 Health Assessment Kits- Charged upon registration to 5004
- 2. \$65 Liability Insurance Fee- One-time fee for liability insurance charged during a student's first semester of enrollment in nursing courses. King assumes no responsibility for students' employment or volunteer activities. If a student is employed as a nurse or other health care worker independent of his or her student role, the University has neither insurance nor responsibility. Legal liability is the responsibility of the student.

Students in the <u>Post-Graduate Psychiatric Mental Health</u> <u>Nurse Practitioner</u> program are charged the following fees:

- 1. \$617 Clinical Skills and Certification Prep Charged upon registration to the program.
- 2. \$100 Clinical Encounter Fee Charged upon registration to the program.
- 3. \$2000 Advanced Practice Nursing Administrative Fee Charged upon registration to 5078, 5079
- 4. \$65 Liability Insurance Fee- One-time fee for liability insurance charged during a student's first semester of enrollment in nursing courses. King assumes no responsibility for students' employment or volunteer activities.

If a student is employed as a nurse or other health care worker independent of his or her student role, the University has neither insurance nor responsibility. Legal liability is the responsibility of the student.

DNP Fees

- \$12 Research Resources Charged each semester.
- 2. \$65 Background Check Fee Charged upon admission to the program. Students may be required to complete additional background checks per clinical agency protocol.
- **3.** \$75 School of Nursing Documentation Fee-Charged upon registration to the program.
- 4. Drug Screen Fee- All students are required to complete a drug screen upon admission to the program and as required per clinical agency protocol. Drug screens must be completed through the clinical documentation management system. Initial drug screens are included in the School of Nursing documentation fee. Each additional drug screen cost is \$40.
- 5. \$65 Liability Insurance Fee- One-time fee for liability insurance charged during a student's first semester of enrollment in nursing courses. King assumes no responsibility for students' employment or volunteer activities. If a student is employed as a nurse or other health care worker independent of his or her student role, the University has neither insurance nor responsibility. Legal liability is the responsibility of the student.

GENERAL FINANCIAL INFORMATION

All tuition and fee charges must be paid by the tuition due date, no later than the first day of the semester. No official academic credentials (grades, transcripts of record, or diploma) will be issued to the student until all university bills are paid.

Students are responsible for all charges on the student account. The institution reserves the right to refer uncollected account balances to a collection agency. If a period of 60 days passes without any activity on an account with an unpaid balance, a 30-day notice letter is sent to the student. If no payment is received within the next 30 days, the account is

placed in collections. The student will be responsible for paying the collection fee, which may be based on a maximum percentage or up to 40% of the delinquent balance, together with all costs and expenses, including attorney fees for the collection of the unpaid balance. A delinquent account may be reported to major credit bureaus.

The general process of inflation, which produces an increased cost of living, bears a special weight on the Institution, and it is likely that this will necessitate an increase in student fees from time to time. Therefore, the institution reserves the right to change tuition and fee costs as well as deferred payment and collection procedures at any time.

All charges to students are subject to subsequent audit and verification. Errors will be corrected by appropriate additional charges or refunds.

Student Accident Insurance Policy

All full-time traditional undergraduate students attending King University are automatically enrolled in the *Student Accident Insurance Plan*. The fee for this coverage will be charged to the student's account and may NOT be waived. Additional information regarding the plan can be found on the student portal under My Finances.

Note: This fee is not covered by VA Benefits

Traditional Boarding Fees and Meals

All students living in university residence halls must pay boarding fees. There are two (2) Residential Meal Plans to choose from and plans include "Flex Dollars" which can be used in the *King's Den*. Information on these boarding and commuter plans and adding Flex Dollars, visit the Dining Hall or their website, www.metzking.com. Students with special dietary needs should contact the Director of Dining Services

Note: This fee is not covered by VA Benefits

Commuter and AGS Meal Plans

There are Meal Plans available and each plan includes "Flex Dollars" which can be used in the King's Den. Information on these plans can be obtained in the Dining Hall. Spring semester meal plans do not

transfer to a future semester. All commuter plans, if not used, are not refundable.

Note: This fee is not covered by VA Benefits

Payment Online

King University offers online services for your convenience in making payments on your student account. There is a 2.9% fee applied to all credit card payments. You may access the system at https://payments.king.edu.

A student will enter their last name and birthdate. The student will then enter credit card information, including expiration date and security code. Once a student clicks "submit," the payment will be credited to the student account the following business day.

Payment by Check

When paying by check, a student expressly authorizes their account to be electronically debited or bank drafted for the amount of the check plus any applicable fees. The use of a check for payment is acknowledgement and acceptance of this policy and its terms and conditions.

The institution reserves the right to charge a collection fee of \$25 on any returned check. Repeated returned checks will result in the loss of check cashing privileges in the Business Office.

Deferred Payment Plan

The institution offers as a service to students and their parents a deferred payment plan that is administered by a third party. The plan allows families to budget educational expenses in convenient monthly payments. There is no interest charged since this is not a loan. There is a non-refundable enrollment fee per semester charged by the payment plan provider. Monthly payments will be automatically debited from the designated bank account or charged to the designated credit card. Refer to the student portal for more information.

PAYMENT OF STUDENT ACCOUNTS

The Business Office will issue bills for the appropriate tuition and comprehensive fees to registered students approximately four to six weeks prior to the start of each semester. Failure to receive

a bill does not exempt a student from the timely payment of charges. Payments are accepted in the form of cash, checks, credit card, wire, payment plan, or online payments at https://payments.king.edu. There is a 2.9% fee for all credit card payments. To avoid any potential cancellation of registration each semester, all student accounts must either be paid in full by the designated due date, have payment arrangements made by secured financial aid, be enrolled in the payment plan, or be enrolled using employer reimbursement with the documents submitted to the Business Office.

Charges and Financial Aid awards shown on the Billing Statement are based on the student's account at that time. As changes occur in a student's registration, the charges and financial aid may fluctuate as well. Students must accept the financial aid award package for the aid to be reflected on the account.

Book Vouchers

Students with a credit balance on their accounts may request via the student portal a book credit voucher to be used to purchase textbooks through King University's third-party vendor. A credit balance occurs when all financial aid sources are fully processed, and the funds are received or accepted by the student. The book credits will be available approximately three weeks prior to the start of each semester. Individual availability is dependent on the completion of the award letter and the financial aid package.

REFUNDS

Refunds Of Tuition and Fees

If a student drops a course that has been verified, then the following tuition refund schedule will be followed.

Fifteen Week Course Refunds:

- 90% refund during week 1
- 75% refund during week 2
- No refund Week 3 & later

Modular Course Refunds: (Five, Seven or Eight Week Courses)

- 90% refund during week 1
- No refund Week 2 & later

*A modular course is shorter than full term and does not span the entire payment period of enrollment.

Refunds of Room and Board

When a student moves out of the residence hall during a term for which the student has been charged, a pro-rated refund of room and board charges will be made through the first eight weeks, based on the whole number of weeks remaining in the semester.

Refund of Credit Balances

A student's account reflects charges and fees, as well as payments and financial aid. When there is an excess of credit amounts greater than the debit amounts, a credit balance exists.

A federal credit balance (or Title IV credit balance) exists when the total amount of Title IV federal student aid exceeds the allowable charges for the semester.

When a credit balance exists on a student account, as the result of an overpayment or from financial aid funds, a refund may be available to the student by the 10th day of classes. Accounts are only eligible for refund after all grant or loan funds have been received and processed by the Financial Aid Office and the Business Office. An automatic refund will be issued if the credit balance is a Title IV credit balance.

To otherwise receive a refund, a student check request form must be submitted to the Business Office **each semester.** This form can be completed within the student portal. Refunds will be issued weekly.

When a student leaves the University and a credit balance remains on the student account, that balance will be applied to any institutional debt if applicable. Otherwise, the balance will be refunded to the student.

In cases where there is a conflict in policies and procedures, the following shall be the order of compliance: Federal regulations, state regulations, and lastly, King policies and procedures. For example, Section N of 8VAC40-31-160 (SCHEV Regulations) takes precedence over the University's refund policy unless the regulation conflicts with Federal regulations.

MILITARY EDUCATIONAL BENEFITS

VETERANS AFFAIRS (VA) BENEFITS

Applying for VA Educational Benefits

The admissions process and enrolling in classes must be completed before the University can certify enrollment; however, a student can apply for VA benefits before admittance to the University or enrolling in classes. The average processing time for education claims with the VA is 30 days.

If a student is a service member, veteran, or family member of a service member or veteran, he or she can apply for the Certificate of Eligibility (COE) by visiting the va.gov website.

Submission of the application will result in the issuance of a Certificate of Eligibility from the U.S. Department of Veterans Affairs. Students with questions or needing assistance completing the application should visit https://www.va.gov/education/ or contact the VA Education Call Center at 1-888-442-4551.

Certifying Process

Certification is the school's way of notifying VA that a student is enrolled and wishes to use VA Educational Benefits. Changes in enrollment may impact or delay eligibility. It is the student's responsibility to comply with all laws and regulations controlling eligibility and receipt of veterans' benefits. Tuition and fees are submitted to the VA, via the Enrollment Manager website and are based off the start and end date of each Module registered. King University is only responsible for forwarding the student's claim for benefits and certification of enrollment to the Department of Veterans Affairs, and that further processing on a claim of benefits is

controlled solely by the Department of Veterans Affairs. The chapter and percentage of benefits are based on the time of service and other factors evaluated by Veteran Affairs, which is noted on the student's Certification of Eligibility (COE).

The School's Certifying Official (SCO) will process certification of enrollment when the following documents have been submitted.

- Certificate of Eligibility (COE)
- Notice of Eligibility (NOBE)
- King University Veteran Enrollment Agreement
- Student Responsibility Form
- King University VA Enrollment Certification Request Form (submitted every semester)

Enrollment certifications will be processed no earlier than ten days before the start of a semester or module, and no later than 30 days after the semester or module starts.

Submission of Required Documents

To ensure that your information is submitted in a safe and secure format, King University has created a link within the student portal to upload any documents. The online submission will guarantee that your information is submitted in a safe and secure format. Therefore, **do not** email or fax copies of documents. Please make sure all information is complete and correct. Missing information will delay the certification process. All required documents are submitted through the student portal.

Financial Information

Tuition and eligible fees are submitted to the VA and are based on the start, and end date of each Module registered. The amount certified is the tuition and fees charged to the student after deducting any amount paid with Federal Funds, excluding Federal Financial Aid Programs (Title IV).

Examples of fees that are not allowed include, but are not limited to:

- Penalty fees (i.e., late registration, late course changes, returned checks, repeated courses)
- Add/drop course fees

- Fees for any food or lodging expenses, meal ticket fees
- Parking fees that are not required of every student
- Overload fees for course loads that require special permission
- Transportation/transit system fees that are not required of every student

An identifier hold will be placed on the student's account to show what chapter and percent of benefits the student is set to receive towards tuition and fees. No students will be monetarily or academically penalized due to late VA payments, according to PL 115-407 Section 103. VA payments are defined as money received at the institution to be paid toward tuition and eligible fees.

All VA students with the exception of Chapter 33-100% (Post 9/11) and Chapter 31 (Veteran Readiness and Employment) must pay the difference between the amount of the student's financial obligation and the amount of the VA education benefit disbursement before the first day of the semester. A late fee of \$100 will be charged to all accounts with an outstanding balance greater than \$500 by the first day of the semester.

Any covered individual will be able to attend or participate in the course of education during the period beginning on the date on which the individual provides to the educational institution a certificate of eligibility for entitlement to educational assistance under chapter 31 or 33 (a "certificate of eligibility" can also include a "Statement of Benefits" obtained from the Department of Veterans Affairs' (VA) website – eBenefits, or a chapter 31 authorization) and ending on the earlier of the following dates:

- 1. The date on which payment from VA is made to the institution.
- 2. 90 days after the date the institution certified tuition and fees following the receipt of the certificate of eligibility.

King University will not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrow additional funds, on any covered individual because of the individual's inability to meet his or her financial obligations to the institution due to the delayed disbursement funding from VA under chapter 31 or 33.

The Benefits certified by the University's School Certifying Official (SCO) are as follows:

Chapter 30: Montgomery G.I. Bill®¹ (Prior Active Duty)

- VA Form 22-1990 or VA form 22-1995 completed with the VA
- DD214 and Certificate of Eligibility (COE) must be submitted to the SCO and Financial Aid office.

Chapter 31: Veteran Readiness and Employment VA Form 28-1900 completed with the VR&E

Chapter 33: Post 9/11 G.I. Bill (Dependent) ®

- VA Form 22-1990 or VA Form 22-1995 completed with the VA
- Certificate of Eligibility (COE) must be submitted to the SCO and Financial Aid office
 - o <u>Chapter 33 Fiscal Issues</u>: Generally, overpayments of VA benefits are the responsibility of the student. However, there are instances under the Post-9/11 GI BILL® (Chapter 33) when an overpayment is created on a school, and funds need to be refunded to VA.

A debt is established at a school when:

- The student never verified for any classes for which he or she was certified regardless of the reason for non-verification.
- The student completely withdraws on or before the First Day of the Term (FDOT).
- The school received payment for the wrong student
- The school received a duplicate payment.

¹ GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at http://www.benefits.va.gov/gibill.

Policies—Financial Information

- The school submitted an amended enrollment certification, or an amendment in *Enrollment Manager*, and reported reduced tuition and fee charges, reduced "Yellow Ribbon" amount, or reduced both.
- The student died during the term, or before the start of the term.
- VA issued payment above the amount certified on the enrollment certification that was used to process the payment (VA data entry error).
 - The student withdraws after the first day of the term.
 - The student reduces hours whether the reduction occurred before or during the term.
- The school submitted a change in enrollment (on VA Form 22-1999b, or an Adjustment through *Enrollment Manager*) and reported a reduction in tuition, fees, and/or Yellow Ribbon due to student action reducing or terminating training.
- If a student drops a course and adds a course so that there is no net change in training time, any change to tuition, fees, and/or Yellow Ribbon.

Chapter 35: Survivors and Dependents

- VA Form 22-5490 or VA form 22-5495 completed with the VA
- Certificate of Eligibility (COE) must be submitted to the SCO and Financial Aid office

Chapter 1606: Montgomery Selected Reserve/National Guard

- VA Form 22-1990 or VA form 22-1995 completed with the VA
- Form 2384-1 Notice of Basic Eligibility (NOBE) and Certificate of Eligibility (COE) must be submitted to the SCO and Financial Aid office

For assistance on the GoArmyEd website, students may call the helpdesk at 1-800-817-9990 (https://www.goarmyed.com/).

ACTIVE DUTY BENEFITS

Active Duty Discount

Qualified active duty military students and their spouses are eligible to receive a tuition discount upon submission of qualifying military documentation.

What programs are eligible for the discount?

For adult study undergraduate programs (Associates and Bachelors), the tuition rate is discounted to \$250 per credit hour.

Eligibility

Students who meet any of the below criteria may qualify for the discounted tuition rate:

- Active Duty
- Reserve/National Guard
- Spouses of Service Members

Please Note:

- Service members of the U.S. Armed Forces qualify after basic training has been completed (as defined in 10 U.S.C. § 101(a)(4)).
- The discount is only awarded once acceptable documentation is received and approved.
 Benefits are not awarded retroactively.

Verification of Military status:

- Service Members can submit a Tuition Assistance authorization form or request, an End of Month LES from the last 3 months, the most recent set of Military Orders, a signed and dated letter on an official letterhead from a Commanding Officer containing branch of service, current status, and rank, or an Enlisted/Officer Record Brief from within the last year.
- Military Spouses should submit a copy of your Marriage Certificate or License and one of your spouse's military documents.

Please note: Due to government regulations, we are unable to accept Military Identification cards for verification of military service or personal identification. Federal law prohibits copying or reproducing military IDs in any way. You may blackout classified information (Social Security Number, License Number, etc.) on orders, LES, or other military documents submitted.

TN Strong Act

This is a tuition assistance program that provides reimbursement to an educational institution on behalf of eligible members of the Tennessee National

Policies—Financial Information

Guard. The reimbursement will be in the amount equal to 100% of the maximum resident undergraduate In-State tuition charged by the post-secondary institution member attends. Since this program pays 100% of the tuition, students who are awarded through this program are not eligible for any institutional scholarships or grants at King University.

This program will fund no more than 120 credit hours or 8 full-time semesters or equivalent towards an associate's or first bachelor's degree TN National Guard members can apply for this program but must have not missed a ship date to successfully complete basic military training prior to course start date.

Must maintain satisfactory academic progress with a 2.0 GPA minimum for the academic term for which STRONG Act tuition reimbursement is being sought. A failing grade 'F' will not be paid if only one course is taken. Application packets are required to be completed within (90) days of course completion.

Application packets consist of several items; once prepared, the initial application packet is submitted for Commander's Review and Recommendation. Course/ degree plans from the chosen post-secondary institution will be required as part of the application packet after the completion of nine (9) credit hours or equivalent using the STRONG Act tuition reimbursement.

Members will sign a released statement to authorize communication between State TA Managers and chosen postsecondary institution on members' behalf. Students are responsible for ensuring final grades are forwarded to the State TA Manager.

This constitutes a complete application packet. Only complete packets will be considered for TN STRONG Act tuition reimbursement.

Payments will be made directly to post-secondary institutions on behalf of the member.

To apply for TN Strong visit the TN Department of Military site at https://www.tn.gov/military.html

Students receiving TN Strong will need to submit the following:

- Copy of TN Strong Application that has been submitted
- King University TN Strong Deferment request
- King University Veteran Enrollment Agreement
- Student Responsibility Form
- King University VA Enrollment Certification Request Form (submitted every semester)

Student Responsibility: Once the application packet is complete, upload as one document and email to either Air or Army mailboxes relevant to your branch of service. The student will also send a copy of the final application to VeteranBenefits@king.edu for their VA File.

Tuition Assistance

Tuition Assistance (TA) is a benefit offered to service members to assist with the cost of tuition. TA typically covers 100% of tuition, up to the \$250 cap per credit hour. The AGS undergraduate tuition rate is reduced to \$250 per credit hour. For additional information on tuition assistance visit https://www.military-onesource.mil or contact the Educational Services Office for your branch of service.

Service members must receive approval from their Educational Services Officer (ESO) or counselor within the specific Military Service prior to enrolling at King University.

Refunds for Tuition Assistance

Please see the policy titled Refunds of Tuition and Fees for more details on the refund schedule if a student drops a course that has been verified.

For a student who receives Tuition Assistance (TA) funding, the Department of Defense requires information on three touchpoints of tuition refunds:

- The point that tuition refund is no longer 100%;
- The point that tuition refund is 0%;
- The amount of the refund when the course 60% complete.

Policies—Financial Information

The table below outlines these three touchpoints for each module length:

5 week module				
Week	% Complete	% Returned		
1	20%	90%		
2	40%	0%		
3	60%	0%		

7 week module			
Week	% Complete	% Returned	
1	14%	90%	
2	29%	0%	
4.5	60%	0%	

8 week module			
Week	% Complete	% Returned	
1	13%	90%	
2	25%	0%	
4.8	60%	0%	

15 week module				
Week	% Complete	% Returned		
1	7%	90%		
3	20%	0%		
9	60%	0%		

Military Leave

Students called to active duty because of military mobilization will have their academic progress disrupted. If the student is a dependent of a service member or the spouse of a service member who is called to active duty, the student will send a copy of military orders to the School Certifying Official for Veteran Benefits. To assist students during unexpected military leave, the University will follow the guidelines below:

• Academic

The student withdrawing because of military mobilization shall be withdrawn without penalty (grade of W) and the reason for withdrawal shall be documented in the student's academic record. Individuals

withdrawing close to the end of the term at the discretion of the Provost and the course instructor may be permitted to complete the course.

• Financial

The student shall incur no personal out of pocket financial liability to King University as a result of being called to active military duty. When the withdrawal date is determined, the withdrawal policies will be applied, and the calculation performed. All balances still owed by the student will be cancelled, and all money paid by the student out of pocket will be refunded.

• Readmission

When the military obligation has been satisfied, the student may be re-enrolled at King University by completing the readmission process. The student's academic standing will be the same as it was at the beginning of the term during which the student left for military duty.

There will be no negative satisfactory progress repercussions for withdrawal due to being called for active duty. All academic scholarships controlled by the University at the time of withdrawal will be reinstated if the student is re-enrolled.

<u>NOTE</u>: For information on refund and repayment policies at King University, see catalog section entitled, *Refunds*.

REQUIREMENTS FOR FINANCIAL AID

A completed application for financial aid at King University includes the following:

- 1. Apply for admission to King University and be accepted as a degree-seeking student.
- 2. Complete the Free Application for Federal Student Aid (FAFSA) to determine eligibility of Title IV aid (i.e. federal grants and loans), TN state aid and some institutional aid.
- 3. The FAFSA is available as of October 1 each year at www.studentaid.gov . Students are encouraged to apply as early as possible to meet priority deadlines. Applicants should list King University's federal school code of 003496.

SOURCES OF FINANCIAL AID

Over \$50,000,000 in total financial assistance is made available each year to King students. Most students will be offered a combination of grants, scholarships, and loans. Work-study opportunities on the Bristol campus are available on a limited basis.

In addition to King and private sources of assistance, the institution participates in the following federal and state programs of financial assistance:

- Federal Pell Grant
- Federal Supplemental Educational Grant (SEOG)
- Federal Direct Graduate PLUS Loan
- Federal Direct PLUS Loan for Parents
- Federal Direct Subsidized Loan
- Federal Direct Unsubsidized Loan
- Federal Teach Grant
- Federal Work Study Program (FWS)
- Tennessee State Grant
- Tennessee Educational Lottery Scholarship (TELS)

Students should always investigate outside sources of money for college. Many businesses, civic organizations, churches, etc. offer scholarships and loan programs. For those who are eligible, money is available from Veterans' benefits, vocational rehabilitation, and Army ROTC. High school guidance offices often have lists of available scholarships in the community. The King University Financial Aid Office includes a list of some of the

"Outside Scholarships" on the University website for which students may qualify.

Institutional grants and scholarships are not available in the Summer term.

TN DUAL ENROLLMENT GRANT

The TN Dual Enrollment Grant is available to high school juniors and seniors who are residents of the state of TN and enroll in college courses at an eligible postsecondary institution. Students may receive the Dual Enrollment Grant for up to 10 lifetime courses by maintaining all eligibility requirements per the Tennessee Student Assistance Corporation and achieving a minimum 2.0 cumulative GPA for all postsecondary courses attempted while receiving the grant.

Amounts paid are as follows:

- Tuition/fees for courses 1 5
- \$100/credit hour for courses 6 10

Applicants must be a TN resident and submit the Dual Enrollment Grant application online before Sept 15 for Fall semester, Feb 1 for Spring semester, and May 15 for Summer semester.

Please check the TSAC (Tennessee Student Assistance Corporation) website for additional information at tn.gov/collegepays/money-forcollege/tn-education-lottery-programs/dualenrollment-grant.html.

GENERAL FACTS

- 1. Students who are residents of Tennessee and are eligible for the Pell Grant may also be eligible for the Tennessee Student Assistance Award. Students seeking Tennessee TSAA grant must file the FAFSA as soon as possible after October 1st and before the priority deadline of February 1. The University will not replace lost state funding.
- 2. The FAFSA is processed using a federal formula which determines the family's ability to contribute toward the cost of the student's education. This is called an Expected Family Contribution (EFC). Eligibility for Federal Pell Grant, TSAA Grant, other federal financial aid programs, and King

institutional need-based grants is determined by processing this form.

- 3. When the FAFSA is processed, students will have access to their *Student Aid Report*. Students should review this report for accuracy.
- 4. Financial assistance may consist of a combination of grants, scholarships, loans or work study. The amount allocated to the student in either of these categories may vary from year to year. Some changes in financial aid may be based on changes to a student's EFC, calculated annually from filing the FAFSA.
- Families with unique financial circumstances may complete a Professional Judgment Request Form in the Financial Aid Office. These will be considered on an individual basis.
- Federal Pell Grant, federal direct loans, and Tennessee Hope Scholarship may be available for the Summer term depending on the student's eligibility and availability of funds. Institutional grants and scholarships are not available in the Summer term.

FINANCIAL AID GENERAL POLICIES

- Financial aid is awarded for one academic year. A new FAFSA application must be submitted annually.
- 2. A financial aid recipient must be accepted for admission, pursuing a qualified degree, and enrolled at least half time (6 hours for undergraduate students and 4.5 hours for graduate students) for most types of aid. Pell Grant eligible students may be awarded for less than half time enrollment. Changes in enrollment may result in a modified award package.
- 3. The student expense budget, built under federal regulations, will include the cost of tuition and fees, books, room, board, travel, and miscellaneous personal expenses.
- 4. Academic scholarships from King are renewable while the student maintains satisfactory progress toward a degree. Scholarship recipients will renew scholarships contingent upon achieving the

- required cumulative grade point average at the end of the previous term. Current students who receive early award notification prior to final grades being posted may have the award cancelled or modified if final grades in the spring do not reflect the required cumulative average GPA for satisfactory progress.
- 5. If a student is selected for verification by King or by the federal processor, additional information will be requested which may include the verification worksheet and income tax returns. The Financial Aid Office may request additional information as necessary to determine eligibility.
 - Refusal/failure to submit required verification documentation will result in the cancellation of financial aid.
- 6. Some Financial Aid offers must be accepted by the students on the King University Financial Aid Portal. Funds from outside sources are credited to the student account when received. Money earned through student employment is paid directly to the student.
- First time borrowers accepting student loans must complete a Master Promissory Note (MPN) and Entrance Counseling online at www.studentaid.gov.
- 8. Outside scholarships may reduce loans or University grant sources. Students must report any additional outside assistance to the Financial Aid Office.
- 9. Students dismissed from a Student Work Study position because of unsatisfactory performance may be denied campus employment for the remainder of the academic year or all future years.
- 10. Endowed financial aid funds are provided by gifts to the institution. These donations underwrite King institutional scholarships and grants that are awarded to students. A student awarded institutional funds may be required to participate in the Donor Thank You program in which a thank you letter must be submitted. Failure to adhere to this policy could result in cancellation of this aid.

- 11. A student's enrollment in a program of study abroad approved for credit by King may be considered enrollment at King for the purpose of applying for Title IV assistance. Students should check with the Financial Aid Office to determine eligibility.
- 12. The Financial Aid Office reserves the right to review, and change, awards at any time because of errors, changes in financial situation, academic status, change of academic program, or changes in enrollment or housing status.
- 13. Undergraduate students participating in Intercollegiate Athletics may be eligible to receive an institutional athletic scholarship if they are classified as a traditional student with the traditional student cost structure. Undergraduate AGS students are not eligible to receive any form of institutional scholarships or grants. This includes athletic scholarships. Graduate students with remaining eligibility may participate in Intercollegiate Athletics at King, and those athletic scholarships are at the coach's discretion.

TITLE IV FEDERAL AND KING INSTITUTIONAL SATISFACTORY ACADEMIC PROGRESS

Satisfactory Academic Progress (SAP) standards ensure that you are successfully completing your coursework towards an eligible degree and continue to receive financial aid. All students receiving financial aid are required to meet SAP standards.

SAP is evaluated annually at the end of the spring semester for students who are in a financial aid eligible program, including both full and part-time enrollment.

Federal regulations require the University to establish, publish and apply standards to monitor your progress toward completing your degree. If you fail to meet the SAP standards, you will be placed on suspension. Your academic performance must meet the SAP standards below.

Enrollment Status

Financial aid recipients must be degree-seeking students enrolled in a program leading to an

Associate degree, Bachelor's degree, graduate-level degree, or approved certificate program. Generally, most financial aid requires at least half-time enrollment; however, Pell Grant eligible students may be eligible to receive Pell while enrolled less than half time.

FINANCIAL AID QUALITATIVE STANDARDS

Traditional Undergraduate Programs

Class Level	When this number of hours has been completed:	Required Cum. GPA:
Freshman	0-25	1.6
Sophomore	26-55	2.0
Junior	56-87	2.0
Senior & above	88-graduation	2.0

Adult Studies Undergraduate Programs

Students must earn a cumulative GPA of 2.0 or greater.

Graduate Programs

Students must earn a cumulative GPA of 3.0 or greater.

Financial Aid Quantitative Standards

Quantitative Progress or Pace is calculated as follows: The cumulative number of credit hours completed is divided by the cumulative number of credit hours attempted resulting in the Quantitative Progress or Pace. Students are required to maintain a 67% completion rate to remain eligible for financial aid.

<u>NOTE</u>: We recommend that students attempt to average 31 earned hours per academic year to graduate in four years for programs that require 124 credit hours.

Maximum Time Frame

Students must complete their program within 150% of the institutionally defined program length. Undergraduate students must complete their 124 credit program of study within 186 attempted credit hours.

Graduate Programs

Graduate students must complete their program within 150% of the institutionally defined program

length. King University requires an average of 36 semester hours earned to complete the graduate program. Students must complete their 36 credit program of study within 54 attempted hours.

Family Nurse Practitioner (FNP)/Pediatric Nurse Practitioner (PNP) Graduate Program

The FNP or PNP graduate student must complete 45 credits to earn the degree. Students must complete their 45 credit program of study within 67.5 attempted hours. Students are required to maintain a 67% completion rate to remain eligible for financial aid.

Psychiatric Mental Health Nurse Practitioner Graduate Program

Students must complete their 48 credit program of study within 72 attempted hours.

Students are required to maintain a 67% completion rate to remain eligible for financial aid.

Financial Aid Suspension

Students failing to make Satisfactory Academic Progress will have their Financial Aid eligibility suspended. Students placed on suspension are not eligible to receive financial aid. Students on suspension may submit an appeal to have their financial aid reinstated.

Financial Aid Probation

Students whose appeals are approved by the Committee will be placed on probation or may require an academic plan.

Regaining Eligibility for Financial Aid

Financial aid eligibility may be regained by resolving all deficiencies (quantitative and qualitative). Students who meet the SAP standards at the next evaluation are eligible for financial assistance for their next enrollment period.

FINANCIAL AID APPEALS

When a student is not making satisfactory academic progress (SAP) and their financial aid is suspended, federal regulations allow for certain cases in which the student may submit an appeal to regain their financial aid eligibility. Specifically, if a student experiences mitigating circumstances beyond their control including extended/serious illness, death in the immediate family, or other significant events,

these must be appropriately documented for the specific term(s) in which the deficiency occurred.

Appeals must be made to the Financial Aid Office using the *King Financial Aid Satisfactory Academic Progress Appeal* form. Students must also submit all supporting documentation. A student's formal appeal letter should detail the extenuating circumstances that contributed to the student's inability to meet SAP standards. It must also explain what steps the student has taken to address the situation. Students may submit a maximum of two appeals.

Financial Aid Appeal Deadline for Submission

Students failing to meet the SAP requirements will receive an email to the King email address alerting them to the deficiency.

Appeals submitted to the Committee will be reviewed, and adjudicated, within approximately two weeks.

WITHDRAWAL FROM THE UNIVERSITY RETURN TO TITLE IV CALCULATION

Students who receive Title IV federal financial aid and wish to withdraw from all courses should complete a King University Withdraw from University Form with the Registrar's Office. If a student withdraws without notification, the last date of recorded class attendance will be used as the withdrawal date. If the last date of attendance cannot be determined, the school will use the mid-point of the semester as the withdrawal date.

When Federal Title IV aid is returned due to the student's withdrawal from all classes within a semester, the student may owe a balance to the University. Students owing a balance should contact the Business Office to make payment arrangements.

If a student receiving Federal Title IV Aid withdraws after completing 60% of the semester/term, no Federal Title IV Aid will be returned. The student is considered to have earned 100% of the Federal Title IV Aid for the semester. The adjustment of aid may have implications for future aid years.

Federal Title IV Financial Aid includes:

- Federal Pell Grants
- Federal Supplemental Educational Opportunity Grants (FSEOG)
- Federal Teach Grant
- Federal Subsidized and Unsubsidized Stafford Loans
- Federal Parent Loans for Undergraduate Students (PLUS)

King University will return the Title IV funds in the following order:

- Unsubsidized Stafford Loans
- Subsidized Stafford Loans
- Federal Plus Loans
- Federal Pell Grants
- Federal Supplemental Educational Opportunity Grant
- Federal Teach Grant

RETURN OF INSTITUTIONAL SCHOLARSHIP AND FUNDS

The Financial Aid Office will also recalculate King University scholarships for all students who withdraw, drop out, or are dismissed from all courses in accordance with the University tuition refund policy.

Return to Title IV Exemptions

There are 3 exemptions enacted by the Department of Education that exempt a student from going through the Return to Title IV calculation process (per 34 CFR 668.22).

A student is not considered to have withdrawn if the student:

Completed Program of Study (applies to ALL students)

A student who completes all the requirements for graduation from his program before completing the scheduled days in the period is not considered to have withdrawn.

Completed Half-Time Enrollment (applies to students in modules ONLY)

The student must successfully complete Title IV-eligible coursework equal to or greater

than what the school considers to be halftime enrollment.

Completed Modules Spanning 49% of Countable Days (applies to students in modules ONLY)

A student is not considered to have withdrawn if the student successfully completes one module or a combination of modules that includes 49% or more of the number of the countable days in the payment period, excluding scheduled breaks of five or more consecutive days and all days between modules.

POST WITHDRAWAL DISBURSEMENTS

If the amount of Title IV aid a student has earned is greater than the amount of aid that disbursed prior to the student withdrawing, a post-withdrawal disbursement may be due. If the student is eligible for a post-withdrawal disbursement of a grant, it must be disbursed within 45 days after the date it is determined the student withdrew. A post-withdrawal disbursement of Title IV grants does not require permission from the student.

If the post-withdrawal disbursement includes loan funds, the student must give permission before the funds can be disbursed. Students will be notified within 30 days of the date it is determined that the student withdrew if they are eligible for Direct Loans (or parents will be notified in the case of Direct Parent PLUS Loans). The notification will include:

- A confirmation deadline of 14 days
- The type and amount of loan funds the student is eligible for, and an option to accept or decline the post-withdrawal disbursement
- A notice of obligation to repay the loan funds
- A post-withdrawal disbursement must be made from available grant funds before available loan funds

If the post-withdrawal disbursement results in a credit balance, the credit will be refunded to the student and/or parent within 14 days after the credit balance has occurred.

ACADEMIC AMNESTY

Academic amnesty removes grade point factors of a previous semester taken at King from a re-admitted student's cumulative GPA, although course(s) and grade(s) remain on the student's academic record. The course(s) so approved are marked on the transcript "Academic Amnesty."

To fulfill the academic amnesty requirements, a student must complete 12 simultaneous semester hours with at least a 3.0 GPA. There is a limit of two (2) semesters/terms for which a student may seek academic amnesty.

Receipt of academic amnesty is not automatic; it requires the support of the academic advisor and the approval of the Provost. To receive academic amnesty for a semester, a student must:

- 1. Acquire the Academic Amnesty form, available from the Office of Registration and Records as an email attachment.
- Discuss the semester(s) for which amnesty is sought with the student's academic advisor or Student Success Specialist. If the advisor or Success Specialist supports the request for academic amnesty, the advisor or Success Specialist should sign the Academic Amnesty form.
- 3. Return the signed form to the Office of Registration and Records for final approval by the Provost, who may request an interview with the student before authorizing the amnesty request.

A written response to the student concerning the final disposition of the application will be issued from the Office of Registration and Records. In order to receive amnesty for a semester, certain conditions must be understood:

- 1. Amnesty affects ALL courses taken during the semester, including credit hours and grades.
- 2. The amnesty semester is removed from consideration for GPA purposes, and the credit cannot be used for prerequisite or degree requirements. The semester listing of courses and grades remains evident on the academic record, but the classes are marked "Academic Amnesty."

- 3. The Office of Registration and Records shall determine whether or not the student has met the requirements for academic amnesty.
- 4. Since CP, P, and W grades do not have numerical equivalents, courses in which the student received these grades are irrelevant to the academic amnesty process.
- 5. The request for academic amnesty must be approved prior to the student's final semester.

ACADEMIC APPEALS

King University students have the right to appeal academic decisions or to ask for an exception to a university rule or policy on an academic matter by following the process and guidelines outlined below. Note that appeals are only accepted within specific windows of time as detailed in the guidelines.

Appeal of a Program/School/College Policy:

- 1. Appeals should be in the form of a letter written and signed by the student and submitted electronically to the Dean of the School/College.
- 2. Letters should clearly and concisely explain the appeal, state the matter being appealed in the first sentence, and include all relevant information in support of the appeal.
- 3. Appeals must include the following on the first page in the upper left corner.:
 - a. Student's full name
 - b. KU Student ID number
 - c. Postal address
 - d. King email address
 - e. Phone number
- 4. If appealing a ruling or decision based on an academic policy, the appeal must be submitted within 30 days of the ruling or decision.
- 5. Appeals will be reviewed by the Dean or their designee and a final decision on the outcome of the appeal will be provided to the student in writing, generally within 30 days of the receipt of the appeal.
- 6. If an appeal is unsuccessful at the Dean of the School/College level, the student may continue the appeal to the Provost.
 - a. Appeals to the Provost should be in the form of a letter written and

- signed by the student, as well as any relevant supporting documentation.
- b. Appeals to the Provost must be submitted within 14 days of the final decision of the Dean of the School/College.
- c. The Provost, or designee of the Provost may, upon receipt of an appeal, take jurisdiction of the matter and reach a decision. Or the Provost may choose to forward the appeal to the Academic Standards Committee (ASC) for review. It is the duty of this committee to "receive and act on petitions from students regarding normal academic procedure and disputes with faculty over grades or course policies."
- d. Normally, the Provost/Academic Standards Committee process should render a decision to the student within 30 days of receipt of a written appeal. In the event that the process will extend beyond 30 days, the student will be notified in writing of the anticipated decision date.
- 7. Review by the Provost (and/or Academic Standards Committee) is considered the final forum for appeals and all resulting decisions will be considered final.

Appeal of a University Academic Policy:

- 1. Appeals should be in the form of a letter written and signed by the student and submitted electronically to provost@king.edu.
- 2. Letters should clearly and concisely explain the appeal, state the matter being appealed in the first sentence, and include all relevant information in support of the appeal.
- 3. Appeals must include the following on the first page in the upper left corner.:
 - 1. Student's full name
 - 2. KU Student ID number
 - 3. Postal address
 - 4. King email address
 - 5. Phone number
- 4. If appealing a ruling or decision based on an academic policy, the appeal must be submitted within 30 days of the ruling or decision.

- 5. The Provost, or designee of the Provost may, upon receipt of an appeal, take jurisdiction of the matter and reach a decision. Or the Provost may choose to forward the appeal to the Academic Standards Committee (ASC) for review. It is the duty of this committee to "receive and act on petitions from students regarding normal academic procedure and disputes with faculty over grades or course policies."
- 6. Normally, the Provost/Academic Standards Committee process should render a decision to the student within 30 days of receipt of a written appeal. In the event that the process will extend beyond 30 days, the student will be notified in writing of the anticipated decision date.
- Review by the Provost (and/or Academic Standards Committee) is considered the final forum for appeals and all resulting decisions will be considered final.

Appeal of a Course Grade

- 1. A student must first attempt to address and resolve the concern with the instructor of the course in question. This level of appeal may begin informally (with a conversation or email). Such appeals must be initiated within 30 days of the date grades were required to be submitted for the course.
- 2. If the student is unable to resolve the matter with the course instructor, the student may continue the appeal with the Program Coordinator or Department Chair of the course.
 - a. Appeals to the Program Coordinator or Department Chair should be in the form of a letter written and signed by the student, as well as any relevant supporting documentation.
 - Appeals to the Program Coordinator or Department Chair must be submitted within 14 days of the final decision of the course instructor.
 - c. The Program Coordinator or Department Chair will, upon receipt of an appeal, provide a written response to the student within 14 days with their final decision or a timeline as to when a decision will be rendered.

- d. In the event that the course instructor is also the Program Coordinator or Program Chair, then the appeal will skip this step and be made to the Dean of the College/School (see below)
- If an appeal is unsuccessful at the Program Coordinator of Department Chair level, the student may continue the appeal to the Dean of the School/College.
 - a. Appeals to the Dean of the School/College should be in the form of a letter written and signed by the student, as well as any relevant supporting documentation.
 - Appeals to the Dean of the School/College must be submitted within 14 days of the final decision of the Program Coordinator or Department Chair.
 - c. The Dean of the School/College will, upon receipt of an appeal, provide a written response to the student within 14 days with their final decision or a timeline as to when a decision will be rendered.
 - d. In the event that the course instructor is also the Dean of the School/College, then the appeal will skip this step and be made to the Provost (see below)
- 4. If an appeal is unsuccessful at the Dean of the School/College level, the student may continue the appeal to the Provost.
 - a. Appeals to the Provost should be in the form of a letter written and signed by the student, as well as any relevant supporting documentation.
 - b. Appeals to the Dean of the School/College must be submitted within 14 days of the final decision of the Dean of the School/College.
 - c. The Provost, or designee of the Provost may, upon receipt of an appeal, take jurisdiction of the matter and reach a decision. Or, the Provost may choose to forward the appeal to the Academic Standards Committee (ASC) for review. It is the duty of this committee to "receive and act on petitions from students regarding normal academic

- procedure and disputes with faculty over grades or course policies."
- d. Normally, the Provost/Academic Standards Committee process should render a decision to the student within 30 days of receipt of a written appeal. In the event that the process will extend beyond 30 days, the student will be notified in writing of the anticipated decision date.
- e. In the event that the course instructor is also the Provost, the student should consult with the Chief of Staff regarding the process for appeal.
- f. Review by the Provost (and/or Academic Standards Committee) is considered the final forum for appeals and all resulting decisions will be considered final.

ACADEMIC BREAKS

Within the academic term there may be one or more periods designated as academic breaks. Often, but not exclusively, these are associated with major holidays. The beginning and ending of academic breaks are listed in the Academic Calendar. During academic breaks, no classes will be held, and no academic work may be required of students (no new assignments given, no assignments due, no expectations of engagement in online discussions, etc.).

ACADEMIC STANDING

King University expects students to maintain satisfactory academic progress toward degree completion. At the conclusion of each semester, grade point averages are calculated and academic standings are determined for all students. All GPA references, including cumulative GPA's, are, based only on King University coursework.

All students will be classified as full-time or part-time degree seeking by the number of hours registered as of the census date of the semester under review. Any student who is certified part-time degree seeking on the census date of the semester must maintain the GPA minimums, but does not need to meet the six (6) s.h. rule for any of the academic sanctions.

Students may request in writing to the Registrar's Office, on an individual basis, to have their academic

standing recalculated due to a change of grade in the immediately preceding term. In cases where the grade change occurs due to faculty error, no action is required on the student's part; the recalculation will take place automatically in the Office of Registration and Records.

<u>NOTE</u>: Until an incomplete (I) or no grade (NG) is removed, it is calculated as an F in the semester grade point average. This will sometimes affect a student's academic standing. At the time the incomplete is removed the Registrar will reevaluate the student's status.

UNDERGRADUATE ACADEMIC STANDING

Academic Concern

A student may be placed on *Academic Concern* if the student was previously in good academic standing and his or her semester GPA falls below the following minimum standards:

- Students who have completed up to 24 s.h. 1.600 GPA
- Students who have completed 25-48 s.h. 1.800 GPA
- Students who have completed 49-72 s.h. 1.900 GPA
- Students who have completed 73 or more s.h.
 2.000 GPA

Students on Academic Concern will be considered to be in Good Academic Standing, but the concern shall serve as notice of the risk of losing good academic standing. Students on Academic Concern may be asked to comply with requirements intended to assist academic progress, such as, but not limited to, consultations with the Academic Center for Excellence, limitation of course load, or development of an academic plan in consultation with an advisor or Student Success Specialist.

Academic Probation

A student may be placed on *Academic Probation* if the student fails to meet satisfactory progress requirements as defined by the institution, or if the student fails to meet any requirements of *Academic Concern*. A student may be placed on *Academic Probation* for the following reasons:

• Failure to pass at least 6 s.h. in a regular semester.

- Failure to achieve the following cumulative GPAs:
 - Students who have completed up to 24 s.h.
 1.600 GPA
 - Students who have completed 25-48 s.h. –
 1.800 GPA
 - Students who have completed 49-72 s.h. –
 1.900 GPA
 - Students who have completed 73 or more s.h. – 2.000 GPA

Cumulative GPAs will be reviewed at the end of each regular semester. New students in the first semester at King will not normally be placed on *Academic Probation* for cumulative GPA. Students on probation will not be considered to be in good academic standing. Students on probation normally may not take more than 16 semester hours in a regular semester and may be asked to comply with requirements intended to assist academic progress, such as but not limited to consultations with the Academic Center for Excellence or development of an academic plan in consultation with an advisor or Student Success Specialist.

A student who fails to comply with any requirements of his or her probation may be placed immediately on *Academic Suspension*. A student's probation status will be reviewed at the conclusion of the next regular semester.

Academic Suspension

A student may be academically suspended from the institution and therefore unable to enroll in courses if the student:

- Fails to pass at least 6 s.h. in a regular semester while on probation.
- Fails to achieve the following cumulative GPA at the end of the academic year after having been placed on probation:
 - Students who have completed up to 24 s.h. 1.600 GPA
 - Students who have completed 25-48 s.h.- 1.800 GPA
 - Students who have completed 49-72 s.h.- 1.900 GPA
 - Students who have completed 73 or more s.h. – 2.000 GPA
- Fails to achieve the following semester GPA while on probation:

- Students who have completed up to 24 s.h. 1.600 GPA
- Students who have completed 25-48 s.h.- 1.800 GPA
- Students who have completed 49-72 s.h.- 1.900 GPA
- Students who have completed 73 or more s.h. – 2.000 GPA

A student who receives notice of an Academic Suspension may submit a written appeal to the Academic Standards Committee to request that the student be allowed to continue at King. Approved appeals will place the student back on Academic Probation for the following semester. A student who chooses not to appeal or whose appeal is denied may apply for readmission after one regular semesters. Upon readmission the student will be placed on Academic Probation following their one semester of suspension.

The Academic Standards Committee may also, at its discretion, place a student on an academic status based on the student's record if it deems it to be in the best academic interest of the student.

GRADUATE ACADEMIC STANDING

Graduate students whose cumulative grade point average falls below 3.0 will be placed on academic probation and will remain on probation until their cumulative grade point average is 3.0 or higher. Failure to achieve a semester grade point average of 3.0 or higher during this probationary period will result in academic suspension. Students will have the opportunity to submit a written appeal of the suspension to the Provost. Students who are admitted on conditional acceptance must achieve a grade point average of 3.0 during the first semester to avoid being academically suspended.

Students who are suspended must follow the procedures outlined under *Readmission to the Program*. Readmission to the program is not guaranteed and will be based on Admission Committee's evaluation of a student's likelihood to successfully complete the graduate program.

DOCTORAL ACADEMIC STANDING

Academic standing for *Doctoral students* is determined by the expectations established by their School.

If two grades of B- or lower are earned the student will be dismissed from the University. For Doctoral students, a grade of B- or below is failing. A failed course must be repeated; a student is only allowed to repeat one course.

ADULT AND GRADUATE STUDIES (AGS) COURSES FOR TRADITIONAL STUDENTS

Traditional undergraduate students generally take courses scheduled in a traditional timeframe (e.g., 15-week courses that meet face-to-face or online). There may be circumstances when a Traditional undergraduate student, in consultation with his or her academic advisor, may be permitted to take an AGS course (e.g., a face-to-face or online course that is specific to an AGS program or a course that is delivered in a compressed format). Traditional undergraduate students may seek permission to take AGS courses by completing the *Authorization for a Traditional Student to Register for AGS Course*, available through the Office of Registration and Records. A Grade Point Average (GPA) of 2.0 with good academic standing is required.

Traditional students who declare a major, minor, or track for which some or all the courses are only available in an AGS format (i.e., majors in Information Technology, Healthcare Administration, Communication) do not need to complete this form for courses in their major, minor, or track.

AUDITS

A student who wishes to audit a course must register for the course in order to ensure a seat in the classroom. If a student registers as an auditor, the audit can be changed to credit **ONLY** during the first week of classes. If a course is registered for credit, this can be changed to audit until the last day to withdraw from a course with a W. This must be done with permission of the advisor.

Students who wish to register for a course without earning a letter grade or credit may take the course as an audit. Auditors receive no credit.

Auditing a course is permitted only in lecture-based courses and never in courses that include laboratories or performances. Auditing is not permitted in courses that focus on the development of written or oral communication skills or courses that rely heavily on class participation. Auditing is not permitted in

independent studies courses, internships, special topics, directed studies, or online/hybrid classes. Students who wish to audit a class must be aware of the following:

- Forms must be filled out and submitted to The Office of Registration and Records prior to the last day students are permitted to withdraw from a course with a grade of W.
- Student and professor signatures are required on the form.
- The course will appear on the student's schedule as though it had been scheduled for credit.
- The course will appear on the student's transcript with the grading symbol AU. No credit is earned, and the grade-point average is not affected.
- Audited courses are not designated with the AU symbol until all final grades are received.

Courses that are exempt from the policy above are:

- All APMU courses
- MUSC 1110, 1130, 1150, 1170 (musical ensembles)
- THTR 1010, 1011, 1020, 1021 (practica)

AWARDING POSTHUMOUS DEGREES

A family member of a deceased student, who had not completed all degree requirements at the time of his or her death, may request a posthumous degree for such student. Such a request shall be made in writing to the Provost. Upon receipt of such request, the Provost, the President, and the Registrar (the "Panel") will review the student's academic record and consider many other factors, including, but not limited to, whether the deceased student was incompliance with the policies set forth and described in the King University Catalog and the King University Student Handbook. Following such review and consideration, the Panel will make a decision whether or not to award a posthumous degree. In no event shall the Panel award a posthumous degree unless at least 75% of the program requirements were satisfied at the time of death. The decision of the Panel is final and not appealable.

In cases where the Panel determines not to award a posthumous degree, the Panel may choose to award a posthumous certificate of recognition. Such a certificate will recognize a deceased student's progress with respect to the attainment of a degree.

Any award of a posthumous degree or certificate of recognition will be noted on the student's transcript.

CHANGE OF GRADES

When circumstances warrant (e.g. a mathematical error was found in the final grade calculation), faculty may change a previously submitted final grade. In no instance can extra work turned in by the student after grades have been submitted warrant a grade change.

Changes with a written rationale must be made by email to the Registrar once grades have been posted through the faculty portal. Any such changes must be made within six (6) weeks of the submission of the final grade. After six (6) weeks, grades will be considered sealed and any changes will be made only with the approval of the Provost.

CHAPEL, CONVOCATION, AND SERVICE (CCS) CREDIT—TRADITIONAL

The following Chapel, Convocation, and Service Policy has been established for the King University community in order to encourage engagement in the Christian faith meaningfully and holistically to create a "transformation of culture in Christ."

Chapel and convocation attendance is an integral part of what it means to be a Traditional student in the King University community. Chapel is held every Wednesday from 9:15 to 10 a.m. The services are one setting in which individuals from the campus community gather regularly for worship, enrichment, and community building. Students regularly participate in music and other worship activities such as the reading of Scripture, sharing of ministry experience, and being involved through dance, drama, and other artistic expressions.

Convocation, which normally meets on Mondays from 9:15 to 10:00 a.m., provides an intellectual forum for the presentation of ideas that should challenge our ways of thinking about and perceiving the major issues of our culture and the world. Speakers for Chapel and Convocation include campus personalities and outstanding guests from around the world.

Service and mission projects are a means of reaching beyond ourselves to the greater community (locally, nationally, and internationally) with the love and

compassion of God. Service activities that have been approved by the Office of Student Affairs and the Office of the Chaplain are posted on the King website.

Requiring chapel and convocation for Traditional students is a King tradition that has been maintained over the long history of the institution. It is one of the experiences that sets King apart from secular schools and other private religious institutions. We maintain this tradition as a sign of our devotion to a founding principle that King is a worshipping community dedicated to the integration of faith and learning and transformation of culture in Christ. Students also have the opportunity to earn credit through service activities.

All full time traditional students, regardless of commuter or residential status, are expected to meet the CCS requirement. Traditional students complete the CCS requirement as part of the Common Experience in Traditional General Education. The Common Experience is intended to be a bridge from General Education to students' academic coursework, majors, and, eventually, to their lives of vocation and service.

Expectations

Whether in a worship service or in convocation gatherings, students are expected to exercise respect and offer attentiveness to our speakers and performers. Distracting or discourteous behavior is unacceptable and will not be tolerated. Cell phones, laptop computers, and iPods should be turned off. Talking and other distracting noises are not acceptable.

All full time traditional students are automatically enrolled in a ½-semester hour CCS course each semester. There is no additional cost for being enrolled in the CCS course. The CCS course will be graded as a Pass/Fail.

CLASS ATTENDANCE

Students are expected to recognize and accept responsibility for maintaining a pattern of regular and punctual attendance at classes and laboratories. All faculty members will, at the beginning of each semester, distribute to the students a written statement of their attendance policies, which include what penalties might be imposed for excessive absences.

Students that are absent for legitimate reasons, such as serious illness, personal or family emergency, or participation in an official King University activity, should present to the instructors written statements of excuse from an appropriate person, such as a physician, dean, or other University official. When absences can be anticipated, students are responsible for notifying the instructors before the absence occurs and planning to make up missed work.

CLASSIFICATION OF STUDENTS

The classification of students is determined by the Registrar at the beginning of each semester.

A <u>full-time degree-seeking student</u> is one who has satisfied entrance requirements as a candidate for a degree at King and one who is, for the current session, enrolled for not fewer than 12 undergraduate or nine graduate semester hours. This category includes conditionally accepted first-time students. Full-time students are eligible to apply for financial aid.

A part-time degree-seeking student is one who has satisfied entrance requirements as a candidate for a degree at King and who, for some acceptable reason, is permitted to enroll for fewer than 12 undergraduate or nine graduate semester hours. Part-time students are eligible to apply for financial aid. Part-time students are usually not eligible to live in the residence halls or to participate in some extracurricular activities.

Regular students are classified according to the number of hours successfully completed as follows:

- Freshman—0 to 25 hours successfully completed
- Sophomore–26 to 55 hours successfully completed
- Junior-56 to 87 hours successfully completed
- Senior-88 more hours successfully completed

A <u>full-time non-degree-seeking student</u> is one who has not been accepted as a candidate for a degree at King, but gives evidence of ability to pursue work in selected courses and, who is, for the current session, enrolled for not fewer than 12 semester hours. This student is not eligible for financial aid.

A <u>part-time non-degree-seeking student</u> is one who has not been accepted as a candidate for a degree at

King and, who is for the current session, enrolled for less than 12 semester hours. This student is not eligible for financial aid.

A <u>post-baccalaureate student</u> pursuing teaching certification who is classified as a full-time student may apply for financial aid. Institutional aid and federal student loans are available. Pell grants and state grants are not available at the post-baccalaureate level.

A <u>graduate degree-seeking student</u> is any student enrolled in a graduate program.

A <u>post-graduate certificate student</u> is one who is pursuing a Family Nurse Practitioner (FNP), Psychiatric Mental Health Nurse Practitioner (PMHNP), or Nurse Educator (NE) certificate.

COMPLETING AN ADDITIONAL MAJOR OR ADDITIONAL DEGREE AFTER EARNING A BACHELOR'S DEGREE

Students who have already earned a degree from King and are not enrolled in a graduate program may return and fulfill the requirements of another major. These students must apply for readmission to the institution, declare the appropriate major in the Office of Registration and Records, and register as seniors.

Students who return to King to complete another major must meet all the requirements for that additional major. The major chosen will dictate whether the student is working toward an additional degree or simply an additional major. It will be the student's responsibility to fill out a *Declaration of Major* form in the student portal after matriculation so that a notation can be placed on the transcript upon completion of the additional major.

Students who are seeking an additional major that does not lead to a second undergraduate (Bachelor's) degree will not be eligible for any financial aid. Students that are degree seeking and will receive a second Bachelor's degree may be eligible for Financial Aid. Students should contact the Financial Aid Office before starting an academic program leading to another major.

A student who has completed an additional major that would lead to the degree an alumnus already has

(e.g. Bachelor of Arts) may not take part in a second commencement ceremony. However, if the second major program of study leads to a different degree (e.g. Bachelor of Social Work), then the student may request to participate in commencement and receive an additional degree.

A minimum of 28 hours must be completed beyond those required for the first Bachelor's degree to be eligible for a second degree. Only those hours earned after the first degree was conferred will be used in the calculation of any academic honor for the second degree. The student must pay a second graduation fee in order to receive the second degree.

COMPREHENSIVE ASSESSMENT OF GENERAL EDUCATION

All students must take the OAK (KING 4020 Outcomes Assessment at King) basic subjects test on general education prior to graduation from King University. The student's transcript will indicate that the general education assessment requirement has been fulfilled. Any student who does not meet the comprehensive assessment of general education requirement will not graduate until the requirement has been met.

COMPREHENSIVE ASSESSMENT OF MAJOR

All candidates for a degree from King are required to demonstrate competency in their major fields.

Some programs require a comprehensive examination; others mandate presentation and oral or written defense of a portfolio of their work. Students with more than one major must demonstrate competency in each of their major fields.

A comprehensive assessment will be administered to all students in, or before, the semester that they complete program requirements.

All students will have to Pass according to the minimum requirement of their specific programs. Any student who does not meet the requirement (Pass) of their comprehensive assessment will not graduate until the requirement has been met.

A grade of Incomplete for Comprehensive Assessment in a discipline will result in the student's graduation date being moved to the next semester.

COUNTING COURSES FOR MORE THAN ONE REQUIREMENT

Maximum for Double Counting

A maximum of 16 hours may be counted more than once within the parameters outlined below.

Although courses may be used to satisfy more than one requirement, no student shall receive credit for a course more than once unless otherwise stated. All undergraduate students at King University must complete 124 semester hours to graduate with a Bachelor's Degree.

Should any student exceed the limitations set by this policy during their course of study, the student must meet with their Program Coordinator and Office of Registration and Records to find an alternative course for substitution.

Double Counting between General Education Requirements and a Major

When there is overlap between requirements for the General Education and requirements for a major, King University will allow eight (8) semester hours to be counted in both the General Education and Major.

Double Counting between Majors, between Majors and Minors, and between Tracks

When there is overlap between requirements for a major and requirements for a second major, King University will allow eight (8) semester hours to be counted in both the majors.

When there is overlap between requirements for a major and requirements for a minor in another discipline, King University will allow eight (8) semester hours to be counted in both the major and the minor.

When there is overlap between track requirements, King University will allow eight (8) semester hours to be counted in both tracks.

Triple Counting Never Allowed

When there is overlap among requirements for General Education (Core Curriculum), a major, and a minor, a course that could satisfy all can only be used to satisfy two (2) of the three (3).

COURSE SUBSTITUTION

A student or a program coordinator can petition to substitute one course for another within a major program. The substituted course takes the place of a required course. Course substitutions must have comparable subject content to the originally required course or must teach comparable skills.

Course substitution requests must be submitted to the Office of Registration and Records on a *Petition for Course Substitution*. This petition must include a justification that explains how the course to be substituted meets the content and skills components of the originally required course. The *Petition for Course Substitution* must be signed/approved by the Program Coordinator of the student's major program of study.

Students are limited to a maximum of three (3) course substitutions for each program of study in which they are enrolled. Substitutions may not be made across unrelated academic disciplines.

Students must have completed, be currently enrolled in, or have transferred credit to King University for the requested course substitution to be approved.

DECLARATION OF MAJOR Single Majors

A student working toward a bachelor's degree may declare a major under the catalog in effect at the time of matriculation or any catalog published after the year of the student's matriculation into the institution. Catalogs issued before a student's entry into King may not be used for a declaration of major. Majors must be declared when the student has reached 49 semester hours of course work successfully completed or the beginning of the fifth semester, whichever occurs first.

Double Majors

A student who fulfills the requirements for two different majors within a single degree type (e.g., B.A., B.S.) prior to graduation completes a double major. For example, a student may complete a Bachelor of Arts (B.A.) with majors in History and Spanish. The successful completion of all requirements for both majors are required to earn a double major.

Students who are seeking to double major will indicate such on the major declaration request form with the Office of Registration and Records. For double majors, one diploma is issued and both majors are recorded on the student's transcript.

Simultaneous Degrees

A student who fulfills the requirements for two different majors from different degree types prior to graduation will be awarded simultaneous degrees. For example, a student may complete a B.A. in Business and a B.S. in Mathematics. The successful completion of all requirements for each degree, with a minimum of 28 unique semester hours earned in each degree type, is required in order to earn both degrees. Students may not earn simultaneous degrees in the same academic discipline (e.g., a student cannot earn both a B.A. and B.S. in Biology).

Students who are seeking to double major in two disciplines from different degree types will indicate such on the major declaration request form with the Office of Registration and Records. Students seeking simultaneous degrees will be processed as a double major up until the point of conferral, at which time two degrees will be conferred. For students who receive simultaneous degrees, two diplomas are issued and both degrees and majors are listed student's transcript.

Students who have earned simultaneous degrees must choose one degree type with which they will march during their Commencement Ceremony. This will also determine the color of the academic hood the student will wear for the ceremony.

DECLARATION OF MINOR, TRACK, OR CONCENTRATION

A student's minor, track, or concentration must be declared under the same catalog as the student's major, unless otherwise approved by the Office of Registration and Records. Detailed requirements for minors, tracks, and concentrations are found in the Academic Programs section of the catalog.

Minors

A minor is a declared secondary baccalaureate field of study. It is usually at least 20 semester hours in length and is typically outside one's major area of study. A minor generally consists of a prescribed program of study.

Tracks

A track is a collection of courses within an undergraduate program of study that focuses on a particular subject area. A track is usually at least 12 hours in length and consists of a prescribed program of study.

Concentrations*

A concentration is a collection of courses within a graduate program that focuses on a particular subject area. A concentration is at least nine (9) hours in length and consists of a prescribed program of study.

*Previously, concentrations were referred to as specializations in select fields of study.

At least one-third of each minor and concentration must be completed at King.

DEFINITION OF CREDIT HOUR AND EQUIVALENCIES

This policy defines a credit hour at King University in accordance with applicable federal regulations and expectations.

King offers courses and programs in a variety of formats using the following designations: face-to-face, online, blended, and hybrid. Hybrid courses are defined as courses that combine face-to-face meetings and online instruction where the majority of instruction is delivered online and the face-to-face component is mandatory and scheduled. Blended programs combine face-to-face meetings and online instruction where the majority of instruction is completed in face-to-face venues. Some courses within the program may be totally online (specialization courses) and some blended programs may have additional requirements such as orientations that may be offered face-to-face or online.

A credit hour is the unit of measurement used to indicate the amount of work represented in achieving intended learning outcomes and verified by evidence of student achievement that reasonably approximates not less than:

1. One hour of classroom or direct faculty instruction and a minimum of two (2) hours out of class student work each week for approximately 15 weeks for one semester, or

- the equivalent amount of work over a different amount of time, or
- 2. At least an equivalent amount of work as required in item #1 above for other academic activities including laboratory work, internships, experiential learning, and other academic work leading to the awarding of credit hours.

King University defines a credit hour as a reasonable approximation of the student learning outcome equivalency of, at a minimum, a Carnegie Unit. The credit hour at King University is based on the traditional 50-minute Carnegie instructional hour in a traditional 15-week semester. Therefore, under the 50-minute Carnegie hour, a one-credit-hour course should have approximately 12.5 hours of instructorled activities in a 15-week semester (in an on-ground, classroom course).

50 minutes x 15 weeks = 750 minutes 750 minutes/60 minutes = 12.5 hours

When added to the two (2) hours per week that students are expected to engage in research, assignments, and other independent learning activities beyond participation in instructor-led activities (totaling 25 hours in a 15-week semester), students are expected to allocate a minimum of 37.5 hours of academic work per term to earn one credit hour at King University. For completely online courses, students will complete the 37.5 hours of academic work through all learning activities and assignments associated with the course.

For example, for a three-credit-hour course, students are expected to allocate a minimum of 112.5 hours of academic work (37.5 x 3 = 112.5). For a 4-credit hour course, students are expected to allocate a minimum of 150 hours of academic work (37.5 x 4 = 150). These standards apply to all on-ground, online, and hybrid courses with the following exceptions:

- Laboratories—Students earn one credit hour for every 30 to 45 hours spent in laboratory settings.
- Internships, Student Teaching, Directed Studies, and Experiential Learning—Students earn one credit hour for every 50 hours of internship, student teaching, directed study, or experiential learning experience.

DIRECTED STUDIES

King University is committed to maintaining the highest level of academic quality and integrity in a student's educational experience. This policy is designed to ensure the quality and integrity of directed studies offerings.

Definition

Directed studies courses are existing approved courses within the Academic Catalog delivered on an individual basis. They are approved under extenuating circumstances to provide an opportunity to complete a course.

- Directed studies courses are completed when students cannot take the courses when normally scheduled or during a term when the course is not typically offered.
- Educational methods courses and laboratory courses cannot be offered through directed studies unless special circumstances warrant such an offering.
- Additionally, lower level courses (1000- and 2000-level) will not be offered through directed studies unless special circumstances warrant such an offering.
- A directed study shall be granted at the discretion of the instructor, who reserves the right to decline teaching a directed study in a given semester.

Eligibility and Expectations

The following are eligibility criteria to be considered for approval of a directed studies course:

- A student may not complete more than one course by directed study in a given term and may not complete more than 12 semester hours of total coursework by directed study.
- Traditional undergraduate students must be junior or senior status.
- Students requesting a directed studies course must be degree-seeking.
- The requested directed study must be a required course in the student's declared major or minor.
- No directed studies will be approved for the purpose of repeating a course in which the student has previously obtained a passing grade, as defined by the major or minor program.
- The instructor and the student must complete and agree to a learning contract for the directed

study experience which includes a syllabus, details of the teaching-learning process, and a proposed schedule of face-to-face or virtual meeting times. This learning contract is intended to ensure comparability of the student experience to a regularly offered course.

Requests and Approvals

Students should complete the *Request Form for a Directed Study Course* and obtain the signatures of the professor in charge of the course and student's faculty advisor. The form should be submitted to the Office of Records and Registration and then must be approved by the following:

- Department Chair/Program Coordinator
- School Dean
- Provost

The request form should be accompanied by the required documentation listed on the form, including a syllabus specific to the requested directed study course.

Students will be registered for the directed study course upon receipt of the completed *Request Form for a Directed Study Course* with all required approvals.

Students must be registered for the approved directed study course no later than the last day of drop/add.

Any exceptional cases must be reviewed and approved by the Provost.

FINAL EXAMINATIONS

Final examinations, when required and listed on a particular course schedule, are given at the end of a course. If a course stipulates a final exam, attendance is mandatory. Instructors may not reschedule final exams except in extreme circumstances. A student absent from a final examination for any reason (such as illness, emergency, or scheduled post-season athletic competition must have official documentation from a physician, police officer, coach, etc.) and must make arrangements with the Provost and the instructor for a special examination. All examinations should take place in the location (campus location and room) specified by Registration and Records.

Final Exam Policies for Traditional 15-week Courses

Traditional courses end seven days prior to the end of each semester. The schedule for examinations is determined by the Office of Registration and Records. Instructors in Traditional courses are encouraged not to give major exams in the seven class days prior to the end of the semester, and absolutely no final comprehensive exams should be given during that seven-day period.

If a Traditional student taking several courses in a semester has more than two final exams scheduled on one day, that student may request to reschedule one exam through the Office of Academic Affairs.

Final Exam Policies for Online Courses

As stated in the course syllabus that is presented at the beginning of every online course, students have agreed to the King University Honor Code and also not to engage in the misuse of identity or technology. This means that each student must take all course exams including the final exam and not allow another person to log on to Canvas with false credentials for the purpose of taking a final examination.

GRADE REQUIREMENTS IN THE MAJOR AND MINOR

No student may be permitted to count toward the completion of the requirements in his or her major, minor, or concentration any grades below C-, including those courses in the major or minor field which are part of the general education requirements. The program coordinator for a student's major, minor, or concentration, ordinarily in consultation with the professor of the course in which a student has earned a grade below C-, may authorize the substitution of another course or a special examination for any courses in which a D has been earned.

Some programs may have more stringent requirements.

GRADING: GRADE REPORTS AND THE QUALITY POINT SYSTEM

Grades indicating the quality of a student's work along with the quality points given in any course are officially recorded as follows:

GradeQuality Point Value

A+	4.00
A	4.00
A	3.70
B+	3.30
В	3.00
В	2.70
C+	2.30
C	2.00
C	1.70
D+	1.30
D	1.00
D	0.70
F	0.00
WF	0.00

Grades of P, W, WP, or CP are not used in the computation of the official GPA and do not carry quality points.

If a course is repeated, the grade earned in the final attempt will be counted towards earned hours and GPA. A professor may use his or her discretion to award the grade of A+ to a student for exemplary work in a course, for an equal point value of 4.00.

Failing Due to Non-Attendance

A final grade of WF is assigned by instructors failing students due to non-participation or non-compliance with the instructor's attendance policy. A WF is defined as failure to attend any classes after the midpoint, and the mid-point of the semester will be used as the unofficial withdrawal date for the student. See the Withdrawal from the Institution Policy for definitions on what serves as mid-point for specific modules.

Incomplete Grades

An Incomplete (I) in a course shall be granted only if the student has applied for such continuation and has received approval of the instructor in that course. The length of time granted for continuation after a course ends must be specified by the course instructor and shall not exceed six (6) weeks from the date the course ends.

Until the Incomplete is removed, it is calculated as an F in the semester grade point average. An Incomplete grade not removed by six (6) weeks after the last day of the course in which it was assigned will automatically become a failing grade.

No Grades

Faculty members may assign a **No Grade (NG)** as the final grade for an otherwise responsible student who inexplicably does not complete end-of-the-semester work for a course (e.g. term paper, final exam).

The student will have six (6) weeks from the end of the course to complete the work. An NG counts as an F in the calculation of the student's grade point average. An NG not removed by the deadline becomes a failing grade.

Faculty members are not obligated to submit a grade of NG whenever work is not finished. When confident that a student is aware of his or her responsibility and has decided not to complete the work, a faculty member should simply calculate the final grade with the unfinished work counted as a zero.

Credit Pending Grades

A student who continues the work of a course into the next semester with the planned approval of the instructor (e.g., honors research, student teaching, field study, year-long courses) must apply for a **Credit Pending (CP)** grade when course requirements will not be completed in a given term. This form must be completed by the student, approved by the instructor, and returned to the Office of Registration and Records before the semester's examination period. The instructor must specify when the course work is to be completed. A grade of Credit Pending has no impact on the student's grade point average.

GRADUATION REQUIREMENTS

Associate Degree

To graduate with an Associate of Arts degree, a student must complete all requirements as outlined in the Academic Catalog to earn a total of 60 hours, have a minimum cumulative grade point average of 2.00, and be approved by the Faculty. A total of 24 semester hours must be earned at King including the 18 semester hours of courses specified in the description of the AA Program in the Academic Programs—Undergraduate section:

- KING 1500 Introduction to Higher Education (4 s.h.)
- DMAD 2200 The Arts in Historical Context (4 s.h.)
- PSCI 2200 The Future of Citizenship (4 s.h.)

- RELG 1001 Foundations of Christian Thought and Practice (4 s.h.)
- WRIT 2010 English Composition: Research and Writing (2 s.h.)

Bachelor's Degree

To graduate with a bachelor's degree, a student must complete all general education requirements as outlined in the Academic Catalog, fulfill all requirements in at least one major including comprehensive assessment, complete sufficient electives to earn a minimum of 124 hours with a minimum cumulative grade point average of 2.00, and be approved by the Faculty. A total of 48 semester hours must be earned at King University. As part of this 48-semester-hour requirement, a minimum of one-third of the required hours in the combined total of the declared major and minor must be completed at King.

Some academic programs may require more than 124 semester hours, a higher minimum cumulative GPA, or specific comprehensive assessment performance requirements for graduation.

Graduate Degrees

To graduate with a master's or doctoral degree, a student must complete all requirements as outlined for their program in the Academic Catalog, have a minimum cumulative grade point average of 3.00, and be approved by the Faculty. At least one-third of the credit hours required for a graduate or post-baccalaureate professional degree are earned through instruction offered by King University. Course credit is counted in hours. Credit hours and equivalencies are defined in the *Academic Policies* section of the catalog.

HONORS IN INDEPENDENT STUDY

One of the strong features of a small university is the opportunity for independent work by a student, generally in conjunction with the guidance and supervision of their instructor. Many departments at King have programs that permit advanced students to engage in supervised independent studies, often in projects extending beyond the scope of the formal courses listed in the catalog.

Outstanding work in independent study may be cited for "Honors in Independent Study." Such recognition is based on the excellence of a special project and is considered independent of a student's academic average or other qualifying factors. To be considered for this recognition, two members of the King University faculty must recommend the project, and the completed project, essay, or thesis is deposited in the E. W. King library. Should a disagreement arise between faculty members in the acceptance of the students work the Honors and Honorary Degrees Committee will mediate.

The final project must be submitted to the supervising faculty no later than two weeks prior to the last day of classes prior to the candidate's graduation, and the recommendation for Honors in Independent Study must be received by the Honors and Honorary Degrees committee no later than one week prior to the last day of classes.

INTENT TO GRADUATE

Candidates for a degree must complete the *Intent to Graduate* form, available in the student portal, in their last semester. This form will notify the Registrar that the student plans to graduate, indicates the preferred name for the diploma, and whether the student intends to participate in commencement exercises. Students petitioning to march in an early commencement ceremony submit their request using the *Intent to Graduate* form.

Degrees will be conferred only if all degree requirements are satisfied. All King-related obligations (holds) must be satisfied before the diploma and transcripts will be released.

INTERNATIONAL BACCALAUREATE (IB) PROGRAM

King recognizes the IB diploma and King will grant a maximum of 8 hours of credit for scores of 5, 6, and 7 on each of the IB Higher Level examinations. The Registrar in conference with the Provost will decide the amount of credit awarded. The maximum number of credit hours awarded for IB is 30.

INTERNSHIPS AND COOPERATIVE EDUCATION (CO-OP)

INTERNSHIPS

The institution asserts that the liberal arts curriculum is the best possible preparation for a wide variety of careers, and internships provide the best context for

integrating the two (2). In addition, students develop an understanding of the post-college world and learn how one must function to live responsibly in contemporary society.

Internships integrate faculty-led opportunity into education through participation in planned, supervised experiential-learning. Students will apply discipline-related skills by following a set of objectives, reflecting on activities, and obtaining feedback from their supervisors/preceptors.

Internships may be developed in a variety of situations, including local churches, business, industry, social agencies, professional offices, and government. All supervised internships must take place within an approved National Council for State Authorization Reciprocity Agreements (NC SARA) member state. Verification of state membership is completed by the Office of Academic Affairs. All interns are required to have completed their freshman year, have declared a major, and have a 2.0 minimum grade point average.

A faculty member and a practicing professional at the placement site provide supervision. In a learning contract the student, faculty supervisor, and work supervisor design a learning plan with objectives, strategies (including reading and writing assignments), and progress assessment.

Upon satisfactory completion of the course, a student will be awarded one semester hour of credit per 50 hours of work at the placement site. A maximum of six (6) hours of internship credit can be applied toward graduation. Grades are recorded on a Pass/Fail basis.

Semester credit hours earned in courses identified as field or clinical experiences in the Education, Social Work, and Nursing programs are based on outcome expectations established by those academic programs. Please see the requirements for those specific programs.

Additional information and the necessary forms are available in the Career Services Office in the lower level of Maclellan Hall or from the Program Coordinator of the major in which the internship will be completed. Internship inquiries must be made to the Director of Career Services or the Program Coordinator before the midpoint of the term before

the planned internship, and additional deadlines are published each term to ensure all eligible students are able to obtain a meaningful internship.

COOPERATIVE EDUCATION

Cooperative education is the integration of academic studies with practical work experience. In addition to putting classroom learning to work in a job-related experience, cooperative education (co-op) allows students to test career choices and to earn money to apply toward the cost of their college education.

All co-op students are required to have completed their freshman year, have declared a major, and have a 2.50 minimum grade point average. A faculty member and a practicing professional at the placement site provide supervision. In a learning contract the student, faculty supervisor, and work supervisor design a learning plan with objectives, strategies (including reading and writing assignments), and progress assessment. All work assignments are directly related to the student's chosen field of study, challenging to the student and increasing in complexity as the student progresses in school and at work.

A student can earn one semester credit hour per 50 hours of work at the work site. A maximum of 12 hours of credit can be awarded cooperative education as either major or minor elective credit. Grades are recorded on a Pass or Fail basis.

Additional information and the necessary forms are available in the Career Services Office in the lower level of Maclellan Hall or from the Program Coordinator of the major in which the co-op will be completed. Co-op inquiries must be made to the Director of Career Services or the Program Coordinator by the first week of the term before the planned co-op.

Three (3) calendar options are available:

- 1. Alternating Placement: students work full-time for at least two (2), and preferably three (3), four-month periods before graduating, alternating with their on-campus courses.
- 2. Parallel Placement: students work 20-25 hours per week for at least four (4) four-month periods while enrolled in a limited number of courses on campus.

3. Year-long Placement: students who will complete the equivalent of three (3) four-month periods and must plan to complete their undergraduate degree in five (5) years.

INTERNATIONAL STUDENTS

International students must consult with the International Student Advisor before seeking an internship or co-operative education experience.

LAST DAY TO ADD AN INTERNSHIP/CO-OP

The last day to add a 15-week internship or co-op will be the fifth day of the semester. The last day to add a 5-week, 7-week, or 8-week internship or co-op is 5:00 p.m. the Friday before the start of the module.

PLACEMENT FOLLOWING DEGREE CONFERRAL

During the year following graduation, any King graduate may choose to elect status as a non-degree seeking student for purposes of pursuing internship or co-operative education opportunities. Such student may register for a 0.5 semester hour internship or co-op, pay the appropriate fees, and complete the proper documentation.

KING COURSES

All Traditional students whose matriculation into King University represent their first full-time college or university enrollment, and are classified as "New Freshmen," are required to take KING 1000, First Year Seminar.

All Traditional students who matriculate into King University having had prior full-time college or university enrollment are required to take KING 2000, Transfer Year Seminar. Students who have earned a baccalaureate degree prior to matriculation into King University are not required to take KING 2000, although they may choose to do so.

All Traditional King degree-seeking students are required to satisfy KING 3000, Cross-Cultural Experience, and KING 4000, Christian Faith and Social Responsibility, as a part of the Common Experience of the Core Curriculum general education requirements.

Students matriculating into Adult Studies programs who need elective hours are encouraged to take KING 1500 *Introduction to Higher Education* as a part of their program of study.

All King University undergraduate degree-seeking students enrolled in either the Associate of Arts Degree program or any Bachelor's Degree program will be enrolled by the university in KING 4020 during the graduation semester. This course is the OAK (Outcomes Assessment at King) test that serves as comprehensive assessment for general education coursework and experiences (see the *Comprehensive Assessment of General Education* policy.)

LAST DAY TO ADD A COURSE

Students must submit a *Change of Schedule* form to the Office of Registration and Records for any change made to a schedule after the start of the semester.

The last day to add a 15-week course will be the fifth day of the semester. The last day to add a 5-week, 7-week, or 8-week course is 5:00 p.m. the day of the first class meeting. For an online course this is the first day of the module.

A student wishing to add a course after this date must have the approval of the Office of Registration and Records.

A change to a student's schedule may impact their tuition and financial aid status.

LATE ARRIVAL

All students are expected to begin classes on the date published in the Academic Calendar. However, should circumstances prohibit a student from arriving on the date published, students must notify the Office of Registration and Records prior to the beginning of classes. This notification must be made in writing to registrar@king.edu. Students who fail to verify their courses may have their registration dropped. Please reference Withdrawal from a Course or Drop a Course within the Academic Policies section of the catalog.

LEAVE OF ABSENCE

A student who is in good standing with the University may request a one semester leave of absence (LOA) for specific vocational, military, educational, or personal circumstances. The written request, along with supporting documentation, must be submitted to the Office of Registration and Records via the student portal prior to the beginning of the semester for which the leave is being requested.

The request must be reviewed and approved by the Office of Academic Affairs.

Students wishing to request a leave of absence should be aware of the following:

- Students requesting a leave of absence are responsible for first checking with the King University Financial Aid Office in order to be aware of any possible impact of a leave of absence on financial aid eligibility, loan repayment, etc.
- A leave of absence request must be completed, submitted, and approved prior to the first day of the semester for which the leave is being requested.
- In order to be considered for a leave of absence, the student must be enrolled at the institution at the end of the semester prior to the requested semester of leave *and* must be in good standing with the institution.
- A leave of absence may only be granted for one full semester, and may not exceed 180 days in any 12-month period.
- At the conclusion of the one-semester leave of absence, the student may return to the institution without need for readmittance.

LIMITATION OF HOURS

All Undergraduate Students

Full-time undergraduate students must take a minimum of 12 semester hours each semester. Students are strongly discouraged from attempting more than 20 semester hours in any given semester, including courses being taken at another institution. Students must have a cumulative GPA of at least 2.0 and obtain approval from the Office of Academic Affairs in order to exceed the 20 semester hour limit. In no instance will any undergraduate student be allowed to register for more than 24 semester hours in any semester. Details regarding additional fees can be found in the Financial Information Policies section of the catalog.

Graduate Students

Full-time graduate students must take a minimum of nine semester hours each semester. Graduate student enrollment expectations and limits are determined by the approved plans of study for each program. Requests to exceed the hours designated by the plans of study by three or more semester hours must be

approved by the graduate program coordinator. Any additions over 13 semester hours must be approved by the Office of Academic Affairs.

ONLINE AND DISTANCE EDUCATION— STUDENT PRIVACY

The following identifies King University's procedures for protecting the privacy of students enrolled in online and distance education courses.

King University Online Student Policy

King University policies concerning the privacy of student records and all state and federal laws and regulations shall apply with equal force and effect to student records regardless of mode of course delivery. Access to online courses and live or recorded webcasts shall only be granted via secure password to properly enrolled students and University faculty and staff.

All websites that collect personally identifiable information from online students are secured encrypted websites.

Online students should not *nor will they ever be* asked or required to disclose passwords to their King Portal or other accounts. King University will *never* request online students to provide passwords to verify passwords electronically or verify passwords through other websites. If an online student receives such a request, the student should *not* respond to it or click on any contained links. In addition, the student should contact the University IT Helpdesk as quickly as possible.

Social security numbers should *not* be transmitted via email. Social security numbers will only be used by King as permitted by law.

Recorded materials involving online students are securely maintained and may only be used or disclosed in accordance with University policies.

ONLINE EDUCATION

King offers online courses in a variety of subjects for both Traditional, and Adult and Graduate Studies (AGS) students. Online courses are similar to face-toface courses in content, requirements, and rigor. Instructors develop courses that define learning outcomes for online courses that are in keeping with

intended outcomes for comparable courses and programs delivered via other modes at the institution.

Students in online classes have access to all King resources, including technical support, Upswing 24/7 online tutoring, Academic Center for Excellence (ACE) services, and library resources. Students should consult the King Academic Catalog and Student Handbook for information on additional resources available to all students. By their nature, some services are made available on the main campus. More information is available in *The Online Student Handbook* posted in each online course.

ORIENTATION AND ADVISING

All students are expected to complete orientation prior to beginning their program of study at King University. Students will be advised as to the time, location, and format of their orientation program by the Office of Admissions or Office of Student Affairs. The purpose of orientation is to assist students in their transition to King University, to become aware of the services, resources, and programs available to them, and to acquaint them with the policies and procedures of the University.

Each student is assigned a Student Success Specialist or an Academic Advisor to help him/her navigate institutional processes, to support academic success, and to help him/her connect with other campus resources and services when needed. Students can obtain contact information for their Student Success Specialist or Academic Advisor via the Portal, http://my.king.edu.

It is the responsibility of each student to monitor his or her academic progress at King. The student is expected to know the graduation requirements pertinent to his or her program, to be cognizant of his or her grade point average, to make appropriate elective course selections, and to add/drop courses to best facilitate attainment of his or her educational goals.

PARTICIPATION IN COMMENCEMENT EXERCISES

Commencement exercises are held annually in spring although degrees are also conferred in summer and fall. Participation in commencement exercises does not indicate completion of degree requirements. Any student who graduates in summer or fall will normally participate in commencement exercises the following spring. Students in associate's, bachelor's, and master's programs can petition to march in the spring ceremony held prior to the conferral of their degree if they are registered for the deficiencies in the subsequent semester. To petition to participate in an early commencement ceremony, students must supply a copy of their degree audit showing their plan for degree completion as well as indicating their plans when submitting the *Intent to Graduate* form.

Pass/Fail - Undergraduate Courses

The purpose of this policy is to encourage students to become life-long learners by removing undue concerns for grades in areas outside the students' major areas of study. Therefore, an undergraduate student can declare Pass/Fail status for a course.

A passing grade (P) will be awarded if the student achieves a C- or higher (as would have normally been awarded for that course); otherwise, a failing grade (F) will be awarded. Students may enroll in up to four (4) credit hours per semester on a Pass/Fail basis. The total number of semester credit hours awarded on a Pass/Fail basis shall not exceed 12 for any student's entire undergraduate program.

For 15-week courses, a student shall have the option of declaring Pass/Fail until two (2) weeks after midsemester. For modular courses (a course that is shorter than full term), students shall have the option of declaring Pass/Fail until the end of third week for a course. Once a student completes the Pass/Fail paperwork, the student may not revoke this decision.

No courses required for a student's major and only four (4) credit hours from a student's minor shall be taken on a Pass/Fail basis by a student who has already declared that major or minor.

Instructors shall not be informed who has declared the Pass/Fail option in their courses and will submit grades for everyone. The Registrar will keep a record of all grades until a student's graduation, even though the student's transcript will show only P or F. A student who has taken a course Pass/Fail required for a major or minor and then declares in that major or minor will receive the grade awarded.

Courses that are designated as Pass/Fail shall not count against a student's limits per semester or career.

A grade of P will not influence a student's grade point average in any way; however, a grade of F will be included in the calculation of grade point average. Grades for courses transferred from another institution can never be converted to Pass/Fail.

PLACEMENT FOR COMPOSITION COURSES

Upon matriculation, all traditional students will be required to complete a Writing Sample, administered under timed conditions, on a topic chosen by the Composition Faculty for the purpose of confirming placement in the appropriate Composition course.

ACT/SAT and AP scores will be taken into account in assigning placement, but emphasis will also be placed on the writing sample. Students may be required to take WRIT 1010 English Composition: Basic Communication Skills, designed to equip them for written performance at a university level. Assignment to this course is a means of helping students make a successful transition into college.

International students must present a TOEFL score of 600 (paper) or 100 (internet) to be admitted directly into the regular curriculum at King University. All international students will initially be placed in WRIT 1010 English Composition: Basic Communication Skills, but may be moved into WRIT 1110 Composition: Writing and Speech based on the results of the required Writing Sample.

In order to be placed in WRIT 1180 *Honors* Composition, students must be accepted into the Snider Honors Program.

Students must earn a C- or higher to progress from WRIT 1110 English Composition: Writing and Speech to WRIT 2010 Research and Writing. If a student earns a D or F, the instructor and Director of Composition will determine if the student must take WRIT 1010 or repeat WRIT 1110.

Any student who earns a D or F in WRIT 1010, WRIT 1110, or WRIT 1180 must repeat the class at King University. After the D or F is earned, students may not substitute credit earned at another institution.

PRIOR LEARNING ASSESSMENT (PLA)

Prior Learning Assessment (PLA) is a term used to describe the evaluation of college level learning for

college credit that is gained outside a traditional academic environment. King University employs prior learning assessment aligned with institutional mission, academic integrity, and student educational attainment and success.

PLA credits apply toward majors, minors, concentrations, general education requirements, and electives that count toward the degree being sought in the same manner as traditional courses. PLA credits shall not be treated differently in their application and use than their course equivalencies or appropriate block credit. PLA may be accepted up to 30 total credits of a bachelor degree, and up to 15 total credits of an associate degree. The total credits may be comprised of multiple types of PLA.

Types of Prior Learning Assessment

1. Credit by Examination

- a. Advanced Placement—Course credit for successful completion of Advanced Placement examinations administered by the College Entrance Examination Board to high school students will be granted to students presenting Advanced Placement examination grades of four (4) or higher. A letter grade of P will be assigned for credit granted. Because no grade is assigned other than P, no Quality Points will be awarded to count toward GPA. A grade of three (3) will exempt a student from the course.
- b. College Level Exam Program (CLEP)—
 Students may earn college credit for certain examinations administered by the College Level Exam Program. To receive credit for a CLEP test, a minimum score must be earned (Contact the Registrar for information on scores required for credit for specific courses). CLEP credit will be transcripted as course-specific credit with a grade of P. Because no grade is assigned other than P, no Quality Points will be awarded to count toward GPA. CLEP credit will be identified as transfer credit from the College Level Exam Program.
- c. DANTES Subject Standardized Test
 (DSST)—Students may earn college credit
 for acceptable scores on the DANTES
 Subject Standardized Test based on the
 credit recommendations and minimum
 scores recommended by the American

- Council on Education. Students should submit an official DANTES transcript for review. A letter grade of P will be assigned for credit granted. Because no grade is assigned other than P, no Quality Points will be awarded to count toward GPA.
- d. International Baccalaureate Program—King recognizes the IB diploma and King will grant a maximum of eight (8) hours of credit for scores of 5, 6, and 7 on each of the IB Higher Level examinations. The Registrar in conference with the Provost will decide the amount of credit awarded. The maximum number of credit hours awarded for IB is 30.

2. Credit Recommendation for Past Training (Credit Recommendation Service)

- a. Prior Military Training Credit—College credit for military training may be awarded through the American Council on Education (ACE) College Credit Recommendation Service or through direct evaluation of the student's service school transcripts. For ACE evaluated credit, students must request and submit to the institution an official transcript from ACE in order to receive PLA credit, and the training must be evaluated by ACE and included in the ACE Guide.
- b. Occupational and Workplace Training—Credit awarded for completion of workplace (corporate, government, etc.) training may be awarded based on recommendations by nationally recognized college credit recommendation services such as the American Council on Education (ACE). A letter grade of P will be assigned for credit granted. Because no grade is assigned other than P, no Quality Points will be awarded to count toward GPA.
- c. Prior Law Enforcement Training Credit A student who has completed a stateapproved law enforcement academy or
 training program may be awarded up to 12
 semester hours of general elective credit. To
 be eligible to apply, students must meet the
 following criteria:
 - i. Be a current state-certified or federal law enforcement officer or have been a state-certified or federal

- law enforcement officer within the past 5 years.
- Successful completion of 12 or more semester hours of academic coursework in criminal justice at King University with a grade of Cor better.
- d. Credit awarded for completion of workplace (corporate, government, etc.) training may be awarded based on recommendations by nationally recognized college credit recommendation services such as the American Council on Education (ACE). A letter grade of P will be assigned for credit granted. Because no grade is assigned other than P, no Quality Points will be awarded to count toward GPA.

3. Proficiency Validation by Licensure

- a. RN-BSN Advanced Placement Credits Upon successful completion of 12 or more semester hours of academic coursework in nursing at King University with a grade of C+ or better, the student may be awarded up to 30 semester hours of advanced placement credit. For RN advanced placement, a maximum of 30 credits may be awarded. To be eligible to apply, students must meet the following criteria:
 - Hold an associate's degree or diploma in nursing
 - ii. Hold an active, unrestricted license as an RN
 - Successful completion of 12 or more semester hours of NURS coursework at King University

b. LPN Advanced Placement Credits -

Upon successful completion of academic coursework in nursing at King University with a grade of B- or better, the student may be awarded up to 20 semester hours of advanced placement credit. For LPN advanced placement, a maximum of 20 credits may be awarded. To be eligible to apply, students must meet the following criteria:

- i. Hold an active, unrestrictive license as an LPN
- Successful completion of 12 or more semester hours of NURS coursework at King University

iii. Successful completion of NURS 3115

Students should contact Student Success Specialist for further information.

4. Dual Credit Agreement

a. Senior Capstone at Elizabethton High School - King University will award one (1) credit for KING 1620, Preparing for College, to EHS students who enroll in the EHS Senior Capstone Course (G25H24), achieve a grade of 70% or higher in the course, complete all other requirements as outlined in the Partnership Agreement, and enroll at King University. A letter grade of P will be assigned for credit granted. Because no grade is assigned other than P, no Quality Points will be awarded to count toward GPA.

PROGRAM LENGTH

In compliance with the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), all educational programs comply with the expectation that undergraduate programs have at least 60 semester credit hours at the associate level, at least 120 semester credit hours at the baccalaureate level, at least 30 semester credit hours at the post-baccalaureate, master's, or professional level.

Graduation requirements for specific programs may be found in this catalog in the *Academic Programs* section.

RECORDS AND TRANSCRIPTS

A complete record showing entrance credit, college credits, majors, minors, honors, and degrees for each student is kept in the Office of Registration and Records.

Transcripts are forwarded to designated third parties only upon the student's request. To be "official" they must be signed by the Registrar and bear the Seal of King University. All transcripts will clearly indicate when and to whom they are issued. Official transcripts will be withheld if the student has not settled all obligations (holds) to the institution.

King University has accepted custody of the academic records or transcripts from institutions that have

closed per the request of those institutions. King University has agreed to provide copies of documents contained in these records upon request and makes no judgment as to the validity, content, or rigor of any course or program represented on the documents. All custodial records are considered frozen as the institution bearing the seal has closed and, therefore, King University cannot make record changes.

REGISTRATION AND CHANGES IN CLASS OR SCHEDULE

All students are assigned a Student Success Specialist or an Academic Advisor to assist them in their academic planning and in navigating University registration processes.

During the latter part of the fall and spring semesters, Traditional students who plan to be enrolled for the next semester will register themselves online via the Student Portal. Financial obligations must be met in the Business Office before the registration procedure can be finalized (i.e., any student with a hold from the Business Office or Financial Aid will not be registered until the hold is removed).

AGS and Online students are registered for courses by Student Success Specialists in the following Adult and Graduate Studies (AGS)/Online programs:

- Accounting, BS
- Associate of Arts
- English Online BA
- Business Management BBA
- Criminal Justice and Criminology BS
- Healthcare Administration BS
- History Online BS
- Information Technology BS
- Interdisciplinary Studies BA
- Nursing BSN (RN-BSN)
- Psychology BS
- Social Work BSW
- MBA
- MHA
- MSW

Student registration for the MSN, DNP, and M.Ed. degree programs is processed each semester by the Student Success Team following consultation with the students' academic advisors.

King University course enrollment expectations represent a strategic balancing of best practices in teaching and learning, faculty availability and workload, and available fiscal and physical resources.

The university reserves the right to cancel or discontinue any course because of low enrollment or for other reasons deemed necessary. Program Coordinators will be consulted during this process. Faculty and students will be notified if a course is cancelled. When canceling or discontinuing a course, every effort will be made to accommodate the needs of students, faculty, and staff.

In order to assure quality instruction, the university also reserves the right to close registration for a course when maximum enrollment has been reached. The university reserves the right to make changes in schedule or faculty when necessary. When implementing changes in class and schedule, King University shall maintain compliance with the SACSCOC Principles of Accreditation. The institution shall also maintain compliance with programmatic accreditation requirements, as applicable.

REPEAT COURSEWORK

Students repeat courses for several reasons:

- Because they failed a course and want to remove the F from their records;
- Because the grade earned in a major, minor, or concentration course is below the level required by that program;
- For the purpose of increasing proficiency in a course when such is necessary for successful performance in a subsequent course;
- For the purpose of increasing the grade point average.

A student may repeat a course, provided that the grade earned is below a C (C- or below) in the course to be repeated. Students are permitted to repeat a course twice for a total of three (3) attempts. The grade in the final attempt will be used to calculate the student's cumulative GPA.

Specific program requirements regarding course repeats and grades for a course will take precedence over this policy.

NOTE: Veterans Benefits

Students who choose to repeat any course in which they have earned a passing grade (Cor better) may not receive veterans benefits for those hours. Students will need to refer to the VA Educational Benefits policy under *Financial Information Policies* for clarification.

SPECIAL TOPICS COURSES

King University is committed to maintaining the highest level of academic quality and integrity in a student's educational experience. This policy is designed to ensure the quality and integrity of special topics offerings.

Definition

Special Topics courses provide faculty an opportunity to teach a certain topic not otherwise offered, broadening the student's experience within their major coursework. Special Topics courses are developed to cover emerging issues or specialized content not represented in the main curriculum.

- Special Topics courses are not existing courses within the Academic Catalog.
- Most Special Topics courses can be repeated by students for additional credit provided that the course sections attempted cover varying material.
- Special Topics courses will be available for each department. They will be offered and transcribed with the designation of X900 (ex. BUSA 3900). The course level (X) will be determined by the department when submitting a course for the offering.

STUDENT COURSE EVALUATIONS

The Office of Academic Affairs, as part of the larger process of evaluating the effectiveness of King's academic programs, administers student course evaluation surveys online for each class taught during every semester.

SUMMER TERM—TRADITIONAL

King offers a voluntary summer term with three (3) 5-week sessions during which General Education courses, academically related job and work experiences, opportunities for off-campus travel/study programs, and Special Topics courses are offered. Financial aid for the summer term is usually limited to loans and the TN HOPE Scholarship for residents of Tennessee.

TAKING COURSES AT OTHER INSTITUTIONS

A King University student wishing to take courses at other institutions for credit must have authorization from the Office of Registration and Records. If the course is in the major discipline, students must have authorization from both the academic program coordinator for the major and the Office of Registration and Records.

The Authorization to Take Courses at Another University form and a catalog course description of the course the student wants to take are required. A course syllabus may also be needed before the request is approved.

Approved courses transferred back to King will not add quality points, so such courses may not be used to raise the cumulative GPA at King. Courses for which a student has not received prior approval may not be accepted by King University.

King University will grant semester hour equivalence only for transfer work of C- or better, and only work with grades of C- or better will be applied toward graduation requirements. Courses with grades below C- will not transfer. Specific academic schools or programs might have higher grade requirements.

Authorization to take courses at another institution must be submitted prior to the beginning of the course at the other institution. Taking courses at another institution is not advised in the graduation semester and may cause a delay of one semester in the conferral of the degree. Students taking courses at another institution in their final semester must follow the institutional due dates stated in the King University Academic Calendar. Failure to meet this deadline could not only hold up conferral of the degree but also the release of transcripts. Students are responsible for making arrangements with professors at other institutions to complete course requirements early if that is necessary in order to meet the King University deadline.

Bachelor's Degree students must complete one-third of coursework in their major at King, and a minimum of 48 of the 124 semester hours required for graduation must be earned at King University.

Associate of Arts students must complete at least 24

semester hours, including the five (5) required courses, at King.

TIME LIMIT FOR COMPLETION OF DEGREE REQUIREMENTS

Academic catalogs are generally in effect for six (6) years. This time frame is congruent with the amount of time (150%) allowed by the Department of Education for a student to get a Bachelor's Degree and for Title IV financial aid purposes. Bachelor's Degree students are allowed 12 semesters of full-time enrollment. For Title IV aid purposes, all time spent and all hours earned at prior institutions count toward the 150% of the total program.

Candidates for graduation who do not complete the work for their degrees within 12 full-time semesters of continuous enrollment from the time of matriculation must consult with the pertinent program coordinator for their major discipline. This meeting will result in a plan of study that includes at least 30 semester hours of specified general education courses and the desired major, as well as sufficient credits to reach 124 semester hours, the minimum total for graduation. Transfer students who come to King University with earned semester hours will have a pro-rated version of the 12 full-time semesters based on the number of earned hours they bring.

General education requirements for students who have reached the time limit will default to those in the academic catalog that is current when the plan of study is made.

The Program Coordinator must communicate this recommended plan of study to the Office of Registration and Records for approval. Once the degree plan is approved, it will become the standard for the student's degree audits.

Time limits for King University graduate programs are specified in the *Academic Programs* section of this catalog.

TRANSFER CREDIT ACCEPTANCE

King University accepts applicable qualifying transfer credit from regionally accredited colleges and universities. Students wishing to request transfer of credit from a non-regionally accredited institution or credit for courses in major programs should submit a *Petition for Acceptance of Transfer Credit* to the Office

of Registration and Records. The Petition should be accompanied by an official transcript, course syllabus for each course, and catalog descriptions for courses for which approval is sought. The Registrar will send the Petition to the appropriate School(s) for faculty review and evaluation of the requested transfer credit. Decisions regarding the awarding of credit will be returned to the Registrar, and any transfer credit granted will be entered into the student's record.

Students wishing to request the transfer of credits designated as "not designed for transfer" from a regionally accredited community college may be required to submit a *Petition for Acceptance of Transfer Credit* after a review of the transcript by the Registrar. All transfer coursework is evaluated based on the educational quality of the coursework; the comparability of the nature, content, and level to King University coursework; and the appropriateness and applicability of the coursework to programs at King University.

Only grades of C- or better will qualify a course as transfer credit. A maximum of 76 semester hours of accepted credit may be applied to a student's academic program. There is no time limit for coursework being transferred in for general education credit. Some King University programs may not accept transfer courses deemed out-of-date based on when students completed the coursework.

Previously Earned Degree from Another Institution

A previously earned degree from a regionally accredited college or university will be accepted as having met the King University General Education requirements, except for the Common Experience, so long as the degree includes a minimum of 30 semester hours of General Education courses. The degree must include at least one course in each of the categories below that are eligible for transfer:

- Humanities/Fine Arts
- Social/Behavioral Sciences
- Natural Science/Mathematics

Courses designated as Common Experience in the General Education must be completed at King University.

Credit is not given for coursework unrelated to the university's offerings (e.g. auto mechanics and other

terminal vocational, technical and occupational courses).

Specific Majors/Minors Requirements

Some academic programs, both majors and minors, require specific general education courses as prerequisites. If transfer students bring in other general education courses and thereby satisfy general education requirements, they still must take the required prerequisite courses.

In addition, some programs have GPA requirements for all prior coursework, whether completed at King University or at another regionally accredited college or university.

TRANSFER OF KING UNIVERSITY CREDITS TO OTHER INSTITUTIONS

King University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate, bachelor's, master's and doctoral degrees. However, the right to accept or reject transfer of credits or to recognize academic degrees earned at King University lies entirely with the receiving institutions. Therefore, King University and its representatives do not imply, promise, or guarantee transferability of its credits to other institutions.

Furthermore, if the receiving institutions refuse either to accept credits or to recognize degrees earned at King University, students may be required to repeat some or all coursework at those institutions. Consequently, students considering transferring to other institutions should work directly with their respective schools' officials to determine the transferability of King University credits or degrees and the alignment of those institutions' programs with the students' educational goals and expectations.

UNDERGRADUATE ACADEMIC HONORS

Academic honors shall be determined by the undergraduate student's King grade point average.

Graduates who have completed a minimum of 62 semester hours of graded coursework at King (excluding PLA, and Pass/Fail credits) will be eligible for the following Latin honors:

- GPA meeting or exceeding 3.500: cum laude;
- GPA meeting or exceeding 3.700: magna cum laude; or

• GPA meeting or exceeding 3.900: summa cum laude.

Students who have completed 48-61 hours of graded coursework at King with an institutional grade point average of 3.70 or higher will graduate *With Distinction* in their designated field of study.

Honors will be noted on the diploma and anticipated honors will be announced during commencement exercises. *Summa cum laude* graduates will receive a gold honor cord as they cross the platform during commencement exercises.

Because grades are not due until after commencement, final Grade Point Averages cannot be computed until all grades are received by the Office of Registration and Records. The final transcript is the official academic record of honors granted. Honors will always be correct on each student's diploma and transcript. However, honors announced at a graduation ceremony may not be entirely in line with actual honors due a student.

University President's and Provost's Lists

King University has established the President's List and Provost's List to formally acknowledge academic excellence on the part of its students. Being placed on either list is an academic honor that allows the University to denote and celebrate student achievement within the University community and beyond.

President's List

The President's List distinction is bestowed on students who exhibit a commitment to the highest academic excellence during an academic term. Students qualifying for the President's List must:

- be enrolled as a full-time (minimum of 12 s.h.) student
- have a 4.00 grade point average (GPA) for the semester with no Incompletes (I) or No Grades (NG)
- pass the Chapel, Convocation, and Service (CCS) requirement
- be in good academic standing

Provost's List

The Provost's List distinction is bestowed on students who exhibit a commitment to academic excellence

during an academic term. Students qualifying for the Provost's List must:

- be enrolled as a full-time (minimum of 12 s.h.) student
- have a 3.50 grade point average (GPA) for the semester with no Incompletes (I) or No Grades (NG)
- pass the Chapel, Convocation, and Service (CCS) requirement
- be in good academic standing

Students placed on the President's List or Provost's List will be recognized on the University's website, on its social media feeds and in its publications. The lists for each semester are released approximately 30 days following the end of each semester. Students who have opted to withhold their Directory Information in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA) will not be included in any public release of the lists.

WITHDRAWAL FROM A COURSE OR DROP A COURSE

Overview

A student should withdraw from a course as soon as the determination is made that he/she will not be completing the course. This option carries the potential for grade and tuition penalty and may impact financial aid status.

Verifying for Class

Eligibility for federal student aid is, in part, based on the student's enrollment status for the semester in which they are enrolled.

Verification is based on the completion of an academically related activity which is defined below: Academically related activities include, but are not limited to:

- Physically attending a class (including participating virtually in a synchronous class session)
- Submitting an academic assignment
- Taking an exam, an interactive tutorial, or computer-assisted instruction
- Attending a study group coordinated by the school
- Participating in an online discussion about academic matters

- Initiating contact with a faculty member to ask a question about the academic subject studied in the course
- Initiating contact with a faculty member to confirm their active enrollment in the course (including being granted an excused absence)

Students will be dropped from any course where verification cannot be confirmed.

Tuition and financial aid will be adjusted accordingly based on any change in enrollment status. (*Example:* Going from full-time to part-time would affect tuition charges and financial aid.)

Withdraw from a Course

A student is required to communicate their intention to withdraw from a course to both the course instructor and their advisor or Student Success Specialist. The student initiates the process by obtaining a *Withdrawal from a Course form* from either the Office of Registration or Records or their assigned Student Success Specialist. This form outlines the process that the student must complete.

Students who have been accused of Academic Dishonesty in a course will not be permitted to drop or withdraw from that course until the Student Conduct Process has concluded (i.e., the student may not withdraw in an attempt to stop the process).

Students who are sanctioned for violating the Academic Dishonesty policy in a course forfeit the right to withdraw from the course with a grade of W.

Fifteen-Week Courses

A student may modify their schedule by dropping a 15 week course by the add/drop deadline published in the Academic Calendar for that semester. A course that is dropped from a student's schedule does not appear on the student's academic transcript.

Tuition and financial aid will be adjusted accordingly based on any change in enrollment status. (Example: Going from full-time to part-time would affect tuition charges and financial aid.)

A 15-week course that is dropped after the add/drop period has ended is considered a "Withdrawal". The student will receive a grade of W, WP, or an F for the

course dependent upon the withdrawal date listed in the Academic Calendar.

The student will not be eligible for a tuition refund and must still pay any outstanding balances owed to the university.

MODULAR COURSES* (FIVE-WEEK, SEVEN-WEEK, OR EIGHT-WEEK COURSES)

A student may modify their schedule by <u>dropping</u> a modular course during the first 5 days of the module. A modular is a course that is shorter than full term and does not span the entire payment period or period of enrollment.

Five Week Courses

A student who verifies and then decides to withdraw after the first five days will receive a grade of W if the withdrawal is requested within weeks 2 through 4. Students who verify in a modular course and decide to withdraw after week 4 will receive a WP or an F based on instructor discretion. These students will not be eligible for a tuition refund and must still pay any outstanding balances owed to the university.

Seven and Eight Week Courses

A student who verifies and then decides to withdraw after the first five days, but before the last week of the module, will receive a grade of W. Students who decide to withdraw during the last week of the module will receive a WP or an F based on instructor discretion. These students will not be eligible for a tuition refund and must still pay any outstanding balances owed to the university.

WITHDRAWAL FROM THE INSTITUTION

OFFICIAL WITHDRAWAL

To withdraw officially from King University, a student <u>must complete</u> the online Withdraw from University Form. The online withdrawal form is submitted through the student portal.

In addition, a resident student must check out of their residence hall by completing the *Room Condition Form* and turning in their key(s) to the Area Coordinator.

A student withdrawing from the institution will receive a grade of W in all courses not completed for the term following the deadlines outlined on the

Academic Calendar. Students enrolled in a modular course will need to refer to the previous policy to know what grade will be assigned for courses that are currently in session. Modular courses that are not currently in session during the withdrawal, will be dropped from the students' academic record.

The Office of Registration and Records will send official notice of the student's withdrawal from the institution to all campus offices. The last date of attendance will be determined in coordination with the Office of Financial Aid.

The Vice President for Student Affairs, the Dean of Students, or the Provost may, at their discretion, facilitate an Administrative Withdrawal process due to unusual or extenuating circumstances.

Students who have been accused of Academic Dishonesty in a course will not be permitted to withdraw from the university until the Student Conduct Process has concluded (i.e., the student may not withdraw in an attempt to stop the process).

Students who are sanctioned for violating the Academic Dishonesty policy in a course forfeit the right to withdraw from the course with a grade of "W."

Upon withdrawal, it is the responsibility of the student to resolve all outstanding obligations to the institution (pay outstanding fees, return library resources, return athletic equipment) and to turn in their student ID card and any keys issued by the institution. Failure to do so will result in the addition of fees to the student's account in the Business Office and a Hold on the student's official academic records.

UNOFFICIAL WITHDRAWAL

Failure to enroll for another module within 45 days after attending a previous module will result in an unofficial withdrawal from the University.

A student who receives a grade of 'WF' in <u>all courses</u> at the end of a semester will result in an unofficial withdrawal from the university. The Office of Registration and Records will unofficially withdraw the student from the University due to non-participation. For Title IV Federal Aid purposes, a WF is defined as failure to attend any classes after the mid-point, and the mid-point of the semester will be

used as the unofficial withdrawal date for the student. The mid-point for modular courses is defined as follows:

- Five-Week Module: student stops attending after week 3
- Seven-Week or Eight-Week Modules: student stops attending after week 4
- Fifteen-Week Modules: student stops attending after week 7

If the student receives a passing grade for any course during the same period, it is assumed the student completed the period for all courses.

Students who are unofficially withdrawn must readmit to the University.

COMPLAINT PROCEDURE

STUDENTS ENROLLED AT TENNESSEE INSTRUCTIONAL LOCATIONS

Should the institution not be able to resolve a student's complaint, the student has the right to contact the State of Tennessee and its appropriate agency to determine the course of action. Complaints can be filed with the following agencies in Tennessee:

- Complaints related to the application of state laws or rules related to approval to operate, or licensure of a particular professional program within a postsecondary institution, shall be referred to the appropriate State Board (i.e., State Boards of Health, State Board of Education, and others) within the Tennessee State Government and shall be reviewed and handled by that licensing board, (http://www.tn.gov, and then search for the appropriate division).
- Complaints related to state consumer protection laws (e.g., laws related to fraud or false advertising) shall be referred to the Tennessee Division of Consumer Affairs and shall be reviewed and handled by that Unit https://www.tn.gov/attorneygeneral/working-for-tennessee/consumer-affairs.html.

The King University *Grievance Policy* can be found in the King University *Student Handbook* and on the website at www.king.edu.

STUDENTS ENROLLED AT OUT-OF-STATE INSTRUCTIONAL LOCATIONS—VIRGINIA

Students enrolled in academic programs in Virginia should follow the student complaint procedures outlined in the King University *Student Handbook*. Students who follow King grievance policies without resolution of the concern may, as a last resort, contact a staff member of the State Council of Higher Education in Virginia (SCHEV) to file a complaint about the school.

State Council of Higher Education for Virginia 101 N. 14th St. 10th FL James Monroe Building Richmond, VA 23219 Telephone: (804) 225-2600

STUDENTS ENROLLED IN DISTANCE EDUCATION PROGRAMS

Student complaints relating to consumer protection laws that involve distance learning education offered under the terms and conditions of the State Authorization Reciprocity Agreement (SARA), must first be filed with the institution to seek resolution.

Complainants not satisfied with the outcome of the Institution's internal process may appeal, within two years of the incident about which the complaint is made, to the Tennessee Higher Education Commission:

https://www.tn.gov/thec/bureaus/student-aid-and-compliance/postsecondary-state-authorization/request-for-complaint-review.html

SOUTHERN ASSOCIATION OF COLLEGES AND SCHOOLS COMMISSION ON COLLEGES (SACSCOC)

Complaints regarding accreditation standards, policies, and procedures can also be made by contacting the Southern Association of Colleges and Schools Commission on Colleges, 1866 Southern Lane, Decatur, GA 30033-4097, phone 404-679-4500. The Commission's complaint policy, procedure and the complaint form may be found on their website:

http://sacscoc.org/app/uploads/2020/01/ComplaintPolicy-1.pdf

HONOR CODE

All students enrolled at King are bound by the King University *Honor Code*.

On my honor, I pledge to abide by the King University Honor Code: I understand that students of King are to be honest in words and actions, in particular, not to lie, cheat, plagiarize, or steal. I pledge to conduct myself in a manner based on Christian values and to require the same of fellow students. I understand that a violation of this Honor Code may result in my appearance before the Honor Council.

INCLEMENT WEATHER AND EMERGENCY CLOSURE

King University is concerned about the safety of students, staff, and faculty. The procedures contained in this policy have been guided by the belief that the

Policies—Student Life

University is a community and as such is normally open during periods of ordinary seasonal inclement weather or other minor disruptions. The university equally values the safety and lives of all students, faculty and staff, while recognizing that we must maintain the effective operation of the university during inclement weather and other emergencies when possible.

In the event that any King University campus is closed or classes are cancelled, all online classes will continue as scheduled. All classes that normally meet in person may continue via online assignments, web video conferencing, extra assignments, and individual conferences at the discretion of the faculty member. Additionally, course work may be made up by rescheduled class time, extended class time, or other alternatives as determined by the Provost. For more information visit:

https://www.king.edu/about/offices/security-and-safety/inclement-weather-policy/

TITLE IX

Title IX of the education amendments of 1972 prohibits discrimination on the basis of sex in education programs or activities, and extends to employment and admission to institutions that receive federal financial assistance. Inquiries concerning the application of Title IX should be directed to the Title IX Compliance Officer, James Donahue, Vice President for Administration and Finance, 423-968-1187, or to the Assistant Title IX Compliance Officer, Benny Berry, Director of Safety and Security, 423-652-4705. Mailing address for both: King University, 1350 King College Road, Bristol, TN 37620. Information regarding Title IX may be found at:

https://www.king.edu/about/offices/security-and-safety/title-ix/

Confidential and Anonymous Reporting

The Campus Conduct Hotline system is available for use 24 hours a day, seven days a week. Because the Hotline is operated by an independent organization, any calls made through the Hotline are completely confidential and anonymous. Possible policy violations can be reported anonymously by calling toll-free, 866-943-5787.

ADULT AND GRADUATE STUDIES (AGS)

Adult and Graduate Studies (AGS) programs differ from traditional programs in the following respects:

Adult-Oriented Programming

The King AGS programs are adult-oriented degree programs that are designed to eliminate some of the challenges facing adult learners.

Accelerated Pace

Students in the face-to-face programs attend only one or two (2) class sessions per week. Many courses are completed in five (5) to eight (8) weeks.

Students enrolled in AGS programs are expected to maintain continuous, year-round, full-time enrollment; therefore, Fall, Spring, and Summer semesters are required until their program is complete. If an AGS student wishes to take a semester off and they are not an international student on an F-1 Visa, they may request a Leave of Absence through the Registrar's Office. However, if the AGS student is an international student on an F-1 Visa, they must speak with the International Student Advisor to understand the requirements and ramifications of requesting a semester off. International students on an F-1 Visa in AGS programs are required to maintain continuous enrollment to maintain status.

Although class meeting time is less, students are expected to be engaged with their coursework for the same number of hours regardless of delivery mode—traditional, AGS, or online. Please refer to the Academic Policies section of the catalog for the Credit Hour Definition and Equivalencies policy.

Three (3) factors make it possible for the accelerated programs to function effectively:

- 1. The common goal all students are working towards;
- 2. The cohesiveness and continuity of the cohort or team-based structure;
- 3. The participative, pedagogical teaching methodology, which assumes the students are self-directed, goal-oriented, and interested in applied learning.

Applied Learning

Throughout the modular course work, students are required to integrate theory and academic content with knowledge from their work experiences. Evaluation of students' progress is based not only on evidence of their grasp of content, but also upon their reflections about the application of the content in their workplaces.

Participative Methodology

The primary role of the instructor in the AGS and Online Master's and Bachelor's programs is that of facilitator. The lecture method is used only in a limited way. Students are expected to commit considerable time to acquiring information from textbooks, web-enhanced activities, and work-related assignments. Class time is given over, largely, to the processing of information. The teacher functions as a facilitator in a learner-centered, rather than a teacher-centered, environment.

AU SABLE INSTITUTE OF ENVIRONMENTAL STUDIES

OVERVIEW

King University offers students the opportunity to study off-campus at the Au Sable Institute. The Au Sable Institute of Environmental studies and environmental science at campuses in Costa Rica, India, Michigan's Great Lakes Region and Washington State on the Puget Sound.

Au Sable Institute of Environmental Studies offers over 20 different field-based, university-level courses in environmental studies and environmental science at campuses in the Great Lakes region (Mancelona, MI) and on Puget Sound (Whidbey Island, WA), in addition to courses in South India (Tiruchirappalli, Tamil Nadu) and Latin America (Vara Blanca, Costa Rica). Courses feature extensive field learning to elucidate concepts and teach hands-on skills and techniques for sustainability, ecosystem management and restoration, conservation, and research. Courses take place during May and two summer session terms.

Au Sable attracts students from 60 different Christian colleges and universities around North

America, forming a Christian community that cares about preserving, restoring, and sustaining God's creation. Au Sable's international opportunities include two May session courses "Conservation and Development in the Indian Tropics," taught in partnership with Bishop Heber College (Tamil Nadu, India). The class travels to South India to learn about its unique tropical ecosystems and culture. In Costa Rica, the "Tropical Agriculture and Missions" courses teach proven, hands-on skills and techniques for helping farmers improve their livelihoods in developing countries, and how these can be used to share the Gospel.

RICH EDUCATIONAL EXPERIENCE

More than 50 Christian colleges and universities partner to offer field courses in May and Summer I and II, in northern Michigan, Whidbey Island in Puget Sound (Washington State), Costa Rica, and India. Examples of Au Sable courses include Aquatic Biology, Alpine Ecology, Marine Biology, Marine Mammals, Conservation Biology, Tropical Agriculture and Missions, Ecological Agriculture, and International Development and Environmental Sustainability.

PROFESSIONAL CERTIFICATIONS

The Au Sable Institute offers professional certifications in several areas, based on certain courses are taken at home institutions and Au Sable.

TUITION AND FEES

Tuition is paid by students to their home institution for all courses taken at the Au Sable Institute. Au Sable charges a uniform tuition rate of \$2,950 per 4 credit course, regardless of credit granted by King.

In addition to tuition, there are the following site's fees. Site fees are charged for the room, board, transportation, and site-specific costs associated with each program location and session.

- Application Fee: US \$30 (non-refundable, not applied to tuition)
- Tuition Deposit: US \$200 (per academic session, applied to tuition)
- Site Fees (room, board, course transportation, and site-specific costs):
- May Session Great Lakes: US \$440 per week

- May Session Costa Rica: US \$700 per week
- Summer Session I Great Lakes: US \$440 per week
- Summer Session II Great Lakes: US \$440 per week
- Summer Session II Pacific Rim: US \$725 per week

Other Expenses

Students should plan on approximately US \$120-180 per course for textbooks and supplies. Travel to the session site in North American or International session site is the financial responsibility of the student.

REFUNDS/WITHDRAWALS

After 30 business days, tuition deposits are non-refundable unless the applicant is rejected. If a student withdraws within 30 days of application, deposits will be refunded within 30 days of withdrawal. Deposits more than 30 days after registration are not refundable. Withdrawals or drops after the start of class will be refunded as follows. After one day (i.e., 10% of class time), 50% tuition we will be refunded; after two days (20% of class time), 25% of tuition will be refunded. After the second day of class, no refunds will be made. Scholarship and grant amounts will be adjusted on a prorated basis for drop and withdrawals. Withdrawals for health reasons will be handled on a case by case basis.

Au Sable Courses

These courses are offered at the Au Sable Institute and are only available to students enrolled in the program. Students can take up to two Au Sable courses as general electives towards graduation.

See the Au Sable Institute (http://ausable.org) website for additional information and course offerings.

FINANCIAL AID AND SCHOLARSHIPS

Students are eligible to apply for financial aid from Au Sable after they have completed the registration process and have completed enrollment in their Au Sable courses, including payment of the tuition deposit. Au Sable provides generous financial aid options to students taking our courses because we want to assist in making an Au Sable education possible for every interested student. Financial Aid is available until all funds are disbursed or until April 1st, whichever comes first.

See the Au Sable Institute website

(http://ausable.org) for additional information on fellowships, grants, and scholarships.

AU SABLE INSTITUTE OF ENVIRONMENTAL STUDIES COURSE DESCRIPTIONS

These courses are offered at the Au Sable Institute of Environmental Studies and are only available to students enrolled in the program. Students can take up to two Au Sable courses as general electives towards graduation.

BIOL/GEOL/GEOG 301 Land and Water

BIOL 302 Lake Ecology and Management. A

BIOL/AGRIC/GEOG 303 Ecological

Agriculture. Ecological Agriculture focuses on how agricultural systems can be developed to better resemble natural ecosystems to achieve multiple outcomes: food for communities, vibrant economies, and healthy ecosystems. The focus is on learning agricultural principles that can be applied in rural, urban, temperate, and tropical settings. Issues of justice and public policy are also discussed. This course employs a discussion

BIOL/GEOG 304 International Development &

ENVST 310 Environmental Law and Policy.

BIOL 311 Field Botany. Field and lab identification, systematics, natural history, and ecology of vascular plants as components

of natural communities and their relationships to ecological features, including stratification, history, plant zonation, adaptation, and animal interactions are examined. Taxonomic relationships of plant families and higher groups are covered. Projector plant collection Prerequisite: One year of general biology or one semester of botany

BIOL 318 Marine Biology. Biology of marine plants and animals in the field. The focus of the course is on intertidal life and marine ecology in oceanic and geophysical context. Includes trophic dynamic relationships of eelgrass communities and the intertidal zone, workings of the island systems of Puget Sound, ecological roles of sea birds and fishes, population and community structure dynamics, exploitation and oceanic microbialization, and biogeochemical processes and their linkages with the biosphere. Marine stewardship and the effects of human activity on the marine environment are examined in all course components4 s.h.

BIOL 321 Animal Ecology. Interrelationships between animals and their biotic and physical environments, emphasizing animal population dynamics in old growth pine forests and bogs. This field-intensive course centers on the ecology of northern Michigan fauna from a stewardship perspective. Included are individual student projects4 s.h. Prerequisite: One year of introductory science

BIOL 322 Stream Ecology. An exploration of streams, emphasizing the unique organisms inhabiting them. Using field-oriented approaches, the course invites students to recognize the intimate connections between streams and their watersheds, explore lotic community ecology, and study fascinating aquatic creatures. Students will gain appreciation for both the intrinsic value of lotic habitats and ecosystem services they provide. The course also addresses human impacts on freshwater systems and approaches to their stewardship. Students will receive training in standard techniques used to assess stream quality and contribute to an ongoing river monitoring

Prerequisite: One year of general biology or one semester each of general zoology and general botany

BIOL/ENVST/GEOG 330 Geographic

Information Systems. An introduction to the theory and application of Geographic Information Systems (GIS) for applied social and ecological problemsolving. Through a series of readings, videos, and hands-on exercises covering a variety of environmental themes, issues, and scales, participants will learn the fundamentals of the types of maps, map projections, symbology, classification, analysis, and web mapping applications, and gain skills and confidence to be able to conduct their own field studies, do spatial analysis, and create their own maps and visualizations......4 s.h.

CHEM 332 Environmental Chemistry. Principles analysis and impact of chemical movement and distribution - both natural and human-induced in natural environments focusing primarily on the hydrosphere and atmosphere. Sampling and analytical methods are included for water, soil, and air. Work is conducted both on-site in natural habitats and the laboratory......4 s.h. Prerequisite: One year of general chemistry and one semester of either biochemistry

or organic chemistry, BIOL/ENVST 391

BIOL 342 Fish Ecology and Management.

Introduction to the relation of freshwater fish species and their environments in lakes and streams with concurrent examination of techniques and technologies employed to manage populations and species for conservation, recreational use, and commercial harvest. This course will provide understanding of freshwater fish taxonomy and phylogenetic relationships, habitat requirements of major fish species by life stages, stream habitat assessment, population measuring and monitoring, and strategies for management of recreational and commercial species and conservation of threatened and endangered species.4 s.h.

BIOL/AGRIC/GEOG 343 Sustainability, Tropical Agriculture, and Development. An introduction to sustainability and tropical agriculture with applications for working with resource-poor farmers. Topics include the scientific basis of low-cost techniques, tropical

crops and their requirements, and on-site work. Issues in agricultural development, urban gardening and small animal techniques are also covered in the context of agricultural employment and economy. This course includes several trips to different ecosystem regions of Costa Rica 4 s.h.

BIOL 345 Wildlife Ecology. Ecology, conservation, and stewardship of wildlife and their habitats. Includes examination of growth and structure of populations, environmental and human social factors affecting wildlife communities, and theories and applications of wildlife conservation. Set in the context of the historical development of the field from management to ecology to the land ethic of Leopold. Includes management and stewardship of non-game and endangered species, and long-term prospects of wildlife in changing environmental, climatic, and social contexts . 4 s.h. Prerequisite: One course in biology, or permission of professor

BIOL/ENVST 354 Environmental Justice.

BIOL 358 Field Techniques in Wetlands. A

one semester of general ecology

quisite: One year of general biology or one semester of zoology (a course in anatomy and/or physiology is recommended)

BIOL/ENVST/GEOG 362 Environmental Applications for Geographic Information **Systems (GIS).** Introduction to the theory and application of spatial analysis for environmental conservation and planning using geographic information system (GIS) technology in the context of real-world conservation problems. This course combines instruction in AGS field data collection; ArcGIS use for storage, analysis, interpretation, and presentation of spatial data; and remote sensing techniques and their integration with GIS applications. Examines theories of environmental planning at regional and landscape levels and their importance for conservation. Instruction in these skills will be integrated around an environmental project applying GIS techniques to actual conservation problems associated with protecting or restoring degraded environments 4 s.h.

BIOL 365 Insect Ecology. Life history, behavior, and ecology of terrestrial and aquatic insects and

BIOL 371 Forest Management. Introduction to sitelevel, landscape and multi-stakeholder approaches to forest management, including strategies of climate change adaptation and mitigation. Theory, application, and techniques of forest management for specified values and objectives including instrumental (economic/utilitarian and life support such as wood production, habitat and watershed protection and climate moderation) and noninstrumental values (such as aesthetic, moral/spiritual values e.g. recreation). The course will address the evolution of forest management practice and some specific practices, methods and techniques of growing trees and the development and care of forests (silviculture) as applied to natural forests managed for various objectives......4 s.h.

BIOL 381 Urban Wildlife Ecology. Rapidly expanding human populations and the heavy dependence on technology have intensified the human impact on ecosystems. Urban areas have expanded and are increasingly altering environmental conditions. It is important to understand the conditions present in these human-altered environments and the impact on wildlife. This course focuses on issues relating to the vertebrates that have chosen to live in urban areas. Using Chicago as a resource, we will explore real issues and concepts including the

impact of habitat fragmentation and modification, synanthropy, and issues such as the predator paradox and population management.

Site visits frame opportunities for active engagement ________4 s.h.

ENVST 385 Urban Environmental Justice.

BIOL/CHEM/GEOG 390 Directed Individual

Prerequisite: A study proposal including goals and objectives, methods, protocols for evaluation to be signed by the professor and program director

BIOL/ENVST 391 Research Methods I. A course designed to prepare natural science majors to conduct scientific field research at levels appropriate for a senior capstone or competitive

Environmental Research program

BIOL/GEOG 471 Conservation Biology.

Prerequisite: One year in biology, one course in ecology, or permission of professor

BIOL 482 Restoration Ecology. Ecological principles for ecosystem restoration and applications for restoring degraded and endangered species. Field studies include analysis of restoration and rehabilitation work with the

Prerequisite: One year of biology and one course in ecology or field biology, or permission of professor

BIOL/CHEM/GEOG 499 Research.

and objectives, methods, protocols for evaluation; to be signed by the professor and program director

DUAL ENROLLMENT

A high school student who desires to take college level coursework while still enrolled in high school may apply as a Dual Enrollment student. Information on the Dual Enrollment admissions process can be found in the Admissions Policies section of this catalog.

Dual Enrollment students may take four (4) semester hours in their first semester. Following the first semester, students may attempt eight (8) semester hours as long as they maintain a 3.0 high school cumulative GPA. Students desiring to take more than eight (8) semester hours in a semester must receive permission from the Provost.

Class Attendance

Dual Enrollment classes will follow the academic calendar and class schedule of King University. Dual Enrollment students will be expected to attend classes if King University is in session, even if their high school is not. The syllabus will detail the specific attendance policy for each course.

Student Access

Dual Enrollment students may access all library services and computer labs on campus. In addition, each Dual Enrollment student will have an email account at King. Dual Enrollment students are also issued a King University Student ID card and are entitled to any appropriate privilege that card entails where reasonable.

Parking

Dual Enrollment students are required to register vehicles to park on campus but are not required to pay the vehicle registration fee. However, parking fines are not waived. Dual Enrollment students are limited to parking only in designated commuter lots.

Honor Code and University Policies

Dual Enrollment students are required to abide by the King University Honor Code and other policies outlined in the King University Student Handbook. Academic dishonesty or any other Honor Code or policy violations will be handled by the Office of the Dean of Students, following the student conduct process outlined in the King University Student Handbook.

INFORMATION TECHNOLOGY

As an institution of higher learning that seeks to prepare men and women to excel as thoughtful, resourceful, and responsible citizens with a passion for serving God, the Church, and the world, King recognizes the importance of the appropriate use of technology in the educational experience. The institution seeks to ensure that graduates obtain the information, technological skills, and competencies that they will need to succeed after graduation.

All campus buildings are linked via a high-speed backbone to King's campus-wide computer network. Network and Internet access is available in every room on campus, including all residence hall rooms. All King students receive an email account. Additionally, King offers computer labs in Bristol and Knoxville Hardin Valley.

THE JACK E. SNIDER HONORS PROGRAM—TRADITIONAL

A former president of King, Dr. R. T. L. Liston, once described King as "a place of the mind." The mind is, however, more than an isolated component of the human being. It helps to shape and is itself shaped by both the spiritual and physical worlds. The Jack E. Snider Honors Program challenges participants to think deeply so as to live fully.

Although students accepted into the Honors Program will be expected to participate fully in the life of the campus, the Program offers special opportunities to develop the life of the mind:

- To meet and study under members of the faculty and outside guests, who themselves demonstrate a passionate commitment to the life of the mind
- To participate in seminars that will examine ideas from a variety of academic disciplines
- To take selected courses that stimulate thinking and allow for creative response
- To engage in independent research
- To serve both the campus and the larger community

To be invited to join the Honors Program, students must have a 3.5 GPA in high school or at another college or university, and have achieved a score of 1260 on the SAT or a 28 on the ACT. Students who do not meet these criteria may still apply to join the Program through the Admissions Office. By an interview or formal essay such students must demonstrate intellectual curiosity, a collegial spirit, and a desire to learn and grow.

KING INSTITUTE FOR FAITH AND CULTURE

Inaugurated in 2008 and dedicated to the work and example of Frederick Buechner, the Buechner Institute at King University explored the relationship between faith and culture. In 2015, the Buechner Institute became the King Institute for Faith and Culture. The King Institute for Faith and Culture is a continuation of conversations between faith, art, and culture started by Dr. Dale Brown.

The King Institute for Faith and Culture sponsors oncampus convocations (generally on Mondays at 9:15 a.m.), as well as evening lectures either on campus or in community venues, that feature speakers from a variety of backgrounds. Lectures examine the ways in which faith informs art and public life and help cultivate conversations about what faith has to do with books, politics, social discourse, music, visual arts, and more.

Located between shrill sectarianism and abject secularism, the Institute aims to cultivate a conversation that is both artful and substantial on issues of faith and culture. The Institute seeks to come at the central issues of our time from as many directions as possible—honestly, clearly, and faithfully. In honor of Frederick Buechner, and in appreciation of his work and legacy, the Institute is honored to

host The Frederick Buechner keynote lecture once a year.

KING UNIVERSITY LIBRARIES

Guided by King University's mission and vision, King University Libraries prepares students in our Christian academic community to excel as thoughtful, resourceful, and responsible citizens with a passion for serving God, the Church, and the world by:

- encouraging exploration, discovery, and critical thinking through information literacy instruction and reference services, and
- 2. providing access to adequate library collections and services and to other learning/information resources consistent with the degrees offered at King University.

King University Libraries has two physical locations: the E.W. King Library in Bristol and the Knoxville Campus Library. King University Libraries' comprehensive physical and electronic collections are distributed across these campus libraries, allowing King University Libraries to deliver resources and services to King University students, faculty, and staff, regardless of location. King University Libraries provides access to all library resources through the library website.

Each of the campus libraries houses books, periodicals, and audiovisual materials to support the degree programs offered by King University. Students have access to interlibrary loan, course reserves, and reference and instructional services on site.

Additionally, each library houses computers, printers, and a photocopier for use by students and faculty and there is space available for students to collaborate and study.

The E.W. King Library is staffed by professional librarians with American Library Association (ALA)-accredited degrees, paraprofessionals, and student workers. The E.W. King Library is open 78.5 hours per week during the regular academic terms with extended hours during exams and modified hours during summer term, academic recess, and holidays. The Knoxville Campus Library is open whenever the campus is open. Hours for each campus library are listed on the library website.

King University Libraries offers information literacy instruction in the face-to-face and online learning environments. Information literacy instruction is planned through collaboration with librarians and is offered in specified courses in the General Education as well as in major programs of study.

King University Libraries' comprehensive physical and electronic collections support all major academic programs as well as the General Education, and the physical collections are distributed between the campus libraries. The full collection contains the following:

- print books and e-books
- print and electronic journals
- government documents
- music CDs
- DVDs and streaming videos
- equipment such as cameras, calculators, and anatomy models

All students and faculty, regardless of location, have 24-hour access to electronic databases that support all programs in all delivery platforms and provide full text access to thousands of journal titles, streaming videos, and reference materials covering a wide variety of academic disciplines.

The King University Archives contain the John Doak Tadlock Collection of items related to King, Presbyterianism, and regional history. Special and rare books are also housed in these collections.

King University Libraries is a member of the Holston Associated Libraries (HAL) which also includes the Emory and Henry College Library, the Tazewell County Public Library in Virginia, and the Washington County Public Library in Virginia. HAL shares a web-based library catalog which points users to the location of more than 1.1 million items in this consortium. King students, faculty, and staff can access most of these resources through the following methods: in person at any HAL library, delivery via courier, or through the mail. Users can request any item be sent via courier or through the mail by clicking "Request" in the shared library catalog.

King University Libraries makes provisions for students to obtain needed library resources that may not be immediately available in the libraries' collections. In addition to sharing resources with the

other HAL libraries, King students, faculty, and staff have access to libraries throughout the Appalachian region through King University Libraries' reciprocal agreements with other universities. Furthermore, King University Libraries participates in OCLC's international service, WorldShare Interlibrary Loan, which permits students, faculty, and staff to obtain nearly any book or journal article that King University Libraries does not own.

For more information about King University Libraries, please visit <u>library.king.edu</u> or call 1-855-KINGLIB.

ARMY RESERVE OFFICER TRAINING CORPS (ROTC) MILITARY SCIENCE

Overview

Army Reserve Officer Training Corps program, while not offered on the King University campus, is available through a program offered at East Tennessee State University (ETSU). King University, in cooperation with ETSU and the United States Army, offer Reserve Officer Training Corps (ROTC) opportunity for King students to enroll in the Military Science program at ETSU. The program is designed to develop the students' managerial and leadership abilities, introduce students to the mission and organization of the United States Army and prepare advanced-course students for service as commissioned officers in the Active Army, Army Reserve, or Army National Guard.

An academic major is not offered at King University. However, upon completion of the reserve officer training programs and the undergraduate degree at King University, a student will receive a commission as a second lieutenant in the United States Army.

King undergraduate students may participate in the program and are eligible for all the benefits associated at ETSU. The ETSU courses in the ROTC program are noted on the students' King transcript. King, however, reserves the right to determine which courses are appropriate and consonant with its educational objectives. These courses are listed in the academic catalog under *Military Science* for the Army Program.

Military Science (MSCI) Courses

These courses are offered at East Tennessee State University and are only available to students enrolled in the Army ROTC program. Courses are counted as general electives towards graduation.

Scholarships

Participating students are eligible for Army ROTC scholarships. These scholarships pay annual tuition costs and a textbook allowance. Scholarship cadets also receive a tax-free subsistence allowance of \$300-\$500 a month for up to 10 months each academic year in which the scholarship is in effect. Students who receive a ROTC Scholarship can receive their ROTC funds and King University institutional aid up to the cost of tuition and fees. Please be advised, not all fees are covered. If you have any questions regarding your financial aid award as a ROTC scholar, please contact the Financial Aid Office.

ROTC Advanced Course

Advanced military science Cadets continue their studies in leadership and tactics with the scope of instruction expanded to include subjects such as military law, battle simulations, group dynamics, organizational management, and decision making. Advanced course contract students receive from \$450 to \$500 per month up to a maximum of 20 months (equivalent to two academic years) and an appointment upon graduation as a Second Lieutenant. Contracted students incur a military obligation to the Active Army, the Reserve, or the National Guard. This obligation can consist of as little as three (3) months active duty, with the remainder spent on Reserve, or National Guard status. Students who prefer Reserve or National Guard duty may be guaranteed that they will not be assigned to active duty except for the short period needed to complete a branch basic officer course (three to six months depending on the branch selected). Students interested in enrolling as a contract Cadet must contact the Department of Military Science for specific program requirements, guarantees, benefits, and military information.

Cadet Advance Course

Advanced course Cadets are required to attend the four-week advance course at Ft. Knox, Kentucky, upon completion of the junior year of military science. Attendance is a prerequisite to commissioning but may be delayed until completion

of the senior year with the approval of the United States Army and the professor of Military Science at ETSU.

Withdrawal of Students

The Government or the ROTC Department may, at its option and at any time, withdraw financial support for any student in the program. This information will be provided to the student and the institution in writing within a reasonable time after publication. The institution may request withdrawal by the Government of any student for academic or disciplinary reasons.

ROTC students will be required to verify for all courses registered. If withdrawal occurs after the add/drop period and before the end of a term, the Government will pay any tuition and fees due for the current term. The institution shall refund any eligible charges under the institutions standard procedures for any student in effect on the date of withdrawal. Withdrawal of students by the Government will not be the basis for any special charge or claim by the institution other than charges under the institutions standard procedures.

THE R.T.L. LISTON MEDALLION FOR ACADEMIC EXCELLENCE

This award honors the important contributions of the thirteenth president of King, Robert Todd Lapsley Liston, who served for 25 years and led the institution into a new era of academic excellence. Since 1986, this award has been and will continue to be presented each year to a traditional undergraduate major graduating with the highest grade-point average. In the case of a tie, more than one award is given. The award is made on a strictly quantitative basis without consideration for a particular degree (B.S., B.A., B.S.N., etc.) or major.

For any course taken on a Pass/Fail basis, the letter grade that was assigned will be used to calculate a

candidate's grade-point average. 75% of all course work must be taken at King to qualify for the award. Students who have been found responsible for an academic honesty violation of the King Honor Code are not eligible to receive the award.

Any summer graduate who attains a grade point average equal to or greater than the Liston award recipient of the previous spring graduation will become a recipient of the Liston award as well. The graduate will have his or her name inscribed on the R.T.L. Liston award plaque and will receive a medallion comparable to any other Liston award recipient. Such a graduate will not walk across the stage to receive the award. However, the graduate may elect to delay his or her graduation until the following spring in order to receive the award at commencement, but then the graduate will be competing with the next year's cohort and will not necessarily have the highest GPA.

Fall graduates will be competing for the award with the cohort that graduates the following spring.

STUDENT AFFAIRS

The Student Affairs Office is located in Maclellan Hall of the Bristol, Tennessee campus. The Vice President for Student Affairs and Dean of Students and the Executive Secretary to the Vice President for Student Affairs and Dean of Students is located in the Student Affairs Office. The following departments are part of the Student Affairs Division.

CAREER SERVICES

The purpose of Career Services is to teach, advise, and equip all King students and alumni to successfully navigate the path from university to career.

To achieve this purpose, the Career Services staff assists student by helping them to:

- Gain clarity and confidence about their postuniversity career direction and goals;
- Acquire and master core career competencies: self-knowledge; developing effective mentoring relationships; leadership and professional development; innovation, creativity, and entrepreneurship; obtaining meaningful internships, post-university careers, or acceptance to graduate schools;

 Be inspired and supported by a university-tocareer community who provide sound advice and mentoring to empower students to achieve their professional goals.

COUNSELING CENTER

The services offered in the Counseling Center are an attempt to bring the best of Christian care and professional practice of psychotherapy to those seeking help in times of need.

IMMUNIZATION

Refer to the King University Student Handbook for information on immunizations and the King University website at www.king.edu.

KING UNIVERSITY STUDENT HANDBOOK

Policies regarding campus life, residence life, student conduct, etc. can be found in the King University *Student Handbook*, which may be accessed online at http://studenthandbook.king.edu.

ORIENTATION

Launch, the New Student Orientation Program, provides freshmen and new transfer students with the opportunity to be acquainted with King as well as meet new friends.

RESIDENCE LIFE

Residence Life provides services and programs to support a comprehensive on-campus living experience that fosters individual, academic, spiritual, and social growth. Residence Life offers intentional, developmental campus living programs to meet the diverse needs of residential students. This experience includes connecting students to the campus community and laying a foundation of experiences essential to future success. The Residence Life staff consists of the Coordinator of Residence Life, two Area Coordinators, and 24 Resident Assistants. These individuals are tasked with maintaining a residential environment conducive to academic and individual growth.

SECURITY

King Security works closely with students, faculty, staff, visitors, local law enforcement, and emergency services concerning safety and security.

Security can be contacted by dialing 4333 from any campus telephone, by dialing 423-652-4333, or in person in the Security Office located in the basement of Parks Hall. Further information regarding campus security can be obtained by referring to the King website, the King University Student Handbook, or by contacting the Director of Safety and Security.

Security contact information for all other instructional locations can be found at http://security.king.edu.

The Annual Security and Crime Statistics Reports are released pursuant to the Department of Education, Federal I Student Aid Handbook, Chapter 6, Providing Consumer Information, and Campus Security section, Jeanne Cleary Disclosure of Campus Security Policy and Campus Crime Statistics Act and Tennessee Code Annotated 49-7-2203.

The Annual Security and Crime Statistics Reports are available at

https://www.king.edu/about/offices/security-and-safety/clery-act/; or paper copy is available at the Security Office located in the basement of Parks Hall; or upon request by calling 423-652-4705 off campus, or extension 4705 on campus. Written requests can be made to the following address: King University Security Department, 1350 King College Road, Bristol, TN 37620.

STUDENT ACTIVITIES

King University seeks to provide a range of engaging, educational, developmentally appropriate, and fun activities for all students.

The official student programming board is known as SLACK (Student Life Activities Committee @ King). SLACK sponsors events during the week and on weekends throughout the semester; most SLACK events are free or of minimal cost to participating students. SLACK Sports, a division within SLACK, provides intramural athletic competition opportunities throughout the semester.

Announcements about student activities and events are posted on flyers and digital signs and via social media and email.

STUDENT ENGAGEMENT

The Office of Student Engagement coordinates Community Outreach, local Cross-Cultural options. Opportunities to participate in community outreach activities are provided as an effort to enhance the quality of life for members of the surrounding community while enriching the lives of King University students.

VEHICLE REGISTRATION

Information regarding vehicles on campus can be found at this link:

https://www.king.edu/about/offices/security-and-safety/parking/

ACADEMIC SUPPORT SERVICES

ACADEMIC CENTER FOR EXCELLENCE (ACE)

The ACE, located on the first floor of Bristol Hall on the Bristol campus, provides academic support services to the King community through the Writing Center, Speaking Center, Math Center, and 24-hour, seven-day-a-week online tutoring.

Writing Center

The Writing Center is committed to facilitating learning and scholarship by providing King University students with resources and instruction in producing quality academic writing. Supervised and supported by King University faculty, the Writing Center is a peer-tutoring organization that provides students with assistance in writing papers and preparing other documents.

The primary aim of the Writing Center is to help student writers improve their skills. Tutors work with students in 30- or 60-minute conferences during which areas for improvement are identified and discussed. In these sessions, tutors emphasize techniques that students can use to improve their writing. Follow-up sessions can reinforce learning.

The Writing Center also serves as a resource for faculty and promotes writing across the curriculum. Hours vary by semester and are usually posted in the Academic Center for Excellence and announced via email and the on the Writing Center webpage (http://owl.king.edu).

Students can also submit papers and other documents to the Online Writing Lab (OWL). Staffed by King University faculty, the OWL is a 24-hour service available to the King Community. Online tutors provide feedback via email between 24 and 72 hours of receipt.

Speaking Center

The Speaking Center provides support and assistance to students in oral communication. The Speaking Center is a peer-tutoring service that provides students with assistance in developing oral presentations, speeches, and other skills related to oral communication.

Tutors work with students in 30- or 60-minute conferences and emphasize techniques that students can use on their own. Follow-up sessions reinforce the learning in each session. Hours vary by semester and are usually posted in the Academic Center for Excellence and announced via email.

Math Center

The Math Center is available to assist students with supplemental instruction and tutoring in mathematics and quantitative assignments. The Math Center is a peer-tutoring organization. The primary aim of the Math Center is to help students improve their quantitative reasoning skills. Tutors work with students in 30-and 60-minute conferences in which areas of improvement are identified and discussed. Hours vary by semester and usually are posted in the Academic Center for Excellence and announced via email.

Online Tutoring

In addition to the in person tutoring in the ACE, King University partners with Upswing to provide 24-hour online tutoring to King University students. Tutors are available in a variety of subjects 24 hours a day, seven (7) days a week. Services include one-on-one online tutoring, asynchronous online tutoring, and scheduled virtual appointments. There is a link to the online tutoring site in every Canvas course.

FIRST YEAR AND TRANSFER YEAR EXPERIENCE CLASS

The First-Year Seminar course is designed to assist students in making the transition to university by providing them with an introduction to the University and equipping them with skills and

strategies for success in the areas of intellectual development, social growth, and vocational accomplishment.

The Transfer-Year Seminar course will focus on academic skills, engagement with campus life, and transitional success; it will also present strategies for overall spiritual and social growth directly related to the transfer student's experience.

Introduction to Higher Education is designed for adult students and focuses on strategies for success in higher education for non-traditional, working adults.

LEARNING AND DISABILITY SERVICES

King University is committed to enabling students with documented disabilities to participate in university programs by providing reasonable and appropriate accommodations for them. The Office of Learning & Disability Services works with students, students' families/supporters, and students' healthcare providers to determine eligibility for accommodations and to determine appropriate accommodations and coordinates with faculty and other university staff and offices to ensure access to university programs and services for students with disabilities.

STUDENT SUCCESS

Built on the framework of the *Appreciative Inquiry Model*, King University assigns a Student Success Specialist to all students. The role of the Student Success Specialist is to:

- Maintain contact with assigned students in order to enhance academic success and increase retention/graduation rates
- Work with assigned students to increase motivation, encourage achievement, monitor academic success and assess student's ability to persist to the next semester/academic year
- Foster discussion on such topics as classes, study habits, time management, major selection, student interaction, family relationships, and campus involvement
- Facilitate the course registration process
- Provide immediate (24-48 hour) follow-up on all early alert referrals from faculty
- Direct students to the appropriate resources available to help ensure their success

Preparation for Pre-Professional Programs

PRE-PROFESSIONAL PROGRAMS

Law

Law schools have traditionally recommended for those seeking preparation for legal studies precisely the sort of broadly-based, high-quality liberal arts education that King offers. While most law schools tend to avoid suggesting any specific major program or set of "pre-law" courses, the Association of American Law Schools stresses a pre-law education which emphasizes "comprehension and expression in words; critical understanding of human institutions and values with which the law deals; [and] creative power in thinking" (Association of American Law Schools and the Law School Admission Council, Inc., Pre-Law Handbook).

King's basic requirements can be relied upon to develop the student in these areas; a major program and carefully selected elective courses serve to permit diversity as well as comprehensiveness in pre-law study. In recent years, King students seeking legal careers have tended to major in Political Science/History and have met with considerable success in gaining admission to law schools, but other King students have found other major programs suitable for pre-law training as well. Pre-law students should work closely with King's prelaw faculty advisor, Professor David Robinson, in planning their undergraduate program so that it reflects the recommendations of the AALS and in order to gather the necessary information about various law school programs, entrance requirements, the LSAT, and financial aid.

Additionally, the Political Science/History and English majors include optional Law Dual Degree tracks. King offers students the opportunity to pursue an accelerated path to completing both a bachelor's and a Juris Doctor degree in six years rather than seven. It is anticipated that most students will complete their general education and major requirements in three years. Following the Law Dual Degree Program does not automatically guarantee students' entrance into law school. Students must still successfully take the LSAT and competitively apply to their intended law program. A student who completes the requirements in three years and who

follows the outlined curriculum will be awarded a Bachelor of Arts from King only after satisfactorily completing the first year of an approved school of law program.

Medicine and Health Sciences

The Health Sciences Advisory Committee (HSAC) assists students interested in attending health professions graduate programs in medicine, pharmacy, physical therapy, veterinary medicine, dentistry, physician assistant, chiropractic, and other healthcare-related disciplines. The committee provides information, resources, and insight to assist students in exploring the various health professions, learning how to become a competitive applicant, and navigating obstacles along the way.

Ministry

While many majors offered in the institution are acceptable for admission into seminary, students are encouraged to prepare for seminary by having a solid foundation in Religious Studies, Philosophy, Literature, Foreign Language, and the Social Sciences.

Upon completion of the King degree, students may be admitted to seminary where, after three (3) years of study, they receive the degree of Master of Divinity (M.Div.).

Pharmacy

Students interested in attending pharmacy school can choose from three (3) options. One is to complete pre-pharmacy requirements in two (2) academic years.

Another option is to complete in four (4) academic years a King degree of their choice along with the necessary pre-pharmacy requirements.

A third option is to complete a Pharmacy Dual Degree curriculum. The student receives a B.S. degree in Biology after completing three (3) academic years at King and the first academic year of an accredited professional school of pharmacy. A description of the dual degree curriculum is listed under Biology in the Academic Programs section of this catalog.

Preparation for Pre-Professional Programs

Teacher Education

The School of Education offers educator preparation programs designed to prepare qualified candidates for careers in the teaching profession. Programs are available leading to Tennessee licensure in 10 secondary subject areas (Grade 6-12), Elementary Education (Grade K-5), K-12 Music (Vocal or Instrumental), and English as a Second Language.

Grades 6-12 Education Tracks are available within the Biology, Chemistry, English, History, Mathematics, Physics, and Spanish majors and will lead to secondary licensure (Grade 6-12) when accompanied by the secondary education minor and successful completion of licensure examinations.

Students seeking elementary licensure (Grades K-5) complete an interdisciplinary studies program, the elementary education minor, and required licensure examinations. Students seeking K-12 licensure in Music Education Vocal/General or Music Education Instrumental/General complete a major matched to state standards, the K-12 education minor, and required licensure examinations.

An English as a Second Language endorsement may be added to any other teaching license.

The M.Ed. in Curriculum and Instruction is a graduate program for those who already possess a bachelor's degree. The M.Ed. offers Initial Licensure in all approved subject areas.

Subsequent licensure in Virginia or other states may require additional testing.

Consult with the Program Coordinator of Teacher Education for details on teacher licensure.

GENERAL EDUCATION—TRADITIONAL

General Education is the academic foundation for the King experience. It gives Traditional students the skills, ideas, and knowledge they need to pursue their major and minor programs with confidence and good judgment. General Education, expressing King's values through exploration of the Arts and Sciences and a cross-cultural experience, helps students understand their responsibilities to learn and to serve their fellow human beings throughout their lives.

General Education's global emphasis and the fact that senior faculty teach many courses translate to advantages for King students in the job market and in graduate school admissions processes. The required 42 hours of general education represent one-third of the hours necessary for graduation and frame all academic work with a balanced Christian perspective.

General Education courses fulfill requirements across the three (3) Core Competencies in these broad areas: Humanities and Fine Arts, Social and Behavioral Sciences, and Natural Sciences and Mathematics. Students must master these skills and ways of thinking before graduation from King and demonstrate their competence through specific measures detailed in the General Education assessment plan. King University also employs a Comprehensive Assessment for general education is OAK (Outcomes Assessment at King). The OAK is a test given during a student's final semester before they graduate.

Overview of Core Requirements

General Education is composed of two (2) parts: Common Experience and General Education Experience. The Common Experience is intended to be a bridge from the General Education to students' academic coursework, majors, and, eventually, to their lives of vocation and service. The General Education Experience assures students obtain the academic foundation needed to be successful in King University degree programs.

Common Experience

General Education Requirements4	∤∠ s.h.

General Education Course Options

The following list of courses is not in sequential order. Some programs of study suggest specific courses from the menus listed for specific categories. Students should consult their academic advisors as they schedule their classes. For specific questions related to transferring coursework from another institution into the core requirements, please see *Applying as a Transfer Student* in the *Admissions Policies* section.

Common Experience

All students must take the following three (3) courses, meet the Cross-Cultural Experience requirement, and an assessment while enrolled at King. Courses from other institutions will not satisfy these Common Experience requirements.

KING 1000/2000
First/Transfer Year Seminar 2 s.h.
KING 3000
Cross-Cultural Experience 0 s.h.
Students can choose from an array of options to meet

this requirement. Please confer with the Dean of the College or Arts and Sciences for more information.	composition from another institution, the student must have a C- or higher in that

Students must complete a composition	proficiency requirement may be met in any of the
course within their first 24 s.h. of	following ways:
coursework or before they enter major	• A placement level of semester three (3) or
courses. Every student must earn a grade of	higher on a placement exam for Spanish
C- or higher to pass WRIT 1110. A grade	along with writing and oral samples that
below a C- is equivalent to a grade of F.	score at the ACTFL Scale Intermediate
Should a student transfer in English	Level or higher. The writing and oral

samples will be administered and scored by a faculty member in the Department of Languages and Literatures.

- A placement level of semester three (3) or higher on a competency exam for Latin.
- A score of Intermediate Low or higher on the ACTFL proficiency scale as determined by an Oral Proficiency Interview administered by Language Testing International. Students will incur the cost for the interview. Interviews are available in a variety of modern languages.
- Demonstrate level two proficiency on the American Sign Language Proficiency Interview (ASLPI) administered by Gallaudet University. Students will incur the cost for the evaluation and any associated fees.
 - A grade of C or better in a course conducted in English for students whose first language is not English.
 - Successful translation of a New Testament passage from Greek done in a controlled setting. The passage will be assigned and success in translation will be determined by a faculty member in the Department of Bible and Religion.

Successful completion of one of the following courses: GREK 2000 Ancient Greek II, HEBR 2000 Ancient Hebrew II, LATN 2000 Intermediate Latin, SPAN 2000 Intermediate Spanish, SPAN 2210 Spanish for Healthcare Workers, SPAN 2100 Spanish Study Abroad, or SPAN 2220 Business Spanish. Intermediate language courses from other institutions will be reviewed during the transfer evaluation process and credit for language courses will be granted on a case-by-case basis.

Students must *first* demonstrate second language proficiency to elect ICST 2120, PSYC 1520, RELG 2800, or RELG 2430 to fulfill the Human Culture requirement.

PSYC 1520
Introductory Psychology (4 s.h.)
RELG 2430
Understanding the World's Religions (4 s.h.)
RELG 2800

SPAN 2100
Intermediate Spanish Study Abroad (4 s.h.)
SPAN 2210
Spanish for Healthcare Workers (4 s.h.)
SPAN 2220
Business Spanish (4 s.h.)

Humanities: Literature and History

Students must take *The Quest for a Meaningful Life* course sequence, which is comprised of two (2) interdisciplinary courses that combine the political/social history of an historic time and the literature of the same period. If students transfer in one history *and* one literature course from another institution, they are exempt from the humanities requirement. If students transfer in one history *or* one literature course from another institution, they should complete the Literature and History requirement by taking HUMN 2171.

HUMN 2171
The Quest for a Meaningful Life I 4 s.h.
HUMN 2172
The Quest for a Meaningful Life II 4 s.h.

Quantitative Literacy

Students must complete a mathematics course within their first 24 s.h. of coursework or before they enter major courses.

Physical Science (4 s.h.)
PHYS 2040
Survey of Astronomy: The Sun and Planets (4 s.h.)
PHYS 2050
Survey of Astronomy: Stars and Galaxies (4 s.h.)

GENERAL EDUCATION—ADULT AND GRADUATE STUDIES (AGS)

General Education courses in the Arts and Sciences have served King's Traditional student population for decades and are the academic foundation for the King experience. Many of the courses found in the General Education equip AGS students with the skills, ideas, and knowledge they need to pursue their major coursework with confidence. In addition to their academic major, General Education courses are what distinguish college graduates from others who have not had the opportunity to complete a bachelor's degree at King University. Many students transfer coursework from community colleges or other higher educational institutions, while others choose to complete all coursework, including their General Education courses, at King University.

General Education courses fulfill requirements across the three (3) Core Competencies in these broad areas: Humanities and Fine Arts, Social and Behavioral Sciences, and Natural Sciences and Mathematics. Students must master these skills and ways of thinking before graduation from King and demonstrate their competence through specific measures detailed in the General Education assessment plan. King University also employs a Comprehensive Assessment for general education: the OAK (Outcomes Assessment at King). The OAK is a test given during a student's final semester before they graduate.

Overview of General Education Requirements

The Adult and Graduate Studies General Education Curriculum is composed of two (2) parts: Common Experience and General Education Experience. The Common Experience is intended to be a bridge from the Core Curriculum to students' academic coursework, majors, and, eventually, to their lives of vocation and service. The General Education Experience assures students obtain the academic foundation needed to be successful in King University degree programs.

Undergraduate Courses that Build Skills for AGS Students

In addition to the general education requirements, there are courses offered every semester for Adult and Graduate Students that enhance academic skills and therefore improve performance in all subsequent courses.

Many students opt to begin their academic career at King University with the Introduction to College Semester. These three (3) courses are designed and strategically placed to provide students with the optimal path to success both in the AGS General Education and when they transition to their major coursework. These courses are not designed for transfer credit.

Undergraduate Courses that Explore AGS Disciplines

Some general education courses also serve as introductions to AGS majors. ENGL 2110 20th and 21st Century World Literature or ENGL 2160 Literature and the American Identity presents students with examples of the English Online major. HIST 2110 20th and 21st Century Global History, HIST 2161 U.S. to 1877, or HIST 2162 U.S. 1877 to the Present introduce History Online. RELG 1001 Foundations of Christian Faith and Practice introduces Religious Studies Online. PSYC 1520 Introductory Psychology familiarizes students with the Psychology program.

In addition, other introductory courses give students experience in specific disciplines to help them choose a major, minor, or concentration.

ASSOCIATE OF ARTS ADULT AND GRADUATE STUDIES PROGRAM COORDINATOR: M. LIENDO

The Associate of Arts degree offered online at King University is both an academic foundation and an introduction to the King experience. It gives students the skills, ideas, and knowledge they need to pursue additional education with confidence and critical thinking. Similar to King's traditional Core Curriculum, the Associate of Arts courses express King's values through exploration of the Arts and Sciences and help students understand their responsibilities to learn and to serve their fellow human beings throughout their lives as part of a global community.

Students must complete 60 semester hours of required coursework to earn the Associate of Arts Degree.

Admission to the Program

For specific AGS program application packet requirements, please visit Application Packet Requirements for Undergraduate AGS Programs located within the Admissions Policies section of the catalog.

Applying for Admission as a Transfer

For this information, please visit Applying as a Transfer Student located within the Admissions Policies section of the catalog.

Academic Preparation

The Admissions Committee of the Faculty may conditionally accept students who do not present this preparation along with a minimum 2.0 academic grade point average on a 4.0 scale and a minimum ACT or SAT I composite score of 19 or 890. Students who receive conditional acceptance may take up to 14 semester hours and may not hold academic sanction regarding academic standards during their first semester in attendance at the University.

Introduction to College Semester

Most Associate of Arts students will complete 12 semester hours of coursework that comprise the Introduction to College Semester. These courses have

been created to introduce students to the college experience and enrich their skills in analytical reading, writing, and mathematics. These courses are not designed for transfer credit.

KING 1610
Preparing for College Level Work4 s.h
MATH 1000
Principles of Mathematics4 s.h
WRIT 1010
English Composition: Basic
Composition4 s.h

The following students will not be required to complete the Introduction to College Semester:

- Students who have graduated from high school in the last 5 years with a GPA of 3.0 or higher.
- Students who have passed either a college-level Mathematics course or a college-level English Composition course in the last 5 years with a grade of C- or higher.
- Students who have taken the SAT, ACT, ACT Compass, or ACCUPLACER tests in the last five years and have shown proficiency in Math, Reading, and Writing.

Students not required to take the Introduction to College Semester courses may still opt to take one or more of these courses to prepare themselves for the Associates of Arts General Education required courses.

Introduction to College Semester Grade Requirement

Students required to be enrolled in the Introduction to College Semester must pass all three courses to proceed in the Associate of Arts Program. If a failing grade is earned in one or more courses, students must petition to repeat the failed course(s). With approval from the Program Coordinator, a student may repeat a failed Introduction to College Semester course once. A second failure will result in dismissal from the program.

Every student must earn a grade of C- or higher in KING 1610 and WRIT 1010. A grade below a C- in either course is equivalent to a grade of F.

Minimum Residency Requirements

Students completing the Associate of Arts at King University must earn at least 24 s.h. (of the 60 s.h. total) at King University.

Students must have at least one course in every category represented by the King Associate of Arts General Education. Students will take elective courses to bring their total number of semester hours to 60. Elective courses can be additional General Education courses, other courses offered by King University, or approved transferred courses.

Technology Requirements

Students must have access to a computer with minimum of Microsoft Office 2010 or later with wireless capability and a webcam. Students must also be able to record and upload video to course websites.

Associate of Arts General Education

General Education courses fulfill requirements across the three (3) Core Competencies in these broad areas: Humanities and Fine Arts, Social and Behavioral Sciences, and Natural Sciences and Mathematics. Students must master these skills and ways of thinking before graduation from King and demonstrate their competence through specific measures detailed in the General Education assessment plan. King University also employs a Comprehensive Assessment for general education: the OAK (Outcomes Assessment at King). The OAK is a test given during a student's final semester before they graduate.

Overview of General Education Requirements

The Associate of Arts General education is composed of two (2) parts: Common Experience and General Education Experience. The Common Experience is intended to be a bridge from the General education to students' future academic coursework, majors, and, eventually, to their lives of vocation and service. The General Education Experience assures students obtain the academic foundation needed to be successful in bachelor level degree programs.

ACCOUNTING, BS ADULT AND GRADUATE STUDIES PROGRAM COORDINATOR: L. WOODWARD

The Bachelor of Science (B.S.) in Accounting at King University is designed for adult and graduate studies students. Accounting is an academically challenging program that equips students with excellent critical thinking, problem solving, and writing skills. The B.S. in Accounting program allows students to integrate skills, theory and training for a successful career. The program also qualifies and equips students for the CMA exam and the accounting courses necessary for the CPA exam.

Required Hours

The total number of hours required at King to complete Accounting program is 60 semester hours, depending on a student's prior academic experience. This is a full-time program and is designed so that an incoming transfer student with 76 approved credit hours from an accredited college can graduate in four semesters. The business courses in the BBA program are modular and accelerated in nature.

To graduate from King University a student must accumulate at least 124 hours, 48 of which must be completed at King. Courses from the General Education, program courses, and elective courses may

be used to fulfill the 48 semester hour residency requirement. As a part of this 48 semester hour requirement, a minimum of one-third of the required hours in each declared major, minor, and concentration must be completed at King.

Technology Requirements

Students in the Accounting program are required to supply their own laptop computer (PC or Mac), with fully functional Microsoft Office 2016 or newer, Excel, wireless capability, and webcam. Microsoft Office 365 is available to all King students to load on the PC or Mac and is accessible at Office.com using their King University credentials. Tablets or other devices without fully functional Microsoft Office 2016 or newer do not satisfy this requirement.

Comprehensive Assessment Requirement

During the last semester of the program of study, B.S. in Accounting students will take a comprehensive assessment examination which covers these functional areas: accounting, ethics, finance, strategy, leadership, economics, global business, information management systems, legal environment, management, marketing, and quantitative research/statistics.

Major Requirements

APPLIED SCIENCE AND MATHEMATICS, BS TRADITIONAL

PROGRAM COORDINATOR: W. LINDERMAN

The B.S. in Applied Science and Mathematics is a degree conferred by King University as part of a 3+2 articulation agreement in collaboration with the Tickle College of Engineering at the University of Tennessee. Students majoring in Applied Science and Mathematics will take courses according to prescribed curricula for tracks in Biomedical Engineering, Chemical Engineering, Civil Engineering, or Industrial Engineering.

After three years at King, students in this program will transfer to the University of Tennessee to complete engineering courses for two years to earn a B.S. in Engineering at the University of Tennessee. After an approved transfer credit review by King of their engineering-related courses from the University of Tennessee, students will be recommended for conferral of a B.S. in Applied Science and Mathematics from King. As part of an articulation agreement with the University of Tennessee, the B.S. in Applied Science and Mathematics cannot be earned solely at King.

General Education Requirements

BIOCHEMISTRY, BS TRADITIONAL PROGRAM COORDINATOR: S. PICKARD

The B.S. in Biochemistry provides students with an opportunity to receive a thorough scientific training in the context of a Christian worldview. This program integrates a strong understanding of chemical and biological principles and quantitative problem solving with the development of hands-on research skills. Also, the Biochemistry program includes a strong oral and written communication component. Thus, our students receive an educational experience that goes beyond the specific

skills they need to be successful biochemists and helps them to develop into well-rounded individuals who are ready to take their places in society.

This major prepares a student for graduate work in Biochemistry as well as many areas of Chemistry or Biology. In addition, the minimum requirements of almost all medical, dental, veterinary, and pharmacy schools are met by a biochemistry major. It is valuable for those students who seek careers in the biotechnology industry, pharmaceutical industry, government, and science-based sales and marketing.

Due to the large number of common courses that biochemistry shares with Biology and Chemistry, a student cannot simultaneously major in Biochemistry and major or minor in Biology, Chemistry, or Forensic Science.

Technology Requirements

The technology requirement for a biochemistry major is the minimum required by the university: namely, a laptop computer with a minimum of Microsoft Office 2010 or later, wireless capability, and a webcam.

Comprehensive Assessment

The Chemistry Capstone (CHEM 4930) and Comprehensive Assessment (CHEM 4990) are required for all Biochemistry majors. CHEM 4990 is an end of program exam which tests the student's knowledge of chemistry in the areas of Organic, Analytical and Physical. CHEM 4930 is review course designed to prepare the student for the end of program exam, and there is a letter grade assigned for CHEM 4930. Both CHEM 4990 and 4930 are normally taken during the Fall or Spring semester leading up to the student's graduation.

General Education Requirements

Biochemistry majors should fulfill specified categories of the King General Education by taking the courses indicated below. See the *General Education* section of the catalog for additional details.

BIOLOGY, BS, BA TRADITIONAL PROGRAM COORDINATOR: L. K. VAUGHAN

The Bachelor of Science in Biology encompasses the study of life in each of its forms. Students interested in a broad understanding and appreciation of botany and zoology are encouraged to consider the General Biology track provided by the department. Students desiring to pursue a career in medicine, allied health, pharmacy, biotechnology, or biomedical research are encouraged to consider the Cell and Molecular Biology track.

The Bioinformatics track will prepare students for graduate school and careers in the fields of genomics, informatics, data science, computational biology and biostatistics; this track requires that students minor in Mathematics.

A major in biology prepares one for a variety of careers. Most students interested in biomedical or health science careers often major in biology because many employers, and graduate and professional programs, require significant course work in this area. Thus, students with a BS in Biology are well-suited for careers in environmental research, conservation biology, forensic biology, botany, or zoology.

Additionally, the course work for the Cell and Molecular Biology track is designed to provide students with prerequisites required for many medical, pharmacy, and graduate programs, including microbiology, veterinary sciences, toxicology, optometry, and dentistry. Students are required to take Calculus I to fulfill their requirement in *Quantitative Literacy*. Although not explicitly required, students are strongly encouraged to begin looking for summer internship opportunities the summer after their sophomore year to gain experience and verify their suitability for their vocation. This is particularly important for students who want to attend clinical

programs, which can require as many as 500-2000 hours of shadowing or patient contact as a prerequisite for admissions. Finally, many graduate programs will not consider applicants who have no research experience.

Students who major in biology are not allowed to double major in Biochemistry, Forensic Science, or Health Sciences Chemistry, due to the overlap already present in these programs. The Biology and Chemistry Double Major provides students opportunity to pursue a dual major in these fields. If students would like to pursue a double major, they are encouraged to consider other majors that will help them in their chosen careers. Minors are not required for a Bachelor of Science degree, but many students pursue minors that will also help them in their chosen career. Suggestions include Mathematics, Philosophy, Psychology, Security and Intelligence Studies (SIS), Exercise Science, Medical Humanities, or a foreign language.

General Education Requirements

Biology majors should fulfill specified categories of the King General Education by taking the courses indicated below. See the *General Education* section of the catalog for additional details.

PHARMACY DUAL DEGREE PROGRAM
King offers students interested in pursuing a doctoral
degree at Pharmacy School (PharmD) the opportunity
to apply after only three years at the undergraduate
level. It is anticipated that most students would
complete their requirements in three years; however,
this may require students to have earned some credits
before matriculation to King, via dual enrollment or
AP course credits. It is important that the student
Program does not automatically guarantee his or her
Program does not automatically guarantee his or her entrance into pharmacy school. Students must still
successfully take the PCAT and competitively apply to
1

their intended graduate program(s). Students should also verify lists of required courses for each PharmD

program of interest; many pharmacy schools require courses in economics, statistics, and communications, in addition to the courses listed below.

A student who completes the requirements in three years and who follows the outlined curriculum will be awarded a Bachelor of Science with a major in Biology from King only after satisfactorily completing the first year of an accredited professional school of pharmacy program. Typically, students will apply to schools of pharmacy during the summer before their third year at King or during the fall of their third year. Transfer students must complete at least 48 hours at King, including 20 hours of required Biology courses.

General Education Requirements

Pharmacy Dual Degree majors should fulfill specified categories of the King General Education by taking the courses indicated below. See the General Education section of the catalog for additional details.

Bachelor of Arts (BA) Degree in Biology

The Bachelor of Arts in General Biology is designed for individuals seeking employment not requiring an advanced degree in science or medicine, but where a strong technical background is desirable. This would include such professional career options as scientific or pharmaceutical sales representative, lab technician, scientific writer, public school teacher, law, etc. This curriculum includes 50 semester hours of science and math but has more flexibility than the Bachelor of Science.

The Bachelor of Arts in Human Biology is designed for students who are interested in pursuing an advanced degree in graduate programs related to human health, such as a doctorate in physical therapy (DPT), or graduate degrees in physician's assistant (PA) or occupational health programs such as occupational therapy (OT). This track is *not* designed or intended to meet the needs of students who are pursuing medical, pharmacy, or graduate school in an area of biology or biomedical research. Students interested in those career paths should follow the requirements for a B.S. in Biology in either the

General Biology or the Cell and Molecular Biology track.

The Bachelor of Arts with secondary education licensure prepares a student for teaching science. Licensed teachers are in great demand nationwide in all areas of science, particularly biology and chemistry. Students obtaining their secondary education licensure will minor in Education. Due to the large number of semester hours required for completion of the B.A. in Biology with secondary licensure, students should meet regularly with advisors from both Biology and Education.

Minor Requirement

Students who complete the Bachelor of Arts degree in Biology are required to have a minor. Students should choose their minor program with consideration of their career goals while in consultation with their academic advisors. Students should choose their minor program with consideration of their career goals while in consultation with their academic advisors. Suggestions include Mathematics, Philosophy, Psychology, Security and Intelligence Studies (SIS), Exercise Science, Medical Humanities, or a foreign language.

Clinical Experiences

During completion of course work, it is anticipated that students interested in physical therapy, occupational health, or physician's assistant programs would participate in clinical rotations or internships. Students should be aware that many of these specific graduate programs require up to 1500 hours of patient contact before admission to the respective programs. Thus, students should start accumulating hours the summer after their sophomore year.

General Education Requirements

Biology majors should fulfill specified categories of the King General Education by taking the courses indicated below. See the *General Education* section of the catalog for additional details.

BUSINESS, BA

TRADITIONAL

PROGRAM COORDINATOR: A. BRUMLIK

The Bachelor of Arts in the Business (B.A. in Business) program at King is designed for traditional students. The B.A. in Business program provides an academically challenging experience that empowers students with excellent business, writing, speaking, and critical thinking skills. The B.A. in Business program allows students to directly integrate skills, theory, and tools for a successful career.

Technology Requirements

Students in the BA in Business program are required to supply their own laptop computer (PC or Mac), with fully functional Microsoft Office 2016 or newer, wireless capability, and webcam. Microsoft Office 365 is available to all King students to load on the PC or Mac and is accessible at Office.com using their King University credentials. Tablets or other devices without fully functional Microsoft Office 2016 or newer do not satisfy this requirement.

Comprehensive Assessment Requirement

During the last semester of the program of study, B.A. in Business students will take the Peregrine Academic Services Business Program Assessment Examination which covers these functional areas: accounting, ethics, finance, strategy, leadership, economics, global business, information management systems, legal environment, management, marketing, and quantitative research/statistics.

Internship Requirement

All students in the B.A. in Business program must complete an internship as part of their graduation requirements. Internship qualifications include:

- 2.5 minimum GPA
- Junior standing
- Approval from both advisor and Internship Coordinator

General Education Requirements

Business majors should fulfill specified categories of the King General Education by taking the courses indicated below. See the *General Education* section of the catalog for additional details.

BUSINESS MANAGEMENT, BBA ADULT AND GRADUATE STUDIES PROGRAM COORDINATOR: J. CAUDILL

The Business Management program at King is designed for adults and offers a high-quality undergraduate degree. The program combines the best that King has to offer—a business program complemented by optional integrated courses in the liberal arts. The result is an academically superior experience that empowers students with excellent business, writing, speaking, quantitative analysis and critical thinking skills. The Business Management program at King allows students to directly integrate management knowledge, analytical tools, philosophy, skills, theory, and tools for a successful career in the 21st Century.

Required Hours

The total number of hours required at King to complete the Business Management program is 60 semester hours, depending on a student's prior academic experience. Business Management is a full-time program. It is designed so that an incoming transfer student with 76 approved credit hours from an accredited college can graduate in four semesters. The business courses in the Business Management program are modular and accelerated in nature.

To graduate from King a student must accumulate at least 124 hours, 48 of which must be completed at King. Courses from the General Education, program courses, and elective courses may be used to fulfill the 48 semester-hour residency requirement. As a part of this 48 semester-hour requirement, a minimum of one-third of the required hours in each declared major, minor, and concentration must be completed at King.

Technology Requirements

Students in the Business Management program are required to supply their own laptop computer (PC or Mac), with fully functional Microsoft Office 2016 or newer, wireless capability, and webcam. Microsoft Office 365 is available to all King students to load on

the PC or Mac and is accessible at Office.com using their King University credentials. Tablets or other devices without fully functional Microsoft Office 2016 or newer do not satisfy this requirement.

Comprehensive Assessment Requirement

During the last semester of their program of study, Business Management students will take the Peregrine Academic Services Business Program Assessment Examination, which covers these functional areas: accounting, ethics, finance, strategy, leadership, economics, global business, information management systems, legal environment, management, marketing, and quantitative research/statistics. Students will score 40 percent or higher in each of the functional areas. Forty percent is the Peregrine-designated equivalent to an "average" score.

CHEMISTRY, BS TRADITIONAL PROGRAM COORDINATOR: S. PICKARD

The B.S. in Chemistry provides students an opportunity to receive a thorough scientific training in the context of a Christian worldview. This program integrates a strong understanding of chemical principles and quantitative problem solving with the development of hands-on research skills. Also, the Chemistry program includes a strong oral and written communication component. Thus, our students receive an educational experience that goes beyond the specific skills they need to be successful as chemists and helps them to develop into well-rounded individuals who are ready to take their places in society.

There are three tracks within this major: General Chemistry, Health Sciences Chemistry, and Grades 6-12 Education. The General Chemistry track has a major curriculum patterned after guidelines recommended by the American Chemical Society and is the program recommended for students who wish to pursue graduate studies in chemistry. The Health Sciences track is primarily designed for students who are preparing for a career in a health profession. The Chemistry Education Track prepares the student to teach chemistry in a secondary school setting. Thus, by selecting the correct track, a student pursuing a chemistry major will have an excellent background for medical school, graduate study in chemistry, or chemical engineering. Chemistry is valuable for those who seek careers as chemists in industry, government, business, or for those in

working in science-based activities such as chemical patent work, sales, marketing, or computer science.

Students may also choose to combine a modified Chemistry major with a minor in secondary education. Science and mathematics are considered critical need areas in K-12 public education by all states.

Technology Requirement

Laptop computer with a minimum of Microsoft Office 2010 or later, wireless capability, and a webcam.

Comprehensive Assessment

The Chemistry Capstone (CHEM 4930) and Comprehensive Assessment (CHEM 4990) are required. CHEM 4990 is an end-of-program exam which tests the student's knowledge of Chemistry in the areas of Organic, Analytical and Physical. CHEM 4930 is review course designed to prepare the student for the end-of-program exam, and there is a letter grade assigned for CHEM 4930. Both CHEM 4930 and 4990 are normally taken during the Fall or Spring semester leading up to the student's graduation.

General Education Requirements

Chemistry majors should complete the King General Education as specified below. For additional course options and descriptions in areas outside of science and mathematics, the student should see the *General Education* section of the catalog.

addresses the increased demand for college-educated criminal justice professionals. Over the past several decades, the push towards the professionalization of the police force and other organizations within our criminal justice system has led many students and practitioners to work towards a bachelor's degree.

The curriculum, which includes courses in theory, ethics, policy analysis, law enforcement, corrections, and law, is designed to enhance the critical thinking. The curriculum, which includes courses in theory, ethics, policy analysis, law enforcement, corrections, and law, is designed to enhance the critical thinking skills of students and to better prepare graduates for workplaces full of opportunities to exercise discretion.

The Bachelor of Science in Criminal Justice and Criminology program is highly recommended for current criminal justice practitioners who want to complete their degrees or students interested in careers in law enforcement, juvenile justice, the court system, the corrections system, and other social services.

Comprehensive Assessment

Upon completion of all criminal justice coursework, students will take a comprehensive examination to demonstrate competency in the field. The exam will be taken on Canvas. Students must make a least a grade of 70 to meet this requirement. If students do not receive a passing score, they will have the opportunity to complete and pass a program portfolio demonstrating their coursework during the program.

*Introduction to Criminal Justice (CRJU 1500) is a required course in the Criminal Justice and Criminology program. It is re recommended that students take CRJU 1500 prior to entering the program. If a student intending to major in Criminal Justice and Criminology has not completed this course prior to matriculation or prior to entering the Criminal Justice and Criminology major, the student is required to pass the course within the first two semesters of enrollment in the major.

DIGITAL MEDIA ART AND DESIGN, BA TRADITIONAL PROGRAM COORDINATOR: J. STRICKLAND

The Bachelor of Arts degree in Digital Media Art and Design (DMAD) prepares students to enter the

quickly expanding field of digital media. The degree focuses specifically on how visual media such as digital photography, videography, and graphic design are used to promote ideas in the contemporary world of visual language and media communication. Understanding both the technical and the conceptual processes to produce captivating and effective imagery allows students to enter the job market through a variety of positions according to the strengths of the individual.

Through a uniquely designed progression of courses, students become fluent in both conceptual visual language and efficient technical practices that build the foundation necessary to compete in an industry that is continuously evolving.

The DMAD student must be self-motivated and goal oriented. The world of visual language is open to interpretation, and the DMAD student will step into the role of creator and interpreter. He or she must be open to critical feedback as a necessary tool for growth and success.

The inclusion of a business course designed specifically for the visual artist is one unique factor in the Digital Media Art and Design program. This course equips students with the knowledge and confidence necessary to become a valuable team member for an existing firm or to strike out on an innovative business venture of their own. The combination of business acumen, conceptual insight, and technical ability set the DMAD student apart in the digital media marketplace.

The DMAD program fully supports the Mission and Vision of King University. The curriculum and experiences provided in the DMAD program will give the King graduate the skills necessary to begin a purposeful career and to build a meaningful life of achievement. The knowledge gained will ready the Digital Media Art and Design graduate to excel as a thoughtful, resourceful, and responsible citizen with a passion for serving God, the Church, and the world through intentional visual language.

Technology Requirements

Students pursuing a major or minor in DMAD are required to have a DSLR or DSLM camera with video capabilities and full manual controls and a portable external hard drive.

Comprehensive Assessment in DMAD

All candidates for a degree from King are required to demonstrate competency in their major field. The comprehensive assessment in the DMAD program consists of a capstone project that is proposed and executed by the student. The student must hold an exhibition of their work and make a minimum of a C- on their comprehensive assessment.

ENGLISH, BA TRADITIONAL PROGRAM COORDINATOR: K. SHAW

While pursuing the B.A. in English, students will gain knowledge of several literary traditions and eras and considerable experience in writing, thinking critically, analyzing texts, and conducting research. These are skills needed in almost any profession: advertising, business, government service, journalism, law, library science, ministry, publishing, and teaching. Beyond this, however, students are challenged to consider issues of character and faith through the questions raised in their study.

The department offers extra-curricular experiences via workshops, travel, lectures by visiting scholars and public figures, and off-campus events; and encourages its majors to study abroad.

In addition to completing the required courses, all majors must engage in an internship and participate in a capstone seminar. As part of the seminar, they will submit a portfolio of three papers representing the breadth and development of their literary study as well as a document explaining the rationale for their choices. Students may undertake a senior honors project by departmental invitation.

Instead of a general major in English, students may choose a track in literature, writing, grades 6-12 education or applied English. A Law Dual Degree track is also available. The courses listed for each track are in addition to the core of courses in English required of all majors.

The Department of English foregrounds communication and writing skills within the context of literary study and creative writing courses. Each of our courses delves into areas related to faith and cultural matters. Students are encouraged toward scholarly work and character development because of their encounters with language and literature in the Department of English.

We take seriously the mission of King University and demonstrate this in the following ways:

 by integrating faith and culture in courses, with essays and discussions

- by cultivating cognitive empathy through careful and insightful reading of texts
- by examining the intersection between human agency and the moral, ethical, political, and social crises those texts explore;
- by introducing students to cultural events in and outside the classroom through yearly trips to places of literary and historical interest
- by creating a hospitable environment through social events and departmental activities each semester

Technology Requirements

Laptop computer, with minimum of Microsoft Office 2010 or later, wireless capability, and webcam

Major Common Requirements

The following courses are required for all English majors.

ENGL 3340 English Grammar
Choose from the following courses
Medieval Literature: Knights, Saints,
and Pilgrims (4 s.h.)

Law Dual Degree Track

King offers students the opportunity to pursue an accelerated path to completing both a bachelor's and a luris Doctor degree in six years rather than seven. It is anticipated that most students will complete their general education and major requirements in three years. Following the Law Dual Degree Program does not automatically guarantee students' entrance into law school. Students must still successfully take the LSAT and competitively apply to their intended law program. A student who completes the requirements in three years and who follows the outlined curriculum will be awarded a Bachelor of Arts with a major in English from King only after satisfactorily completing the first year of an approved school of law program.

ADULT AND GRADUATE STUDIES PROGRAM COORDINATOR: K. SHAW

The B.A. in English (online) degree program consists of four semesters of online classes. Students will gain knowledge of several literary traditions and eras and considerable experience in writing, thinking critically, analyzing texts, and conducting research. These are skills needed in almost any profession: advertising, business, government service, journalism, law, library science, ministry, publishing, and teaching. Beyond this, however, students will be challenged to consider issues of character and faith through the questions raised in their study.

The Department of English foregrounds communication and writing skills within the context of literary study and writing courses. Each course delves into areas related to faith and cultural matters. Students are encouraged toward scholarly work and

character development as a result of their encounters with language and literature in the Department of English. After completing their major requirements, students will submit a portfolio of three papers representing the breadth and development of their literary study as well as a document explaining the rationale for their choices.

The English Department takes seriously the mission of King University and demonstrates this in the following ways:

- by integrating faith and culture in courses with essays and discussions
- by cultivating cognitive empathy through careful and insightful reading of texts
- by examining the intersection between human agency and the moral, ethical, political, and social crises those texts explore
- by creating a hospitable environment

Technology Requirements

Laptop computer, with minimum of Microsoft Office 2010 or later, wireless capability, and webcam

Language Requirement

Students in English Online are required to take 8 s.h. of a foreign language. They may satisfy this requirement in one of two ways: by transferring credit, or by successfully completing *either* the online LATN 1000 and 2000 courses or the online SPAN 1000 and 2000 courses offered by King.

Major Requirements

Nineteenth Century	4 s.h.

Secondary Education Option

This program of study is particularly suitable for students who plan to become an English teacher. It was designed specifically to fulfill the content in English for secondary (grades 6-12) licensure in English.

To become an English teacher, a student must declare the Secondary Education minor and meet the requirements for licensure that include professional education courses and student teaching. The list of additional minor requirements is listed under the Secondary Education Minor Grades 6-12 section of the Academic Catalog. Total hours for the degree with the minor will range from 124-142 semester hours.

Students may elect to graduate without student teaching and a teaching license. By completing general education requirements, an academic major, a minor in Education, and a sufficient amount of elective hours students may accomplish the 124 semester hours required for graduation from King.

ENGLISH AS A SECOND LANGUAGE ESL K-12 MINOR

ADULT AND GRADUATE STUDIES
TRADITIONAL
PROGRAM COORDINATOR: A. BAKER

The English as a Second Language minor provides students with a background in teaching English to speakers of other languages. This minor is not in the licensure track but is available to all undergraduate students. After completing all course work, students must pass the Praxis II exam, 5361, English to Speakers of Other Languages before they complete the practicum, EDUC 4380. For further information regarding the English as a Second Language additional Minor Requirements.

- **Language Requirement: Students enrolling in the English as a Second Language (ESL), grades K-12 post-baccalaureate program must complete two college-level world language

courses. World languages include American Sign Language, Arabic, Chinese, French, German, Greek, Japanese, Latin, Russian, Spanish, or Other World Language.

EXERCISE SCIENCE, BS TRADITIONAL PROGRAM COORDINATOR: E. CONNER

Exercise Science is a multifaceted field of study in which movement or physical activity is the intellectual focus. This includes exercise in the improvement of health and physical fitness and activities of daily living, work, sport, and play. It involves special population groups such as children and the elderly; persons with disability, injury, or disease; and athletics. Because an interdisciplinary approach is often used to address issues in Exercise Science, this area of study applies knowledge, methods of inquiry, and principles from a wide spectrum of academic disciplines. This program is designed for traditional students who desire to incorporate a rigorous academic background in vocational and career plans.

Employment opportunities for Exercise Science professionals are located in the health and fitness industry, where skills in evaluating health behaviors, risk factors, conducting fitness assessments, writing exercise prescriptions for health and controlled disease populations, motivating individuals to modify negative health habits, and promoting positive healthy lifestyle changes are essential components of their respective job.

The B.S. in Exercise Science program offers three tracks to optimize the vocational path of its students.

The Kinesiology track is designed for students who are interested in pursuing graduate degree programs in Exercise Science/Kinesiology-related fields or health care related professional graduate programs, such as physical therapy, occupational therapy, and athletic training. This track is not designed or intended to meet the needs of students who are pursuing medical or pharmacy school*.

The Health and Fitness track is designed for those students wishing to pursue a vocation within the

fitness and wellness industry with curricular design aligning with certification requirements from the American College of Sports Medicine and the National Strength and Conditioning Association.

The Physical Education Grades K-12 Licensure track is designed to provide students with knowledge and skills to organize and administer physical education, intramural, and athletic programs; to teach, assess and evaluate health and physical education courses at the elementary, middle, and high school levels; and to adapt methods of teaching to meet the needs of children and adolescents with special needs.

Grade requirements for all teacher education programs can be found under Teacher Education in this catalog.

*For those students wishing to pursue health care related professional graduate programs in physical therapy, occupational therapy, athletic training, or other related fields, graduate program admission requirements can vary by institution and by discipline. Freshman undergraduate students are encouraged to explore graduate school requirements for each potential institution they wish to attend. Although it is ultimately the student's responsibility to complete any additional prerequisite coursework, academic advisors are available to assist students with incorporating these requirements into an academic plan. Students are strongly encouraged to seek out this assistance very early in their academic path at King. There is no guaranteed admittance into graduate school by completing these prerequisites, as each student is responsible for meeting each graduate school's requirements and successfully completing the admission process. Program-Level Student Learning Outcomes in the Exercise Science major are based on recommendations of the American Kinesiology Association's Undergraduate General Education in Kinesiology. This program will prepare competent entry-level Exercise Science professionals in the cognitive (knowledge), psychomotor (skills) and affective (abilities) learning domains.

CPR (Cardiopulmonary Resuscitation) Certification All students majoring or minoring in Exercise Science must possess current certification in CPR from either

the American Red Cross or the American Heart

Association. Licensure Track. FORENSIC SCIENCE, BS TRADITIONAL PROGRAM COORDINATOR: B. BAKER

The Forensic Science major is an interdisciplinary program which is composed primarily of Chemistry and Biology courses and a strong laboratory component. The Forensic Science major provides students with numerous career opportunities as well as graduate school, and medical or dental school. Forensic scientists work in crime laboratories, forensic laboratories, police departments, medical examiner or coroner offices, hospitals, government agencies, and private laboratories.

Due to the large number of common courses that Forensic Science shares with Biology and Chemistry, a student cannot simultaneously major in Forensic Science and major or minor in Biology, Biochemistry, or Chemistry. Also, due to the extensive Biology and Chemistry course requirements for a degree in Forensic Science, no additional major or minor is required. The Forensic Science program also requires students to complete an internship in a forensics related field.

General Education Requirements

Forensic Science majors should fulfill specified categories of the King General Education by taking the courses indicated below. See the *General Education* section of the catalog for additional details.

Administration (BSHA) is designed to prepare

changing healthcare industry. The curriculum is

graduates for leadership roles in the complex, ever-

broadly focused and includes coursework in crucial areas including leadership and management, finance and accounting, ethics and law, organizational behavior and policy, application of current research, epidemiology, quality management principles, and communication skills development. This program should appeal to those already with careers in healthcare related fields, as well as those desiring to join the largest industry in the United States. In addition to being prepared for immediate entry-level leadership positions, graduates of the BSHA program commonly elect to pursue further professional development in graduate school.

The BSHA degree program seeks to fulfill King University's stated Mission by helping students excel as thoughtful, resourceful, and responsible citizens with a passion for serving God, the Church, and the world. Throughout the coursework, emphasis is applied to developing effective written and oral communication skills, theoretical understanding of how populations and cultures effect healthcare behaviors for both individuals and organizations, fostering a framework for ethical decision-making, and improving analytical and critical thinking skills. Graduates of the program will use evidenced-based principles to help improve the quality and efficiency of their organizations.

All candidates for a degree from King University are required to demonstrate competency in their major field. Students with more than one major must demonstrate competency in each of their major fields. In their last semester of major courses, all BSHA students will create a portfolio of their work as the comprehensive assessment for the program. Students will compile a collection of 5-7 items which reflect mastery of program objectives, as well as a cultural transformation essay, current resume, and generic cover letter. A list of suggested and required artifacts will be provided. This course, HCAD 4990, is graded pass/fail, and all students must receive a passing grade to graduate. The portfolio serves not only as a final assessment for the program; it also helps graduates capitalize on workplace advancement opportunities.

Technology Requirements

Students are required to have a computer with Microsoft Office 2010 or later, wireless capability, and a webcam. (Face-to-face students should bring a laptop to each class. Online students may use a laptop or desktop.)

HISTORY, BA TRADITIONAL PROGRAM COORDINATOR: K. OSBORN

The Bachelor of Arts in History at King University requires a variety of courses which provide graduates with a broad knowledge of Western history, non-Western history, and the conventions of historical research and writing. These courses allow students to understand the process of who tells the story of the past and from what perspective.

Graduates from the History program will be well equipped to be transformers of culture, informed citizens, critical thinkers, and discerning consumers of information. They will also understand the framework of a Christian worldview and will explore how it shapes and is shaped by history.

The program has been designed to ensure that students are prepared in theory and historiography, as well as in research methodology and skill development in critical areas.

Students who graduate with a history degree will be capable of pursuing many different vocations and careers. A History major provides good preparation for careers in education, law, church ministries, government service, various forms of business, journalism, and library science, historic preservation, the Foreign Service, archival work, museum curacy, military service, and graduate work in the humanities and social services. Graduate work in history can lead to a career in higher education.

King's Department of History and Political Science has strengths in several geographical areas and time periods: medieval Europe, the Civil War, Scottish history, the Protestant Reformation, twentieth-century Europe, sub-Saharan Africa, American history, the Holocaust, the history of ideas, and the history of Christianity. History majors take a broad array of courses, drawing on many of these areas. All graduates need to complete a minimum of 28 s.h. at the 3000-level or above. Students majoring in History *may not* double major in Political Science/History.

All History majors must take the ACAT exam the semester they graduate as part of the Comprehensive Assessment of the program.

Technology Requirements

Laptop computer with minimum of Microsoft Office 2010 or later, wireless capability, and webcam

Secondary Education Option

This program of study is particularly suitable for students who plan to become a History teacher. It was designed specifically to fulfill the content in History for secondary (grades 6-12) licensure in History.

Minimum to Earn BS...... 124 s.h.

To become a History teacher, a student must declare the Secondary Education minor and meet the requirements for licensure that include professional education courses and student teaching. The list of additional minor requirements is listed under the Secondary Education Minor Grades 6-12 section of the Academic Catalog. Total hours for the degree with the minor will range from 124-142 semester hours.

Students may elect to graduate without student teaching and without a teaching license. By completing general education requirements, an academic major, the minor in Education, and a sufficient amount of elective hours students may accomplish the 124 semester hours required for graduation from King.

INFORMATION TECHNOLOGY, BS ADULT AND GRADUATE STUDIES PROGRAM COORDINATOR: J. CAUDILL

The Bachelor of Science in Information Technology (BSIT) curriculum for the AGS/Online BSIT program is built upon the Association of Computing Machinery (ACM) Curricular Model and embodies the goals and outcomes as articulated by the ACM.

The program is constructed as a cohort model, with all students taking the same initial semester of coursework for prerequisite courses. Following the initial semester, there are three semesters of courses offered on a rotating basis. Two embedded tracks will provide in-depth coverage of the most popular specialties in information technology, cybersecurity and cloud computing. These focused tracks will be complimented by coverage of core information technology content, including programming, database management, and systems analysis.

Because of the nature of information technology as a discipline, courses older than five years will not be accepted for transfer credit.

The various courses of study provide graduates with the skills and knowledge to fill appropriate professional positions or to pursue graduate study. Courses offer theoretical knowledge, IT certification

preparation and training, and hands-on skill development.

Technology Requirements

Laptop computer, with minimum of Microsoft Office 2016 or newer (including Microsoft Access), wireless capability, and webcam required. Microsoft Office 365 is available to all King students to load on the PC or Mac and is accessible at Office.com using their King University credentials. Tablets or other devices without fully functional Microsoft Office 2016 or newer do not satisfy this requirement.

Comprehensive Assessment in BSIT

All candidates are required to demonstrate competency in their major field to complete the BSIT degree at King University. A comprehensive assessment exam is given near the end of the Information Technology program which allows students to demonstrate competency in information technology theory and practice. Any student who does not satisfy the requirements of the comprehensive assessment exam will not graduate until the requirements have been met.

INFORMATION TECHNOLOGY MINOR REQUIREMENTS

The Information Technology Minor may only be declared by students majoring in a discipline other than Information Technology. Undergraduate students pursuing a bachelor's degree are eligible to minor in Information Technology. Information Technology courses are offered online.

A student must successfully pass 20 s.h. to earn an Information Technology minor. Some of the courses listed have a prerequisite that must be completed prior to taking the desired course.

The following course is a prerequisite for other courses and must be completed for the minor:

ITEC 2700
Foundations of Information
Technology4 s.h.
Choose four courses (16 s.h.) from the following options:
ITEC 2020
Computer Programming (4 s.h.)
ITEC 3450

ITEC 3760
Cybersecurity and Information
Assurance (4 s.h.)
ITEC 3761
Cybersecurity Framework and Policy (4 s.h.)

INTERCULTURAL STUDIES FOR CHRISTIAN SERVICE MINOR TRADITIONAL

PROGRAM COORDINATOR: G. SANDERS

Intercultural Studies for Christian Service is a program drawing on many academic disciplines that equips students to interact effectively in an increasingly interdependent and culturally diverse world. With its focus on global competencies in language, culture, world affairs, and service, the program challenges students to think critically about western and non-western cultures, to develop a global perspective, and to consider the spiritual and ethical implications of decisions that affect their lives and the lives of others, both locally and globally. Because of its emphasis on skills vital to cross-cultural life, work, and service, the minor complements a variety of majors and gives students a competitive edge in seeking employment in businesses, communication, education, global health, history and politics, nonprofit organizations, ministries, and government agencies serving culturally diverse communities. Students completing a minor in Intercultural Studies for Christian Service position themselves for maximum impact in a culturally diverse world.

Electives for Intercultural Studies for Christian Service Minor

Each student pursuing the Intercultural Studies for Christian Service minor will, upon declaration, meet with the program coordinator to develop a plan of study that identifies which elective courses will become a part of the student's program of study. Elective courses will be selected based on the student's vocational goals and should further equip the student by providing additional skills, knowledge, and abilities. Normally, these elective courses may NOT overlap with courses required by either the General Education or the student's major. Electives will be chosen from the list below; the program coordinator may also suggest/approve other acceptable elective courses on a case-by-case basis.

MINOR REQUIREMENTS **ICST 2310** Introduction to Cultural Anthropology.... 4 s.h. **RELG 2430** Understanding the World's Religions...... 4 s.h. Choose two from the following courses (8 s.h.) ICST 2120 Cultural Diversity in America (4 s.h.) **ICST 2200** Cultural Identity (4 s.h.) ICST 3200 Cross-Cultural Ministry and Service (4 s.h.) ICST 3300 Cross-Cultural Communication & Orality (4 s.h.) **RELG 2500** Introduction to Islam (4 s.h.) **RELG 3292** Religion and Politics in a Global Context (4 s.h.) YTMN 3210 Practical Theology in Youth Ministry (4 s.h.) YTMN 3610 Program Administration for Youth Ministry (4 s.h.) Choose one from the following culture/service-oriented internships (2-4 s.h.) ICST 3520 Intercultural Research/Field Work (2.4 s.h.) YTMN 3800 Internship/Cooperative Education (2-4 s.h.)

INTERDISCIPLINARY STUDIES ELEMENTARY EDUCATION, BA **ELEMENTARY K-5 LICENSURE** ADULT AND GRADUATE STUDIES AND **TRADITIONAL**

AGS Program Coordinator: D. Watson TRADITIONAL PROGRAM COORDINATOR: D. ARNOLD

The B.A. in Interdisciplinary Studies (IDST), a minor in Education, and K-5 Licensure requirements, prepare students interested in public school teaching in Grades K-5.

The Adult and Graduate Studies program is designed for students who have completed an Associate of Science in Teaching (AST) degree; however, other applicants may be considered. The Elementary Education program (courses specific to the discipline of Education) is a two-year program leading to the elementary (K-5) licensure in Tennessee as well as a Bachelor of Arts in Interdisciplinary Studies (IDST), which gives students the broad exposure to content across the liberal arts disciplines that is necessary for elementary teachers.

Because AGS programs differ in scope and choices, even within one state, all students will be advised during the admission process to King University and will be provided with an audit of their transcripts from prior institutions. This transcript audit will provide students a guide to the courses they need for the Interdisciplinary Studies major. These courses may be taken prior to transfer or completed by taking King courses. It will also clarify for incoming students how they will achieve three things: B.A. in Interdisciplinary Studies, Education minor, and requirements for licensure in Tennessee.

Students are encouraged to meet with King University faculty to discuss these audits and develop degree completion plans. Degree completion plans will consider any prior coursework that may substitute for courses that appear here and will identify additional courses required for licensure in Tennessee that were not included within a student's previous college work.

Grade Requirements

Grade requirements for all teacher education programs can be found under Teacher Education in this catalog.

Required General Education Course for all King University Undergraduate Students

RELG 1001

Foundations of Christian Thought and Practice4 s.h.

In addition to RELG 1001, all traditional students must complete the Common Experience courses listed below:

- 1. KING 1000/2000 Freshman or Transfer Year Experience
- 2. KING 3000 Cross-Cultural Experience
- 3. KING 4000 Christian Faith and Social Responsibility

General Education Requirements

Interdisciplinary Studies majors seeking elementary education licensure should fulfill specified categories of the King General Education listed by taking the courses indicated*.

IDST ELEMENTARY EDUCATION GRADES K-5 WITH ESL MINOR

Language Requirement

Students pursuing an Elementary Education Grades K-5 with ESL Minor must complete two college-level world language courses. World languages include American Sign Language; Arabic; Chinese; French; German; Greek; Japanese; Latin; Russian; Spanish; or Other World Language. They may satisfy this requirement by transferring credit or by successfully completing the courses at King. An intermediate-level foreign language may also fulfill the Human Culture General Education requirement.

LEADERSHIP MINOR TRADITIONAL PROGRAM COORDINATOR: M. PELTIER

Students pursuing the Leadership minor will experience a program consisting of a core of leadership courses, an interdisciplinary curriculum of carefully selected elective courses, and leadership experience.

Students will develop core knowledge about leadership through course content and practical experience involving the following broad areas: (a) faith, ethics, and values; (b) communication and group dynamics; (c) organizational structure and social science; and (d) multiculturalism.

Electives for Leadership Minor

Each student pursuing the leadership minor will, upon declaration, meet with the leadership program coordinator to develop a plan of study that identifies which elective courses will become a part of the student's program of study.

Elective courses will be selected based on the student's vocational goals and should further equip the student for leadership by providing them with additional skills, knowledge, and abilities. Normally, these elective courses may NOT overlap with courses required by either the General Education or the student's major. Electives will be chosen from the list below; the program coordinator may also suggest/approve other acceptable elective courses on a case-by-case basis.

The plan of study, when completed, will be submitted to the Office of Registration and Records for use in the degree audit. Changes to the plan of study must be approved by the program coordinator.

•	والموالم والمواصد المواصد والمواصلة والمواصدة والمواصدة

ability to think critically, analytically, and logically,

and it examines applications of mathematics across the disciplines. The mission of the Mathematics program is to produce graduates with outstanding problem-solving skills and the ability to reason and communicate mathematical ideas in order to build meaningful lives of achievement for careers in business, education, engineering, statistics, actuarial science, and many other areas.

The Mathematics major at King requires fewer semester hours than most other majors, which makes it an ideal choice to combine with and enhance another major. Recent students' choices of double majors, in addition to Mathematics, have been Business, Biology, Chemistry, Physics, History, Security and Intelligence Studies, and Political Science.

Computer resources are available through campus computer labs. King has a site license for the computer algebra system *Mathematica*, giving students the opportunity to implement a wide variety of algorithms studied in their coursework. All candidates for a B.S. in Mathematics are required to demonstrate competency in mathematics by successfully satisfying the competencies required of MATH 4930 Mathematics Capstone.

MATHEMATICS AND PHYSICS DOUBLE MAJOR

The B.S. in Mathematics and Physics is a double major that satisfies all requirements for both majors. More information regarding the requirements of a Mathematics and Physics Double Major can be found in the Physics program requirements.

General Education Requirements

Mathematics majors should fulfill specified categories of King General Education by taking the courses indicated below. See the *General Education* section of the catalog for additional details.

MULTIDISCIPLINARY STUDIES, BS, BA TRADITIONAL; ADULT AND GRADUATE STUDIES PROGRAM COORDINATOR: OFFICE OF REGISTRATION AND RECORDS/PROVOST

The Multidisciplinary Studies program allows students to pursue a combination of academic coursework not available through a traditional major. Through Multidisciplinary Studies, students are provided opportunities to develop knowledge and skills in disciplines of special interest. This "major" combines courses that are currently available across disciplines and organizes them into distinctive individualized programs of study. This option allows for creation of programs that best suit a student's needs, interests, and career objectives. A student's Multidisciplinary Studies major will be either a B.A. or a B.S. depending on the academic content of the program of study.

Academic Advising

Together student and advisor will develop a plan of study that will be used to determine compliance for degree requirements and sequence of courses. The plan will be approved by Academic Affairs and by the program coordinators in the identified academic disciplines before it is filed with the Office of Registration and Records.

To qualify for admission to the program, an applicant will submit:

- A statement outlining academic or professional aspirations and rationale for a specialized program to the Office of Registration and Records
- 2. A proposal that lists the academic disciplines the student wants to pursue

Major Requirements

- 1. Completion of pre-approved coursework in two or three academic disciplines:
 - a. A major shall consist of a minimum of 48 hours with no less than 24 hours in one discipline and remaining hours in another discipline or disciplines.
 - b. The remainder of hours required for graduation will be completed in preapproved courses that are categorized as general education, a minor, or electives.
- 2. At least 28 hours from the academic disciplines in the major must be taken at or above the 3000 level.
- At least 30 hours of coursework in the Multidisciplinary Studies program must be completed at King following admission to the program.
- 4. One-third of the coursework in each discipline must be completed at King.
- 5. A student cannot minor in either the primary or secondary discipline.

Comprehensive Assessment

All candidates for a degree from King are required to demonstrate competency in their major fields. Comprehensive assessment for the Multidisciplinary Studies major requires students to submit a proposal for the Undergraduate Poster Session and participate if accepted. Students will compile a collection of 5-7 items, which will reflect the competency of program objectives, as well as a cultural transformation essay. Staff from Academic Affairs will review the paper, proposal, and poster against the grading rubric, then forward results to the Office of Registration and Records for a final grade to be entered. If the poster session is not held during the student's last semester, the paper, proposal, and poster must be submitted to Academic Affairs. Any student who does not meet the minimum requirement (Pass) of their

comprehensive assessment will not graduate until the requirement has been met.

MUSIC, BA

TRADITIONAL

PROGRAM COORDINATOR: S. NICHOLSON

The B.A. in Music is designed to educate students in all areas of musical arts in an academically rigorous and pre-professional environment that integrates Christian faith, scholarship, service, and career to create distinctive performances and to encourage exploration of our culture through the performance of thought-provoking, challenging, as well as entertaining music.

Our vision is to grow continually as a comprehensive music program, with pre-professional training opportunities, that prepares students to excel as thoughtful, resourceful, and responsible citizens with a passion for serving God, the Church, and the world. Music majors are prepared to pursue careers in performance, music education, and music ministry. All students graduating from King University with a major in music may be suitable candidates for graduate schools offering advanced degrees in music.

Music students must choose one Track within the music program: Applied Music, Music Education Vocal/General, Music Education Instrumental/ General. Music Education students can choose to add Grades K-12 Licensure to be prepared to teach in public schools.

The music department produces six major concerts each year and numerous smaller programs in churches, schools, and civic clubs. The department encourages student participation in national conferences and festivals and prepares students for internships with music professionals in the community. Participation in some ensembles and in concerts is open to all students by audition, regardless of major.

General Education Requirements

Music majors should fulfill specified categories of the King General Education by taking the courses indicated below. See the General Education section of the catalog for additional details.

Total	40 s.h.

*Applied Music courses are private one-hour lessons in brass, harpsichord, percussion, organ, piano, voice, and woodwinds are offered for credit. For one credit hour the student practices six hours a week. Upon beginning the study of applied music at King, the instructor will place the student at the proper level (elementary, intermediate, intermediate II, advanced), which is indicated by the first digit in the course number. The second digit indicates the area of study. There is no limit to the number of semesters a student may study at one level. Advancement from one level is accomplished through performance juries. Moving from one level to another is a decision made by the faculty of the music program. Music majors must complete at least 1 s.h. of applied music each semester while enrolled in the music major. Students must complete a minimum of 6 s.h. of applied music prior to graduation. Students are required to complete the Advanced level in order to graduate. Applied music courses prepare students for MUSC 3880: Senior Recital.

Track Requirements

Students will choose a track in Applied Music, Music Education Vocal/General, or Music Education Instrumental/General.

Applied Music Track

Students who major in music at King (without completing Music Education) will demonstrate knowledge of musical heritage and its role in world civilizations, demonstrate knowledge of principles of musical arts in the community, and demonstrate an ability to evaluate music from the perspectives of performer, practitioner, and patron.

Music Education Tracks with Grades K-12

The Music Education tracks are designed to prepare highly qualified, entry-level professional music educators. Graduates will exhibit academic and technical competence and an appreciation of diverse abilities and cultures in school, community, and professional settings. Because of the broad scope of music education, this track provides two choices for specialized training in Music Education: vocal/general track and instrumental/general track.

The department frequently invites guest artists to campus for performances and student workshops to enhance students' growth as musicians and music educators.

All students graduating from King with a major in music education may be suitable candidates for graduate school offering an advanced degree in music education. Music education majors are prepared to pursue careers in teaching music, performance, and music ministry.

Students who major in music education at King will demonstrate a basic knowledge of music theory through the correct application and analysis of four part writing in an original composition, demonstrate knowledge of Western musical heritage as interrelated to the development of western civilization, display competency as a performer and conductor, and demonstrate preparation for future leadership in music in various educational and musical settings.

<u>NOTE</u>: All students in the Music Education tracks must advance through performance juries to the Applied Music, Intermediate level of their major instrument (voice, piano, band instrument).

Students wishing to be licensed to teach in public schools must complete the Music Major common requirements, and Music Education track requirements along with either the vocal/general or the instrumental/general track. This coursework is preparation for the addition of the professional Education Minor for K-12 Licensure.

- ** Praxis II Content Area Examinations #0114 Music: Content and Instruction must be completed with a passing score before teacher candidate's application to student teach will be approved. Attaining a TN passing score for all applicable Praxis I and Praxis II examinations for each licensure area is required for licensure recommendation.

Written proof of current First Aid and CPR certification is required for approval for professional clinical experience (student teaching/internship). Certification can be attained via the American Red Cross or other licensed providers.

NURSING, BSN TRADITIONAL PROGRAM COORDINATOR: J. PRICE

The Bachelor of Science in Nursing (BSN) program offers a baccalaureate degree to pre-licensed nursing students. King's BSN program supports the mission of the University in the following ways:

- by preparing its graduates for general nursing practice in a Christian environment with academic rigor
- by preparing professionals who are resourceful, accountable, and with a passion for serving God, community, and society.

Program Outcomes

King nursing graduates are prepared, at the beginning level of practice, to meet the AACN Essentials of Baccalaureate Education for Professional Nursing Practice (AACN, 2008). Following completion of the program, all graduates are eligible to apply to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN). However, the decision to grant a license is determined by the appropriate state board of nursing in the state where the graduate intends to practice.

Upon successful completion of the King University Nursing program and licensure, all graduates are prepared as generalists ready to assume professional nursing roles in a variety of hospital or community settings and all have been provided with an adequate foundation for graduate study. The AACN Essentials of Baccalaureate Education for Professional Nursing Practice are:

- Liberal Education for Baccalaureate Generalist Nursing Practice
- 2. Basic Organizational and Systems Leadership for Quality Care and Patient Safety
- 3. Scholarship for Evidence-Based Practice
- 4. Information Management and Application of Patient Care Technology
- 5. Healthcare Policy, Finance and Regulatory Environments
- Interprofessional Communication and Collaboration for Improving Patient Health Outcomes
- 7. Clinical Prevention and Population Health
- 8. Professionalism and Professional Values
- 9. Baccalaureate Generalist Nursing Practice

Nursing Program Admission/Progression

Once a King student identifies their intent to major in nursing, the student should change their major to "Pre-Nursing" in the Student Portal. The student will then be assigned a nursing advisor. Only students formally accepted into the nursing program will change their major to "Nursing."

Traditional King University students wishing to apply to the traditional, pre-licensure BSN program must request a Petition for Acceptance into the BSN Program from the BSN Program Coordinator or their nursing advisor and return to the BSN Program Coordinator. All non-traditional students (less than one semester completed at King University) must complete a nursing application on the centralized application system, NursingCAS (https://www.nursingcas.org/). Students reapplying must complete a new School of Nursing BSN Program Application with their current GPA calculation and submit new Nursing Entrance Exam scores. Students may apply to the traditional BSN program only twice.

Students wishing to transfer nursing credits from a nursing program at another institution must demonstrate knowledge and skill competency equal to that expected of King students and may be required to review the assessment skills checklist and demonstrate mastery of skills to a nursing faculty in

clinical simulation laboratory as well as demonstrate proficiency on a standardized exam related to the course under scrutiny before credit will be transferred for NURS major courses.

All transfer applicants must provide a letter of good standing from all previous nursing schools attended. The letter must come from the Dean/Director of the nursing program. Transfer applicants who have previously failed two or more nursing classes at another institution are not allowed to apply to the BSN program.

All science prerequisites are preferred to be completed within five years of applying to the nursing program. Science courses completed five or more years within application to King University School of Nursing will be evaluated by the School of Nursing Admissions Committee.

Students will be accepted based on meeting the King University School of Nursing admission criteria. Application deadlines may be obtained through the Admissions Office. Criteria for admission to the School of Nursing:

- Cumulative GPA of 3.0 or above for all coursework that has been taken at all colleges
- Completion of Nursing Entrance Exam with scores that meet the current scoring benchmarks set at the time of admission
- A grade of C or better in all the Natural Science courses, developmental psychology, and the required mathematics course
- No more than 8 s.h. in general education or prerequisites for nursing remaining to be completed before admission (12 s.h. outstanding credits if RELG 1001 is lacking).
 Outstanding credits must be completed prior to the start of the final (senior 2) clinical semester.

Special requirements for progression and retention in nursing are influenced by the student's ability to provide evidence of satisfactory physical, emotional, and mental well-being. Remaining in the program may be contingent upon this evidence.

In addition, prior to the beginning of the first clinical rotation (and annually thereafter), each student must present evidence of good health and freedom from communicable disease. (This requires a physical examination and proof of immunizations.) Other requirements prior to a clinical rotation include demonstrated competency related to standard precautions, and American Heart Association CPR certification (adult, child, infant).

Background Check and Urine Drug Screen

The clinical agencies utilized by King require all students meet standards relating to criminal background. Students must clear a criminal background check and urine drug screen before admission to the clinical settings utilized by King. Failure to undergo the background check or urine drug screen will result in dismissal from the nursing program. All students must comply with the King School of Nursing Criminal Background check and Drug Screen policies. All background checks must be completed through the King Security Department and all urine drug screes must be completed through the clinical documentation management system. Students are responsible for all fees associated for background checks and urine drug screening.

A full listing of program fees can be found in the Financial Information section of the Catalog under Additional and Part-time fees.

Technology Requirements

Laptop computer with minimum of Microsoft 365 wireless capability, and webcam are required. Microsoft Office 365 is available to all King students to load on the PC or Mac and is accessible at Office.com using their King University credentials.

Recommended Minimum Hardware Requirements

If students need to purchase a new computer, recommended minimum requirements are listed below:

- Intel i5 Processor
- 4GB RAM
- DVD-ROM, either embedded or detached
- 128 GB hard drive storage minimum; 256 GB or greater hard drive storage is preferred
- Screen Size: 13" or bigger with resolution of at least 1024 x 768
- Graphics Card: 512 MB minimum
- 100 MB/1 GB NIC and/or 802.11 b/g/n Wireless Network Card

 Laptop Operating System: Windows 10 Home Premium or better (32 or 64 Bit)

NOTE: Chromebooks and many tablets will NOT meet the minimum requirements for the School of Nursing programs. These include iPads, Android tablets, Windows RT tablets (Surface, although Surface Pro is fine), and all Chromebooks.

Recommended Minimum Software Requirements

- Internet Web Browser: Various browsers may be required for different software packages used by the School of Nursing. We recommend installing the latest versions of Internet Explorer, Google Chrome, and Mozilla Firefox.
- Anti-Virus Software
- A Personal Firewall Software/Internet Security package to protect the computer from unauthorized access via the Internet is suggested

Licensure

NCLEX-RN applications require individuals to identify any prior court convictions, both misdemeanor and felony, including but not limited to, theft, assault, driving under the influence, and possession of controlled substances. If any condition exists, the state Board of Nursing will request applicants to provide information on the charge and sitting for the NCLEX-RN exam may be denied. In some instances, licensure may be denied, or the license may be restricted. Some states also require a specific citizenship status and/or specific immigration paperwork to accompany license applications. Students will need to review the specific state board of nursing requirements where licensure will be obtained and are responsible for ensuring licensing eligibility for specific states.

Full-Time Status

All students in the traditional nursing curriculum are expected to be full-time students and to complete the program within eight semesters of study. Transfer students who have met all prerequisites usually complete requirements in four semesters. Additional summer study may be needed to meet all program requirements. All nursing students are expected to

maintain full-time student status, and work hours should be limited. Part-time plan of study may be permitted with under special consideration and approval from Program Coordinator and/or Dean.

Grade Requirements

Students must achieve a grade of B- or higher in all nursing major courses (NURS) and maintain a cumulative NURS grade point average of 3.0 on a 4.0 scale. Students who do not maintain the cumulative NURS GPA of 3.0 will be placed on academic warning from the School of Nursing for one semester, during which time the NURS GPA must be brought up to the minimum of 3.0 or the student will be dismissed from the nursing major.

If a student fails to obtain a B- or better in a single nursing course, their designated place on the class roster may be lost and the student will be required to repeat the course. If a grade of C+ or below is recorded for two or more nursing courses or a grade of C+ or below is recorded for a nursing course that is repeated, the student will be dismissed from the nursing major.

If a student withdraws from the nursing program, the student must complete a new application, and meet all admission/progression requirements in place at the time of re-application to the program. Students may reapply one time only. Nursing courses may be repeated only once on a space-available basis.

LPN Advanced Placement

See *Prior Learning Assessment (PLA)* policy under the Academic Policies section of this catalog.

Clinical Competency

All clinical experiences associated with nursing courses are graded on a Pass/Fail basis. A Clinical Performance Evaluation (CPE) will be completed at mid-term and on completion of the clinical schedule.

Failure in either the theory component or the clinical component of a clinical course results in failure of the course.

<u>NOTE</u>: Nursing students are required to adhere to department policies as outlined in the BSN Nursing Student Handbook, a supplement to the King University Student Handbook.

Nursing Leadership and Management......3 s.h.

development designed specifically to meet the needs of adult learners.

The King Nursing faculty believes nursing serves society through the competent and compassionate delivery of direct and indirect health care services to individuals, families, and communities, guided by Christian values. As a professional discipline, nursing for the registered nurse student (RN-BSN) is based on a strong foundation of knowledge from the humanities, the arts and sciences, and from nursing and health-related disciplines, which integrate academic and practice components. The program uses a cohort structure, accelerated pace; it features applied learning and participative methodology.

Program Outcomes

Upon successful completion of the program, all graduates are prepared for professional nursing practice in a variety of hospital or community settings, and they have been provided with an adequate foundation for graduate study. In the RN-BSN program, the AACN Essentials of Baccalaureate Education for Professional Nursing Practice (AACN, 2008) serve as the program outcomes. The AACN Essentials of Baccalaureate Education for Professional Nursing Practice are these:

- Liberal Education for Baccalaureate Generalist Nursing Practice
- 2. Basic Organizational and Systems Leadership for Quality Care and Patient Safety
- 3. Scholarship for Evidence-Based Practice
- 4. Information Management and Application of Patient Care Technology
- 5. Healthcare Policy, Finance and Regulatory Environments
- 6. Interprofessional Communication and Collaboration for Improving Patient Health Outcomes
- 7. Clinical Prevention and Population Health
- 8. Professionalism and Professional Values
- 9. Baccalaureate Generalist Nursing Practice

King's RN-BSN program supports the University's mission in the following ways:

 by preparing its graduates for general nursing practice in a Christian environment with academic rigor by preparing professionals who are resourceful, accountable, and with a passion for serving God, community, and society

The RN-BSN degree is a minimum of 124 semester hours. A total number of 48 hours is required at King to fulfill the residency hour requirement. The RN-BSN program is designed so that a transfer student with 76 credit hours completed at an approved institution may graduate in three semesters. The student's prior coursework must include all prerequisites for the RN-BSN program and King's minimum general education requirements.

The RN-BSN program is offered online. Nursing courses last for seven weeks. Typically, the general education courses are also offered online.

All nursing courses are designed to meet the standards as outlined in The Essentials of Baccalaureate Education for Professional Nursing Practice (AACN, 2008), Nursing Scope & Standards of Practice (ANA 2015), Code of Ethics for Nurses with Interpretive Statements (ANA, 2015), TN Law Regulating the Practice of Nursing (June 2015, rev.), and the Laws Governing the Practice of Nursing and Health Professions in General Code of Virginia (Dec. 2018).

RN-BSN Application Packet Requirements

For specific AGS program application packet requirements, please visit Application Packet Requirements for Undergraduate AGS Programs located within the Admissions Policies section of the catalog.

Transfer Credit

Students wishing to transfer a nursing course(s) completed at another college or university, as a substitute for a King University required course, must provide a course syllabus to be evaluated by the nursing faculty for equivalence in theoretical and clinical content. The Dean of the School of Nursing has the final decision on the equivalence of a course. Transfer courses are seldom evaluated for substitution of NURS courses since the RN-BSN curriculum is specifically designed to fulfill the 48 semester hours needed to meet residency requirements for a bachelor's degree.

Background Check and Urine Drug Screen

All students are required to clear a criminal background check and urine drug screen to continue

in the nursing program. Failure to undergo the background check or urine drug screen will result in dismissal from the nursing program. All urine drug screens must be completed through the clinical documentation management system. Students are responsible for all fees associated for urine drug screening which is included in nursing fees.

Clinical Learning

Nursing practice requires a broad array of essential competencies. The RN-BSN program requires lab practice in physical assessment, clinical change projects, community teaching, and service-learning activities. Clinical learning activities that meet essential competencies are embedded in courses throughout the plan of study. Students individually and supportively participate in therapeutic communication, assessment, change theory, process improvement, leadership, delegation, and time management exercises. Students engage in a reverse problem-based learning pedagogy that fosters critical thinking as they identify problems, conceptualize improvement processes, and develop possible solutions. Clinical experiences promote care delivery to individuals, families, and populations across the human lifespan that is holistic, culturally competent, spiritually astute, fiscally responsible, and ethically sound.

Latest Technology

Contemporary technology enhances the educational experience and preparation for meaningful and successful careers. The faculty encourages the use of web-enhanced activities to influence and promote learning for those receiving and providing healthcare. Experience with beginning level informatics competency is embedded in several nursing courses.

Technology Requirements

Laptop computer with Microsoft Office 365, wireless and webcam capability is required. Microsoft Office 365 is available to all King students to load on the PC or Mac and is accessible at Office.com using their King University credentials.

Residency Requirements

If students transfer fewer than 76 semester hours, additional courses will be required to complete 124 total semester hours to graduate with a Bachelor of

Science in Nursing degree. King requires that 48 semester hours be completed at King. The additional courses may be taken prior to or during the completion of course work for the BSN degree. An advanced placement credit option consisting of proficiency validation by licensure is available; students should check with their Student Success Specialists about this possibility. Please see *Prior Learning Assessment Policy* located in the Academic Policies section of this catalog.

RN-BSN Student Handbook

RN-BSN students are required to follow School of Nursing polices set forth in the RN-BSN Student Handbook and outlined in course syllabi. All RN-BSN students are required to read and follow university policies relative to appeals and grievances listed in the RN-BSN Student Handbook.

Grade Requirements

A grade of C+ or higher is required in all nursing courses. If a failing grade is earned, students must repeat the course. If a grade of C or below is recorded for two nursing courses, or if a grade of C or below is recorded for a nursing course that is repeated, the student will be dismissed from the nursing major.

Comprehensive Competency Assessment

All students graduating from King University, regardless of major, must demonstrate competency in their major field prior to graduation. To fulfill this university-mandated graduation requirement, the School of Nursing has chosen to have RN-BSN students address, in a portfolio, the standards found in The AACN Essentials of Baccalaureate Education for Professional Nursing Practice (2008) and the School of Nursing Professional Pillars. The specific assignment parameters are thoroughly delineated in the Demonstrating Achievement of Core Competencies for the Registered Nurse document.

Students will use self-reflection to describe specific moments in clinical practice that were enhanced by the learning experience in the nursing, religion, or Quest courses and link these descriptions to the Essentials and Professional Pillars. The portfolio will include exemplary assignments and activities demonstrating achievement of competency for each outcome.

The completed portfolio is due by the end of week three of the final NURS course. Nursing faculty will review the portfolio against the grading rubric, then forward results to the School of Nursing. The rating will not affect the nursing course grade but will be the grade for NURS 4990. The completed portfolio is a graduation requirement.

General Education and Quest

All RN-BSN students are required to take additional general education courses to meet the degree requirements at King.

Students may choose from the following Quest Courses to fulfil general education or elective credits.

LIBS 3000

The Quest for Self-Knowledge* (4 s.h.)

LIBS 3400

The Quest for Community and

Ordered Society** (4 s.h.)

LIBS 3600

The Quest for Stewardship and the Ethical Responsibility (4 s.h.)

LIBS 4000

The Quest for Career and Vocation (4 s.h.)

- * Satisfies the general education Human Creative Products requirement
- **Satisfies the general education Citizenship requirement

The Quest courses are interdisciplinary, each focusing on an essential theme in the Humanities. The goal is to examine the elements that figure in the development of character and to provoke students to more serious consideration of their own character and its impact on their vocations. Each course requires reading, writing, and class discussion. Professors are King faculty members from Humanities fields such as English, History, and Religion.

RN-BSN students should fulfill the Quantitative Literacy category of the King General Education by taking the course indicated below or transferring an equivalent course.

PHILOSOPHY MINOR

TRADITIONAL

PROGRAM COORDINATOR: W. C. STREETMAN

Electives 50 s.h.

The Philosophy minor program at King University celebrates the human love of wisdom and ancient quest for meaning. We provide a supportive environment in which philosophy minors participate in this quest and conduct earnest inquiry into life's most fundamental and pressing issues, such as the nature of reality; what we can know and how this knowledge is acquired; the nature of truth and beauty; how we can judge between right and wrong; and how we ought to live. Philosophy minors are also given the opportunity to examine to examine the theoretical underpinnings of other sciences and

academic disciplines through a wide variety of electives.

Students completing a degree in philosophy are prepared to enter law school or pursue graduate study in theology, philosophy, or religion. The degree is also useful for careers in medicine, bioethics, journalism, management, business, and government.

All in all, irrespective of their career paths, philosophy minors acquire a skillset that enables them to think in an organized way about important and controversial issues, along with some measure of insight into the more fundamental mysteries of human life.

PHYSICS, BS TRADITIONAL PROGRAM COORDINATOR: K. KOTHAPALLI

The laws of physics established by our Creator make the discipline of physics relevant to all the natural sciences and bring understanding of nature as well as faith issues. The Bachelor of Science Degree in Physics prepares students for graduate study in physics and related fields, such as medical physics, astrophysics, applied mathematics, and engineering. This degree is also an ideal preparation for many technical careers, especially those that require rigorous analytical and quantitative thinking. Students will be able to solve quantitative problems, have a basic knowledge of the major areas of physics, be able to express themselves in a professional manner, and understand experimental techniques and data analysis. There is also a path available for any student desiring to become a teacher at the middle and senior high school level (with licensure).

Physics is the study of the physical world, including all matter and energy. The Bachelor of Science degree is a rigorous program, consisting of 50 semester hours of science and mathematics in addition to General Education courses. It includes enough hours in Mathematics for a minor and leaves 32 elective hours available to the student for another major or minor. Alternatively, the student can double major in Physics and Mathematics. Students are encouraged to spend one summer doing research and may be published authors before graduation. Academic credit is usually available for internship or research efforts. At the end of the program of study, all students majoring in Physics will be required to pass a comprehensive assessment administered during PHYS 4990.

General Education Requirements

Physics majors should fulfill specified categories of the King General Education by taking the courses indicated below. See the *General Education* section of the catalog for additional details.

PSYCHOLOGY, BS TRADITIONAL PROGRAM COORDINATOR: K. DEFORD

The Bachelor of Science degree in Psychology provides unique blends of action with reflection and of Christian spirituality with broad intellectual growth. Psychology, as the crossroad science of the cultural mind, individual behavior, and the organic brain, prepares students for a wide variety of careers. Psychology at King is a program in which students will conduct their own original research projects, be encouraged to participate in internships that serve the community with which they hope to work, and make observations of family life, children, and adolescents. Psychology courses older than 10 years will need to be petitioned for transfer credit towards degree requirements.

Combined with traditional classroom activities, hands-on learning experiences let students develop a unique view of human beings: one that is critically aware of the limitations and biases in current knowledge, one that is constructively able to seek out new approaches to understanding others, and one that knows how to observe, record, analyze, discuss, interpret, and explain what humans do and why. Such knowledge has proven useful to our graduates who have succeeded: (1) in careers that do not require further study, such as youth workers, case workers in social welfare programs, child care workers, technicians or trainees in state institutions, personnel officers, government specialists, business managers, and other people-oriented careers; (2) in graduate school; and (3) in graduate programs in medicine, law, ministry, education, special education, and other fields where further study is required.

The Bachelor of Science degree in psychology is designed to provide students with converging viewpoints addressing the diversity of psychology, the integration of faith and psychology, and practical experiences to enhance skills appropriate for graduate study or an immediate career.

Comprehensive Assessment (PSYC 4990)

All candidates for the psychology degree from King are required to demonstrate competency by completing the Major Field Achievement Test (MFAT). The MFAT will be administered to all students in the semester that they complete program requirements. The test will cover four broad areas of psychology. The areas are cognition, clinical/abnormal, perception/physiology, and social/developmental. Any student who does not meet this requirement will not graduate until the requirement has been met.

Technology Requirements

Laptop computer, with minimum of Microsoft Office 2010 or later, wireless capability, and webcam required.

General Education Requirements

Psychology majors should fulfill the Science category of the King General Education by taking the course indicated below. See the *General Education* section of

General Education Requirements

Psychology majors should fulfill the Human Culture category of the King General Education by taking the course indicated below. See the General Education section of the catalog for additional details and options for other categories.

Human Culture PSYC 1520

Introductory Psychology*4 s.h.

*Introductory Psychology (PSYC 1520) is a required course in the Psychology program. It is recommended that students take Introductory Psychology prior to entering the program. If a student intending to major in Psychology has not completed Introductory Psychology prior to matriculation or prior to entering the Psychology major, the student is required to complete it within the first two semesters of enrollment in the major. King offers the course online in "Quest" format (five learning modules spread over the entire 15-week semester), so the course can be taken in addition to the three specified Psychology courses for the major.

RELIGIOUS STUDIES, BA **TRADITIONAL**

PROGRAM COORDINATOR: G. SANDERS (INTERIM)

The B.A. in Religious Studies prepares students to enter theological seminaries or graduate schools of religion in preparation for careers in the pastoral ministry, teaching, mission, or social work. Many graduates also enter the fields of law, business, the social sciences, and education. The Religious Studies major focuses on the study of the Christian

Scriptures, religion, both theory and method, philosophy, and religions of the world. The purpose of the major is not only to educate students in the Christian religion, but also to explore the nature and function of the religious impulse.

The major consists of a common core of six courses and an additional track of five courses for a total of 44 s.h. Tracks include Biblical Studies, Philosophy, Theory and Method in Religious Studies, and Youth Ministry.

The minors in Biblical Studies and Religious Studies are excellent supplemental programs, enhancing many other majors. These minors enable students to pursue advanced biblical and theological study and thereby integrate faith into their chosen field of interest.

Affiliations

- Tel Azekah Archaeological Expedition, Tel Aviv University, Tel Aviv
- Al Quds University Exchange Program, East Jerusalem, Palestine
- Society of Biblical Literature, American Academy of Religion, American Society of Oriental Religion, Al Quds University, East Jerusalem, and American Philosophical Association

Technology Requirements

Microsoft Word, PowerPoint, Adobe, and media player capabilities

A comprehensive assessment covering the major in Religious Studies will be given the semester prior to graduation. The assessment is 240 questions and will be administered online via Canvas one month prior to the graduation date.

SECURITY AND INTELLIGENCE STUDIES, BA

TRADITIONAL PROGRAM COORDINATOR: G. HELT

The Bachelor of Arts degree in Security and Intelligence Studies (SIS) aims to address the high demand for qualified security and intelligence professionals in the post-9/11 world. Employers are looking for university graduates who are curious about the world around them and can critically assess global events and trends. Students in the SIS program will explore 21st century security challenges, learn how to use structured techniques in their analyses, grapple with the ethical issues facing the national security community, and learn how the intelligence community works with policymakers to inform national security policy. Security and Intelligence courses older than 10-years will not be eligible for transfer towards degree requirements due to the nature of the program.

The SIS major is designed for students interested in careers in law enforcement, homeland security, military, intelligence, the diplomatic service, and national security law. Additionally, the SIS minor may complement the Business major, especially for students interested in careers in global investing and consulting, and the sciences (Biology, Forensic Science, Mathematics, Physics), as well as in Psychology.

The SIS program seeks to foster a Christian worldview while providing students with an empathetic view of other cultures, countries, and religions. We aim to graduate students who understand that each action undertaken in the name of national security will have an impact on other human beings who are also created in the image of God; therefore, we have an obligation to consider the long-term consequences of our actions.

Comprehensive Assessment

Students in the SIS major will be expected to select an area of interest upon completing 20 semester hours of in-class instruction. Areas of interest will be selected from a pre-approved list consisting of a variety of relevant subject matters. These will include government agencies within or outside of the United States intelligence community, non-state militant groups, high-value countries, subjects in intelligence history, or area studies. Degree candidates will be required to submit the conclusions of their research on their area of interest in the form of a publishable academic paper to an appropriate journal or present the topic of their research to a panel of experts.

SOCIAL WORK, BSW ADULT AND GRADUATE STUDIES PROGRAM COORDINATOR: J. HELBERT

The Bachelor of Social Work (BSW) program provides students with a range of knowledge, skills, abilities, values, and ethics, as well as cognitive and affective processes that effectively prepares them for generalist careers as professional social workers. BSW graduates enjoy title protection as "social workers," and are in high demand in the domestic and global job markets.

King University's BSW professors are social workers themselves with a minimum of a Master of Social Work (MSW) degree. In addition to years of social work field experience, BSW professors are experienced administrators, practitioners, clinicians, and educators who believe in nurturing students while challenging them to reach higher goals.

The BSW program boasts 45-years of proven academic success through our longstanding presence in the region and our continuously maintained

accreditation with the Council on Social Work Education (CSWE). The King BSW program originally began at Virginia Intermont (VI) College and has continued uninterrupted at King University since VI's closure in 2014.

In the 45-years of the BSW program's accredited existence, a stellar social work education has been provided to students from Northeast Tennessee, Southwest Virginia, and several states across the nation and abroad. In addition to membership with the CSWE, the BSW program is affiliated with the National Association of Social Workers (NASW), the North American Association of Christian Social Workers (NACSW), the International Federation of Social Workers (IFSW), the International Consortium on Social Development (ICSD), the Association of Baccalaureate Program Directors (BPD), and Phi Alpha, the International Social Work Honors Society. The King University chapter of Phi Alpha is Chi Omega.

The BSW program provides students with the theoretical and practical skills required to work as professional social workers in addition to a generalist, trauma-informed knowledge base that examines human behavior and complex social interactions. This generalist approach to preparation allows social workers to engage with individuals, families, groups, communities, and organizations to help resolve problems and improve capacities for social well-being.

King University's mission is to prepare students in our Christian academic community to excel as thoughtful, resourceful, and responsible citizens with a passion for serving God, the church, and the world. The BSW program supports this mission by utilizing a trauma-informed, bio-psycho-social-spiritual framework toward addressing social and economic issues utilizing social, economic, and restorative justice components. Counseling and advocacy skills are also employed, which emphasize the importance of addressing barriers that may be experienced by individuals, families, groups, communities, and/or organizations. The signature pedagogy of the BSW program is the incorporation of an extensive supervised professional field practicum experience in one or more relevant social work settings.

Students who complete the BSW program successfully are well-prepared for entry into an advanced standing Master of Social Work (MSW) program, as well as entry into the workforce in professional social work practice. The advanced standing placement is designed for BSW graduates who excelled academically, having maintained a GPA of 3.0 or higher. Advanced standing placements enable social work students to complete the MSW degree in one academic year of full-time study.

Students Interested in Licensure

Licensing of social work practitioners is under the authority of a designated office in each individual state. All 50-states and the District of Columbia require that a social worker sitting for a licensing exam must have graduated from a Council on Social Work Education (CSWE)-accredited program. Because King University's BSW program has maintained accreditation through the CSWE, students can progress with confidence that the BSW program at King University will prepare them for licensure and professional practice in the field of social work. While the CSWE establishes and maintains national standards for all social work programs, each state reserves the right to establish their own standards for licensure to practice within their state's borders. King University cannot confirm whether the BSW program meets requirements for professional licensure in a specific state; therefore, it is incumbent upon the student to research and understand the proper licensing requirements for their respective states. A list of the social work regulatory boards for each state is available on the BSW program page of the King University website.

Practicum Responsibilities for Online Students

- King University operates under NC-SARA guidelines (www.nc-sara.org) for determining physical presence in regards to supervised field experiences for online students (Section 5.3).
- If a student does not intend to sit for the licensing exam, then she or he may participate in a practicum in any state or U.S. Territory except CNMI*.
- If a student intends to sit for the licensing exam and is participating in a practicum as part of the licensing requirements in that state, there may be additional requirements from the

- agency responsible for licensure. It is the student's responsibility to research and understand any additional requirements that may be in effect.
- *Any student participating in a practicum in the Commonwealth of Northern Mariana Islands (CNMI) may need to meet additional requirements set by CNMI. It is the student's responsibility to research and understand any additional requirements that may be in effect.

NASW Code of Ethics

All BSW students must adhere to the NASW Code of Ethics found at https://www.socialworkers.org/pubs/code/default.asp, which is an essential component of each course in the social work major.

BSW students are expected to follow a strict set of ethical guidelines that inform practice and the professional conduct of social workers in the following ways:

- 1. Service
- 2. Social Justice
- 3. Dignity and Worth of the Person
- 4. Importance of Human Relationships
- 5. Integrity, and
- 6. Competence

These are the core values of the social work profession, clearly articulated in the 2017 NASW Code of Ethics, as amended. Additionally, student social workers should possess compassion and empathy, strong interpersonal skills, reflective listening skills, excellent organizational and timemanagement skills, and outstanding problem-solving skills.

Grade Requirements

Applicants are required to possess a minimum cumulative GPA of 2.2 on a 4.0 scale. Applicants whose cumulative GPA is below 2.2 may be considered on a conditional basis or accepted provisionally as "pre-social work" until the GPA rises to the required limits. Student social workers are expected to achieve a GPA of 2.2/4.0 by the end of the student's first semester following acceptance into the program. From admission forward, students are required to maintain a minimum cumulative social

work GPA of 2.2/4.0 to remain in good standing in the BSW program.

Students who fail a course (those who earn a grade below a C-) must repeat the course and will receive a letter of programmatic academic warning and will be required to undergo a series of remediation measures. Students who fail two major courses will not be permitted to progress in the program and will receive a letter of programmatic dismissal. More details are provided in the King University BSW Student Handbook.

BSW Student Handbook

The BSW program has both academic and nonacademic requirements for retention and progression, which are detailed in the BSW Student Handbook.

Application Packet Requirements

Students wishing to declare social work as their major must follow the guidelines set forth for specific AGS program application packet requirements, which can be located by visiting *Application Packet Requirements for Undergraduate AGS Programs* located within the *Admissions Policies* section of the catalog. Members of enrollment management and/or the registrar's office may also provide electronic access to the BSW Program application.

Students must have completed a minimum of 45-semester hours of applicable coursework to apply for admission to the BSW program. For students to successfully complete the BSW program plan of study within the specified timeframe, completion of 60-semester hours is recommended before applying to the BSW program.

Comprehensive Assessment

Students must enroll in SOWK 4990 during their final semester of BSW coursework. This course consists of an online, single-attempt, comprehensive social work examination. Students must pass the BSW comprehensive examination with a minimum score of 80%; this is a mandated prerequisite for graduation from the BSW program. This exam is comprised of 60+-items comprehensively measuring students' learning and retention of the social work

subject matter and adherence to the latest APA standards.

Technology Requirements

PC with MS Office 2010 or later, Webcam, Microphone

Social Work Major Requirements

Educational outcomes and competencies are attained through the combination of learning experiences (coursework in theory, methods, and conceptual learning) and skills development in the field education practicum component. The content courses in the major can be completed in three semesters (one calendar year). Students are required to enroll in SOWK 4800: Integrative Practice during their fourth semester in the program, following successful completion of all social work courses. SOWK 4800 is an intensive clinical field practicum experience consisting of 400 on-site hours earned in a social work setting. Students will complete the field practicum while enrolled in a required online, seminar course during the 15-week (module D) semester. Students who fail to complete all practicum hours within the designated time frame outlined in the BSW Field Education Manual will not pass SOWK 4800. Students may find maintaining outside employment during the field practicum semester challenging and successful completion of the required practicum may be hindered, thus delaying graduation.

SPANISH, BA TRADITIONAL

PROGRAM COORDINATOR: B. MACIONE

The Bachelor of Arts in Spanish seeks to nurture all of the major language skills: reading, writing, speaking, and listening comprehension. Through study of the languages, literatures and histories of other cultures, students gain a heightened sensitivity to the use of their native language and a greater appreciation for the world's diversity. Our majors are well-prepared to enter the global society of the 21st century and fulfill King's mission by leading students to integrate Christian faith, scholarship, service, and career using the Spanish language.

After completing SPAN 2000 or intermediate proficiency, students should begin their major/minor

by enrolling in Advanced Spanish Skills I and II (3010 and 3020). Then, students may complete their degree requirements by taking a range of literature, civilization, and culture classes or by concentrating on the use of the language in a specific field, such as business or healthcare.

The major prepares students to communicate in Spanish in a wide variety of occupations. Spanish majors may choose to pursue licensure to teach through the School of Education or pursue careers in business, government services, intelligence, interpreting, and translation. An immersion experience in a Spanish-only environment is required and must be pre-approved by King University Language Department Program Coordinator and the Center for Study Abroad.

The Spanish program supports the mission of King University by promoting literacy and the effective use of language (scholarship), fostering knowledge of western cultural heritage (scholarship), and encouraging an enlarged vision of and appreciation for other peoples and cultures (service and faith). Graduates of this program should be able to "think critically about western and non-western cultures, to examine their own cultural captivities, to interact with diverse peoples" and hold respect for the global community.

Technology Requirements

Students are required to have access to a computer or laptop, Microsoft Word, PowerPoint, Adobe Reader, and internet access to complete their course work and class projects.

Comprehensive Assessment

SPORT MANAGEMENT, BS TRADITIONAL PROGRAM COORDINATOR: R. ROSE

Sports are a big business in the United States. Sport Management involves working in the business side of the sports industry. The Sport Management major features an interdisciplinary curriculum designed to both challenge and enhance the student's educational experience. A strong core of general business and sport management-specific courses are complimented by related and relevant studies in psychology, ethics, law, communication, and social media.

The Sport Management curriculum is modeled after requirements of Commission on Sport Management Accreditation (COSMA) accreditation principles. The major in Sport Management prepares students for entry-level positions within a variety of sport and recreation settings. The focus of this program is to prepare and enable students to apply critical thinking and techniques to solve real problems related to amateur, collegiate, and professional sports organizations. Sports and athletes have a welldocumented impact on culture and on all dimensions of the human condition. There is compelling and convincing evidence of the positive cultural benefits on both health and pro-social behavior. Sport increases social connectedness and our sense of belonging. Sports remind us of God's many gifts such

as grace, beauty, and strength to His children. These characteristics provide sports an ideal opportunity for students prepared in Christian academic community to minister to those in need and to make a positive cultural difference in their communities and in the world.

A successful Sport Management student will demonstrate basic knowledge and understanding of fundamental principles requisite for professional success in the sport management profession, communicate professionally, and effectively select and engage technologies appropriate for use in the sport industry.

General Education Recommendations

It will be to the advantage of Sport Management majors to take the following courses to fulfill some of the General Education requirements:

- MATH 1560 Introduction to Statistics (Quantitative Literacy Category)
- ECON 2000 Introduction to Economic Principles (Citizenship Category)

For additional course options and descriptions, please see the *General Education* section of the catalog.

The mission of Teacher Education is to prepare highly qualified, entry-level professional educators who model Christian faith and service, academic and

technical competence, and appreciation of diverse abilities and cultures in school, in community, and other professional settings.

Conceptual Framework

Faculty members in the School of Education find that constructivism, reflective practice, and critical perspective merge to inform the conceptual framework. We find value in constructivism because we believe that students should and do create their own knowledge by connecting new information with prior knowledge. Such knowledge is created through active inquiry, discussion, and collaboration with others. In this setting, the teacher is a facilitator, not the dispenser of knowledge.

We find value in the reflective teaching model because we believe that the practice of teaching can and should be informed by reflection on practice. In this setting, the teacher becomes a life-long learner, one who is continuously analyzing reasons for success and disappointments so that future practice can be improved.

We find value in employing a critical perspective. We believe that teachers can only serve as advocates for students if they have been exposed to the social and political facets of those lives. In this setting, the teacher strives to combat the effects of inequality in the lives of students.

Teacher Education Program - Educator Preparation Programs

The programs offered by the School of Education are designed to prepare qualified candidates for careers in the teaching profession. Programs for specific areas of licensure have been approved by the Tennessee State Board of Education. All students interested in pursuing teacher licensure must apply for admission into the Teacher Education Program. Tennessee licensure is not guaranteed by admission to the program. Licensure in Virginia or other states may require additional academic work or testing.

Programs of study are subject to change in response to revisions of state and federal teacher licensure and program approval guidelines. Tennessee licensure requirements in effect at the time of submission of the application for a teaching license must be satisfied. Current state licensure requirements must be met regardless of date of admission into the Teacher Education Program.

The following undergraduate academic majors, when accompanied by a minor in Secondary Education, can lead to Tennessee licensure in grades 6-12: Biology, Chemistry, English, History, Mathematics, Physics, and Spanish. The following academic majors, when accompanied by a minor in K-12 Education, can lead to Tennessee licensure in grades K-12: Music Education General/ Vocal, Music Education Instrumental, and Exercise Science (Physical Education K-12).

Post baccalaureate initial licensure and additional endorsement programs are available in all the above licensure areas. An endorsement in English as a Second Language (ESL), PreK-12, may be added to any other license by completing a 12-credit hour program of study, submission of applicable passing Praxis II scores, and a supervised practicum. King University also offers a M.Ed. in Curriculum and Instruction for students seeking initial licensure.

Professional Dispositions

The following nine values and commitments are embodied in our program. They summarize the professional dispositions we expect our candidates to demonstrate:

- Integrity. We envision teaching as a profession where practitioners demonstrate integrity. We define integrity as the adherence to a moral code that includes a positive attitude, dependability, honesty, and respect for others.
- 2. <u>Responsibility</u>. We envision teaching as a profession where practitioners demonstrate responsibility. We define responsibility as a composite of characteristics that include reliability, trustworthiness, and accountability.
- 3. <u>Self-efficacy</u>. We envision teaching as a profession where practitioners exhibit the quality of self-efficacy. We define self-efficacy as a proactive belief that the teacher is capable, knowledgeable, intelligent, and resourceful and has the capacity to benefit student learning and development.
- 4. <u>Open-mindedness</u>. We envision teaching as a profession where practitioners demonstrate

- open-mindedness. We define openmindedness as the capacity to listen thoughtfully and responsively to the ideas and perspectives of others and to possess the capacity to be challenged and informed by the beliefs of others.
- 5. <u>Reflexivity</u>. We envision teaching as a profession where practitioners employ reflexivity. We define reflexivity as the willingness and capacity to reflect upon one's practice for the purpose of improvement.
- 6. <u>Collaboration</u>. We envision teaching as a profession where practitioners value collaboration. We define collaboration as the willingness and ability to purposefully interact with supervisors, colleagues, parents, community agencies, and others to accomplish common goals.
- 7. <u>Flexibility</u>. We envision teaching as a profession where practitioners demonstrate flexibility. We define flexibility as adaptability.
- 8. <u>Caring</u>. We envision teaching as a profession where practitioners demonstrate caring. We define caring as the act of concern about and for those with whom we develop relationships by affirming and encouraging the best in them.
- 9. <u>Social Justice</u>. We envision teaching as a profession where practitioners engage in efforts that promote social justice. Social justice is defined as the recognition of injustices and obstacles that affect all people, and the desire to lessen the effects to provide equitable opportunities for all students to learn and develop.

Professional Portfolio

Teacher candidates in undergraduate teacher education programs will develop, complete, and submit electronic program portfolios based upon *InTASC Model Core Teaching Standards* and the School of Education Learning Outcomes. Each candidate is expected to collect and to organize evidence of growth and development. An essential component of program completion will be final portfolio development and presentation.

Admissions Process for Undergraduate Teacher Education Programs

The admissions process for the undergraduate Teacher Education Program should be completed by the end of the sophomore year, in conjunction with completion of EDUC 2030/2031 Introduction to Teaching and the field experience Transfer students may take EDUC 2800 Fundamentals of Pedagogy which also contains field experience. Applications for admission are submitted during the EDUC 2030 or EDUC 2800. Completed applications, with all required attachments, are reviewed once each semester. To be eligible for formal admission, the applicant must:

- Enroll in and successfully complete EDUC 2030/2031 or EDUC 2800.
- 2. Complete and submit a declaration of major/minor.
- 3. Provide recommendations from three individuals (e.g. professors, employers).
- 4. Submit a preliminary program portfolio documenting emerging teacher candidate competencies.
- 5. Achieve a minimum passing score on an expository writing exercise.
- 6. Submit a professional resume.
- 7. Complete a state-required background check through King Security.
- 8. Achieve Tennessee minimum scores on the Praxis Core Academic Skills for Educators tests: Reading, Writing, and Mathematics. Applicants with state mandated ACT composite scores or SAT math/verbal scores are exempt.
- 9. Attain a King cumulative GPA of at least 3.0, with no grade below C in the major including required General Education courses for the major, and no grade below C in the minor. Post-baccalaureate students must complete all coursework with no grade below C.
- 10. Complete and submit the application for Admission into the Teacher Education Program.
- 11. Complete a successful interview with the Teacher Education Committee (TEC).

Once a student has been admitted to the Teacher Education program, he or she must continue to meet

and maintain eligibility requirements (e.g., GPA, Electronic Portfolio, Background Check). Enrollment in professional education courses (numbered EDUC 3000 and higher) is contingent upon admission to and continued good standing in the Teacher Education Program. When a change in status occurs, causing a deficiency in one or more of the teacher education eligibility requirements, a student may prepare a written appeal which describes a timeline and plan to remediate the deficiency(s) and submit this appeal to the Teacher Education Committee for approval.

Students who withdraw or separate from King also withdraw from the Teacher Education Program. Readmission is considered on an individual basis, and students seeking readmission must follow requirements outlined in the current academic catalog. See the Program Coordinator for Teacher Education for additional information.

NOTE: Candidates who fail to pass any required subtest(s) of the Praxis Core Academic Skills for Educators may retake such subtests as often as such tests are administered. Candidates retaking any of the subtests must attain cut off scores in effect at the retesting time.

Approval for Professional Clinical Experience

Students pursuing initial teacher licensure in the undergraduate program will complete a professional clinical experience. During the clinical experience (student teaching or practicum), teacher candidates follow the calendar of the partner public school rather than the King academic calendar. Candidates will spend a **full semester** (minimum of 15 weeks) in relevant full-day teaching experiences. The student teaching semester will begin when teachers report for duty in the assigned school and will end one day after the last scheduled King final examination day in December or May. At the graduate level, embedded candidates will spend two full semesters as a university-supervised teacher of record.

The goal for each teacher candidate will be to participate in as much full-time experience as is possible during this time frame. Contingencies such as weather, emergencies, and illness may require that the mandatory scheduled clinical experience days be completed after graduation for successful completion of the licensure requirements. All missed days must be made up under the direction of the Program Coordinator for Teacher Education. Outside employment during clinical experience is strongly discouraged; prior written permission is required from the Program Coordinator of Teacher Education. Simultaneous enrollment in course work other than the corequisite Senior Capstone Seminar is prohibited.

Completed applications with all required attachments are reviewed once each semester. The Program Coordinator of Teacher Education must approve applications for professional clinical experience before candidate placements can be requested. To be eligible for clinical experience, the candidate must:

- Submit a completed electronic and/or print application for approval for clinical experience (with attachments).
- 2. Provide evidence of CPR and First Aid certification and proof of teacher liability insurance (documented to be in force through the entire clinical experience).
- 3. Complete all coursework with no grade below C in the major including required General Education courses for the major, and no grade below C in the minor. Post-baccalaureate students must complete all coursework with no grade below C.
- 4. Attain a King cumulative GPA of at least 3.0.
- 5. Attain passing scores on required Praxis II subject assessments and specialty area examinations for each endorsement.

Summative Assessment and Program Completion for Students Seeking Initial Licensure in the Undergraduate Program

All students seeking initial licensure must complete all Praxis II exams prior to the professional and clinical experience. Successful completion of the clinical experience, successful completion and presentation of a performance-based program portfolio, successful completion of the EDTPA assessment, and formal application for Tennessee licensure are also required for successful completion of the Capstone Seminar. Successfully completing teacher education program requirements at King University leads to a teaching license in Tennessee.

To be licensed in another state may require additional requirements that vary by state.

If a candidate earns a grade below C in clinical experience, invalidating recommendation for licensure, the student may re-apply for clinical experience with the permission of the Program Coordinator of Teacher Education and the approval of the Teacher Education Committee. Partnering school systems reserve the right to request removal of teacher candidates from clinical experience when the candidate's performance negatively affects the learning experience of the students in the assigned placement. In this event, the teacher candidate may reapply for student teaching following the established guidelines.

THEATRE, BA TRADITIONAL PROGRAM COORDINATOR: C. SLAUGHTER

The mission of the theatre program is to develop creative abilities and an understanding of the human experience through engaging in the transformative process of theatre. Our vision is to thrive as a preprofessional comprehensive theatre training program that engages our students and community members in theatrical art that encourages reflection, action, and stewardship in our community.

We seek to develop theatre artists who demonstrate competency in multiple areas such as theatre studies, performance, production, and theatre technology; who are sensitive to their personal calling and create theatre that shares this calling with their communities; who engage in reflection and evaluation of the human experience; and who are familiar with the realities of theatre as a business and can function within that reality. We seek to create productions which address questions of the human condition and encourage our students and community members to engage in reflection, action, and stewardship, and which explore a variety of theatrical styles and genres.

The theatre program strongly encourages student participation in national conferences and festivals and prepares students for internships with professional arts organizations. The program frequently hosts guest artists on campus for performances and workshops with students. Theatre students are prepared to pursue careers in performance, directing, design, management, theatre studies, and theatre technology, and to pursue graduate studies in theatre.

Participation in Productions

Participation in theatrical productions is open to all students, regardless of major, as well as to community members. Auditions and crew assignments are held at the beginning of the fall and spring semesters. Qualified majors or minors may earn the opportunity to direct, design, present a solo performance, or have an original play produced. Theatre majors and minors are required to participate in multiple areas of theatre production each semester.

Satisfying this requirement is achieved through completing cast assignments, crew assignments, and assigned class work on productions. Theatre majors and minors are required to register for the appropriate Theatre Practicum course for all productions unless they are granted an exemption from the Program Coordinator. Four semester hours (s.h.) of Theatre Practicum are required for the major. Students who are placed on academic probation at the beginning of a semester may not be cast in large roles or hold a major crew position in a production for that semester. Theatre majors and minors should consult the department before appearing in any production outside of the department.

Internship/Capstone Project

All Theatre majors are required to satisfactorily complete either a professional internship for 2 s.h. or a capstone project in a chosen area for 2 s.h. Students must register for either THTR 3800 for internship/cooperative education or THTR 4910 for capstone. Students are expected to research their own internship possibilities, receive approval from the Program Coordinator for the internships, and follow procedures for applying for the internships. Students must also register their internship through the Career Services Office.

For capstone projects, students must propose the project to the Theatre faculty and receive approval the semester before the project will commence.

Capstone projects include, but are not limited to, directing a production, designing for a production, writing a play, a solo performance, a major role in a production, a research paper, or dramaturgy for a production.

YOUTH MINISTRY MINOR

TRADITIONAL

PROGRAM COORDINATOR: G. SANDERS (INTERIM)

The minor in Youth Ministry provides students interested in impacting the lives of the next generation with theory and skills necessary to maximize this desire. The Youth Ministry minor can be a beneficial aspect of any academic discipline but is particularly well paired with other programs of service, including Psychology, Religious Studies, and Social Work.

The minor includes both theoretical insight and practical experiences to fully equip students for future work with young people in a diverse array of contexts.

MASTER OF BUSINESS ADMINISTRATION FOR PROFESSIONALS, PMBA ADULT AND GRADUATE STUDIES PROGRAM COORDINATOR: X. POLK

The primary goal of the Master of Business Administration for Professionals program at King is to prepare students to be effective strategic leaders and managers. The goal is to assist students to directly integrate management research, theoretical constructs, skills, abilities, and ethical practices within their own contemporary professional situations. The primary emphasis of the PMBA program at King is directed towards *managing for quality results*. The PMBA curriculum adopts and implements three creative components: a team-based learning model, a fully integrated curriculum, and a transformational learning experience for personal and professional skill development.

The MBA for Professionals program at King serves adults who have completed their bachelor's degree and who normally possess at least two full years of significant work experience. This enables the student to bring real world examples to the classroom and learn from other working professionals as well.

The PMBA program furthers the mission of King University to prepare students in our Christian academic community to excel as thoughtful, resourceful, and responsible citizens with a passion for serving God, the Church, and the world. We prepare our students to excel in business in a principled manner while recognizing personal and professional responsibilities.

Required Hours

The PMBA program is a 36-hour program. Students take one course at a time for five weeks and meet one night per week for a four-hour session. The program is approximately 16 months in duration.

Graduate Management Admission Test (GMAT) The PMBA Program at King does not require the GMAT.

PMBA Application Packet Requirements

For specific graduate program application packet requirements, please visit Application Packet Requirements for Graduate Programs located within the Admissions Policies section of the catalog.

Transfer Credit

Up to six graduate credits with a grade of B or higher from regionally accredited colleges or universities may be accepted in transfer toward meeting the requirements of the program.

Graduate Student Academic Load

The MBA for Professionals Program is four 15-week semesters. Students will be enrolled in at least nine semester hours of courses each semester. The first semester will start one of three times per year—January, May, and August. The other semesters will follow immediately; there is no summer vacation. However, there are short breaks for major holidays. Graduate students need to openly discuss this program and its demands with both their families and their employers. This is an intensive 16-month program with many demands and requirements. Periodic breaks are purposely built in to allow time for reflection and rejuvenation; however, graduate students will need the support and encouragement of family and employers.

Academic Policies

All graduate students are subject to the Academic Policies of King University.

Repeat Coursework

Students pursuing the Professional MBA program are restricted to receiving no more than two grades below C+. Any course in which a grade of C- or below is earned must be retaken. Students are permitted to repeat a course twice (for a total of three attempts). Students will be dismissed from the program after three failed attempts to earn a grade of C or above.

Technology Requirements

Students in the PMBA program are required to supply their own laptop computer (PC or Mac), with fully functional Microsoft Office 2016 or newer,

wireless capability, and webcam. Microsoft Office 365 is available to all King students to load on the PC or Mac and is accessible at Office.com using their King University credentials. Tablets or other devices without fully functional Microsoft Office 2016 or newer do not satisfy this requirement.

PMBA for Professionals Program Requirements

To earn a Master of Business Administration (MBA) degree, each graduate student must:

- 1. Satisfy all prerequisites.
 - a. All PMBA students must complete approved undergraduate courses in the following areas:
 - i. Financial Accounting
 - ii. Statistics
 - iii. Economics
 - iv. Marketing
 - v. Finance
 - Typically, students with an undergraduate degree from an accredited institution with a degree in Business Administration and Economics will meet these requirements.
 - c. Students who do not meet the above course requirements will be enrolled in Business Principles seminars as a necessary part of the PMBA curriculum that must be completed prior to the start of the corresponding course in the PMBA program.
- 2. Complete 36 semester hours of graduate-level coursework. PMBA students may transfer up to 6 s.h. with King approval.
- 3. Pass the Peregrine Comprehensive Examination (BUSA 5990, 0 s.h.) during the last semester of coursework.
- 4. Have a cumulative grade point average of 3.0 (4.0 scale) or above and receive no more than two grades below a C+. Additionally, any course in which a grade of C or below is earned must be retaken.
- 5. Pay all fees and tuition charges.

Concentrations

Students will choose one of three concentrations: Healthcare Administration, Management, or Project Management. The University reserves the right to cancel or discontinue any concentration because of low enrollment or for other reasons deemed necessary.

MASTER OF BUSINESS ADMINISTRATION FOR PROFESSIONALS, TMBA TRADITIONAL PROGRAM COORDINATOR: S. OLENICH

The primary goal of the traditional MBA program is to prepare students to be effective strategic leaders and managers. The program provides a solid foundation in core business areas such as accounting, finance, economics, statistics, marketing, strategy, and international business. To develop further knowledge, students also select a three-course concentration in a chosen field that is fulfilled through online learning. Students may also participate in a variety of experiential opportunities. Finally, the program is supported by King University's Career Service to assist with internship placement, networking, and the full-time job search.

The TMBA program furthers the mission of King University to prepare students in our Christian academic community to excel as thoughtful, resourceful, and responsible citizens with a passion for serving God, the Church, and the world. We

prepare our students to excel in business in a principled manner while recognizing personal and professional responsibilities.

Required Hours

The traditional MBA program at King is a 38-hour, full-time, 12-month program that includes 36 semester hours of graduate-level coursework and a two-hour internship.

The traditional MBA program requires a student's full-time commitment to academics and teamwork. Students are admitted only in the Fall of each year.

Graduate Management Admission Test (GMAT)
The MBA Program at King does not require GMAT scores.

TMBA Application Packet Requirements

For specific graduate program application packet requirements, please visit Application Packet Requirements for Graduate Programs located within the Admissions Policies section of the catalog.

Transfer Credit

Up to six graduate credits with a grade of B or higher from regionally accredited colleges or universities may be accepted in transfer toward meeting the elective requirements of the program.

Graduate Student Academic Load

Classes meet on Tuesday and Thursday during the Fall and Spring semesters. Wednesday morning is dedicated to mandatory events such as community service, team building activities, special projects, career workshops, guest speakers, and corporate visits. Otherwise Wednesday morning is used for team meetings. Students will take 12 semester credit hours during the Fall, Spring, and Summer semesters. Two semester hours of internship may be completed in the Fall or Spring semester.

Academic Policies

All graduate students are subject to the Academic Policies of King University.

Repeat Coursework

Students pursuing the Traditional MBA program are restricted to receiving no more than two grades below C+. Any course in which a grade of C- or below is earned must be retaken. Students are permitted to repeat a course twice (for a total of three attempts). Students will be dismissed from the program after three failed attempts to earn a grade of C or above.

Technology Requirements

Students in the TMBA program are required to supply their own laptop computer (PC or Mac), with fully functional Microsoft Office 2016 or newer, wireless capability, and webcam. Microsoft Office 365 is available to all King students to load on the PC or Mac and is accessible at Office.com using their King University credentials. Tablets or other devices without fully functional Microsoft Office 2016 or newer do not satisfy this requirement.

Traditional MBA Program Requirements

To earn a traditional Master of Business Administration (MBA) degree, each graduate student must:

- 1. Complete 38 semester hours of graduate-level coursework including a two-hour internship.
- 2. Pass the Peregrine Comprehensive Examination (BUSA 5990, 0 s.h.).
- 3. Have a cumulative grade point average of 3.0 (4.0 scale) or above and receive no more than two grades below a C+. Additionally, any course in which a grade of C- or below is earned must be retaken.
- 4. Attend scheduled classes, individual corporate practicum, business development and experience events and trips, and team-building activities.
- 5. Pay all fees and tuition charges.

Concentrations

Students will choose one of three concentrations: Healthcare Administration, Management, or Project Management. Concentrations require three classes to complete and are taken during the Summer term in addition to the face-to-face courses. Concentration courses are provided online and are delivered in a five-week format. The University reserves the right to cancel or discontinue any concentration because of low enrollment or for other reasons deemed necessary.

Business Internship

Students are required to complete a two-hour internship during the Fall and/or Spring semester. Monday, Wednesday, and Friday afternoons are available for students to complete this business internship experience. King University Career Services works closely with businesses in the area to provide unique internship opportunities to interested students. Internship requirements to be fulfilled by graduate assistantships must be approved in advance by the TMBA program coordinator.

Business Development and Networking Experience

Required business trips are organized during the school year so that students may participate in networking events, Chamber of Commerce Breakfast meetings, conferences, and corporate visits. Tuition will cover transportation, lodging, and a limited number of meals for business trips outside of the local region.

Graduation

Students who have fulfilled all Traditional MBA Program requirements listed below will graduate in August.

MASTER OF EDUCATION, M.ED. CURRICULUM AND INSTRUCTION ADULT AND GRADUATE STUDIES PROGRAM COORDINATOR: S. SANDERS

King University offers a master's-level program in education for students seeking initial licensure. The Master of Education (M.Ed.) in Curriculum and Instruction is offered on both the Bristol and Hardin Valley King University campuses. Students seeking initial licensure may apply online for the M.Ed. in Curriculum and Instruction.

The Master of Education in Curriculum and Instruction assists students in developing specialized knowledge, skills, and dispositions which characterize excellent teachers.

The program is designed for students seeking initial licensure in Elementary Education (K-5) and in Secondary Education (6-12), Music K-12 (Vocal and Instrumental), as well as Physical Education K-12. All M.Ed. applicants must meet with the Program Coordinator of the M.Ed. to discuss licensure options and areas of teaching interest. At this meeting, the applicant and the Program Coordinator will discuss all prior undergraduate and graduate course work to determine if additional content course work beyond the M.Ed. program is required.

Students complete 36 semester hours of course work over 16 months. A full semester of student teaching follows. To progress in the program, students must maintain a minimum cumulative GPA of 3.0. A grade of C or higher is required of all M.Ed. courses and courses taken in the content licensure area. However, only two Cs may be earned in M.Ed. courses throughout the program. M.Ed. courses in

which Cs are earned may be retaken. The final semester of coursework includes an Action Research project.

Students seeking teacher licensure complete a full semester of student teaching after all the M.Ed. coursework, all content coursework, and all Tennessee mandated Praxis II exams are taken and passed. Liability insurance is required for all school-based observations and clinical experience. Applications to student teach are completed in the semester prior to student teaching. The M.Ed. degree will be conferred following successful completion of the professional clinical experience and program completion requirements.

M.Ed. Application Packet Requirements

For specific graduate program application packet requirements, please visit Application Packet Requirements for Graduate Programs located within the Admissions Policies section of the catalog.

Incompletes

Students in the M.Ed. program may request no more than one incomplete grade in graduate course work. Students must request an Incomplete by emailing the professor of the course.

Background Check

A one-time fee is charged to each student enrolled in the M.Ed. to complete a required fingerprinting and background check.

Technology Requirements

Laptop computer, with minimum of Microsoft Office 2010 or later, wireless capability, and webcam required.

MASTER OF EDUCATION, M.ED. CURRICULUM AND INSTRUCTION FOR JOB-EMBEDDED TEACHING CANDIDATES ADULT AND GRADUATE STUDIES PROGRAM COORDINATOR: S. SANDERS

King University offers a master's-level program in education for unlicensed candidates who are hired as the teacher of record in school system. The Master of Education (M.Ed.) in Curriculum and Instruction is offered on both the Bristol and Hardin Valley King University campuses. Students seeking initial licensure may apply online for the M.Ed. in Curriculum and Instruction.

The Master of Education in Curriculum and Instruction assists students in developing specialized knowledge, skills, and dispositions which characterize excellent teachers.

The program is designed for students seeking initial licensure in Elementary Education (K-5) and in Secondary Education (6-12), Music K-12 (Vocal and Instrumental), as well as Physical Education K-12.

Students will complete 36 semester hours of course work while they are working as a teacher of record. To maintain status in the program, students must maintain a minimum cumulative GPA of 3.0. A grade of C or higher is required of all M.Ed. courses and courses taken in the content licensure area. However, only two Cs may be earned in M.Ed. courses throughout the program. M.Ed. courses in which Cs are earned may be retaken. The final semester of coursework includes an Action Research project.

Candidates in an embedded teaching position are granted a 3-year Tennessee Practitioner's License. They will enroll in EDUC 4700 Clinical Teaching Practicum for two consecutive semesters. The M.Ed. degree will be conferred following successful completion of the professional clinical experience, program completion requirements and all state mandated assessments for licensure.

MASTER OF HEALTHCARE ADMINISTRATION, MHA ADULT AND GRADUATE STUDIES PROGRAM COORDINATOR: S. MCRAE

The mission of King University's Master of Healthcare Administration is to prepare high-performing healthcare leaders who possess the knowledge and skills necessary to successfully navigate the complex and ever-changing healthcare industry as members of upper-level management. In addition to respect for patient and colleague diversity, graduates of this program will demonstrate integrity, compassion, ambition, and generosity.

Goals of King MHA Program

- Prepares graduates to effectively communicate within healthcare organizations to develop collaborative and professional relationships with all stakeholders.
- 2. Instill essential ethical behavior in its graduates so they may perform in a complex, highly regulated healthcare environment.
- 3. Ensure that students explore health care issues, trends, and perspectives that impact diverse populations to decrease healthcare disparities created by inequality.
- 4. Equip graduates with the necessary management and leadership skills to effectively lead a diverse

- workforce and develop productive teams required of successful healthcare organizations.
- Provide course work that includes business, financial, and quality improvement principles empowering graduates to produce outcomes characteristic of high-performing healthcare organizations.

Required Hours

The MHA degree consists of 30 semester hours. Students take 2 courses at a time. This program is offered entirely online and can be completed in 12 months.

Graduate Management Admission Test (GMAT) The MHA Program at King does not require the GMAT.

MHA Application Packet Requirements

For specific graduate program application packet requirements, please visit Application Packet Requirements for Graduate Programs located within the Admissions Policies section of the catalog.

Transfer Credit

Up to six graduate credits with a grade of B or higher from regionally accredited colleges or universities may be accepted in transfer toward meeting the requirements of the program.

Graduate Student Academic Load

The MHA program consists of three semesters with a total of 30 semester hours. Students will be enrolled in at least nine semester hours of courses each semester. The first semester will start one of three times per year – January, May, and August. The other two semesters will follow immediately, including summer semester. The MHA program takes a total of 12 months to complete. There are short breaks for major holidays and periodic breaks are purposely built in to allow time for reflection and rejuvenation; however, graduate students will need the support and encouragement of family and employers.

Academic Policies

All graduate students are subject to the Academic Policies of King University.

Repeat Coursework

Students pursuing the MHA degree are restricted to receiving no more than two grades below C+. Any course in which a grade of C- or below is earned must be retaken. Students are permitted to repeat a course twice (for a total of three attempts). Students will be dismissed from the program after three failed attempts to earn a grade of C or above.

Technology Requirements

Students in the MHA program are required to supply their own laptop computer (PC or Mac), with fully functional Microsoft Office 2016 or newer, wireless capability, and webcam. Microsoft Office 365 is available to all King students to load on the PC or Mac and is accessible at Office.com using their King University credentials. MASTER OF SCIENCE IN NURSING, MSN ADULT AND GRADUATE STUDIES PROGRAM COORDINATOR: S. ADAMS

The Master of Science in Nursing degree (MSN) at King is designed to prepare professional nurses for specialty roles in advanced professional nursing.

Specialty concentrations currently available at King are: Master of Science in Nurse Leadership and Administration (NLA), Family Nurse Practitioner (FNP), Pediatric Nurse Practitioner (PNP), and Psychiatric Mental Health Nurse Practitioner (PMHNP). The coursework for all MSN concentrations is consistent with the American Association of Colleges of Nursing Essentials of Master's Education in Nursing guidelines and are based on educational philosophies, theories and trends, adult learning principles, and curriculum and instructional design theories. The APRN plans of study are consistent with the Criteria for Evaluation of Nurse Practitioner Programs National Task Force on Quality Nurse Practitioner Education and the National Organization of Nurse Practitioner Faculties (NONPF) guidelines to prepare students to meet entry-level competencies for Nurse Practitioner practice, and to write for national certification.

The graduate nursing curriculum consists of courses in three areas of study:

- 1. The advanced practice nursing core (required of all students)
- 2. The advanced practice direct patient care core (required of APRN students)
- 3. The advanced practice functional area content: clinical and didactic experiences.

Although there are 15 semester hours (s.h.) of *core* courses required of all MSN students, each MSN specialty concentration has different course requirements, clinical/practicum requirements, and curricular variations. To meet the requirements for a desired concentration, students and their advisors will formulate a concentration-specific plan of study. All clinical hours require direct supervision by a clinical preceptor with faculty oversight, approved by the course instructor.

The Master of Science in Nursing curriculum in all concentrations is inclusive of theoretical concepts from sciences and humanities, organizational and leadership theories, quality improvement frameworks, informatics, and advanced-level nursing skills development.

The mission of King University, to prepare students in our Christian academic community to excel as thoughtful, resourceful, and responsible citizens with a passion for serving God, the Church, and the world, is upheld in the Master of Science in Nursing Program. The program is designed to advance nursing practice in a Christian environment with academic rigor, while preparing professionals who are resourceful, accountable, and with a passion for serving God, community, and society.

MSN Application Packet Criteria

For specific graduate program application packet requirements, please visit Application Packet Requirements for Graduate Programs located within the Admissions Policies section of the catalog.

Mandatory Fees

- Background Check and Urine Drug Screen
 The clinical agencies utilized by King require
 all students meet standards relating to
 - all students meet standards relating to criminal background. Students must clear a criminal background check and urine drug screen before admission to the clinical settings utilized by King. Failure to undergo the background check or urine drug screen will result in dismissal from the nursing program. All background checks must be completed through the King Security Department and all urine drug screens must be completed through the clinical documentation management system. Students are responsible for all fees associated for background checks and urine drug screening.
- Professional Liability Insurance

King University has a professional liability insurance policy that covers all nursing students while enrolled in a King University nursing program. The cost to the student is charged upon enrollment into the program. The insurance covers the student only for

activities directly related to King University. It does not cover an accidental injury to the student that may occur before, during, or after classroom activities. The policy also does not cover the registered nurse or the nursing student while working at their employment setting. Students may carry additional liability insurance at their own expense, but this will not replace the coverage purchased through the University. The fees are included in the student fees.

 A full listing of all program fees can be found in the Financial Information>Additional and Part-time fees section of the Catalog.

Comprehensive Competency Assessment (NURS 5990)

All degree candidates are required to demonstrate competency in their major field of study. For the MSN program, graduates must complete a final competency portfolio, which encompasses the core knowledge and skills outlined in the AACN Essentials document and serves as demonstration of the MSN student's mastery of the required competencies. These Essentials are core for all master's programs in nursing, and delineate the outcomes expected of all graduates of master's nursing programs. The final competency portfolio is guided by and evaluated against a rubric. Students are required to pass according to the minimum requirement of the School of Nursing.

Time to Completion/Graduation Standard

Students in the MSN program must complete all degree requirements within six (6) years from time of entry or first enrollment semester as a degree student. No additional time is given to students electing a Leave of Absence.

GPA and Grade Requirements in the MSN Program

All MSN and post-master's certificate students must maintain a cumulative GPA of 3.0 or better throughout the program of study.

The grade point average will only reflect grades received in course work completed at King University.

If a student's cumulative GPA falls below a 3.0, the student may be placed on Academic Probation for one semester to improve the cumulative GPA to at least 3.0. If, after the semester of Academic Probation, the cumulative GPA is not at least 3.0 the student will be dismissed from the program.

If more than two grades of 2.3 (C+) or lower are earned, even if the student maintains a 3.0 GPA, the student will be dismissed from the program.

A grade of C+ or lower is a failing grade for master's level clinical/practicum courses. A failed course must be repeated; a student is only allowed to repeat ONE course during the MSN program.

MASTER OF SCIENCE IN NURSING, MSN FAMILY NURSE PRACTITIONER CONCENTRATION

ADULT AND GRADUATE STUDIES, BLENDED PROGRAM COORDINATOR: S. LOVE

This Master of Science in Nursing program with the concentration of Family Nurse Practitioner is a five-semester course of study that builds on and expands baccalaureate nursing knowledge with preparation for advanced practice roles specializing in primary care. The focus is advanced theoretical knowledge and practice skills needed to function in increasingly complex care settings. Emphasis is placed on evidence-based practice, outcomes management, clinical research, and advanced clinical decision-making.

Graduates are prepared to assume the role of advanced practice nurse in primary care across the human lifespan. At completion of the FNP course of study, graduates are eligible to take the national certifying examination and may apply for an advanced practice nurse license as appropriate in their legal state of practice.

Clinical Requirements

A minimum of 600 clinical practicum hours are required for the advanced practice role as a family nurse practitioner. Students are responsible for their own transportation to and from clinical sites. Students will gain experience in primary care across the lifespan within settings focusing on Pediatrics,

Women's Health, and Care of Geriatric and Adult Populations.

These clinical experiences are accomplished under the guidance of a faculty member and a communitybased faculty approved preceptor.

The graduate nursing curriculum consists of courses in three areas of study:

- 1. The advanced practice nursing core (required of all students)
- 2. The advanced practice direct patient care core
- 3. The advanced practice functional area content: clinical and didactic experiences.

MSN Core Requirements

NURS 5000

Those interested in the Family Nurse Practitioner (FNP) program are advised to review the specific state board of nursing where licensure will be obtained. Those wishing to license outside of the states of Tennessee or Virginia should contact the State Board of Nursing in the specific state to confirm the program meets licensure requirements. You may contact the MSN Program Coordinator for additional questions or assistance.

MASTER OF SCIENCE IN NURSING, MSN PEDIATRIC NURSE PRACTITIONER CONCENTRATION ADULT AND GRADUATE STUDIES, ONLINE

PROGRAM COORDINATOR: P. NEAL

The Master of Science in Nursing with a concentration in Pediatric Nurse Practitioner is a five-semester course of study that builds on and expands baccalaureate nursing knowledge with preparation for advanced practice roles specializing in pediatric primary care. The focus is advanced theoretical knowledge and practice skills needed to function in increasingly complex care settings. Emphasis is placed on evidence-based practice, outcomes management, clinical research, and advanced clinical decision-making.

Graduates are prepared to assume the role of advanced practice nurse in pediatric primary care from birth through adolescence. At completion of the PNP course of study, graduates are eligible to take the national certifying examination and may apply for an advanced practice nurse license, as appropriate in their legal state of practice.

The program is delivered in an online format with low-residency, mandatory two-day intensives each semester.

Clinical Requirements

A minimum of 600 clinical practicum hours are required for the advanced practice role as a pediatric

nurse practitioner. Students are responsible for their own transportation to and from clinical sites. Students will gain experience in pediatric primary care within settings focusing on Pediatrics and Women's Health.

These clinical experiences are accomplished under the guidance of a faculty member and a communitybased faculty approved preceptor.

The graduate nursing curriculum consists of courses in three areas of study:

- 1. The advanced practice nursing core (required of all students)
- 2. The advanced practice direct patient care core
- 3. The advanced practice functional area content: clinical and didactic experiences.

MASTER OF SCIENCE IN NURSING, MSN PSYCHIATRIC MENTAL HEALTH NURSE PRACTITIONER CONCENTRATION ADULT AND GRADUATE STUDIES, BLENDED PROGRAM COORDINATOR: A. MOORE

This Master of Science in Nursing program with the concentration of Psychiatric Mental Health Nurse Practitioner (PMHNP) is a five-semester course of study that builds on and expands baccalaureate nursing knowledge with preparation for advanced practice roles specializing in primary mental health care. The focus is advanced theoretical knowledge and practice skills needed to function in increasingly complex care settings. Emphasis is placed on evidence-based practice, outcomes management, clinical research, and advanced clinical decision-making.

Graduates are prepared to assume the role of advanced practice nurse in mental healthcare settings treating patients and populations across the human lifespan. At completion of the PMHNP course of study, graduates are eligible to take the national

certifying examination and may apply for an advanced practice nurse license as appropriate in their legal state of practice.

Clinical Requirements

A minimum of 600 clinical practicum hours are required for the advanced practice role as a psychiatric mental health nurse practitioner. Students will gain experience in mental health disorders, psychopharmacology, and psychotherapies across the lifespan within a variety of settings. Students are responsible for their own transportation to and from clinical sites. These clinical experiences are accomplished under the guidance of a faculty member and a community-based faculty approved preceptor.

The graduate nursing curriculum consists of courses in three areas of study:

- 1. The advanced practice nursing core (required of all students)
- 2. The advanced practice direct patient care core
- 3. The advanced practice functional area content: clinical and didactic experiences.

MASTER OF SCIENCE IN NURSING, MSN NURSE LEADERSHIP AND ADMINISTRATION CONCENTRATION ADULT AND GRADUATE STUDIES, ONLINE PROGRAM COORDINATOR: S. MCRAE

This concentration focuses on the application of specialized knowledge and skills in nursing leadership and administration, to prepare the graduate to be successful in mid-level and upper-level management positions. It is offered in a part-time format over five semesters, with courses offered in an online format.

Concepts and theories related to financial and economic aspects of health care, health care policy, nursing delivery systems, human resource management, quality improvement, and organizational leadership are applied, with an emphasis on the interpersonal and transformational attributes of the nurse leader. Selected clinical, administrative and research experiences provide students with the opportunity to function as a nurse leader in various positions, including preparation to be a nurse executive.

Clinical Requirements: A minimum of 540 clinical practicum hours are required for the nurse leader administration concentration. Students will be provided with opportunities to participate in all phases of the executive role in an acute care delivery system and community-based systems settings under the guidance of a preceptor. Students are responsible for their own transportation to and from clinical sites.

MASTER OF SOCIAL WORK ADULT AND GRADUATE STUDIES PROGRAM COORDINATOR: C. ROSENBOHM

King MSW Mission Statement

The mission of King University's Master of Social Work program is to prepare thoughtful, resourceful, and responsible advanced-level social work practitioners for far-reaching service and leadership. This mission is achieved through a commitment to the values and ethics of the Social Work profession, and a focus on service and justice for vulnerable and oppressed populations in the context of a Christian academic community.

Goals of King MSW Program

The MSW program goals flow directly from its mission. The program:

- 1. Prepares students for generalist and advanced-level social work practice.
- 2. Develops graduates for far-reaching service and leadership who are thoughtful, responsible, and resourceful.
- Integrates social work knowledge, values, and skills in a holistic curriculum within the context of a Christian academic community.
- 4. Promotes service and justice for vulnerable and oppressed populations.
- 5. Instills an attitude of curiosity and critical inquiry for life-long learning.

Program Description

King University's Master of Social Work (MSW) program builds upon the strong foundations of its long-standing and highly successful, Council on

Social Work Education (CSWE)-accredited Bachelor of Social Work (BSW) program.

King University encourages our community of learners – students, faculty, and staff – to think deeply about both western and non-western cultures and to appreciate their values, to join with people from diverse backgrounds in the pursuit of worthwhile goals, to be challenged by suffering and injustice, to understand those who hold different worldviews, and to learn how to participate effectively in the larger civil society.

The primary objective of the MSW program is to prepare students for clinical social work practice. The MSW program prepares students to assist individuals, families and communities, and to advance social change to improve the well-being of vulnerable populations.

The generalist curriculum provides social work knowledge, values and skills in a generalist practice model. The generalist curriculum prepares students to engage, assess, intervene with and evaluate individuals, families, groups, organizations and communities and is distinguished by its use of Motivational Interviewing perspectives and techniques.

The Clinical Advocacy Specialization is designed to prepare social workers for agency-based interpersonal practice in underserved areas on behalf of people with relatively few helping resources available to them. Clinical Advocacy embraces both the provision of existing support to individuals as well as efforts to extend and improve the resources upon which people will draw in the future.

The Advanced Standing option allows candidates with an undergraduate social work degree from a CSWE-accredited program who meets admission requirements to complete a MSW in a shorter amount of time.

Students Interested in Licensure

Licensing of social work practitioners is under the authority of a designated office in each individual state. All 50 states and the District of Columbia require that a social worker sitting for a licensing exam be a graduate of a Council on Social Work

Education (CSWE)-accredited program or a program in candidacy. While the CSWE establishes and maintains national standards for all social work programs, each state reserves the right to establish their own standards for licensure to practice within their state borders. King University cannot confirm whether the Social Work program meets requirements for professional licensure in a particular state. It is the students' responsibility to research and understand the proper licensing requirements for their respective states. A list of the social work regulatory boards for each state is available on the Social Work program page of the King University website.

Accreditation

The Council on Social Work Education (CSWE) is the accrediting body governing social work education in the United States. All 50 states and the District of Columbia require that a social worker sitting for a licensing exam be a graduate of a CSWE-accredited program.

King University's MSW program is currently in "Pre-Candidacy" for accreditation by the Council on Social Work Education's Commission on Accreditation. Pre-Candidacy for a Master of Social Work program by the Council on Social Work Education's Commission on Accreditation indicates that it has submitted an application to be reviewed for Candidacy and had its Benchmark I approved in draft form to move forward with Candidacy review within one year. A program that has attained Pre-Candidacy has not yet been reviewed by the Commission on Accreditation or been verified to be in compliance with the Educational Policy and Accreditation Standards.

Students who enter the program while it is still in Pre-Candidacy will not be recognized as attending a program in Candidacy unless the program attains Candidacy in the academic year in which those students enter. The Candidacy Process is typically a three-year process and there is no guarantee that a program in Pre-Candidacy will eventually attain Candidacy or Initial Accreditation. Students who enter programs that attain Candidacy in or before the academic year in which they begin their program of study will be retroactively recognized as having graduated from a CSWE-accredited program once the

program attains Initial Accreditation. Candidacy by the Council on Social Work Education's Commission on Accreditation applies to all program sites and program delivery methods of an accredited program. Accreditation provides reasonable assurance about the quality of the program and the competence of students graduating from the program.

Practicum Responsibilities for Online Students

- King University operates under NC-SARA guidelines (www.nc-sara.org) for determining physical presence in regards to Supervised Field Experiences for online students (Section 5.3).
- If a student does not intend to sit for the licensing exam then he or she may participate in a practicum in any state or U.S. Territory except CNMI.*
- If a student intends to sit for the licensing exam and is participating in a practicum as part of the licensing requirements in that state, there may be additional requirements from the agency responsible for licensure. It is the student's responsibility to research and understand any additional requirements that may be in effect.

*Any student participating in a practicum in the Commonwealth of Northern Mariana Islands (CNMI) may need to meet additional requirements set by CNMI and it is the student's responsibility to research and understand any additional requirements that may be in effect.

NASW Code of Ethics

All MSW students must adhere to the NASW Code of Ethics found at

https://www.socialworkers.org/About/Ethics/Codeof-Ethics. The Code of Ethics is an essential component of each course in the Master of Social Work. MSW students are expected to follow a set of ethical guidelines that inform practice and professional conduct of Social Workers.

The core values of the Social Work profession are:

- 1.) Services
- 2.) Social Justice
- 3.) Dignity and Worth of the Person
- 4.) Importance of Human Relationships
- 5.) Integrity

6.) Competence

Additionally, Social Work students should possess compassion, strong interpersonal skills, good listening skills, good organizational and timemanagement skills, and good problem-solving skills.

Grade Requirements

Applicants are required to have a minimum cumulative undergraduate GPA of 3.0 on a 4.0 scale. Students whose cumulative GPA falls below 3.0 may be considered on a conditional basis. Applicants accepted on a conditional basis due to a GPA of less than 3.0 are expected to achieve a GPA of 3.0/4.0 by the end of the student's first semester following acceptance into the program. From admission forward, students are required to maintain a minimum cumulative Social Work GPA of 3.0/4.0 to remain in good standing in the MSW program. Students who fail a course (those who earn a grade below a C) must repeat the course. Students who fail two major courses will not be permitted to progress in the program.

MSW Student Handbook

The MSW program has both academic and nonacademic requirements for retention and progression, which are detailed in the MSW Student Handbook.

MSW Admission Requirements

For specific graduate program application packet and admission requirements, please visit *Application Packet Requirements for Graduate Programs* located within the *Admissions Policies* section of the catalog.

Transfer Credit Requests

Upon acceptance to the MSW program, a student wishing to transfer courses from other institutions for credit may request that completed master-level course work be considered for transfer. A maximum of six (6) semester credit hours may be transferred in. To be considered for transfer credit, a course must have been taken for master-level credit and must carry a grade of B or better. Courses considered for transfer credit must be from a CSWE-accredited college or university program. Credit for internship/field/practicum courses and courses graded as pass/fail are not eligible for transfer.

College Level Exam Program (CLEP), life experience, and other similar types of Prior Learning Assessment will not be considered for transfer.

To request transfer credit, the student must submit a Petition for Transfer Credit through their student portal. Students must upload a syllabus for each course under review. The petition and syllabi are reviewed by Master of Social Work program faculty. When authorization of acceptance is given, the Office of Registration and Records will be notified so that the transfer credit can be applied accordingly. The MSW Program does not grant course credit for life experience or previous work experience.

Advanced Standing Students

Students who have earned a BSW degree from a CSWE-accredited institution, preferably within the last five years, and who have demonstrated outstanding scholarship in social work courses and excellence in the field may apply for advanced standing. Special admission procedures and standards apply to advanced standing applicants. (Please refer to the MSW Student Handbook for additional details).

Field Practicum

Field practicum provides students with opportunities to practice and integrate social work knowledge, values, and skills learned in the classroom in the field settings under the guidance and instruction of an experienced social work field instructor. Students may select a field placement from affiliated agencies in consultation with the Director of Field Instruction at the School of Social Work.

Foundational students complete a minimum of 450 cumulative hours for the academic year, whereas Advanced Standing students complete a minimum of 550 cumulative hours for the academic year. (Please consult the MSW Field Education Manual for additional details and requirements for field placement).

nursing practice. The DNP offers an alternative to the

research-focused terminal degree in nursing and prepares professional nurses to assume advanced roles in practice, executive function, quality and safety, informatics, and other positions of leadership in nursing and health care. The DNP student will pursue study based on theoretical frameworks, evidence, practice, research, and application and will develop sophisticated skills in the following highly desired areas:

- Leadership of teams and organizations
- Strategic planning and resource utilization
- Critical evaluation and application of current research and best practice
- Team building and inter-professional collaboration
- Measurement and analysis of health care outcomes
- Development and management of quality improvement initiatives
- Quantitative data management
- Information management and utilization in decision-making

The program is delivered in an online format with three low-residency, mandatory colloquiums. Cohorts begin each fall and meet at the Knoxville Hardin Valley Campus one time each academic year for a two or three-day colloquium. The 36-hour credit program is completed on a part-time basis, with degree completion typically in two (2) calendar years (18 credits per year). Program progression over a longer period of 3 or 4 years is also possible. The culminating learning experience in the DNP curriculum is the development, implementation, and evaluation of a translational research project, with emphasis on dissemination of new knowledge for outcomes improvement.

Due to the rigour of the program, students pursuing the Doctor of Nursing Practice may not be simultaneously enrolled in another program.

The student learning outcomes of the DNP program support the mission of the university by equipping students with the academic underpinnings to translate research into practice, integrate knowledge to improve patient outcomes, advance health policy, and assume leadership roles to influence the everchanging demands of healthcare. King University's

DNP program prepares graduates in a Christian environment of academic rigor to excel as resourceful and accountable professionals in healthcare leadership roles and to integrate scholarship and service into a career focused on serving God, community, and society.

DNP Application Packet Requirements

For specific graduate program application packet requirements, please visit Application Packet Requirements for Graduate Programs located within the Admissions Policies section of the catalog.

Fees

There is a \$100 technology fee per course for courses delivered in an all online format.

Background Check and Urine Drug Screen

The clinical agencies utilized by King require all students meet standards relating to criminal background. Students must clear a criminal background check and urine drug screen before admission to the clinical settings utilized by King. Failure to undergo the background check or urine drug screen will result in dismissal from the nursing program. All background checks must be completed through the King Security Department and all urine drug screens must be completed through the clinical documentation management system. Students are responsible for all fees associated for background checks and urine drug screening.

Religious Objections

A student has the right to refuse immunizations due to religious objections. If you select this option, we do ask that you provide an official clergy statement and affirm your reason under the penalties of perjury.

Professional Liability Insurance

King University has a professional liability insurance policy that covers all nursing students while enrolled in a King University nursing program. The cost to the DNP student is charged upon enrollment into the program. The insurance covers the student only for activities directly related to King University. It does not cover an accidental injury to the student that may occur before, during, or after classroom activities. The policy also does not cover the registered nurse or the nursing student while working at their employment

setting. Students may carry additional liability insurance at their own expense, but this will not replace the coverage purchased through the University. The fees are included in the DNP student fees. There will be no additional cost to the students at this time.

Technology Requirements

Baseline computer requirements for the DNP program include laptop computer with minimum of Microsoft Office 2010 or later, wireless capability, and a webcam.

Grade Requirements

The school of nursing calculates grades as A, A-, B+, B, B-. C+, C, C-, D, or F. Doctoral nursing majors must earn a B or higher in all NURS courses to maintain an overall GPA of 3.00 on a 4.00 scale. In the DNP program a grade of B- or below is failing. If two grades of B- or lower are earned the student will be dismissed from the DNP program. A failed course must be repeated; a student is only allowed to repeat one course during the DNP program.

Clinical Experiential Learning Hours

All DNP students are required to complete clinical experiential learning hours (residency hours) to meet the requirements for the DNP degree. A minimum of 1000 hours of post-baccalaureate clinical practicum hours is required for completion of the DNP program and graduation. Specific hour requirements may vary for each student based on the number of practicum hours completed in his or her master's program. The King DNP curriculum includes a total of 640 clinical experiential learning hours and offers students the opportunity to take additional semester hours of study to fulfill the required 1000 post-baccalaureate clinical experiential learning hours.

Comprehensive Competency Assessment (NURS 7990)

All candidates for a degree from King University are required to demonstrate competency in their major field of study. DNP students will demonstrate satisfactory completion of the competencies outlined in the AACN's *The Essentials of Doctoral Nursing Education for Advanced Nursing Practice*, in addition to the DNP student outcomes. These competencies are demonstrated by successful completion of the

translational research project and are validated and documented during the final full translational research project team meeting in the last semester of study prior to graduation.

Graduation Requirements

• Time to Completion/Graduation Standard Students in the DNP program must complete all degree requirements within six (6) years from time of entry or first enrollment semester as a degree-seeking student. No additional time is given to students electing a Leave of Absence.

• Degree Completion Requirements

- Completion of all required courses with a minimum cumulative GPA of 3.00 on a 4.00 scale
- 2. Completion of all required clinical experiential learning hours for a minimum total of 1000 post-baccalaureate hours
- 3. Completion of a culminating translational research project
- Demonstration of competency in major field (successful completion of competencies in NURS 7990: Comprehensive Competency Assessment)

DNP Student Handbook

DNP students are required to follow polices set forth in the *DNP Student Handbook*, posted on the Canvas Resource site after the start of each fall semester. All DNP students are required to read and follow university policies relative to appeals and grievances listed in the *DNP Student Handbook*. All students must abide by relevant academic policies in the *King University Catalog*.

FAMILY NURSE PRACTITIONER POST-MASTER'S CERTIFICATE ADULT AND GRADUATE STUDIES, BLENDED PROGRAM COORDINATOR: S. LOVE

The Post-Master's Certificate program for the Family Nurse Practitioner (FNP) will serve students seeking post-master's preparation in the FNP role. Applicants must have completed an MSN from an NLNAC or CCNE accredited program. This program, in addition to the student's previous MSN education, will prepare for the advanced practice role specializing in primary care utilizing advanced theoretical knowledge and practice skills needed in complex care settings.

Applicants to the post-master's certificate program will be accepted on a space-available basis. A gap analysis (National Task Force on Quality Nurse Practitioner Education, 2008) will be performed to evaluate each prospective student's academic history. An individualized plan of study will be developed based on the student's transcript evidence of completed coursework for the MSN and the gap analysis.

Applicants who have not completed course equivalents to King University's MSN Core will be required to do so. See MSN Family Nurse Practitioner Concentration for a list of MSN Core courses.

Total semester hours will typically range from 18-30, and students will typically be required to attain 600 hours of clinical practice. Students will gain experience in primary care across the lifespan, within settings specializing in Pediatrics, Women's Health, and Care of Adult and Geriatric populations. Clinical experiences are accomplished under the guidance of a faculty member and an approved community-based preceptor. Upon successful completion of the program, post-master's certificate students will be eligible to take a national certification exam and may apply for an advanced practice nurse license in their legal state of practice.

Those interested in the Family Nurse Practitioner (FNP) post-master's certificate are advised to review the specific state board of nursing where licensure

will be obtained. Those wishing to license outside of the states of Tennessee or Virginia should contact the State Board of Nursing in the specific state to confirm the program meets licensure requirements. You may contact the MSN Program Coordinator for additional questions or assistance.

NURSE EDUCATOR POST-MASTER'S CERTIFICATE ADULT AND GRADUATE STUDIES, ONLINE PROGRAM COORDINATOR: S. ADAMS

The Post-Master's Certificate for the Nurse Educator program meets the needs of students seeking post-master's preparation in the role of Nurse Educator. Applicants must have completed a MSN from an NLNAC or CCNE accredited master's nursing program. This program, in addition to the student's previous MSN education, will prepare the student for the direct role of nurse educator in a variety of settings, from clinical to academic.

Applicants to the Post-Master's Nurse Educator Certificate program will be accepted on a space-

available basis. A gap analysis will be performed to evaluate each prospective student's academic history. An individualized plan of study will be developed based on the student's transcript evidence of completed coursework for the MSN and the gap analysis.

Applicants who have not completed course equivalents to King University's MSN Core will be required to do so. Additionally, applicants who have not completed course equivalents to King University courses (Advanced Pathophysiology, Advanced Physical Assessment and Health Promotion, and Advanced Pharmacology) will be required to do so. See the MSN Nurse Educator Concentration Plan of Study for a list of MSN Core/required courses.

Total semester hours will typically range from 15-24, and students will typically be required to attain 420 hours of clinical practicum experience with a preceptor and faculty oversight. Students will gain experience and advanced knowledge in a focused clinical area and in nursing education during the clinical practicum learning experiences.

Completion of the Post-Master's Nurse Educator Certificate program prepares the student to assume a role in professional nursing education, including clinical settings, commercial and community environments, and academic arenas.

PSYCHIATRIC MENTAL HEALTH NURSE PRACTITIONER POST-MASTER'S CERTIFICATE ADULT AND GRADUATE STUDIES, ONLINE PROGRAM COORDINATOR: A. MOORE

The Post-Master's Certificate program for the Psychiatric Mental Health Nurse Practitioner (PM-PMHNP) will serve students seeking post-master's preparation in the PMHNP role. Applicants must have completed a MSN from an NLNAC or CCNE accredited program. This program, in addition to the student's previous MSN education, will prepare for the advanced practice role specializing in primary mental health care utilizing advanced theoretical knowledge and practice skills needed in complex care settings.

Applicants to the post-master's certificate program will be accepted on a space-available basis. A gap analysis (National Task Force on Quality Nurse Practitioner Education, 2008) will be performed to evaluate each prospective student's academic history. An individualized plan of study will be developed based on the student's transcript evidence of completed coursework for the MSN and the gap analysis.

Total semester hours will typically range from 24-33, and students will typically be required to attain 600 hours of clinical practice. Students will gain experience in psychiatric mental health disorders, psychopharmacology, and psychotherapies across the lifespan, within a variety of settings. Clinical experiences are accomplished under the guidance of a faculty member and an approved community-based preceptor. Upon successful completion of the program, post-master's certificate students will be eligible to take a national certification exam and may apply for an advanced practice nurse license in their legal state of practice.

Those interested in the Psychiatric Mental Health Nurse Practitioner (PMHNP) post-master's certificate

are advised to review the specific state board of nursing where licensure will be obtained. Those wishing to license outside of the states of Tennessee or Virginia should contact the State Board of Nursing in the specific state to confirm the program meets licensure requirements. APPLIED MUSIC

Private one-hour lessons in brass, harpsichord, percussion, organ, piano, voice, and woodwinds are offered for credit. For one credit hour the student practices six hours a week.

Upon beginning the study of applied music at King, the instructor will place the student at the proper level (elementary, intermediate, intermediate II, advanced), which is indicated by the first digit in the course number. The second digit indicates the area of study.

There is no limit to the number of semesters a student may study at one level. Advancement from one level is accomplished through performance juries. Moving from one level to another is a decision made by the faculty of the music program.

BIBLE
BIBL 2250 Bible Study That Matters. An introduction to the practice of Biblical hermeneutics. The class will examine the history and development of hermeneutics, including the most recent developments. Also included is practice in the interpretation of the different kinds of Biblical literature
BIBL 2251 The Old Testament and Interpretation.
A survey of the content, message, and literary forms of the books of the Old Testament with attention given to the principles of biblical interpretation
A survey of the content, message, and literary forms of the books of the Old Testament with attention given to the principles of biblical

with a consideration of the use of the prophetic literature in history and modern times4 s.h.	BIBL 4140 Paul. An introduction to the life and thought of Paul with primary emphasis on the chief theological themes found in the apostle's writings as
BIBL 3040 The Life and Teaching of Jesus. A study focusing on the "quest" of the historical Jesus, the	they relate to distinctive settings in Acts
historicity of the gospel records, the life of Jesus, and the form and content of His teaching4 s.h.	BIOLOGY
BIBL 3520 The Historical Geography and Archeology of the Southern Levant. This course will aim to give the student a thorough overview of the land of the Bible from the Patriarchs to the Islamic conquests. Matters of topography, geology, history, and archaeology will be addressed in a manner that enhances the meaning of the Bible and enriches the student's grasp of Biblical history	BIOL 1010 Human Anatomy and Physiology I. An introductory study of the structure and function of the human organ systems including the nervous, sensory, muscular, skeletal, and integumentary. This course, which is required for admission to some health science programs, can be used to meet the natural science core education requirement. Three hours of lecture, two hours of lab each week4 s.h. Corequisite: BIOL 1010 Lab
BIBL 3800 Internship/Cooperative Education. Integrate faculty-led opportunity into education through participation in planned, supervised experiential learning. Students will apply related skills by following a set of objectives, reflecting on activities, and obtaining feedback from their supervisors. For a complete description of Internships and Cooperative Education, see the Internship/Cooperative section under the Academic Policies	BIOL 1020 Human Anatomy and Physiology II. A continuing study of the structure and function of the human organ systems including the cardiovascular, respiratory, gastrointestinal, reproductive, renal, and endocrine. Three hours of lecture, two hours of lab each week
sectioncredit to be arranged Prerequisite: 12 s.h. of Philosophy and Religion	BIOL 1110 Principles of Biology. Introductory biology for non-majors for the AGS format only.
BIBL 3900 Special Topics. Open to advanced students with the consent of the departmentcredit to be arranged	Students enrolled in the Traditional format should take BIOL 1120 Introduction to Biology. This course is not appropriate for students who wish to pursue a career in the health or natural sciences. This course
BIBL 4030 The Torah. The origin stories and foundational concepts (such as creation, exodus, Torah, and covenant) of Israel's heritage are considered in detail in this study of Genesis, Exodus, Leviticus, Numbers, and Deuteronomy	does not count toward major requirements in Biology. This course was designed to introduce students to the wonder of Biology, the study of life. Topics include scientific investigation, interpretation and communication; macromolecules, genes and genomes, how cells and organisms store and use
BIBL 4050 Hebrew Wisdom Literature. An exploration of the questions and literature of Israel's wisdom tradition, especially Proverbs, Job, and Ecclesiastes. Includes comparisons with modern authors and culture	energy, body systems, nutrient flow in ecosystems, food webs. A special emphasis is placed on how we interact with the world around us. Three hours of lecture, two hours of laboratory per week
BIBL 4060 The Gospel and Epistles of John. A review of the scholarly research in Johannine studies and an in-depth examination of the gospel. Special emphasis on the major theological themes of John as they relate to Biblical theology	BIOL 1120 Introduction to Biology. Introductory biology with lab for non-majors offered only in the traditional format. This course is required for the Teacher Education Program. This course should not be taken by those intending to major in the natural

sciences, exercise science, nursing, and/or psychology. Topics covered include structures & functions of life, the cell, heredity, physiology, evolution, biodiversity, and ecology. Also covered are scientific methodologies to verify scientific information. Three hours of lecture and two hours of Corequisite: BIOL 1120 Lab

BIOL 2110, 2120 General Biology I and II. The first courses taken by all Biology majors and minors and by those preparing for a career in the health sciences. Topics include molecules of living organisms, energetics, cell structure and function, metabolism, survey of kingdoms, flowering plants, cell reproduction, ecological relationships, population dynamics, and evolutionary relationships. Three hours of lecture, two hours of laboratory each Corequisite: BIOL 2110, 2120 Lab

BIOL 2500 Microbiology and Immunology. The fundamental principles of morphology, physiology, virulence of microbes, and vertebrate immune responses. Laboratory experiments in pure culture techniques, classification, and epidemiology will be conducted. This course is not recommended for Biology majors. Three hours of lecture, two hours Corequisite: BIOL 2500 Lab

BIOL 3100 Plant Biology. This course explores topics unique to plants, including plant evolution, diversity, and domestication; physiological strategies that plants use to harvest light for energy, obtain and conserve water, and respond to various environmental cues; and the importance of plants to the local, national, and global economies. Laboratory sessions consist of mostly outdoor sessions in plant identification and field trips to various local sites. Three hours of lecture, three hours Prerequisite: BIOL 2110, BIOL 2120, CHEM 2110

Corequisite: BIOL 3100 Lab

BIOL 3120 Environmental Science. Environmental Science is a course designed to introduce students to the complex interactions between living and environmental systems. Students will gain knowledge

of environmental principles and the role humans play in the environment. Students will also gain an understanding of living and environmental systems and how physical resources are managed. Students will read and discuss case studies4 s.h.

BIOL 3130 Ecology. This course is designed to introduce students to ecology using both animal and plant examples. Students will study the interactions of individual organisms with their abiotic environment, interactions within their own population, and interactions with other species. The course will primarily focus on individuals and populations; however, some community and ecosystem elements will be explored. Three hours of lecture, three hours of laboratory each week 4 s.h. Prerequisite: BIOL 2110, 2120

BIOL 3200 Histology. Histology is the study of tissues and organs at the microscopic level. This course focuses on understanding the microscopic anatomy of the human body with emphasis on structure/function relationships. All levels of organization from the cellular through the system level are incorporated into a holistic integration of microscopic anatomy with physiology. Special emphasis is placed on understanding the physiological and metabolic role of individual tissues, glands, and organs with regards to homeostasis, metabolism, and reproduction. The laboratory component uses both physical and virtual microscopy to integrate structure with function. Three hours lecture and three hours of laboratory each week.......4 s.h.

Prerequisite: BIOL 2110, 2120 Corequisite: BIOL 3200 Lab

Corequisite: BIOL 3130 Lab

BIOL 3250 Bioinformatics. This course introduces students to the cutting-edge field of bioinformatics, with emphasis on fundamental concepts of computational models and statistical analysis of highthroughput data. Students will become familiar with various DNA sequence analysis and alignment algorithms, and the application to genomic and phylogenetic analyses. Students will learn how to create and use algorithms, databases, systems, and web applications to solve problems in molecular biology. In addition, students will be introduced to

Prerequisite: BIOL 2110 Corequisite: BIOL 3250 Lab

BIOL 3260 Clinical Neuroanatomy. This course explores the relationship between the location of various neuroanatomical structures and their function within the nervous system. Students learn how to read and correctly interpret patient charts, basic neuroradiology, and how various signs and symptoms help point to distinct locations in the brain and spinal cord. Highly anatomical in nature, the course begins with the basic anatomy of the brain and spinal cord, and quickly integrates clinical diagnostic tests and neural function. Furthermore, actual case studies are used to demonstrate the importance of taking detailed patient histories, and how to match signs and symptoms with their neuroanatomical correlates. Three hours of lecture, three hours of laboratory each week 4 s.h. Prerequisite: BIOL 1010 and 1020, or

BIOL 2110 and 2120

Corequisite: BIOL 3260 Lab

BIOL 3310 Human and Vertebrate Comparative

Anatomy. A study of the morphological and evolutionary relationships among various vertebrates. The laboratory involves dissection of a dogfish shark, an amphibian, and a mammal. Three hours of lecture, three hours of laboratory each week 4 s.h.

Prerequisite: BIOL 2120 Corequisite: BIOL 3310 Lab

BIOL 3430 Developmental Biology. Advances in molecular and cell biology over the last 20 years have changed the science of organismal development.

Once more popularly known as the field of embryology, the incorporation of molecular and cellular research has evolved the field into developmental biology, where life is tracked and studied from fertilization to birth. From developmental biology, more recent advances have led to the widely fascinating field of Evo-Devo, or the evolution of development. Weaving genetics, cell biology, molecular biology, evolution, anatomy, and environmental science, developmental biology is a highly interdisciplinary subject. It aims to elucidate the transmission of information from gene to cells, to tissues, to organs, and, eventually, to the whole being. Essentials to the discipline are the understanding of patterning, signaling, cellular differentiation, and cell death in a developing organism. Learning will be achieved via lectures primary literatures, popular readings, and a poster session. Three hours of lecture each week4 s.h.

Prerequisite: BIOL 2110, BIOL 2120

BIOL 3600 Human and Mammalian Physiology.

Advanced study of the physiology of human and mammalian organ systems. Mechanisms are studied from the cellular, tissue, organ, and system levels. The laboratory emphasizes computer simulations, and experimental human physiology. Three hours of lecture, three hours of laboratory each week4 s.h. Prerequisite: CHEM 1110, 1120; BIOL 2110, 2120

Corequisite: BIOL 3600 Lab

Prerequisite: CHEM 2110, 2120, BIOL 3300

strongly recommended Corequisite: BIOL 3700 Lab

BIOL 3750 Research Methods in Biology. This course is designed to give students first-hand experience in biological experimentation. Students will work closely with Biology faculty members to learn about hypothesis formation, experimental design, data collection and analysis. By the end of the course, students will present their research to their peers. This course is also designed to prepare students for additional research opportunities, and

is required for students who want to complete a senior thesis project and Honors in Independent Study in Biology. Three hours of lecture, three hours

Prerequisite: BIOL 2110, 2120, 3300, and permission of the instructor

Corequisite: BIOL 3750 Lab

BIOL 3760 Genetics. Genetics is the science of heredity, from chromosomes to genes, to DNA. Emphasis in this course will be placed on classical Mendelian, non-Mendelian, complex and population genetics. Personal genomics, bioinformatics, and bioethics are also covered. Lectures, literature reading, group projects and laboratory exercises will be used to provide students with a foundation in classical and modern genetics. Three hours of lecture,

Prerequisite: BIOL 2110 Corequisite: BIOL 3760 Lab

BIOL 3770 Molecular Biology. This course is required for the Cell and Molecular Biology track and is an upper-level course that expands on most materials covered in the cell biology and genetics courses. It investigates the complex nature and mechanisms of biological macro-molecules; and explores the control of genes and their expression in specifying physical traits, mutations, and genomic maintenance. This course emphasizes the comprehension and interpretation of experimental evidences in an array of molecular biology sub-topics; these include gene regulation, translation, editing and evolution. Most major laboratory techniques for DNA/RNA manipulation will be covered in lectures and will be selectively used in lab. Three hours of lecture, three hours of laboratory each week4 s.h. Prerequisite: BIOL 3760 or BIOL 3300

Corequisite: BIOL 3770 Lab

BIOL 3800 Internship/Cooperative Education.

Integrate faculty-led opportunity into education through participation in planned, supervised experiential-learning. Students will apply related skills by following a set of objectives, reflecting on activities, and obtaining feedback from their supervisors. For a complete description of Internships and Cooperative Education, see the Internship/ Cooperative section

under the Academic Policies section credit to be arranged

BIOL 3900 Special Topics. For junior and senior Biology majors credit to be arranged

BIOL 4350 Immunology. The remarkably complex and fascinating role of the immune system is studied in-depth. Students will gain a clear understanding of normal relationships between structure, function, and regulation of the immune system as a foundation for exploring abnormalities present in a myriad of medical conditions. Information is provided through lecture, group discussion and projects, and study of the primary literature. Three hours of lecture each week......4 s.h.

Prerequisite: CHEM 2120, BIOL 2110, 2120. BIOL 3300 strongly recommended.

BIOL 4400 Microbiology. This class focuses primarily on the diversity of prokaryotic organisms and viruses, including morphological/ultrastructural diversity, methods of culture and control, selected physiological and metabolic pathways, contributions of microbes to global biogeochemical cycles, the importance of microbes in relation to human disease, and the role of microbes in modern technology. The laboratory is focused on culturing and identifying medically important bacteria. Three hours of lecture, three hours of laboratory each week4 s.h. Prerequisite: BIOL 2110, 2120, CHEM 2110

Corequisite: BIOL 4400 Lab

BIOL 4690 Systems Biology. This course introduces the field of Systems Biology. Following the paradigm shift in the production of large scale biological data (also called 'omics), Systems Biology has arisen as a new area of research that strives to make connections between metabolic, signaling and regulatory networks involved in cellular processes. Using a holistic rather than reductionist approach to understanding and controlling biological complexity, this course will introduce large-scale data sets used in genomics, proteomics, metabolomics, and epigenetics. Current hot-topics and ethical considerations in science are also discussed. Techniques such as network analysis and modeling approaches will then be introduced, providing a framework for a systematic view of the etiology of complex traits. This course is intended as a capstone course for Biology majors who are interested

BIOL 4700 Evolutionary Biology. This course is a capstone for the biology major. Lectures, critical reading of primary literature, and a field trip will introduce students to fundamental evolutionary concepts, modern evolutionary biology research, and specific case studies of evolution in action. Discussions will be over numerous classical texts on evolution, especially those published during the formative years of the Theory of Evolution. Students will be trained to sharpen their scientific inquiry, hypothesis formation, evidence-based deduction, and general critical thinking. The course will cover the breadth of evolutionary biology: from the origins of life and investigation of fossil records, to studying the mechanisms of evolutionary changes that govern all living beings. Three hours of lecture each Prerequisite: BIOL 2110, 2120, one 3000-level or higher BIOL class

BIOL 4910, 4920 Senior Thesis Research in

Biology. This course is designed for biology majors, in their senior fall and spring semesters, who are pursuing original research projects with biology faculty with the intent of writing up their results as a senior thesis project. The course includes laboratory or field research, as well as literature research necessary for submitting a manuscript related to original research. Students will be required to present their work. Participation in this course will also allow students to work towards Honors in Independent Study in Biology..................................0-4 s.h.* Prerequisite: Instructor Approval
*Credit determined by pre-arrangement with instructor.

BUSINESS

BUSA 1700 Introduction to Business. This is an introductory course for both business and nonbusiness majors. The course provides a broad understanding of the business community, its functions, terminology, occupational choices in the various fields of business, and the place of business in the American economy. Students will also learn about the challenging facets of business and its dynamic role in today's environment. Students will be broadly introduced to business topics and gain a working knowledge of the components of business including management, human resources, marketing, and finance. Overall, the course will explore the field of business as offered in the Business Management program to identify specific areas of interest or specialization......4 s.h.

BUSA 1900 Introductory Special Topics.

General topics elective for the non-major as well as the major...... credit to be arranged

BUSA 2000 ENACTUS. ENACTUS is a global nonprofit organization that partners with business and higher education to establish ENACTUS student teams on university campuses. The mission of ENACTUS is "Mobilizing university students to create economic opportunity for others while discovering their own potential." Students are challenged to develop community outreach projects that reach ENACTUS's four educational topics: (1) Market Economics; (2) Entrepreneurship; (3) Personal Financial Success Skills; and (4) Business Ethics. ENACTUS team members leverage their personal educational experiences, the expertise of their faculty advisors, the support of their local business advisory boards, and the resources of their institutions to implement programs that create real economic opportunities for members of their

BUSA 2010 Digital Skills for 21st Century

Workplaces. Students master Microsoft Office as they design resumes, write cover letters, as well as learn and practice basic Excel spreadsheet and PowerPoint presentation skills. Students also create a personal presence on the web by making a blog that becomes a site for their personal professional

portfolios. The course stresses digital literacy by teaching students cloud computing for individuals, simple design principles, some basic information about computers, how to designate safe and strong passwords, and what helps them be safe in social web	BUSA 2301 Financial Accounting. An introduction to financial accounting principles and practices, financial statement analysis, as well as managerial accounting	
environments	BUSA 2302 Managerial Accounting. An	
DUISA 2100 W	introduction to managerial accounting, an	
BUSA 2100 Management Communication. Techniques and practices in business writing and oral communication, including communicating through letters, memoranda, reports, effective speaking, interviewing and conference skills 4 s.h.	accounting process where accounting information is used for managerial decisions. In addition, this course will make use of a spreadsheet for managerial problem solving and scenario analysis4 s.h. Recommended: BUSA 2301	
BUSA 2130 Business Communication. Techniques	RIISA 2400 Introduction to Hamitality	
and practices in business writing and oral communication including communicating through letters, email, memoranda, reports; and effective speaking, interviewing, and conference skills. In addition, this course will make use of computer-based presentation programs. This is a foundational course in the major	BUSA 2400 Introduction to Hospitality Management. This course provides an overview of the hospitality industry, the importance of customer service and experiences, its career opportunities, its relation to travel and tourism, and a fundamental introduction for each department in the hospitality sub-industries of lodging, food and beverage, and travel and tourism. Hospitality business management theories, as well as leadership, will also be explored within the realm of the hospitality industry4 s.h.	
BUSA 2200 Management Information Systems. An	1 , , ,	
introduction to management information systems for	BUSA 3010 Personal Financial Planning. An	
decision-making. Students will learn the basic	introduction to the basic concepts of personal	
concepts of databases, spreadsheet software, and	financial planning such as career and financial	
information technology as they relate to managerial	objectives; saving and investment strategies;	
decision-making and the maintenance of competitive advantage 4 s.h.	insurance; income; and estate planning. The development of a workable personal financial plan will be stressed4 s.h.	
BUSA 2250 Principles of Marketing. Extensive		
study of business activities that seek to satisfy	BUSA 3100 Cost Accounting. An advanced study of	
customer needs. Topics covered include an analysis	(1) cost accounting: job order, process, and activity-	
of the marketing environment, industrial and	based cost accounting systems, and (2) managerial	
consumer markets, buyer behavior, measuring and	accounting as a decision support information system,	
forecasting demand, and the marketing mix (product,	helping managers make decisions regarding pricing,	
price, promotion, and place). In addition, an emphasis on the interaction of management and	product mix, and resource allocation4 s.h.	
marketing decision-making will be stressed 4 s.h.	BUSA 3110, 3120 Intermediate Accounting I and II. An analytical study of accounting theory and	
BUSA 2251 Principles of Management. This	practice4 s.h.	
is an introductory level management course	Prerequisite: BUSA 2301	
examining management theory and application to		
real-world situations. Examination focuses on	BUSA 3180 Accounting Information Systems. This	
terminology, practices, and the four managerial	course focuses on business productivity software	
functions: Planning, Organizing, Leading, and	applications and professional behavior in computing	
Controlling	from the perspective of the accounting	
	profession	
	Prerequisites: BUSA 2301, 2302, 3110	

BUSA 3210 Management of Organizations. A survey course with an overview of business operation, terminology, and practices with an emphasis on introducing fundamental management	focus is on strategic, ethical decision-making and servant leadership. This course culminates with a dynamic computer simulation case
practices 4 s.h	BUSA 3400 Government and Business. A survey of government policies toward business; including the
BUSA 3230 Corporate Finance. A study of the foundations of corporate financial management, including cash flow analysis, financial analysis and	historical context, economic analysis, and critical review of policy proposals
planning, management of financial resources, and Capital for the firm	BUSA 3410 Quality Service Management and Assurance. This course provides a comprehensive look at service and quality management within the
BUSA 3260 Statistics and Business Research Methods. An introduction to inferential statistics and the major areas of research in business. Attention is given to problem definition, research design, information gathering, and data analysis and presentation to assist managers in the decision- making process. Each student will develop a research proposal and carry out a field project in a related	hospitality industry. The topics covered in this course include quality management systems, customer service, the customer experience, organizational culture and change, leading and managing quality service teams, and how to create and implement a total quality management (TQM) plan within a hospitality organization
business discipline	BUSA 3420 Foundations of Hotel and Restaurant Management. This course examines the
BUSA 3271 Human Resource Management. Introduces the student to the human resources/ personnel functions. Topics covered include recruitment, assessment, compensation, motivation, appraisal, development, legal environment, labor relations, and employee relations. Emphasis on how managers can deal with and utilize the human resources function	fundamentals and mission of the lodging and restaurant industry, including the latest ownership, managerial, and operational trends; economics; and assessment of these operations. All departments in a lodging and restaurant facility will be examined in accordance with managerial responsibilities, including financial and customer experience management
BUSA 3275 Operations Management. An introduction to the tools and techniques of	DUSA 2420 Format Dlancia and I Management This
introduction to the tools and techniques of Operations Management, including forecasting, quality control, inventory management, supply chain management, and project management. BUSA 5030 Quantitative and Research Methods.

This course is an introduction to quantitative research methods in business. It addresses the various purposes and approaches to conducting research, studies the research process, and develops methods of analyzing data using statistical software as a tool to aid in management decision-making. Emphasis is on understanding the concepts of statistical analyses, choosing appropriate tools and procedures to use in a given context, using the computer to carry out the procedures, and then interpreting the computer results within the given context. Graduate learners will have an opportunity to synthesize these concepts as consumers of research (by critiquing published research) and as producers of research (quantitative analysis is built into the remaining elements of the

Prerequisite: BUSA 4890 or a signed course waiver

BUSA 5040 Economics of Organizational Architecture and Strategy. This course is designed to expand the graduate learner's understanding of how economic analysis can help corporate managers maximize firm value. Management theory has long recognized the importance of thoroughly assessing a firm's internal and external environments as a foundation for strategic and operating initiatives. A thorough application of the tools of economics can enrich this process, providing new insights and strategic options. Accordingly, this course will concentrate on the use of economic tools to enhance the effectiveness of strategic positioning and organizational structure. Cases and problems are used to gain an understanding of these economic tools and their potential use for solving real-world Prerequisite: BUSA 4891 or a signed course waiver

BUSA 5051 Promotions and Advertising Strategy.

BUSA 5053 Marketing Research and Analysis.

A study of market research theory and techniques. Orientation to research design, questionnaire design, primary data collection, sampling of human populations, data analysis, and research report writing. Designed to promote the understanding of

the interrelationship between marketing research and marketing management3 s.h.

BUSA 5060 Managerial Communication.

Professional managers must develop effective communication skills to enhance their ability to inform and motivate many interest groups: employees, supervisors, stockholders, clients, and other professionals. Assuming a managerial role, students prepare oral and written presentations for study groups and faculty. Students learn through feedback from individual reports, cases, letters, emails, and memos. In addition, teams will participate in the exercises in which students fill the role of executives in a business environment 3 s.h.

BUSA 5061 Accounting for Managerial Decision-

Making. This course focuses on Cost centers and profit centers, examines cost accounting, job order process, and activity-based cost accounting systems, and managerial accounting as a decision support system. Cases and problems are used to gain an understanding of these economic tools and their potential use for solving real-world problems......3 s.h. Prerequisite: BUSA 4892 or a signed course waiver

It focuses on sources of law, contracts, torts,
employment, business organizations and other areas
of interest to managers, business owners, and others
in the business arena. Course work is targeted toward
the practical application of rules of law in the
workplace3 s.h.

BUSA 5202 Managing Risk in Human Resources.

This course provides the graduate learner an opportunity to learn about managing risk in Human Resources. An integrated portfolio of topics including legal compliance, disaster preparation, business continuity/ recovery planning, financial implications of managing risk, the employee-

supervisor relationship, and Human Resources	,	
related audits will be covered	3	s.h.

BUSA 5203 Training and Development of Human Resources. This course provides the graduate learner an opportunity to learn about managing training and development in Human Resources. An integrated portfolio of topics including learning theories, needs

CHEM 4990 Comprehensive Assessment.

Undergraduate level. All candidates for a degree from King are required to demonstrate competency in their major field. Students with more than one major must demonstrate competency in each of their major fields. For a B.A. or B.S. in Chemistry students must earn a passing grade on the Chemistry Department Comprehensive Assessment Exam................................. 0 s.h.

COMMUNICATION

COMM 1500 Basics of COMM at King Seminar*.

COMM 2400 Professional Communication.

Students practice traditional methods of written and oral expression in professional communication environments. Assignments emphasize audience-centered writing, industry-specific expectations, and organized communication. Students also hone resumes and practice effective interviewing........4 s.h.

COMM 2600 Introduction to Media

COMM 2700 Advanced Speech Communication.

COMM 3000 Communication Theory and Practice.

COMM 3300 Editing for Special Topics in

COMM 3400 Rhetoric and Persuasion. An

COMM 3600 Organizational Communication. This course explores the fundamentals of effective

organizational structures, communicative processes, and innovations at organizations. Students learn historical and developing approaches to organizing. Course emphasizes student-learned contributions to organizational communication that permeates companies, procedures, and effectiveness.............4 s.h.

COMM 3800 Internship/Cooperative Education.

COMM 4100 Ethics in Communication. A study of philosophical and religious theories of ethics and of their application to realistic ethical dilemmas that enable students to consider the complexities of ethical decision-making. Emphasis on critical thinking and learning to apply ethical frameworks in communication and behavior......4 s.h.

COMM 4990 Comprehensive Assessment.

Undergraduate level. All candidates for a degree from King are required to demonstrate competency in their major field. Students with more than one major must demonstrate competency in each of their major fields. Comprehensive assessment for the Communication program requires students to demonstrate competency in writing effectiveness and application of communication knowledge by means of a portfolio that is presented to department faculty and an outside reviewer (when available). Students are required to successfully complete comprehensive assessment during their last semester to earn a B.S. in Communication. Any student who does not meet the minimum requirement (Pass) of their comprehensive assessment will not graduate until the requirement

CRIMINAL JUSTICE

CRJU 1500 Introduction to Criminal Justice. This is an introductory course for the Criminal Justice program. It is a survey of the history and function of the different sections of the American criminal justice system including courts, corrections, and law enforcement. Additional topics will include the future of the justice system as well as an introduction to alternatives to our current justice responses....4 s.h.

CRJU 2500 Criminal Investigation for Forensic

CRJU 2900 Special Topics in Criminal Justice. This course will cover different topics within the study of criminal justice. A slate of topics including Serial and

Mass Murder and Race, Gender, and Crime will be rotated with every offering4 s.h. Prerequisite: CRJU 1500

Prerequisite: CRJU 1500

CRJU 3100 American Systems of Corrections.

Prerequisite: CRJU 1500

CRIU 3330 Research Methods in Criminal Justice.

Research Methods in Criminal Justice will include an examination of qualitative and quantitative methods of social science research with an emphasis on criminal justice theory and policy. Various research strategies, including sample surveys, observation, experiments, and evaluation, are discussed4 s.h. Prerequisite: CRJU 1500

CRJU 3800 Internship/Cooperative Education.

CRJU 4200 Ethics and Justice. This course includes discussion of the different ethical issues faced by criminal justice professionals such as prosecutorial and judicial misconduct, corrections issues, and law enforcement deviance. The examination of different ethical dilemmas and scenarios will be used...... 4 s.h. Prerequisite: CRJU 1500

CRJU 4600 Alternatives to Justice: Restorative Justice. This course focuses on alternatives to the traditional ways crime is addressed by the criminal justice system and how they can be implemented in

DIGITAL MEDIA ART AND DESIGN

DMAD 2000 History of Photography. This class is a survey of the history of photography. We will discuss photography's creation as an art form, as a method of communication, as a social responsibility and contemporary photography in a global context. We will also discuss major movements within photography through the prominent artists of the medium to provide an understanding of their influence on photography as we know it today ...4 s.h.

DMAD 2200 The Arts in Historical Context. This course will explore important works of visual art/photography, film/theatre, and music and their place in world history. Through a series of reading, lectures, and writings, students will learn to better "read" art and understand its place in society4 s.h.

DMAD 2400 Introduction to Visual Rhetoric and Graphic Design. This course exposes students to the concept of visual rhetoric, invites them to create their own working definition of that term, and demands that they demonstrate their understanding of both traditional concepts of rhetoric with words that use implied visuals and 21st century concepts of rhetoric that incorporate explicit visuals. The course touches on semiotics, design theory, and classical rhetoric as well as explores the meaning of visual literacy and how that skill/awareness changes communication, persuasion, and storytelling. Students will analyze texts on pages and screens and design texts for print and digital application to show their developing understanding of human communication through media......4 s.h.

DMAD 2900 Project Lab I. This course gives students the opportunity to research and create work to build a portfolio that exemplifies their technical skill and their identity as an artist. Students will conceptualize and produce bodies of work centered around personal vision and creating identity2 s.h. Prerequisite: PHOT 2010

DMAD 3000 B&W Darkroom. This course offers an introduction to silver-based black and white photography and darkroom practices. Through multiple and varied class projects, lectures, critiques, and demonstrations, the course is designed to give students a basic understanding of black and white film capture, as well as photographic silver gelatin

DMAD 3020 DSLR/DSLM Video Production.

This course explores the production, presentation, and publishing of advanced media elements through project-based scenarios. Students will study advanced digital video capture, audio capture, editing, and various venues for release of finished products... 4 s.h. Prerequisite: PHOT 2010, PHOT 3010

DMAD 3200 Imagery in Society. This course is an introduction to imagery in the mediums of photography, web, video, and animation as they relate to digital media's impact on society through the exploration of concepts and technique4 s.h.

DMAD 3640 Digital Media Business Practices. This course is an introduction to the management of a digital media company. Students will be introduced to basic business concepts, including the legal formation of a business, financial management tools and techniques, business communications, and an introduction to marketing concepts. Topics include the development of a business idea; crafting a business and financial plan; alternative models of financing, marketing, and launching. The ultimate outcome of this course will be to develop creative individuals with the entrepreneurial and managerial skills necessary to conceive, launch, and manage a sustainable digital media enterprise in the increasingly complex economic environment of contemporary artmaking......4 s.h.

DMAD 3800 Internship/Cooperative Education.

 DMAD 4900 Project Lab III. This course gives students the opportunity to research and create work to build a portfolio that exemplifies their technical skill and their identity as an artist. Students will conceptualize and produce bodies of work centered around a personal vision and creating identity ... 2 s.h. Prerequisite: DMAD 3900

DMAD 4990 Comprehensive Assessment.

Comprehensive assessment in Digital Media Art & Design demonstrates competency in the graduating student's major field with a capstone project and an exhibition. Students must earn a grade of C- or higher on the capstone project......................... 0 s.h.

ECONOMICS

ECON 2000 Introduction to Economic Principles.

ECON 3260 Intermediate Microeconomic Theory.

ECON 3270 Intermediate Macroeconomic Theory.

ECON 3280 Issues in Political Economy. The course studies the interaction between government and markets. For example, the conflicts between efficiency and the politically favorable, the dilemma of political failures and market failures. The course

will also provide a forum to integrate economics and
political science as we discuss current events; for
example, healthcare, income inequality, and
international trade4 s.h.
Prerequisite: ECON 2000

Prerequisite: ECON 3260 and ECON 3270 or approval by Instructor

ECON 3800 Internship/Cooperative Education.

ECON 5900 Graduate Research Hours in

EDUCATION

EDUC 1500 Foundations of Lesson Planning. This non-credit course provides application of pedagogical

EDUC 2030 Introduction to Teaching, K-Grade 12.

Corequisite: EDUC 2031

EDUC 2370 Reflective Teaching: Planning for Classroom Instruction. This course emphasizes

Prerequisite EDUC 2030/2031

EDUC 2800 Fundamentals of Pedagogy. This course provides an overview of pedagogical theory and practice that accompanies effective teaching. Topics include curriculum and instruction, student diversity and classroom management with emphasis on developmentally appropriate curriculum content, specific instructional strategies, and assessment techniques. Students are expected to complete assignments of the Teacher Education electronic portfolio, and to complete observation hours in public school classrooms and in non-traditional settings that offer diverse student populations....4 s.h.

EDUC 2950 Technology for Teachers. A course designed to prepare teacher candidates to integrate 21st century classroom technologies and multi-media-based technologies into the classroom. Students will develop beginning abilities to promote different learning strategies using various modern technology tools. Ability to utilize a software presentation for use on a computer projection system will be an integral part of the course. Limited to Teacher Education candidates without consent of instructor 2 s.h. Prerequisite: EDUC 2030/2031 or EDUC 2800

EDUC 3120 Principles of Grammar and Writing: ESL. This is the study of grammar and syntax of the English language as it relates to the teaching of writing to non-native speakers of English. Students will be exposed to principles of phonology, grammar, mechanics, syntax, and composition, enabling them to be effective in adapting course content appropriate for ESL students at varying levels of English

EDUC 3140 Teaching Social Studies PreK-6.

EDUC 3150 Teaching Science PreK-6. Teaching Social Studies PreK-6 is an elective course for those who may be graduating with a minor in education, but without a TN teaching license. This course involves the study of best practices of teaching science to diverse populations of elementary school students.

EDUC 3170 Literacy Development and Reading Instruction in the Elementary Grades. This course is a survey of traditional literacy development spanning from emerging literacy skills and behaviors in early childhood through intermediate "reading to learn" literacy skills in late middle grades. This course is based on the science of reading and requires 15 hours of field experience in literacy instruction..4 s.h. Prerequisite: EDUC 2030/2031 or EDUC 2800

EDUC 3190 Literacy Assessment and Intervention.

EDUC 3360 Introduction to Linguistics.

Comprehensive Assessment (passing state-required Praxis II Exams or successful portfolio completion and a successful portfolio defense).................0 s.h. **Learners**. This course is an intensive study of exceptional learners. There is focus on extending principles of learning and intellectual, socio-cultural, emotional, and physical development to persons with disabilities. Emphasis is placed on how to design and modify learning environments to meet individualized needs while integrating standards into learning

EDUC 5010 Research Methods in Education. This course is an introduction to the function and means of various practices of educational research. The course will promote understanding of the language of educational inquiry, aims and uses of research, various ways of framing research questions and designing studies, and procedures for obtaining, analyzing, and interpreting qualitative and

EDUC 5015 Instructional Planning. This course is a practical introduction to the lesson planning process that offers ample opportunities for practice and revision. Students will practice framing lessons using district and state curriculum standards, writing measurable objectives, developing, and using formative and summative assessments, and planning for differentiated instruction. Students will also learn how to access prior knowledge of the students in their classrooms, offer guided practice and modeling, foster critical thinking and problem-solving skills, and complete a lesson with intentional closure........3 s.h.

EDUC 5020 Instructional Design. This course is a study of curriculum and instructional design, and instructional strategies consistent with such designs. Students will examine curricula theory and practice on multiple levels in designing responsive curricula. There will be an emphasis on understanding complex processes in learning and

EDUC 5030 Human Relations in the Classroom.

This course focuses on intrapersonal, interpersonal, and intergroup relations issues in schools. Theory will be blended with practice in the study of instructional, classroom management, and conflict resolution practices. The course will examine the critical issues associated with discipline and

Technology. This course will further develop students' technology skills for use in the educative process. A central focus will be research to determine emerging technologies appropriate for use in schools. Students will investigate the use of

EDUC 5220 Leading Change in Educational

Organizations. Instruction will focus on engaging stakeholders in effectively developing and implementing the school's vision, mission, and goals; creating a culture conducive to learning throughout the school community; making best use of resources to achieve the school mission; and carrying out responsibilities ethically. The student will understand the challenges of continuous improvement while managing the school and fostering a school culture focused on teaching and learning. Discussions will include methods and procedures for developing programs and instructional staff in addition to assessment strategies applied to both areas. Principles and techniques of effective leadership will be assessed against the legal, moral, and ethical implications of teacher leaders' actions and beliefs. Concepts and methodologies from learning theory, systems theory, group dynamics, and organizational culture assessments will be applied to collective learning and

EDUC 5230 Inclusion and Diversity in the

EDUC 5240 Legal and Ethical Dimensions in

EDUC 5250 Cultural Diversity in American

Education. This course is designed to increase knowledge and understanding of different backgrounds, ethnicities, cultures, and languages to promote effective interaction with colleagues, students, families, and the larger community.

Incorporating the methodologies of history, anthropology, sociology, cultural studies, political science and economics, the course is intended to create a rich vet critical understanding of the cultural influences that may influence the success of students of different backgrounds. It is also intended to help teacher leaders think about how to create an inclusive culture where diverse perspectives are welcomed and encouraged. In addition to the study of the cultural characteristics of major ethnic groups in America, topics include multiculturalism, racial identity development and ethnic identity development. Students will explore their own understandings of diversity to consider how they can develop culturally responsive strategies to enrich the educational experiences of students and achieve high levels

ENGLISH

ENGL 2110 20th and 21st Century World Literature.

ENGL 2120 Introduction to Appalachian

ENGL 2450 Appalachia in Literature and Film.

This course seeks to acquaint students with the ways of studying and evaluating literature and film as interconnected artifacts. It will introduce the essential terminology related to literature and film analysis, explore notable aspects of the region of Appalachia, and focus on comparing literature versus film as creative texts. In considering matters of genre, theme, narrative technique, and imagery, students will engage film as if it were another form of

literature. ENGL 2450 can fulfill the Human	
Creative Products core requirement4 s.	h.

ENGL 2910 Creative Writing. Further study and practice in writing with emphasis on the writing process, style, and form. Particular focus on a combination of fiction, poetry, and drama4 s.h. Prerequisite: WRIT 1110/1180 Recommended: ENGL 3340

of data through the models as data is transmitted

and received by end devices4 s.h.

HINF 4990 Comprehensive Assessment. All candidates for a degree from King University are required to demonstrate competency in their major field. Students with more than one major must demonstrate competency in each of their major fields. In their last semester of major courses, all Health Informatics students will create a portfolio of their work as the comprehensive assessment for the program. Students will compile a collection of 5-7

HEALTHCARE ADMINISTRATION

HCAD 1700 Introduction to Healthcare

HCAD 3020 Financial Management of Healthcare Organizations. This course introduces the student to

Organizations. This course introduces the student to the elements of financial management concepts at the organizational level. Students will understand the evolving history of the financial management process and application at both the department and organization level. Students will become fully versed in topics such as tax status, third-party payers, recognition of operating revenue, working capital utilization and the interface capital has on the organization's execution of revenue cycle management. Through appropriate use and

HCAD 3120 Introduction to Healthcare Organization and Policy. This course provides an overview of the complex structure and function of

HCAD 3210 Informatics for Healthcare Leaders and Decision-Makers. This course introduces the use of computers, technology, and data as informative tools to aid in healthcare managerial decision-making. Students develop skills in database access, database management, and information systems to promote sustainability and quality advantage in healthcare. Topics addressed include the selection, analysis, design, implementation, operation, and evaluation of

HCAD 3230 Management of Quality Improvement and Outcomes. This course introduces the student to the elements of process improvement and project management. Content is devoted to quality management methodologies to implement projects in a healthcare organization to reach goals and to maximize outcomes. This course encompasses healthcare cases for quality, process tools, team development, and outcomes measures 4 s.h.

HCAD 3320 Management and Leadership. This course addresses the critical need of managing human resources for organizational effectiveness. Classes examine organizational leadership and the role that visionary leaders play in empowering employees, providing environments for effective work teams, and promoting an ethical climate. Students explore various leadership styles, including servant leadership, and will reflect on their own style of leadership and

HCAD 5420 Legal and Ethical Issues in Healthcare. Exposes the students to the legal system as it affects the healthcare industry. The course addresses the numerous legal and ethical issues raised by advances in technology, changing societal values, decreasing resources, and increasing professional liability....3 s.h.

HCAD 5600 Accounting and Financial Performance in Healthcare. Optimal patient care starts with financially secure healthcare organizations. In this course, students will explore topics such as insurance and reimbursement, financial accounting, case flows, profit analysis, cost allocation, service line costing, budgeting, debt, risk analysis, capital structure, and revenue cycles. Financial theories and practical tools needed to make crucial financial decisions are included................................ 3 s.h.

HCAD 5700 Applying Continuous Quality Improvement in Healthcare. This course covers the concepts and techniques necessary for improving the systems vital to the daily work of clinicians and the

HCAD 5990 Comprehensive Assessment. All candidates for a degree from King are required to demonstrate competency in each major field attempted. MHA candidates will submit a portfolio with evidence of competency in each of these five domains: communication and relationship management, professional and social responsibility, management and leadership, quality improvement, and business/financial/analytical skills. The portfolio will be comprised of selected assignments from major courses. Students must achieve a passing score on the rubric contained within this course to graduate.. 3 s.h.

HEBREW

HISTORY

HIST 2150 History of Appalachia. This course is designed to introduce students to the history of the southern Appalachia and its inhabitants. The course will examine the chronological history of Appalachia from the 17th century to the modern era. The course focuses on the social, cultural, and political history of the southern Appalachian region. In addition to discussing and analyzing major events in the region's

HIST 2162 The United States from 1877 to

HIST 2171 Western Civilization in Global Context I. This course surveys Western politics, society, religion, culture, and intellectual movements from ancient Greece through the Renaissance... 4 s.h.

HIST 2182 The British Empire. At its height, the British Empire encompassed one quarter of the earth, and was so dispersed that the sun literally never set on a British possession. This course will examine the scope of the empire—settlements and colonies in the Atlantic, Africa, the Middle East, and of course, the jewel in the imperial crown, India. This

HIST 3010 Cultures in Contact: The Middle Ages.

HIST 3030 Cultures in Contact: The Atlantic World, 1440-1888. This course introduces students to a global community connected by the Atlantic

HIST 3120 Europe and the Great Wars. The First World War, Europe between the two wars, and the development of fascism and totalitarianism mark 20th century European history. This course also includes the role of nationalism and imperialism, and the influence of democratic and socialistic ideas during this period, as well as a comprehensive survey of the second world war and its immediate aftermath.. 4 s.h.

HIST 3650 Cultures in Contact: Islam, Christianity and Colonialism in Africa. From the Atlantic slave trade to the current crisis in Africa, this course takes a look at sweeping historical change African peoples have experienced and shaped. Topics covered include

HIST 3710 American Revolution/Early Republic.

HIST 3730 The Civil War. This course spans the decades prior to and after the Civil War, America's greatest period of civil strife. We will cover the causes of the conflict, roam widely across battlefields, witness the vulnerability of the homefronts, and investigate the attempts made to resolve the conflict during the era of Reconstruction. Important questions of slavery and emancipation, dissent and opposition to the war, spiritual and cultural impacts, and legacies of the war on American politics, society and values will be the main topics of the course. We will concentrate on the social, political and economic aspects of the war; this is not a course in military history but we will learn about battles and wartime conditions. This class will expose students to a variety of sources on the conflict, including scholarly books and articles, memoirs, fiction, and primary historical documents......4 s.h.

HIST 3755 The Cold War: History and Politics.

The Cold War has been described as "the most widespread international confrontation in history." Indeed, far from being simply a prolonged standoff between the United States and the Soviet Union, the Cold War defined the ideology of an entire era. From the formation of NATO, to the Cuban Missile Crisis, to the Vietnam War and beyond, decisions made in the context of the times shaped the lives of billions of people. Their major repercussions upon nearly every aspect of human endeavor are still traceable today, as

HIST 3762 Race, Politics, and the Rights

Revolution in Modern America. This class will cover American history from 1945 to the present. It will focus on the Civil Rights movement starting with its origins in World War II. The class will analyze how the Civil Rights movement influenced the larger "rights revolution" of the 1960s, the political process in which civil rights legislation was passed, and both the resistance and backlash the movement encountered. The course will also place civil rights and race relations within the larger historical context of modern America, including the consensus culture of the 1950s, the Cold War, Vietnam, the rise of Liberalism, and the rise of the "New" Right....... 4 s.h.

HIST 3770 Science in Culture: Inquiry in the Laboratory and Field. The laboratory has long been a space for exploring scientific principles and expanding the knowledge of what humans know about the world. The scientific inquiry moved outside in lab into "the Field", challenging notions of objectivity. This course examines the history of science focusing on important discoveries, evolutionary thought, genetics, field biology, and nuclear science. Students will analyze the approaches scientists have taken to understand the biggest questions of the human experience; the origin of life, how the natural world works, and the ways science and society intersect. This is a course beneficial to both students of science and the humanities, bridging

HIST 3800 Internship/Cooperative Education.

HIST 3900 Special Topics Readings Course. A reading course for individual students on the junior or senior level. The topics read will depend upon the needs of the individual student. The students and instructor will devise a learning contract.......2, 4 s.h.

HIST 4110 The Holocaust and Genocide in

HIST 4990 Comprehensive Assessment.

HONORS SEMINAR

HONR 1110, 2110, 3110, 4110 Honors Seminar.

The centerpiece of the Snider Honors Program is the honors seminar. As we seek to understand and enact the phrase "cultural transformation in Christ"—the heart of the mission statement of King—the seminar focuses on a single topic from a variety of academic disciplines each semester. The seminar is offered every semester, but the topic changes each time it is offered. The topics generally revolve around contemporary issues related to globalization, international policy, philosophy, and world events. Honors students may begin taking the Honors seminars in the second semester of their freshman year. Those taking the course for the first time should register under HONR 1110, the second time, 2110, the third, 3110, and the fourth, 4110. All seniors (and possibly some juniors) taking the course are expected to tutor the younger students, helping with papers and leading small-group discussion sessions. 10% of the final grade for such tutors will be based on the quality of their instruction and partly evaluated by the small group they have led.......2 s.h.

HUMANITIES

HUMN 2171 The Quest for a Meaningful Life I.

The greatness of a society might be determined in numerous ways—the sophistication of its political system, its military prowess, its artistic and scientific achievements. It might be said that what lies behind its aspirations and achievements, what drives these, in fact, is its definition of the "good life," with all its complexity of meaning. In this 2-semester course,

HUMN 2172 The Quest for a Meaningful Life II.

Prerequisite: WRIT 1110/1180

INFORMATION TECHNOLOGY

ITEC 2010 Programming for STEM. Most

ITEC 2020 Computer Programming. An

ITEC 2700 Foundations of Information

Technology. The topics that will be covered in this course includes basic digital media and data, storage, file management, fundamentals of webpage design,

basic networking principles, rudimentary information security, basic database concepts, introductory programming and logic and exposure to systems development	ITEC 3755 Current Issues in Technology. Capstone seminar dealing with new technologies, ethics, and other issues
ITEC 3450 Database Management. A study of techniques for designing and maintaining large data bases	ITEC 3760 Cybersecurity and Information Assurance. The course introduces the threats to information resources and appropriate security measurement. Topics include cryptography, identification and authentication, access control models and mechanisms, steganography, Internet security, and intrusion detection and prevention
Considers the current modeling tools of the systems analyst, including data flow diagrams, entity-relation diagrams, decision support systems, and project management	ITEC 3761 Cybersecurity Framework and Policy. This course introduces configuration management, risk assessment, and enforcement of information technology security policies as a part of the implementation of a cybersecurity framework.
ITEC 3500 Network Management. Local area networks, wide area networks, protocols and the ISO Open Systems Interconnect reference model, system design are discussed within this course. Emphasis is placed upon data link, network, and transport protocols	Students will develop a comprehensive information technology security policy using SANS (System Administration, Audit, Networking and Security) guidelines and apply a cybersecurity framework to organize against and respond to cyberattacks 4 s.h. Prerequisite: ITEC 2700, 3760
ITEC 3655 Web Programming. A study of web programming concepts and techniques, including advanced JavaScript, PHP, and database integration, and application programming. Focus will be on a systems approach and will include the development of a comprehensive application project from concept to final product	ITEC 3762 Computer Forensics. Students will investigate computer network intrusions including gathering evidence, chain of custody, detection systems, and incident reporting. This course makes extensive use of hands-on techniques used by computer forensics professionals
ITEC 3710 Cloud Computing. This course covers cloud computing from an end-user perspective. Students will learn to utilize open source and readily available applications, collaboration tools, and storage options housed on the Internet. The focus of this course is cloud computing from a business or	This course introduces virtualization technology, virtual machine storage, virtual networking, and access control. Students should be able to manage installation, configuration, and management of cloud storage systems
managerial point of view rather than a network or software engineering viewpoint. Students will be exposed to legal, ethical, and privacy issues associated with cloud computing	ITEC 3769 Ethical Hacking. This course teaches students the methodologies for dealing with various types of hacking attacks and how to effectively deal with these types of attacks. Students in this course will be exposed to real-world scenarios in a series of virtual labs for a better understanding of network analysis and system hardening

Prerequisite: ITEC 2700, 3760, 3761, 3762

Corequisite: ITEC 3755
*Not designed for transfer

ITEC 3800 Internship/Cooperative Education.

Integrate faculty-led opportunity into education through participation in planned, supervised experiential-learning. Students will apply related skills by following a set of objectives, reflecting on activities, and obtaining feedback from their supervisors. For a complete description of Internships and Cooperative Education, see the Internship/
Cooperative section under the Academic Policies sectioncredit to be arranged

ITEC 4990 Comprehensive Assessment........................... s.h.

INTERCULTURAL STUDIES FOR CHRISTIAN SERVICE

ICST 2120 Cultural Diversity in America. An examination of the socio-demographic, cultural, political, religious, and economic heritage of America's major ethnic groups (White Ethnics, African Americans, Native Americans, Latinos, Asian

American, Arab Americans). This course is designed to incorporate the methodologies of history, anthropology, sociology, cultural studies, political science, and economics. Students will begin with an examination of the concepts of prejudice and discrimination, explore these concepts as they encounter each major ethnic group, and end the course with personal statements of their own racial and ethnic identity development. Additional emphasis placed on Appalachian heritage and gendered roles of ethnic men and women. Students in this course will read and interpret relevant course texts, take quizzes, write essays, participate in class discussions and small group discussion, conduct research using peer reviewed resources, and conduct qualitative interviews to increase cultural knowledge of major ethnic groups, to acknowledge personal prejudice, and to confront stereotypes......4 s.h.

ICST 2310 Introduction to Cultural Anthropology.

ICST 3110 Appalachian Culture. This course offering is an introduction to southern Appalachian history and culture beginning with the European settlement and continuing through the modern era. The course will examine cultural "otherness", about how people perceive each other across cultural

boundaries—specifically boundaries that correlate with social class4 s.h.
ICST 3200 Cross-Cultural Ministry and Service. A study of the gospel's importance for ministry and social justice. Through a holistic, sustainable, locally-led approach to cross-cultural ministry, students will engage practically with the world around them, gaining awareness of pitfalls such conflict and misconduct, and learning how to respond when these issues occur
ICST 3300 Cross-Cultural Communication & Orality. A study of the principles and processes for effectively transposing the gospel—written in a particular time for a particular culture—into our own culture, then sharing the gospel across cultural contexts. Key topics include the language study and learning, nonverbal communication, and orality and biblical storytelling
ICST 3500 Dynamics of Global Christian Worship. This course examines the content and context of Christian worship in various global settings. Special attention is given to music, drama, dance, and art within the cultures of study. Non-western Christian worship as well as western worship practices will be considered
ICST 3510 Global Health Workshop. Medical work/Elective course. A hands-on experience in the field of study. An oral debriefing and a written report are required

ICST 3520 Intercultural Research/Field Work

ICST 4510 Appropriate Technology and

Practicum. Field Research/ Elective course. A hands-

on experience in the field of study. An oral debriefing

and a written report are required2-4 s.h.

Development in Christian Mission. Course work

mission. Hands-on projects require access to basic

tools and ability to acquire simple building materials.

humanistic and theological understandings of nature;

Some topics included in this course: exploration of

stewardship of creation as a Biblical ethic; the

ecological crisis and its implication for persons of

faith; educative and practical resources explored for

provides a melding of development theory and appropriate technology as it relates to Christian

INTERDISCIPLINARY STUDIES

IDST 4500 Interdepartmental Science and

KING

KING 1000 First Year Seminar.* This course is designed to assist students in making the transition to university by providing them with an introduction to King and equipping them with skills and strategies for success in the areas of intellectual development, social growth, and vocational accomplishment...2 s.h. *Not designed for transfer

KING 1500 Introduction to Higher Education*.

This course is designed to equip students with strategies and skills to assist them in achieving success academically as well as professionally and personally. The course is intended to challenge students to examine their understanding and assumptions about themselves and their educational journey, particularly

in the context of Christian higher education. Students will also learn about distinctive aspects of King while exploring the ideas of service and vocation in relation to the University's mission..4 s.h. *Not designed for transfer

KING 1610 Preparing for College-Level Work*.

KING 1620 Preparing for College. Credit for this course is awarded to students who successfully complete the Elizabethton High School Senior Capstone Course (G25H24), or equivalent, per the Prior Learning Assessment policy. It exposes students to several topics relating to pursuing post-secondary education and skills for post-secondary success. A letter grade of P will be assigned for credit granted. Because no grade is assigned other than P, no Quality Points will be awarded to count toward GPA......1 s.h.

KING 3000 Cross-Cultural Experience. The crosscultural experience allows students to confront their own presuppositions about what culture is and what culture means. The experience also helps students broaden their awareness and appreciation of diverse cultures. It seeks to prepare them to operate more

KING 4000 Christian Faith and Social

*Not designed for transfer

LATIN

LATN 1000 Beginning Latin. Study of Latin grammar, vocabulary, and syntax.......4 s.h.

LEADERSHIP

LEAD 1000 Developing Leadership Skills: Bristol Youth Leadership. This course program is administered by the Bristol, Tennessee/Virginia Chamber of Commerce, and course credit is

administered by a King faculty member working with the program director. Throughout the program, students will learn a variety of valuable leadership skills including time management, community awareness, and business ethics. The program also provides training in personal development, skills training, volunteering opportunities, and team building. In addition to the monthly class sessions, the Bristol Youth Leadership students are assigned to Community Service Projects to increase awareness of the community and provide the opportunity to serve. These projects are submitted by various agencies, governmental entities, and nonprofit organizations and require the participants to complete research, plan various events, participate in the community activities, and create presentations. The students work diligently to determine a course of action and follow through with success. (Enrollment is by invitation only and students must be accepted by the Bristol Youth Leadership Selection Committee. The application process occurs each spring during the month of May. Students may enroll in this course

LIBERAL STUDIES

MATHEMATICS

MATH 1230 Pre-Calculus. Designed for the student who intends to take calculus but has not had sufficient preparation. Pre-Calculus focuses on analytic geometry with emphasis on the transcendental functions ______4 s.h.

MATH 2100 Programming with Graphics, Symbols, and Text. An introduction to a computer algebra system and a symbolic word processing system, specifically *Mathematica* and *Latex*, both of which are standard software used by mathematicians and physicists. This course includes the basics of producing graphical objects and syntactically correct algebraic and symbolic

expressions, along with ideas such as recursion, looping, data structures, file manipulation, as well as producing print-ready copy whose elements are	civilizations to advancements in the 21st century, focusing on interesting personalities and outstanding achievements

integrals. Emphasis is on concepts and rigor 4 s.h.	MILITARY SCIENCE (ROTC)
Prerequisite: MATH 2370 and MATH 2410 MATH 3620 Further Studies in Analysis. Designed for the junior/senior major intending to proceed to graduate school in mathematics	These courses are offered at East Tennessee State University and are only available to students enrolled in the Army ROTC program. Courses are counted as general electives towards graduation. In addition, for each course completed in the ROTC program, the student will satisfy the General Education requirement, Wellness for Life, after completing 2 s.h. of physical activity within the ROTC program by completing MSCI 1217 or 3217. No more than 3 s.h. of physical activity courses can be counted towards the total 124 hours required for the King degree.
and Cooperative Education, see the Internship/ Cooperative section under the Academic Policies section	MSCI 1180 (F) Leadership/Personal Development (Lab). Practical application of leadership skills and an introduction to military drills and ceremonies. Uniforms will be issued to participants. Repeatable
MATH 3900 Special Topics. For Junior and Senior majors credit to be arranged Prerequisite: MATH 2360	for credit one time
MATH 4800 Research in Mathematics. This course will consist of research or independent study in mathematics under the direction of a faculty member. A GPA of 3.50 in mathematics courses at or above the 2100-level and permission of the instructor	military drills and ceremonies. Uniforms will be issued to participants. Individuals who sign up for MSCI 1181 must also enroll in MSCI 2110. Repeatable for credit one time
are required	MSCI 1210 (F) Leadership/Personal Development. Introduces students to the personal challenges and competencies critical for effective leadership. Students learn how the personal development of life

skills such as critical thinking, goal setting, time

required for the mathematics major. Topics for

review include differential and integral calculus,

MSCI 1220 (S) Introduction to Tactical Leadership.

Prerequisite: Completion of MSCI 1210 or approval of Professor of Military Science

MSCI 2580 (U) Leadership Training Courses. This option is available only for students who did not qualify for the *Advanced Phase* by completing four (4) *Basic Phase* courses during their freshman and sophomore years. *The Basic Camp*, conducted at Fort

Knox, Kentucky, is a five (5) week leadership development course where students are placed in an intensive training environment where they live, work, and learn in a cooperative group under 24-hour-a-day leadership instruction and receive detailed appraisal of their displayed leadership performance....... 1-6 s.h. Prerequisite: Approval of Professor of Military

MSCI 3110 (F) Adaptive Tactical Leadership.

Prerequisite: Completion of the Basic Course or equivalent or Approval of Professor of Military Science

MSCI 3120 (S) Leadership in a Changing

Environment. Course utilizes increasingly intense situational leadership challenges to build awareness and skills in leading tactical operations up to platoon level. Students will review aspects of combat, stability, and support operations; conduct military briefings to develop proficiency in giving operation orders; focus on exploring, evaluation, and developing skills in decision-making, persuading, and motivating team members in changing operating environments ... 3 s.h. Prerequisite: Completion of MSCI 3110 or

Approval of Professor of Military Science

MSCI 3217 (F/S) Physical Fitness (Instructor).

MSCI 4110 (F) Developing Adaptive Leaders.

Course develops student proficiency in planning, executing, and assessing complex operations, functioning as a member of a staff, and providing performance feedback to subordinates as part of civilian and military leadership professions. Students

MSCI 4120 (S) Leadership in a Complex World.

MUSC 3120 Introduction to Appalachian Music.

This course is designed to broaden students' understanding of musical traditions of the southern Appalachian region. The course will examine the

chronological history of music as an oral tradition in Appalachia, its origins, and its progression through modern times. The course will not be strictly limited to a specific type of music or oral tradition in the Appalachian region and will incorporate sociological, economical, and religious examinations of traditional music as well. The history and progression of traditional music from a communal, family entertainment to a consumer-fueled commodity for a mass-produced record industry will be discussed. The role of radio, its influence on traditional musicians, and its impact on southern culture will be addressed. Finally, the influence of 'agents of change' (railroads, rural postal service, and radio) and how these agents affected traditional musicians and their music will be

MUSC 4990 Comprehensive Assessment.

NURSING

NURS 3002 Informatics in Professional Nursing.

This course introduces the basic concepts relevant to nursing informatics, which is an evolving discipline affecting all areas of nursing practice. Beginning nursing students establish a foundational framework of knowledge for understanding and applying nursing informatics in healthcare settings. They also explore concerns about information protection, information system integrity and to ethically manage data, information, knowledge, and technology. Additional informatics' topics covered in this course include comparison of different eras in time, models and theories, computerized applications, technological advancements, and the use of information technology

NURS 3005 The Science of Human

NURS 3015 Foundations of Contemporary

Nursing Practice. This course introduces students to the basic care nursing skills essential to the nursing role. Emphasizes theoretical and practical concepts of nursing skills and roles within the context of the nursing process, holistic care, and a variety of health care settings. Students will be challenged to use evidence-based research, critical thinking and problem solving in developing the ability to apply an integrated nursing therapeutics approach for clients experiencing health alterations across the lifespan. Campus lab experience is used initially; off-campus clinical experience completes the hands-on portion. Credit for this course requires satisfactory completion of clinical experience in related healthcare setting.......5 s.h. Prerequisite: BIOL 1010, 1020, 2500, MATH 1560, **PSYC 3050**

Corequisite: NURS 3015

NURS 3115 Nursing in Adult Health Care I. This course introduces the junior-level nursing student to health promotion topics, acute and chronic disease processes, diagnostic and laboratory testing, and nursing care management across the health-illness continuum focusing on adult and elderly population. Special emphasis is placed on the nursing process which will assist the nursing student to perform physical, behavioral, psychological, spiritual, socioeconomic, and environmental assessments. Implementing appropriate nursing interventions building on foundational concepts, evaluating patient outcomes are discussed and are essential for practice. Practice skills relating to communication, collaboration with members of the healthcare team and critical thinking skills to demonstrate effectiveness in the healthcare environment as they relate to adult health are presented. Credit for this course requires satisfactory completion of the corequisite clinical experience in related healthcare setting 6 s.h.

Prerequisite: NURS 3000, 3015, 3020

Corequisite: NURS 3130

Prerequisite/Corequisite: NURS 3115

NURS 3140 Evidence-Based Practice. In this course, students obtain a basic understanding of how reliable evidence is used to form practice guidelines. Emphasis is placed on the research process including data collection, documentation, and dissemination of evidence. Students will learn to use their knowledge of the nursing process, communication skills, and critical thinking skills to promote evidence-based care within the inter-professional team. Course requires effective use of library and internet resources..... 2 s.h. Prerequisite: NURS 3020

NURS 3165 Nursing in Women's Health and Newborn Care. In this course students gain knowledge in the care of women, newborns, and families during the normal childbearing cycle in the

NURS 3310 Dimensions of Professional Nursing.

This course introduces the student to the scope of professional practice, which builds on personal strengths and prior nursing knowledge acquired in lower-division nursing courses. The course also focuses on self-awareness and the transformation experience, which socializes the returning RN into the role of the baccalaureate nurse. The course will focus on the quest for self-knowledge, personal planning and career advancement, and the unending issues in inter-professional nursing practice aiming to sharpen critical thinking skills and to strengthen conceptual and theoretical nursing knowledge...4 s.h.

NURS 3315 Introduction to Healthcare

Prerequisite: NURS 3310

NURS 3330 Introduction to Evidence-Based

Prerequisite: NURS 3310

NURS 3410 Health and Physical Assessment. This course is designed to improve and build upon health assessment skills the RN-BSN students are already familiar with. Through didactic and practice sessions, the students will build upon their knowledge of history taking and physical assessment. The focus will be on the assessments of adults who are healthy or have commonly occurring deviations from health. Skills taught and practiced include interview techniques, the use of standard assessment instruments, data analysis, documentation, and interventions to promote and maintain health. Skills related to knowledge integration, inter-professional communication, and decision-making for a culturally diverse population will be emphasized...... 4 s.h. Prerequisite: NURS 3310

NURS 3420 Spiritual and Cultural Considerations in Nursing. This course promotes the provision of nursing care within a spiritual and cultural framework. Emphasis will be placed on the importance of understanding human behavior and of promoting, maintaining, and restoring the holistic health of individuals, families, and communities within their cultural, socioeconomic, and religious contexts. Emphasis will also be placed on how cultural and spiritual beliefs influence a person's

NURS 4020 Community/Public Health Nursing.

In this course, students will focus on the health of individuals, families, and populations in the community, through analysis of the community's culture, values and wellbeing and by designing and implementing nursing interventions to promote and maintain health of populations within the community. In addition, students spend 50 hours in this course assessing, planning, and delivering health care to individual clients of different cultures, ethnic and socioeconomic backgrounds when practicing within the public health clinics, occupational health facilities, home health agencies, the public schools, and community volunteer organizations serving vulnerable populations. Credit for this course requires satisfactory completion of clinical experience Prerequisite: NURS 3000, 3015, 3020, 3115

NURS 4100 Nursing in Child and Family Health

NURS 4110 Nursing in Mental Health Care. This course focuses on knowledge and skills needed to promote mental wellness, maintain mental health, and care for persons experiencing mental illness across the lifespan. Emphasis is placed on cultural competence, human rights, advocacy, altruism, therapeutic communication, interdisciplinary collaboration, milieu management, socioeconomic awareness, holism, and professionalism. Clinical emphasis is placed on delivering safe, humanistic high-quality care to individuals, families, groups, communities, and populations experiencing mental illness in a variety of settings. Credit for this course requires satisfactory completion of clinical experience in related health care setting5 s.h. Prerequisite: NURS 3000, 3015, 3020, 3115, 3130

NURS 4115 Nursing in Adult Health Care II This senior-level nursing course continues to integrate nursing knowledge and skills mastered in the NURS 3115 course. The student will be expected to identify and incorporate health promotion interventions, understand more advanced disease processes, utilize diagnostic and laboratory testing resources, and implement nursing care specific to the patient population being served in the health care environment. The focus of this course will be centered on the elderly population. Special emphasis is placed on nursing students successfully applying critical reasoning skills both in the classroom and Prerequisite: NURS 3000, 3015, 3020, 3115, 3130 Corequisite: NURS 4130

NURS 4120 Nursing Leadership and Management. This course focuses on knowledge and skills relevant

in leadership and management, quality improvement, patient safety, finance, and communication / collaboration with healthcare professionals in various clinical settings to promote high quality patient care. Topics such as leadership styles, skills and strategies; organizational structures, process of change, problemsolving, communication principles, conflict resolution, teamwork skills, delegation, supervision; CQI principles, benchmarking, processes, and monitoring; patient safety principles; risk management; ethical and legal issues; scope of practice and healthcare finance as it relates to budgets will serve as the foundation. Students will enhance their abilities to become participatory decision-makers, set priority; and manage and Prerequisite: 3015, 3140, 3115

Prerequisite: NURS 3000, 3020, 3015, 3115, 3130

Corequisite: NURS 4115

NURS 4200 Capstone for Nursing Practice. This course is a combined didactic and clinical practicum course to support the transition of the senior-level nursing student to a professional practice role. The didactic portion prepares the senior nursing student for the required comprehensive competency assessment, the National Council Licensure Examination for Registered Nurses (NCLEX-RN), and the role of the professional registered nurse. The didactic portion combined with the clinical integration portion of this course emphasizes effective communication, nursing assessment, diagnostic and laboratory interpretation, appropriate nursing interventions, patient and family education, critical reasoning skills, interdisciplinary teamwork, prioritization and delegation, and time management skills essential for the successful transition into professional practice. Successful completion of this course requires the student to satisfactorily complete Prerequisite: All 3000-level NURS courses, NURS

Prerequisite: All 3000-level NURS courses, NURS 4020, 4100, 4115, 4130

Prerequisite/Corequisite: NURS 4120, 4110

NURS 4330 Community and Population Health.

In this course, the student will learn about population health, public health issues, epidemiology, and the promotion of community preventive health programs with a focus on local, regional, national, and global public health challenges that affect individuals, groups, and populations. This course is both community-based and community-focused, reflecting today's changing societal needs and the role environment plays in the health of communities. The course addresses the assessment and care of communities and target populations as the student learns to view health needs from a population health perspective.......4 s.h. Prerequisite: NURS 3310

NURS 4410 Principles of Leadership and

Management. This course provides registered nurse students with the opportunity to synthesize knowledge, learning, and experiences related to the role of professional nurse as leader and manager to provide quality health care in an ever-changing health care environment. RN-BSN students will investigate and further develop their own professional role as managers of patient care and leaders in health care settings. Leadership and management in areas, such as health care policy, advocacy, collaboration, teamwork, and education. Coursework integrates change theory, organizational structure, delegation skills, negotiation tactics, effective communication, conflict resolution, workplace culture, and includes a quality improvement project......4 s.h. Prerequisite: NURS 3310, 3315, 3330, 3410, 3420,

4310

Prerequisite/Corequisite: NURS4330

NURS 4990 Comprehensive Assessment.

Undergraduate-level and Registered Nurse students. All candidates for a degree from King are required to demonstrate competency in their major field of study. The final competency is focused on assessment of readiness to practice as a registered nurse at the baccalaureate level. For traditional BSN students, a standardized, proctored assessment will be given to help determine students' preparedness for the NCLEX. Prior to graduation, seniors in the traditional nursing program are required to successfully pass this standardized comprehensive assessment. Failure to achieve at least 90% predictability of passing the NCLEX on a proctored standardized comprehensive predictor will result in a grade of F. Registered Nurse students will address the standards and competencies outlines in the American Association of Colleges and Nurses (AACN) Essentials of Baccalaureate Education for Professional Nursing Practice in a reflective written assignment. This comprehensive writing assignment will link knowledge gained through educational experiences to professional practice congruent with the AACN standards and competencies................................... 0 s.h.

NURS 5000 Theoretical Basis of Nursing Practice.

NURS 5001 Research Designs in Nursing. This is a core course which focuses on the knowledge and skills needed to critically analyze and evaluate research literature to answer clinical questions. The student will learn how to initiate a line of inquiry using comprehensive databases. Statistics and research methods will help the student to effectively critique the status of the existing evidence to determine if a change is indicated to improve nursing practice and patient outcomes. Students gain knowledge and skills in evidence-based practice by

NURS 5004 Advanced Physical Assessment and Health Promotion. This course focuses on the development and practice of advanced health assessment skills needed for delivery of culturally competent care across the lifespan. Diagnostic reasoning is used to interpret data obtained from the history, physical examination, and diagnostic procedures to generate a comprehensive health assessment and problem list. Domains of interest include family processes, transcultural issues, nutrition, genetic variations, growth and development, spirituality, and health promotion. Students refine the health assessment and clinical judgment skills needed to relate findings to underlying pathophysiologic changes in the client's health status to plan therapeutic and healing interventions......3 s. h.

NURS 5006 Advanced Pharmacology. This course provides the advanced knowledge of pharmacokinetics, pharmacodynamics and pharmacotherapeutics needed to initiate safe and appropriate pharmacological treatment in the management of disease processes across the life span. Special concerns regarding developmental status, nutritional status, health status, cultural influences or membership in a high-risk group are identified. Strategies for counseling and education to promote adherence are explored. Ethics, cost effectiveness, legalities and regulations related to prescription writing are addressed. Students are introduced to the use of electronic drug databases for point-of-care

NURS 5010 Social, Cultural and Political Perspectives on Healthcare and Delivery Systems.

This core course provides an overview of social, political, and cultural issues impacting today's global healthcare system, enabling students to explore and develop strategies to be influential in social and health policy formation and consumer health advocacy. Global awareness including an understanding of ethical and legal accountability, patient vulnerability, and culturally sensitive care are emphasized. In-depth exploration of strategies for health promotion and disease prevention for communities are highlighted in this course....... 3 s.h.

NURS 5012 Global Health Awareness. This course offers an introduction to the practice of global health nursing, the political, economic, and cultural processes of globalization, and their impact on population health and health care systems. Students will examine varying meanings of health as well as the range of factors that encourage the health of some and exclude it from others. The course includes the study of a global health ethical framework based on human rights, cultural diversity, and social justice. Students will have an enhanced understanding of the global dimensions of health and disease, various strategic health initiatives, and correlating health care interventions. Attention will be paid to a variety of topics including HIV/AIDS, human trafficking, infectious diseases, health in reproduction, social

NURS 5018 FNP I Care of Women and Families.

Prerequisite: NURS 5002, 5004, 5014

Corequisite: NURS 5006

NURS 5019 FNP II Care of Geriatric and Adult

Prerequisite: NURS 5006, 5018

NURS 5021 Pediatric Growth and Development/Health Promotion and Illness

Prerequisite: NURS 5002, 5004, 5018

Corequisite: NURS 5006

NURS 5023 FNP III Care of Pediatric Population.

This course focuses on the management of common pediatric health and illness concerns using an evidence-based approach to assessment, differential diagnosis, and management. Includes the study of

120 clinical hours

Prerequisite: NURS 5002, 5004, 5006

NURS 5024 FNP IV Seminar and Intensive

Practicum. This course builds on the previous FNP course sequence and requires synthesis of advanced practice knowledge base and family nurse practitioner clinical skills for effective management of complex clinical problems across the lifespan. The emphasis is on acute and chronic illness as it affects all age groups. This course requires increasingly independent clinical application of evidence-based approaches to the assessment, health promotion, differential diagnosis, and management of families in their cultural and socioeconomic context. Scope of practice issues continue to be addressed 6 s.h. 240 clinical hours

Prerequisite: NURS 5018, 5019, 5023

NURS 5025 Seminar and Intensive Practicum: Pediatric Acute Illness and Chronic Disease

Prerequisite: NURS 5018, 5021, 5023

Corequisite: NURS 5026

NURS 5026 Practice Management and Advanced Role Development. This course examines issues related to assuming the advanced practice role including the legal and ethical aspects of practice, quality assurance issues, patient advocacy, leadership, interdisciplinary collaboration, and the stewardship of resources. Emphasis is placed on demonstrating a clear understanding of the professional nurse practitioner role and the transition to the

professional clinicians' role, including certification and licensure requirements. Current practice issues affecting nurse practitioners are examined.......3 s.h. Corequisite: NURS 5024 or 5025 or 5079

NURS 5030 Principles of Teaching and Learning.

NURS 5032 Curriculum Development and Implementation in Nursing Education. This course introduces the student to the essentials of curriculum development as it applies to nursing education. The student will explore the relationship of nursing curricula to the mission and philosophy of parent institutions and to national guidelines for nursing education at all levels. Accreditation, standards of professional nursing practice, legal, and ethical issues are analyzed within the context of curriculum development and program evaluation. Learning theories and taxonomy are applied to curricula, programs, courses, and learning units. A seminar approach, requiring collaborative work and Prerequisite: NURS 5030

NURS 5035 Focused Clinical Seminar and

Practicum. This practicum experience focuses on the synthesis of previously gained knowledge and skills in the provision of advanced nursing care to individuals, families, and communities. Emphasis is placed on the management of clients within a clinical focus area. The <u>240-hour</u> seminar format will allow the student to explore in depth the provision of evidence-based nursing practice in the care of patients experiencing actual or potential health problems related to the clinical focus (2 didactic/2 clinical/1 lab)5 s.h. 240 clinical hours

Prerequisite: NURS 5030, 5032

Prerequisite: NURS 5030, 5032

NURS 5056 Continuous Quality Improvement and Outcomes Management. This course prepares nursing leaders with knowledge to guide complex health care delivery and focuses on improvement of systems to provide safe, effective, and efficient care to

Prerequisite: NURS 5001, 5050 Corequisite: NURS 5001, 5054

NURS 5058 Transformational Leadership Strategies: Practicum. In alignment with the

NURS 5059 Transformational Leadership

NURS 5060 Transformational Leadership

Strategies: Practicum. In alignment with the American Organization for Nursing Leadership competencies, this practicum presents insight into transformational leadership. The following concepts are included: change management, diversity and inclusion, adaptive thinking, and decision making, Students will be provided with opportunities to

NURS 5071 Introduction to Psychotherapies for the Advanced Practice Nurse. This course focuses on introducing theories and methods used by the Psychiatric Mental Health Advanced Practice Nurse as broadly applied across treatment settings. Students will explore theory and techniques associated with various therapeutic models with regards to theoretical underpinnings, therapeutic action, techniques, relationship between therapist and patient, and application to different diagnostic populations and family systems. Selected psychotherapies will be studied and applied to selected cases utilizing various methods of learning. Students will gain knowledge and experience that promotes satisfactory assimilation of mental health concepts in their delivery of advanced practice nursing across the lifespan. Emphasis will be placed on evidence-based practice and treatment guidelines using a range of theoretical and conceptual models for conducting psychotherapy and supporting recovery. Selected psychotherapies will be studied, and application made where possible within the practicum setting as well as the course learning activities......1 s.h.

NURS 5072 Contemporary Approaches to Psychotherapy. This course focuses on introducing contemporary theories and methods used by the Psychiatric Mental Health Advanced Practice Nurse as broadly applied across treatment settings. Students will explore theory and therapy techniques associated with various therapeutic models with regards to theoretical underpinnings, therapeutic action, techniques, relationship between therapist and patient, and application to different diagnostic populations and family systems. Selected contemporary psychotherapies will be studied and applied to selected cases utilizing various methods of learning. Students will gain knowledge and experience that promotes satisfactory assimilation of mental health concepts in their delivery of advanced practice nursing across the lifespan. Emphasis will be placed on evidence-based practice and treatment

guidelines using a range of theoretical and conceptual models for conducting psychotherapy and supporting recovery. Selected psychotherapies will be studied, and application made where possible within the practicum setting as well as the course learning activities. The DSM 5 will be used as the basis for diagnostic nomenclature across the lifespan 1 s.h. Prerequisite: NURS 5071

NURS 5073 Integration and Application of Psychotherapies. This course focuses on the application of theories and methods used by the Psychiatric Mental Health Advanced Practice Nurse as broadly applied across treatment settings. Students will explore theory and therapy techniques associated with various therapeutic models with regards to theoretical underpinnings, therapeutic action, techniques, relationship between therapist and patient, and application to different diagnostic populations and family systems. Selected psychotherapies will be studied and applied to selected cases utilizing various methods of learning. Students will gain knowledge and experience that promotes satisfactory assimilation of mental health concepts in their delivery of advanced practice nursing across the lifespan. Emphasis will be placed on evidence-based practice and treatment guidelines using a range of theoretical and conceptual models for conducting psychotherapy and supporting recovery. Selected psychotherapies will be studied, and application made where possible within the practicum setting as well, as the course learning activities. The student will be given the opportunity to assess the dynamic forces of the current health care delivery system and how it influences care delivery to the client needing mental health services. The DSM 5 will be used as the basis for diagnostic nomenclature Prerequisite: NURS 5071

NURS 5075 Advanced Psychopharmacology. This course presents advanced concepts in neuroscience, pharmacokinetics and pharmacodynamics and the safe clinical management of targeted psychiatric symptoms, related to the psychopharmacologic treatment of various psychiatric disorders across the lifespan. The course reflects current scientific knowledge of psychopharmacology and its application to clinical problems seen in a variety of settings. This course builds on knowledge from

NURS 5076 Psychiatric/Behavioral Health Disorders and Diagnosis. This course will provide the course will be a course will provide the course will provide the course will be a course wi

Disorders and Diagnosis. This course will provide a biophysical framework for the practice of advanced psychiatric mental health nursing across the lifespan. Students will develop advanced knowledge of diagnostic criteria, and management of psychiatric and mental health disorders. Advanced comprehensive assessment skills, differential diagnosis, and psycho therapeutic management of clients with common and major psychiatric disorders across the lifespan will be emphasized. Research and epidemiological data will be employed to formulate outcomes-based practice. Mental health promotion and prevention, risk factors, taxonomy, cultural influences, and assessment issues specific to all populations will be a focus of learning. Evidencebased research findings and DSM diagnostic criteria

Prerequisite: NURS 5002

NURS 5078 Psychiatric Mental Health Seminar and Clinical I. This is the first of two clinical practicum courses that provides a synthesis experience during which the student implements the role of the psychiatric-mental health nurse practitioner applying current evidence-based practice focusing on knowledge and skills needed to assess, diagnose, and treat psychiatric, mental health disorders across the lifespan. The curriculum content will build on previous coursework to allow students to integrate psychopharmacology prescribing principles, use of psychotherapies, diagnosis of psychiatric behavioral health disorders and consult with interdisciplinary team members to develop appropriate and individualized treatment plans. The clinical course provides the student the opportunity to develop critical thinking and diagnostic reasoning under the supervision of a qualified mental health care preceptor to manage care for individuals and

Prerequisite: NURS 5002, 5004, 5075, 5076

NURS 5079 Psychiatric Mental Health Seminar and Clinical II. This is the second of two clinical practicum courses that provides a synthesis experience during which the student implements the role of the psychiatric-mental health nurse practitioner applying current evidence-based practice focusing on knowledge and skills needed to assess, diagnose, and treat psychiatric, mental health disorders across the lifespan. The curriculum content will build on previous coursework to allow students to integrate psychopharmacology prescribing principles, use of psychotherapies, diagnosis of psychiatric behavioral health disorders and consult with interdisciplinary team members to develop appropriate and individualized treatment plans. The clinical course provides the student the opportunity to refine critical thinking and diagnostic reasoning skills under the supervision of a qualified mental health care preceptor to manage care for individuals and families using recommended practice guidelines and diagnostic criteria6 s.h. 300 clinical hours

Prerequisite: NURS 5078

NURS 5990 Comprehensive Assessment. Master's level. Graduate level nursing at the master's level requires a final competency demonstration. Final comprehensive competency demonstration in the MSN program consists of the graduating student's ability to meet the expected outcomes as set forth by the American Association of Colleges of Nursing (AACN) Essentials of Master Education in Nursing. These Essentials are core for all master's programs in nursing, and delineate the outcomes expected of all graduates of master's nursing programs. Completion of a final competency portfolio, which encompasses

NURS 5991 Post-Masters Comprehensive

NURS 7000 Theoretical and Philosophical Foundations of Nursing Practice. Building on the masters-level foundation of knowledge and core concepts of theory and scientific frameworks, this course prepares doctoral students to critique, evaluate and utilize theory within their practice, and assists them in the identification of models used to guide research and knowledge development within the discipline. Philosophical foundations of knowledge development in nursing, and the natural and social sciences are explored. Relevant theories from bioethics, biophysical sciences, psychosocial science, analytical science, and organizational science are also addressed. Emphasis is placed on middle range theories and concepts used to guide nursing practice. In preparation for their scholarly project, students are expected to demonstrate the ability to conceptualize a theoretical basis for their specialty practice that is comprehensive, holistic, and has the potential to impact patient care delivery models and Corequisite: NURS 7001

NURS 7001 Nursing Informatics. Building on previous knowledge in healthcare informatics, this course provides an opportunity to examine the forces driving the migration to digital information systems

Corequisite: NURS 7000

NURS 7005 Applied Statistics for Evidence-Based

Practice. This course explores descriptive and inferential statistics with special emphasis on the application of statistics in translational research. The course explores how data are collected and describes and evaluates research methods that are essential for statistical analysis. Discussions cover measures of central tendency, variability, data representation, correlation, and linear regression. A brief discussion of probability theory precedes hypothesis testing, and the course emphasizes hypothesis testing as it relates to different research designs for practice applications. Inferential Statistics that evaluates one sample (e.g., ttest), two samples (e.g., independent groups t-test), and two or more samples (e.g., analysis of variance) are included. The course includes exploration of research designs that include more than one independent variable (e.g., factorial designs) and nonparametric statistics. In addition to exploring the application of statistics regarding research methods and designs, exploration of statistical methods pertinent to those utilized in the interpretation of health care data sets such as absolute risk, absolute risk reduction, odds ratio, and number needed to

Prerequisite: NURS 7000, 7001 Corequisite: NURS 7006

NURS 7006 Evidence-Based Practice and

Translational Research This course examines the underpinnings of nursing knowledge and the methods by which nursing knowledge is generated. This course explores the role of the nurse scholar in translating evidence into practice. Students will use evidence-based findings to choose an area of interest for their translational research project and begin

examining the literature surrounding this topic. After thorough review of the literature and identification of gaps in the knowledge base, students will begin their project proposal and form their PICOT questions to guide their project. Upon successful completion of the course the student will be awarded 30 clinical

Prerequisite: NURS 7000, 7001 Corequisite: NURS 7005

NURS 7007 and NURS 7018 Clinical Experiential Learning I and II.* The DNP clinical experiential learning courses are designed to provide an opportunity for doctoral students enrolled in the program to fulfill the practice experience requirements specified in the DNP curriculum, which are based on the American Colleges of Nursing (AACN, 2006) DNP Essentials. The DNP Essentials outlines competencies expected of DNP graduates and designates a minimum of 1000 postbaccalaureate practice hours. The DNP clinical experiential learning courses provide the opportunity for students to demonstrate expertise in practice and will be individualized for students based on their prior education and experience. Clinical experiential learning hours are designed to help students build and assimilate knowledge for advanced practice at a high level of complexity and focus in practice specialty. In depth work with experts from nursing and other disciplines as well as other knowledgebuilding experiences are incorporated into the clinical experiential learning courses to provide meaningful student engagement in practice environments. Students have had supervised practice requirements as part of the clinical MSN program, and will have already accumulated a portion of these required hours prior to entering the DNP program to complete the DNP program with a minimum of 1000 post-baccalaureate practice hours. The clinical experiential learning hours must be fulfilled prior to implementation of the translational research *Not designed for transfer

NURS 7011 Population Health Epidemiology and Data Analysis. This course examines the science of demography and how demographic phenomena affect public health. The focus of demography includes birth rates, death rates, age and gender, structure of populations, population change and distribution.

The course prepares the student to define and identify populations and sub-populations of interest, describe the health status and needs of populations, and evaluate services provided to populations by local, regional, and federal public health agencies, as well as population-based private health care organizations. An emphasis on a critical analysis of the evidence-based literature on assessment, development, intervention, and evaluation of population health will assist the student to incorporate successful population health interventions into practice. The student will utilize accountability in determining priorities and evaluating outcomes of population-focused programs. Upon successful completion of the course the student will be awarded 70 clinical experiential learning

Prerequisite: NURS 7000, 7001, 7005, 7006

NURS 7012 Translational Research Project

Development*. Students must have identified and gained approval of community mentor/preceptor for the Translational Research Project with all contracts and site requirements completed prior to starting the Translational Research Project Development course. The student will select a practice setting based on his/her individual interest and expertise and conduct an assessment to identify opportunities for improvement. Building upon formative coursework, students are expected to synthesize theoretical, empirical, and clinical knowledge to analyze critical issues in current practice and identify a phenomenon of interest within their area of expertise. The student will analyze data, develop a theory-based project proposal, and define a research question(s) for a translational research project addressing a clinically relevant problem within a specific population. An IRB proposal will be submitted for approval of clinical project implementation. This course will include the systematic collection and evaluation of research evidence through a comprehensive literature review and initial project proposal. The student will develop his/her project under the guidance of a faculty member and in conjunction with a community preceptor. Upon successful completion of the course the student will be awarded 180 clinical experiential

Prerequisite: NURS 7000, 7001, 7005, 7006 *Not designed for transfer

NURS 7016 Leadership of Complex Healthcare Systems and Organizations. This course synthesizes leadership theory, behaviors, and organizational models within the context of the healthcare industry. Models of resource management, change process, gap analysis, strategic planning, and performance excellence are explored and applied. Based on these theories, models, and applications, the student will put the DNP role precepts into practice across complex health care organizations and system3 s.h. Prerequisite: NURS 7000, 7001, 7005, 7006, 7011 Corequisite: NURS 7017

Corequisite: NURS 7016

NURS 7023 Translational Research Project Implementation*. Students must have identified and gained approval of a community mentor for implementation of the translational research project with all contracts, site

requirements and IRB approval completed prior to starting the Translational Research Project Implementation Course. In this course students will implement the translational project developed in the Translational Research Development course, incorporating knowledge from ethics, biophysical, psychosocial, analytical, and organizational sciences. A focus on transformational leadership in the practice setting to deliver advanced-level nursing services to individuals, families, communities, or systems is emphasized. The project will embody ethical, culturally sensitive, fiscally responsible, and politically sound principles to improve current and future health care outcomes of identified populations. The student will implement his/her project under the guidance of a faculty member, committee, and in conjunction with a community preceptor. This project will produce a tangible and deliverable scholarly manuscript derived from the practicum immersion experience which will be completed in the Translational Research Project Evaluation course. Upon successful completion of the course the student will be awarded 180 clinical Prerequisite: NURS 7000, 7001, 7005, 7006, 7011, 7012, 7016, 7017

*Not designed for transfer

NURS 7028 Transforming Healthcare Performance through Information Technology. This advanced health informatics course focuses on the critical appraisal of the role of nurse leaders, practitioners, and specialists as they interface with health care information systems for outcomes management and improvement. Advanced data mining skills

NURS 7032 Translational Research Project

Evaluation*. Students must have identified and gained approval of a community mentor for completion of the translational research project with all contracts, site requirements completed prior to starting the translational research project evaluation course. The DNP program culminates in the successful completion of an individual scholarly project that demonstrates synthesis of the student's work and lays the groundwork for future scholarship. During this course, students will engage in scholarly inquiry to analyze and evaluate their evidence-based project. The completed project will be presented and will be evaluated by the student's committee. A manuscript for publication is derived from the completion of the translational research project. The student will complete the project under the guidance of a faculty member, committee, and in conjunction with a community preceptor. Upon successful completion of the course, the student will be awarded 180 clinical experiential learning hours3 s.h. Prerequisite: NURS 7000, 7001, 7005, 7006, 7011, 7012, 7016, 7017, 7022, 7023

NURS 7990 Comprehensive Assessment. Doctoral level. Graduate level nursing at the doctoral level requires a final competency demonstration. The demonstration of final competency at the DNP level is embodied in the culminating translational research project. Elements of the translational research project are founded on the American Association of Colleges of Nursing (AACN) Essentials of Doctoral Education for Advanced Nursing Practice. The Essentials document contains outcome competencies deemed essential to all gradates of a DNP program and serves as the guidance and evaluation framework for the DNP graduate's translational research project. The final competency translational research project is guided by and evaluated against a rubric. Students are required to pass according to the minimum requirement of the School of Nursing. Any student

*Not designed for transfer

PHILOSOPHY

PHIL 3500 History of Philosophy Survey. This course offers a survey and examination of significant thought from within the history of philosophy. The course content will cover pivotal metaphysical, epistemological, and ethical movements from the ancient Greek era to 21st Century. It will provide understanding of the philosophical underpinnings of current ways of thought, a stream of thought against which to compare Christian beliefs, along with some

measure of insight into the fundamental questions of human life	camera controls, exposure, digital imaging software, and basic output techniques4 s.h.
PHIL 3720 Ethics. A study of philosophical and religious theories of ethics and of their application to selected problems	PHOT 1500 Macintosh Management. This course is an introduction to hardware and software management for the Macintosh computing platform. Topics may include use of computers for media
PHIL 3760 Aesthetics: The Philosophy of Art, Beauty, and Culture. This course offers an in-depth study of significant thinking within the field of aesthetics. Students will examine influential theories	production and as a primary component of the full digital lifestyle. No previous computer experience is required for this course
relating to the nature of art, beauty, aesthetic appreciation, and art criticism; conduct a detailed study of a selected work of art or topic in the field of aesthetics; and reflect on the state of the arts today and the role that they play within contemporary culture	PHOT 1510 Multimedia Production. This course is an introduction to multimedia creation and publishing through the Macintosh computer platform. Instruction in Web design, Digital Video, Audio construction and Interactive disc production will prepare students for a broad range of media projects
PHIL 3770 Scientific Ethics. This course offers a philosophical survey of prominent ethical theories,	Prerequisite: PHOT 1500
an examination of the philosophical and scientific methods, and applied ethical analysis of the most pressing issues and dilemmas within the fields of science and medicine. Ethics in this context entails deep reflection on how we ought to live, the kind of people we ought to be, and the course of action we ought to take in any given situation. Accordingly, students will discuss these theories openly and	PHOT 2010 Digital Photography. This course is an introduction to technical and creative application of digital imaging. Students will learn full control of their Digital SLR camera and apply it to a variety of situations. Students will explore Digital Asset Management and advanced output options to apply to their own workflow and creative final products
earnestly as they collectively apply them to the issues and dilemmas at hand. This effort will make them more informed ethical agents. It will intellectually prepare them for the ethical challenges that they will face as leaders and practitioners within their respective professions	PHOT 2100 Exhibition Management. This course is an introduction to the operation and practical management of public display spaces for final photographic or media-based products. Students will plan, install, and promote exhibits
PHIL 3820 Philosophy of Human Nature. Survey and examination of philosophical thought relating to the nature of the human being, freewill, value, human rights, happiness, love, purpose, development, and survival	PHOT 2500 Advanced Digital Imaging. This course will emphasize the creation of expressive visual statements utilizing advanced image manipulation, compositing, and publishing
PHOTOGRAPHY	PHOT 2510 Photographic Book Making. Students
PHOT 1010 Photographic Foundations. Through a combination of lectures, demonstrations, assignments, and critiques, students learn to see photographically through an exploration of the basic tools, techniques, and aesthetics of digital photography, with an emphasis on the creative use of	will edit new and previous work in book format. Basic adhesive and non-adhesive handmade bookmaking and print on demand technology will be used. Historical and contemporary photobooks will be studied

PHOT 3700 Photojournalism, Media, and Culture.

PHOT 3800 Internship/Cooperative Education.

PHOT 3900 Special Topics. For Junior and Senior majorscredit to be arranged

PHOT 4100 Event/Location Management. This

PHOT 4600 Professional Community Services. This course is designed to provide students an opportunity to make relevant contributions to the community using their photo and media skills. Student projects may include work with local clients, location management, and end-product development.....4 s.h. Prerequisite: PHOT 2010

PHYSICS

PHYS 2010 Physical Science. This course is an introduction to the study of matter and energy with practical applications of science to modern technology and engineering. Topics covered include a description of motion, forces such as gravity and electromagnetism including how they affect motion, thermodynamics, optics, wave motion, and atomic and nuclear physics. Engineering concepts might include energy production and use, the application of basic principles of physics to environmental concerns, the growing influence of computers and robotics, and future medical advances. The class format comprises a lecture portion, small group discussions, and a laboratory portion - including lab demonstrations, hands-on experiments, and computer simulation activities performed outside of the class4 s.h.

PHYS 2040 Survey of Astronomy: The Sun and

Recommended Prerequisite:

Students planning to pursue educator preparation licensure are encouraged to complete the PHYS 2010 prior to enrolling in PHYS 2050.

PHYS 2050 Survey of Astronomy: Stars and Galaxies. A survey course which covers the nature of

Students planning to pursue educator preparation licensure are encouraged to complete the PHYS 2010 prior to enrolling in PHYS 2050.

Prerequisite: MATH 2350

Prerequisite: PHYS 2210, 2220 Corequisite: MATH 3430

PHYS 3060 Introduction to Modern Physics. An introduction to special relativity, quantum physics, nuclear physics, and other modern topics. Includes selected applications to modern technologies 4 s.h.

Prerequisite: PHYS 2210, 2220

PHYS 3072 Heat and Thermodynamics. A study of the concepts of temperature and heat, thermodynamic systems, the first and second laws of thermodynamics, entropy, and ideal gases with applications to various thermodynamic systems. 4 s.h. Prerequisite: PHYS 2210, 2220

PHYS 3500 Computational Physics. This course covers basic computational techniques for solving physical systems, including numerical solutions of differential equations, Monte Carlo methods, and ground state systems _______4 s.h. Prerequisite: Permission of instructor

PHYS 3502 Experimental Methods. An

PHYS 3800 Internship/Cooperative Education.

Integrate faculty-led opportunity into education through participation in planned, supervised experiential-learning. Students will apply related skills by following a set of objectives, reflecting on activities, and obtaining feedback from their supervisors. For a complete description of Internships

PHYS 4990 Comprehensive Assessment.

POLITICAL SCIENCE

PSCI 2010 United States Government. This introductory course addresses such basic questions as: Who has power in the United States? How are decisions made? Can we make a difference? Pluralist

PSCI 2200 The Future of Citizenship. Since its first conception, the notion of who can be a citizen and what citizenship entails has changed. In the United States the rights and privileges of citizenship have been won by an increasing proportion of the population since the founding of the nation. Those considered outside the realm of full political equality have organized resources to obtain recognition and rights to participate in governing. By claiming the rights of citizenship, women, minorities, and young people have won the right to vote and equal protections under the Constitution. Outside of the U.S. context, groups have worked to shape their own governments through both political and extrapolitical means. The course surveys the practice of American citizenship and asks what this means in a global age. Students will reflect on their own practice of citizenship, the challenges of being engaged citizens in the federal system of the U.S., and what it means to be citizens in an increasingly diverse nation and interdependent world......4 s.h.

Prerequisite: PSCI 2010

PSCI 3500 Comparative Politics. This course engages in the comparative analysis of the various forms of government in the world, and analyses how different governments are disposed to serve different types of societies. Their political and social systems are examined to answer questions such as: How do nation states differ? How are they similar? How are nation-states developing? What is the impact of tradition? This course moves from the theoretical and general to the specific study of various countries,

including The United States, Great Britain, Russia, China, India, Iran, and others4 s.h.

PSCI 3710 Ancient Political Thought. Political thought and its development from the Greek city-state to the political philosophers of the 20th century is examined in this two-course sequence. While students should preferably take the courses in sequence, there is no absolute rule that they do so. Plato, Aristotle, and subsequent thinkers through the Middle Ages are considered in this course4 s.h. Prerequisite: PSCI 2010, PSCI 2020

PSCI 3800 Internship/Cooperative Education.

PSCI 3900 Special Topics in Political Science.

Advanced readings and research for Juniors and Seniors majoring in Political Science/History......2-4 s.h.

PSCI 4990 Comprehensive Assessment.

Undergraduate level. All candidates for a degree from King are required to demonstrate competency in their major field. Students with more than one major must demonstrate competency in each of their major fields. For a B.A. in Political Science/History students must earn a passing on a comprehensive exam set by the department.......0 s.h.

PSYCHOLOGY

PSYC 1520 Introductory Psychology. An

PSYC 2200 Marriage and the Family. An

PSYC 3050 Lifespan Human Development. A study of the growth and development of the individual from conception to death. Emphasis will be placed on the multidimensional nature of development

PSYC 3100 Statistics for the Social Sciences. A comprehensive presentation of the statistics that social scientists use to describe information in meaningful ways and to test hypotheses about human thought, behavior, and emotion. Topics covered include the role of statistics in the research process, frequency distributions, sampling, descriptive statistics, hypothesis testing, correlation, analysis of

PSYC 3150 Research Methods and Measurement in Psychology. A comprehensive presentation of the

variance, and non-parametric tests......4 s.h.

Prerequisite/Corequisite: PSYC 1520, 3100

PSYC 3700 History and Systems of Psychology. A study of dimensions in the intellectual history of psychology including an examination of the effects of politics, wars, ethnicity, finances, and inventions. Similarities and differences between the development of psychology and that of other sciences will be examined along with the meaning of psychology's history for the current study of psychology.......... 2 s.h. Prerequisite: PSYC 1520, plus two other psychology courses

PSYC 3800 Internship/Cooperative Education.

Integrate faculty-led opportunity into education through participation in planned, supervised experiential-learning. Students will apply related skills by following a set of objectives, reflecting on activities, and obtaining feedback from their supervisors. For a complete description of Internships

RELG 3800 Internship/Cooperative Education.

RELG 3850 History of the Christian Movement and Methods of Historiography. This survey of Church History is an introductory course to the study of Christian Ecclesiastical History. It seeks to survey the important persons, ideas, and movements in the spread of the Christian faith, along with its impact upon the world. The course seeks to heighten awareness of the historical dimension of life and the Christian community, and to increase understanding of the historical method and some of its problems as it applies to matters of church history. In addition, the course will explore ways in which the study of history is beneficial for the contemporary church, especially as they relate to matters of evangelism, spirituality and piety, and cultural interaction ... 4 s.h.

RELG 3900 Special Topics. Open to advanced students with the consent of the department credit to be arranged

RELG 4750 Calvin. An introduction to the life and thought of sixteenth century reformer John Calvin. Comparisons are drawn between him and his contemporaries and also between Calvin and his followers. Calvin's *Institutes of the Christian Religion* will serve as a basic text along with other writings by him and some modern Reformed theologians ... 4 s.h.

RELG 4990 Comprehensive Assessment.

Undergraduate level. All candidates for a degree from King are required to demonstrate competency in their major field. Students with more than one major must demonstrate competency in each of their major fields. Comprehensive assessment in religious students demonstrates competency in the graduating student's major field in these areas: Biblical content, theology, philosophy, and critical thinking and analysis. For a B.A. or B.S. in Religious Studies students must earn a passing grade on the Bible and Religion Department Comprehensive Exam........................... 0 s.h.

SECURITY AND INTELLIGENCE STUDIES

SAIS 2350 Introduction to Intelligence Analysis.

SAIS 3310 Covert Action: From Secrets to Policy. State-sanctioned covert actions are secret operations that may become known to an adversary, or to the world at large, but the responsible parties cannot always be traced or conclusively proven. This mid-

level course examines selected case studies of covert actions and assesses their strategic and political impact, as well as their value as a policy option for governments......4 s.h.

Prerequisite: SAIS 2310 or 2330

SAIS 3350 Advanced Intelligence Analysis. This upper-level course requires participants to use the technical knowledge they acquired in Introduction to Intelligence Analysis to perfect their analytical tradecraft. Emphasis is given to analytical forecasting and analytical reasoning, exercised through group Prerequisite: SAIS 2350

SAIS 3380 Counterterrorism: Concepts and

Methods. An introductory course that outlines the strategies, tactics, and techniques that government agencies adopt in response to unconventional security threats in the post-9/11 period. Particular attention is given to tactical partnerships between intelligence and security agencies, and multinational organizations, non-state actors, as well as the private sector, to advance counterterrorist objectives 4 s.h.

SAIS 3390 Intelligence Ethics. This multidisciplinary course explores the normative aspects that inform both clandestine operations and intelligence collection. Students are prompted to examine a variety of real-life case studies that illustrate the theoretical, empirical, or historical aspects of intelligence ethics. Known intelligence controversies serve as the basis for a series of broader discussions on the beliefs and values that inform American

SAIS 3730 American Foreign Policy. This course is designed to familiarize the student with American Foreign Policy (AFP), with an emphasis on contemporary issues. The primary goal is to equip students with the conceptual and analytical tools to understand and interrupt connections between contemporary U.S. foreign policies and international relations theory. The course examines the role of power and specific foreign policy issues in the international system. We begin with an overview international relations theory that underlies U.S. foreign policy, move on to investigate the influence of domestic politics, and ultimately students will

utilize the knowledge gained to critically analyze a major foreign policy area......4 s.h.

SAIS 3800 Internship/Cooperative Education.

Integrate faculty-led opportunity into education through participation in planned, supervised experiential-learning. Students will apply related skills by following a set of objectives, reflecting on activities, and obtaining feedback from their supervisors. For a complete description of Internships and Cooperative Education, see the Internship/ Cooperative section under the Academic Policies section credit to be arranged

SAIS 3900 Special Topics in Security and Intelligence Studies. Advanced readings and research for Juniors and Seniors majoring in Security and Intelligence Studies2-4 s.h.

SAIS 4310 Advanced Topics in Geopolitics. An upper-level course that analyzes the worldwide interplay between geographical settings, security perspectives, and political processes. The focus is on the manner in which these varied parameters influence the international behavior of state actors. and their significance for American national security. Case studies examined in the course change to reflect current events......4 s.h.

Prerequisite: SAIS 2330 or HIST 3755, or SAIS 3310 or HIST 3785

SAIS 4330 Security Challenges in the 21st Century.

This course focuses on pressing security issues facing the United States. Multiple challenges will be addressed, with attention given to the history, context, and implications of these issues. Particular attention will be devoted to the relationships and strategies required to address these challenges, as well as what success and failure might look like. The role of the intelligence community will be specifically discussed......4 s.h.

SAIS 4990 Comprehensive Assessment.

Undergraduate level. All candidates for a degree from King are required to demonstrate competency in their major field. Students with more than one major must demonstrate competency in each of their major fields. For a B.A. in Security and Intelligence Studies, degree candidates will be required to submit the conclusions of a research project in their area of

SOCIAL WORK

SOWK 3420 Human Diversity. This course provides an in-depth exploration of social work-related aspects representing a broad spectrum of human diversity (socio-demographic, cultural, worldview, political, religious, sexual orientation, gender identity and expression, life experiences, socioeconomic statuses, abilities, mental health statuses, etc.). The ethical issues of social, restorative, and economic justice as they relate to diverse populations are explored from a

strengths perspective with an emphasis on the impact of discrimination, exploitation, prejudice, and oppression on various populations-at-risk in a traumainformed effort to develop an ability to suspend judgment and eradicate intransigent thinking. Students learn the importance of developing original thought patterns, while learning the dangers of groupthink. Understanding and valuing individual differences is emphasized, while developing introspective capacities. Students will read and interpret relevant course content, write essays, create and deliver presentations, participate in group discussions and assignments, address personal biases while confronting stereotypes and increasing cultural knowledge pertaining to major population groups in

SOWK 3620 Human Behavior and the Social Environment: Life Course Perspective (HBSE-LCP).

SOWK 3800 Internship/Cooperative Education.

Integrate faculty-led opportunity into education through participation in planned, supervised experiential-learning. Students will apply related skills by following a set of objectives, reflecting on activities, and obtaining feedback from their supervisors. For a complete description of Internships and Cooperative Education, see the Internship/Cooperative section under the Academic Policies

sectioncredit to be arranged

SOWK 3830 Community and Organizations

SOWK 3840 Writing for Social Workers. This course prepares BSW students to successfully complete scholarly writing/presentation construction tasks, as well as preparation for writing documentations within the social work profession. Topics addressed include expectations and standards for scholarly writing, conducting searches of professional literature, using effective paraphrasing and summarization skills, writing logically, inclusively, and coherently, while appropriately citing references and formatting written assignments that adhere to both the BSW Program's requirements for written assignments and presentations, as well as following the standards of the current edition of the Publication Manual of the American Psychological

Association (APA). The course is intended to support students' efforts for writing/presentation construction tasks assigned in current and future social work courses, and in professional social work practice 4 s.h.

SOWK 4700 Introduction to Field Education.

SOWK 4800 Integrative Practice. This course is the signature pedagogy of the BSW Program. It is an integration of the social work field practicum and the final social work practice methods course, specifically geared toward preparing students for entry level generalist social work practice. Emphasis is placed on the acquisition of the ten Core competencies and the integration of generalist knowledge, skills, abilities, and values that are transferrable to a variety of practice settings or client populations. Students engage in a 400-hour field practicum supervised by a Bachelor or Master level Social Worker who possesses a minimum of two-years of social work practice experience. Students' practicum placements are completed in a professional social work setting in their community. Trauma-informed practice skills are applied during the practicum, as personal growth and professionalism are also being developed. This course is open to social work majors only and follows the successful completion of all the courses in the social work major 12 s.h.

SOWK 5001 History and Philosophy of Social

Work. This course focuses on the history and development of social welfare philosophy, issues and systems in the United States from the colonial times onward. A major focus is the evolution and contribution of professional social work in the historical response to human need. The course explores four major themes: (1) the development of social work as a profession; (2) the emergence of social welfare institutions in the United States; (3) the experience of oppressed populations in the United States; and (4) the changing role of government in the provision of social welfare. Values underlying social welfare are examined and the effects of social welfare policies on diverse populations explored. An examination of the fields of social work practice is completed with special attention given to the topics of diversity, social and economic justice and populations at risk. Application is made to underserved, under-resourced individuals and families of rural Appalachia......3 s.h.

SOWK 5002 Human Behavior in the Social

Environment I. This course stresses critical thinking regarding theoretical perspectives of human behavior. The course presents a bio-psycho-social-spiritual perspective and provides a multidimensional perspective on Social Work's person-in-environment (PIE) focus as viewed through a trauma-informed lens. This is followed by an exploration of the various social systems that impact human behavior. This exploration includes an analysis of a variety of theories and application to the social systems social workers address in practice. The course introduces theories about and perspectives on human development across the life span. Issues of values, ethics, diversity, social and economic justice, and populations at risk are infused throughout this

SOWK 5003 Human Behavior in the Social

Environment II. This course focuses on the interactive relationship between individuals on the one hand and mezzo- and macro-systems (groups, organizations, and communities) on the other, examining ways by which social systems promote or prevent people from maintaining or achieving desired

SOWK 5005 Practice II. This course focuses on theory and interventions with individuals as members of families and groups. The intention of this course is to develop students' knowledge of various approaches to Social Work group practice and the ways in which specialized knowledge of clients' life conditions, life circumstances, and significant life events inform Social Work practice with groups within a generalist framework. Emphasis is placed upon conceptualizing and analyzing Social Work skills with groups, and the capacity for self-directed practice with groups. Practice with groups is viewed within a generalist framework and encompasses the continuum of Social Work with groups. This course is based on the belief that there are several important forces directing practice: (1) the diverse needs of the oppressed and vulnerable populations served in Social Work practice; (2) parameters of service as defined by agency and social policy; (3) the Social Worker's theoretical orientation to Social Work

practice with groups; (4) the Social Worker's evaluation of their practice with a goal of increasing Prerequisite: SOWK 5004

SOWK 5006 Practice III. This course focuses on transferring micro and mezzo level generalist skills to the macro level of practice. It provides skills development in the construction of strategic models and application of techniques that support the process of planned change at macro-level practice within neighborhoods, communities, and organizations. This course focuses on the capacities and resources of large groups, organizations, and communities in relation to their broader environments. Content on values, ethics, diversity, social and economic justice and populations at risk is Prerequisite: SOWK 5004

SOWK 5007 Research. This course is designed to provide students with the foundational knowledge, skills and ethical appreciation necessary to employ research methods and techniques commonly used by social workers to examine practice issues as well as extend the knowledge base of the profession. An emphasis is placed on the importance of informed consent, social and economic justice, professional values and ethics, and ethical reasoning when

SOWK 5008 Foundational Field Education I. This experiential course provides students with the opportunity to apply and integrate knowledge, theory and skills content from all courses in the program previously or currently being taken toward the end of enhancing client social functioning, this including evaluation of practice with individuals, families, and small groups in community agencies. This course provides the student with the opportunity to engage in social work generalist practice under appropriate professional supervision. Students are expected to conceptually integrate experiences from field education with content of Social Work courses taken previously and concurrently. In order to promote this real time integration of knowledge and skills, students are required to take SOWK 5008 concurrently with SOWK 5005 Practice II.......... 3 s.h. Prerequisite: Field Director's Approval

Corequisite: SOWK 5005

SOWK 5009 Psychopathology & Assessment. This course examines the nature and defining characteristics of the major forms of mental disorder that degrade individuals' ability to achieve optimal levels of social functioning. It addresses the major diagnostic systems in use within the mental health and social work communities and prepares students in the use of these systems. The course addresses issues of ethics, diversity, oppression and populations Prerequisite: SOWK 5002

SOWK 5010 Organizational Context of Social Work Practice. This course provides conceptual frameworks for understanding the role and role strains of professional social workers in organizational settings and expands students' capacities to maximize their practice effectiveness in and through organizations, provide organizational leadership, contribute to constructive organizational change and professionally survive the rigors of organizational processes and politics. The course examines organizational goals, structures, environments, and processes that impact service strategies, case decisions, and the achievement of professional objectives... 3 s.h. Prerequisite: SOWK 5003 or Advanced Standing

SOWK 5011 Foundational Field Education II. This course builds on SOWK 5008-Foundational Field Education I. The focus of this internship is on the agency and inter-agency contexts of practice and the application of knowledge and practice skills to improve client functioning through their interaction with broader systems. This course also focuses on the opportunities social work practitioners have to improve the responsiveness and effectiveness of helping systems themselves. This course includes specific attention to issues relating to professional values and ethics as well diversity awareness and intercultural humility. Students are expected to conceptually integrate experiences from field education with content of Social Work courses taken Prerequisite: SOWK 5008

SOWK 5012 Clinical Advocacy in Underserved **Areas.** This course examines the social and human service environments of geographical areas in the United States that are recognized as underserved and under-resourced with respect to social welfare service

delivery. Beyond the exploration of salient social, political and economic dynamics, it also emphasizes knowledge and skill development for professional social work practice in such areas. The course provides a close examination of various models of case management approaches appropriate for the practice of social work as well as models for clientcentered advocacy with attention paid to the various roles case management demands (e.g., broker, advocate, educator, counselor, care giver, etc.). This course focuses on working with clients and care givers in building and strengthening social networks with special attention to congregations and religiously affiliated organizations as potential agents of Prerequisite: SOWK 5005 and 5006 or Advanced Standing

SOWK 5013 Clinical Advocacy with Individuals.

This course builds on the values, knowledge and skills of the generalist practice model while emphasizing the application of additional knowledge and skills toward the end of affecting the ways clients process thoughts, feelings and ultimately behavior. The focus is on micro-level assessment and intervention skills for clinical (mental health) practice. Students are expected to develop the knowledge and skills necessary to understand the key concepts and terms of different intervention models and theories including relational theory, cognitive theory, behavioral and narrative therapy, and traumainformed care. Students will develop a sophisticated bio-psycho-social-spiritual framework for assessment and intervention within the context of ethical practice principles. Students will conduct cognitive and behavioral assessments to identify treatment goals, plan and implement interventions, and evaluate the effectiveness of outcomes toward the goal of using grounded evidence to guide practice Prerequisite: SOWK 5005 and 5009 or Advanced Standing

SOWK 5014 Trauma & Addiction. This course prepares social workers with knowledge and skills for advanced practice, exploring the relationship between trauma and substance-use related problems. The course covers principles, instruments, and practice skills in evidence-informed assessment and diagnosis, treatment planning and implementation,

intervention, relapse prevention, and legal/ethical issues related to intervening around trauma and substance use problems. Students are expected to learn the etiology and effects of psychological and emotional traumatization, as well as the pharmacological mechanisms of dependence, components of addiction-related behavioral change, and issues involved in prevention, intervention, and evaluation of substance use and addiction. The course also examines the impact of age, race, gender, social class, culture, ethnicity, spirituality, religions, sexual orientation, national origin, and physical and mental ability on trauma and patterns of addiction. The course also addresses the values and professional ethics relating to those experiencing trauma and addictions issues as well as to professional Prerequisite: SOWK 5005 and 5009 or Advanced Standing

SOWK 5015 Advanced Practice Field I. This course provides for supervised social work practice emphasizing the application of recognized clinical interventions as a secondary if not primary intervention modality. The course provides students with opportunities to integrate knowledge and understanding of theories of human behavior, psychopathology, strength, and diversity in clinical practice with individuals with an emphasis on ethical decision making. Client-centered advocacy as expressed by brokering, referral, direct provision of helping services and activities directed toward the development of new helping resources is expected. In order to promote the real time integration of knowledge and skills, students are required to take SOWK 5015 concurrently with SOWK 5013 Practice Prerequisite: Field Director's Approval

SOWK 5016 Clinical Advocacy with Groups and

Families. This course emphasizes and provides knowledge and skill development for advanced interpersonal interventions and clinical advocacy with families and groups. Knowledge of family dynamics, advocacy for families and clinical interventions are reviewed. This course creates opportunities for skill development in the following areas: (1) developing therapeutic alliances; (2) conducting theory-informed assessments; (3) developing mutually agreed upon intervention plans; (4) conducting evidence based

SOWK 5017 Evaluation & Resource Development.

This course focuses on the range of knowledge and micro, mezzo, and macro skills needed to develop sound program proposals and to plan and evaluate social programs. Students practice skills needed to collaborate with stakeholders such as community members and organizations, boards of directors, collaborating agencies, and funders. This course examines methods for evaluating the need for or effectiveness of human service programming and for acquiring financial and material resources for developing or expanding such programs (e.g., grant writing, fund raising, campaigns and lobbying)...3 s.h. Prerequisite: SOWK 5006 and 5007 or Advanced Standing

SOWK 5018 Advanced Practice Field II. This course provides for supervised social work practice emphasizing the application of recognized clinical interventions as a secondary if not primary intervention modality. The focus in this course is on intervention with individuals in the context of family dynamics as well as intervention at the family level itself, the organizational context of practice, and the development of programming to improve the levels of social functioning of agency clients or others experiencing significantly impaired social functioning. Students are expected to interpret linkages between the content and experience of this course with all other courses taken as part of the King University MSW curriculum3 s.h. Prerequisite: SOWK 5015

SOWK 5019 Supplementary Advanced Field Education. This course provides supplemental supervised practice experience for students seeking licensure in states requiring more field instruction

SPANISH

SPAN 1010 Spanish Language and Culture.

Students will learn Spanish for use in a variety of situations in everyday life and work to acquire the skills necessary for elementary-level communication in the target language. Additionally, this course will examine the diverse culture of the Spanish-speaking

world. This course does not fulfill the Traditional General Education language requirement nor does	Prerequisite: SPAN 2000 or permission of instructor

Includes study of historical and legislative background, mental and physical disabilities, and instructional strategies. Emphasis on educational, social, cultural, and psychological needs of exceptional children. Students are expected to observe in public school classrooms a
SPAN 4230 Spanish Literature: 20th Century. A survey of major authors and movements of the 20 th century	a part of this course
SPAN 4240 Latin American Literature I. A survey of Latin American literature from the earliest chronicles to the beginning of the Romantic period	Exceptionalities. The nature and characteristics of persons with mild exceptionalities will be emphasized along with appropriate educational strategies. Exceptionalities such as reading and written expression disabilities, math disabilities, auditory processing, dyslexia, Attention Deficit Hyperactivity Disorder and Asperger's Syndrome will be emphasized. Identification of appropriate interventions will be integral to learning about the characteristics and psychology of these and other mild exceptionalities

SPED 3200 Assessment and Development of the IEP. Assessment, curriculum planning, and instructional approaches used to understand and support exceptional persons through the implementation and design of Individual Education Plans (IEP) are emphasized in this course. Inclusion in the least restrictive environment is a point of major emphasis. Learners will use and experience diagnostic tests that guide descriptions of learners, placement, and recommendations for service in the least restrictive special education range of services. Clear statements of appropriate learning goals and objectives as well as meeting legal requirements will be included in development of an IEP........................ 3 s.h. Prerequisite: SPED 2100 or EDUC 5000

SPED 3300 Effective Instruction for Persons with High Incidence Exceptionalities. Implementing best practices for persons with exceptionalities, including intervention and accommodation, are the focus of this course. Appropriate psychological and educational considerations for intervention in high incidence exceptionalities will be identified with emphasis on monitoring and adjusting for appropriateness and effectiveness. Students will learn strategies and technological supports for modifying instruction and collaborating with regular classroom teachers to facilitate the success of these persons within the general education classroom. Response to intervention strategies will be incorporated........ 3 s.h. Prerequisite: SPED 2100 or EDUC 5000

SPED 4100 Psychology and Characteristics of Learners with Moderate and Severe

Prerequisite: SPED 2100 or EDUC 5000

SPED 4200 Social and Emotional Exceptionalities. Characteristics of social-emotional deficits and analysis of causal effects of behavioral disorders is

incorporated into application of strategies and interventions designed for general and special education classrooms. This course emphasizes design and application of strategies based upon development and analysis of behavior support plans, functional behavior assessments and behavior intervention plans. The learner will study the design and implementation of appropriate learning modifications based on this information and the subsequent evaluation and modification of the interventions. Learners will examine practices such as direct instruction, positive behavioral supports, and assistive technology as they contribute to the least restrictive environment. Impact on family and community will be incorporated and communicating appropriately with parents and students will be emphasized.......3 s.h.

Prerequisite: SPED 2100 or EDUC 5000

SPED 4300 Transition of Exceptional Persons to Independent Learning and Life. This course provides the learner with a framework for professional special educators to intervene and consult with general education personnel and other professionals in addressing the needs of persons with exceptionalities. Students will examine the roles of other specialized professionals such as speech and language therapists, physical and occupational therapists, behavior specialists and psychologists and diagnosticians as well as the effective use and supervision of instructional assistants. Transitions from preschool to kindergarten, elementary to middle schools, middle to high school and high school to independent living will be studied. Community based programs and family supports will be incorporated......3 s.h. Prerequisite: SPED 2100 or EDUC 5000

professional level Teacher Education

courses, overall GPA of 3.0, and successful completion of all licensure assessments required by the Tennessee Board of Education

Corequisite: EDUC 4950

SPED 4700 Practicum in K-8 Special Education.

SPORT MANAGEMENT

SPMT 2100 Introduction to Sport Management.

SPMT 2120 Sport Marketing and Fundraising. This course will explore basic marketing and fundraising concepts in the sports industry, including building relationships, product analysis, advertising, sales, and sports promotions _______4 s.h.

SPMT 2130 Sport Facilities and Event

SPMT 2200 Leadership in Sport. An introduction to situational leadership within sport. Students will be introduced to a variety of leadership styles and theories. Specific attention will be given to leadership

within diverse sport environments and populations. Topics covered will include team leadership and group dynamics, addressing the gender gap in sports, issues in race and leadership, leading athletes with disabilities, applying ethics to sport leadership, and innovative leadership through change 2 s.h.

SPMT 3300 Diversity, Equity and Inclusion in

Sport. This course provides an overview of what diversity and inclusion mean within sport organizations, skills associated with how to reflect on and have conversations about differences and how understandings about differences affect policy development and decision-making and developing an understanding of how power and privilege play out in sport organizations and work to include some and exclude others. It further provides a comprehensive overview of key areas of diversity, including social class and economic status, gender, race, ethnicity, people with disabilities, political influence and affiliation, religion, and ageism. And finally, the course connects difficult conversations to leadership and how to lead in diverse, equitable, and inclusive environments; strategic planning processes and assessing organizational climate; and using sport as a

SPMT 3800 Internship/Cooperative Education.

Integrate faculty-led opportunity into education through participation in planned, supervised experiential-learning. Students will apply related skills by following a set of objectives, reflecting on activities, and obtaining feedback from their supervisors. For a complete description of Internships and Cooperative Education, see the Internship/
Cooperative section under the Academic Policies sectioncredit to be arranged

SPMT 4990 Comprehensive Assessment. Students will draw upon and connect the concepts and analytical tools they have developed in all previous Sport Industry courses. Students will be required to

THEATRE

THTR 1010, 1011 Theatre Practicum: Acting I and

THTR 1020, 1021 Theatre Practicum: Technical.

THTR 1110 Acting I: Fundamentals of Acting and Play Analysis. An introduction to the fundamentals of acting and play analysis. Students will be introduced to the methods of Konstantin Stanislavski and will engage elements of the acting process such as character analysis and development, relaxation, concentration, observation, action, given circumstances, superobjective, diction, and movement through participation in exercises, scene analysis, scene performance, journaling, and

THTR 2000 Introduction to Theatre. This class is an exploration and hands-on study of the basic components of theatre, including acting, directing, playwriting, producing, theatre history, theatre design and technology. It is intended to introduce the student to all aspects of theatre by way of active participation including group projects and creative thinking. Theatre is an interactive art form, which requires active participation from the student. Class participation includes attending the University's productions and discussing them: students will be encouraged to build their own opinions and share them with the rest of the class. This course will foster the students' personal creativity while promoting an understanding of the theatrical process and the

THTR 2012 Theatre History I. This course provides a survey of the development of theatre from its ritualistic beginnings through the Renaissance. Specific attention is given to theatrical elements of audience, actor, stage scenery, theatre architecture, literature, and the relation of each to the social and intellectual environment of each style period..... 4 s.h.

THTR 2220 Introduction to Stagecraft. Provides instruction in the technical basics of theatrical production. The fundamentals of drafting, constructing 2- and 3-dimensional scenery, scene

painting, and backstage organization will be explored. The course includes laboratory practicum where students will apply techniques to stagecraft projects, backstage work, and department productions.....4 s.h.

THTR 2230 Introduction to Lighting and Sound.

THTR 2510 Oral Interpretation of Literature. Oral performance of literature including selection,

analysis, rehearsal, and performance of poetry, prose, or drama. Emphasis on increasing the enjoyment and appreciation of literature, developing analytical and

THTR 3000 Dramatic Literature and Criticism.

Provides a study of world drama from the classics to contemporary, play structure, themes, and theatre criticism. Emphasis is placed on theatre's ability to reflect and interpret a culture's social values. Students will engage in play analysis, reflection, discussion, and

THTR 3012 Theatre History II. Provides a survey of the development of theatre from the Renaissance through the Modern Period. Specific attention is given to theatrical elements of audience, actor, stage scenery, theatre architecture, literature, and the relation of each to the social and intellectual

THTR 3110 Acting III: Realism and the Acting

Process. This course builds upon the foundations of Acting I and II. Scripted scene work and exercises, gaining increased familiarity with techniques and exercises of Stanislavski and his artistic "heirs" with an emphasis on expanding, through physical, vocal, and psychological transformation, the student's repertory of roles rooted in realism......4 s.h. Prerequisite: THTR 2110

THTR 3220 Advanced Scenic Design. An advanced examination of the techniques and skills of scenic design from initial concept to finished scenic environment. Students will study theoretical concepts, the collaborative process, and traditional and digital methods of model making, scenic rendering, and mechanical drafting. In addition, various scales of production projects will be addressed by the student for presentation and

Prerequisite: THTR 2220

THTR 3230 Advanced Lighting Design. An advanced study of the technology and aesthetics of designing light for the stage. Students will engage in design research, study theoretical concepts, the collaborative process, and professional procedures and systems. Advanced methods of documentation

and organization will also be explored. In addition,

various scales of production projects will be	
addressed by the student for presentation and	
critique4 s	.h.
Prerequisite: THTR 2230	

THTR 3240 Scenographic Theory. Scenographic Theory explores the practice and theory of 20th and 21st century scenography. Students will study the history and development of scenography, key scenographic theories and approaches, methods and techniques of scenographic practice, and explore the significance and application of scenographic theory

THTR 3400 Directing I. The course explores the director's role in a theatrical production. Students will be introduced to the fundamentals of the directing process including play analysis, conceptualization, stage blocking, composition, picturization, communication, and design and will apply these skills through scene performances....4 s.h. Prerequisite: THTR 1110, THTR 2220, THTR 2230

THTR 3800 Internship/Cooperative Education.

Integrate faculty-led opportunity into education through participation in planned, supervised experiential-learning. Students will apply related skills by following a set of objectives, reflecting on activities, and obtaining feedback from their supervisors. For a complete description of Internships and Cooperative Education, see the Internship/ Cooperative section under the Academic Policies section credit to be arranged

THTR 3900 Special Topics. Offers an opportunity for intensive study of a specific topic in theatre. Topic must be approved by the instructor and the department chair2-4 s.h. Prerequisite: Consent of instructor

THTR 4110 Acting Styles and Project. Studies in various acting styles, with an emphasis on classical material, in an atmosphere of a developing ensemble. Monologue and scene study, analysis, and practice in physical and psychological transformation will place in the context of both classical and non-traditional works. In addition, the class will explore physical and vocal exercises specifically designed to enhance the building of an ensemble4 s.h. Prerequisite: THTR 1110

THTR 4990 Comprehensive Assessment.

WRITING

WRIT 1001 College-Level Writing: Documentation and Formatting. This course introduces online and AGS students to the conventions of college-level writing across the disciplines with a specific focus on documentation and formatting. It provides students with the tools needed to properly format and ethically document written work in their courses. Topics

WRIT 1010 English Composition: Basic

WRIT 1110 Composition: Writing and Speech.

This course introduces and reinforces the conventions of ethical and excellent citizenship in the academic community. It demonstrates how to use the critical tools of academic exploration: careful reading, thoughtful listening, analytical writing, proper research techniques, and effective speaking...... 4 s. h.

NOTE: Every student must earn a grade of C- or higher to pass WRIT 1110 or WRIT 1180. A grade below a C- is equivalent to a grade of F. Should a student transfer in English composition from another institution, the student must have a C- or higher in that course.

NOTE: Every student must earn a grade of C- or higher to pass WRIT 1110 or WRIT 1180. A grade below a C- is equivalent to a grade of F. Should a student transfer in English composition from another institution, the student must have a C- or higher in that course.

WRIT 2010 Composition: Research and Writing.

This course reinforces the conventions of ethical and excellent citizenship in the academic community: appropriate research methodologies, presentation formats both written and oral, and documentation. Students will study and practice writing and research within their major disciplines (or intended major disciplines in the AA Program). The course is a bridge to major area and career preparation. Students will join their disciplinary discourse communities through reading, research, conversation, and writing2 s.h. Prerequisite: WRIT 1110 or 1180.

Recommendation: Declaration of Major prior to taking this course

WRIT 2420 Professional Writing for Information Technology. Students practice genres of discourse and have an introduction to written and oral communication in technical and professional IT environments. Instruction and projects emphasize

YOUTH MINISTRY

YTMN 2220 Youth Ministry in Varied Contexts.

YTMN 2450 Recreation and Adventure-Based

YTMN 3610 Program Administration for Effective Youth Ministry. Pulls together the academic and the practical preparation. Many youth workers struggle with certain aspects of youth ministry such as budgeting, building staff relationships, planning, reporting to a board or session, working with parents

YTMN 3800 Internship/Cooperative Education.

YTMN 4990 Comprehensive Assessment.

Academic Structure

Academics at King University are organized into the following college and schools: College of Arts and Sciences; School of Business, Economics, and Technology; School of Education; School of Nursing; School of Health and Professional Sciences; and Peeke School of Christian Mission. Within each college or school, students may choose from one of several fields of study to pursue. Details on the fields of study in each of these areas are found in this catalog.

COLLEGE OF ARTS AND SCIENCES
